RESOLUTION ON THE ADMINISTRATION REPORTS OF THE FEUDATORY STATES OF ORISSA AND CHOTA NAGPUR FOR THE YEAR 1905 1906.

No. 1012P.

GOVERNMENT OF BENGAL.

POLITICAL DEPARTMENT.

Dated Calcutta, the 5th February 1907.

RESOLUTION.

READ—

The Annual Report on the Administration of the seventeen Tributary Mahals of Orissa, for the year 1905-06.

Read also—

The Annual Report for the year 1905-06 on the Administration of the seven States transferred to Orissa from the Chota Nagpur Division and the Central Provinces, with the Political Agent's remarks thereon.

Read also—

The Annual Report on the Administration of the Political States in the Chota Nagpur Division for the year 1905-06.

On the 16th October 1905 the five States of Sirguja, Jashpur, Udaipur Korea and Changbhakar were transferred to the Central Provinces, whilst the five States of Patna, Sonpur, Kalahandi, Bamra and Rehrakhol were transferred to Bengal and placed under the control of the Commissioner and

Superintendent of the Tributary Mahals of Orissa. The two States of Bonai and Gangpur were also transferred to the Orissa Division from the Chota Nagpur Division, leaving only the Political States of Seraikela and Kharsawan in the latter Division. There are now 24 States forming a compact block with an area of 28,046 square miles, and a population of 3,173,395 persons attached to the Orissa Division. A Political Agent was temporarily deputed to assist the Commissioner of Orissa to deal with seven of these States, namely, those transferred from the Central Provinces and the Chota Nagpur Division to Orissa, pending the permanent appointment of a Political Agent to deal with all the States, subject to the Commissioner's general power of control. This permanent appointment, to be held by a member of the Indian Civil Service on the Bengal cadre, has been sanctioned by the Secretary of State. The Political Agent has accordingly been placed in charge of the 24 States in Orissa, and a great step has been taken towards bringing the Chiefs into that personal contact with Government, which is so necessary to the good administration and well-being of these States.

2. Owing to the fact that only seven of the States were under the Political Agent at the end of the year under review, separate reports have been received from him through the Commissioner of Orissa dealing with Gangpur, Bonai and the five States transferred from the Central Provinces. Another report has been received from the Commissioner, as Superintendent of the Tributary Mahals, on the administration of the remaining 17 States; and a separate report has been received from the Commissioner of Chota Nagpur for the States of Seraikela and Kharsawan. As the Political Agent is now in charge of the 24 States in Orissa, he will be able next year to submit a consolidated report on the administration of these States, and orders are issuing separately regarding its preparation.

3. Following on the changes mentioned above, revised *sanads*, embodying purely verbal alterations, were granted to the seven Chiefs whose States were transferred to Orissa; five *sanads* have been presented, but the minor Chiefs of Kalahandi and Bonai will not receive their sanads until they are placed in charge of their respective States which are at present under Government management. The other States that were under Government management at the end of the year were Baramba, Nayagarh, Narsingpur, Nilgiri, Pal Lahera and Kharsawan; the State of Nilgiri was taken under Government management during the year under review, while that of Dhenkanal was released after a long period of management of nearly 30 years.

4. One of the most interesting features of the Superintendent's report is the description of a tour in the Garjat States, in which the potential wealth of their forests is indicated. From other reports that have been received by Government, it appears that the conservation of these forests is a matter of the first importance both from the point of view of the prosperity of the States and that of the injurious climatic effect of forest denudation, which threatens to affect a large area, extending even beyond the States. It has therefore been proposed to appoint a Forest Officer to advise the Chiefs on the working of their forests and to control the forests of the States under direct management. Hitherto, owing to the small number of officers available, the appointment of such an adviser has not been possible; but the Lieutenant-Governor hopes that it will be possible soon, with the permission of the Government of India, to appoint such an officer.

5. The reports show that the condition of the people in the States is generally on the whole satisfactory, though in the large majority of the States the rainfall was deficient, and the crops were in consequence poor while prices ruled higher than usual. On the other hand, in the south of Gangpur, where the rainfall was above the average, men who had been working in lime-stone quarries and on timber work gave up their employment on the ground that they had reaped so good a harvest that they could well afford to sit idle. The public health was good, except in the States of Dhenkanal, Nayagarh and Mohurbhanj, where there were epidemics of fever and cholera. Despite the general healthiness of the period, however, the attendance at the State dispensaries on the whole increased. These institutions are reported to be doing good and useful work, especially in the more remote and inaccessible regions.

6. Many of the Chiefs take considerable interest in the agricultural, industrial and educational development of their States. The Chief of Moharbhanj has enlarged his experimental farm, opened an agricultural class in the High School, and extended his operations in sericulture. The Chief of Bamra has given every encouragement to the opening of village schools. As regards education, the figures show an increase both in the number of schools and scholars. The reorganisation of the Police in Kalahandi was sanctioned during the year, while in Bonai and Seraikela sanction to reorganisation was accorded after the close of the year; in Moharbhanj it has been effected; but in Kharsawan it is held in abeyance pending the close of the settlement proceedings in that State. In some of the States there is still considerable room for improvement in Police administration; but this is a matter which is receiving attention.

7. The Lieutenant-Governor has reason to be satisfied with the administration of the past year and to look forward to the improved prosperity and administration of the Native States in the future. His Honour desires to record his thanks to the Hon'ble Mr. Slacke, Mr. Gait, Mr. Duke and Mr. Cobden-Ramsay for the efficient and zealous way in which they have discharged their duties.

ORDER.—Ordered that a copy of the Resolution be forwarded to the Commissioner and Superintendent of the Tributary Mahals, Orissa, and the Commissioner of the Chota Nagpur Division, for information and guidance.

Ordered also that a copy of the Resolution, together with three copies of each of the Reports, be submitted to the Government of India in the Foreign Department for information.

By order of the Lieutenant-Governor of Bengal,

R. W. CARLYLE,

Chief Secretary to the Govt. of Bengal.

RESOLUTION REVIEWING THE REPORT ON THE ADMINISTRATION OF THE CALCUTTA MUNICIPALITY FOR THE YEAR 1905-06.

MUNICIPAL DEPARTMENT—MUNICIPAL.

Calcutta, the 22nd February 1907.

RESOLUTION No. 385M.

READ—

The report of the Chairman of the Calcutta Corporation on the administration of the Municipality for the year 1905-06, together with the reviews of the report recorded by the Corporation and the General Committee.

Read again—

The reports for the years 1902-03, 1903-04, and 1904-05, together with the Resolutions recorded by the Lieutenant-Governor thereon.

The present report was received by Government on the 21st August 1906, but the review by the Corporation was not submitted until the 16th January 1907.

2. The year 1905-06 marks the close of the second period of three years during which the administration has been carried on under the provisions of the Calcutta Municipal Act of 1899, and it is of special interest therefore to take stock briefly of the progress made during that interval. Not that the term is a long one in the life of the Corporation, or that finality is ever likely to be arrived at in municipal administration. Moreover the action of the Corporation has been affected by the prospect of the initiation of the city improvement scheme regarding which a final decision has not yet been arrived at. Pending its introduction the necessity of caution in incurring fresh expenditure has been already enjoined; and certain projects from which a remedy for the evils of overcrowding might be hoped for have been suspended.

3. Regarding the working of the municipal machinery as a whole, the experience of the recent triennium has been noticeably valuable in tending to the elucidation of the respective functions of the Corporation, the General Committee and the Chairman; and with a clearer knowledge of the powers of each, the respective limits of control have been better observed and friction has been avoided. The Corporation has also done wisely in availing itself of the assistance of Standing Special Committees in place of the earlier Committees specially appointed for the consideration of particular subjects. Time has thereby been saved, the convenience of members has been consulted, and projects have been more fully and adequately examined. The object in view, as noticed by the Chairman, should be the effective disposal of all details by Committees before which alone they can be satisfactorily threshed out, leaving to the Corporation the determination of general principles only. The more permanent constitution of these Committees, by making more readily accessible their accumulated experience of the particular subjects delegated to their supervision, should add to the authority attaching to their recommendations, and the Lieutenant-Governor shares the anticipation expressed by Mr. Allen as to the value of their co-operation. The scheme of administrative devolution by the formation of four districts equipped with separate staffs of their own has also proved of great assistance to the central body; and the Lieutenant-Governor is glad to see the acknowledgment by the Corporation of the utility of the work of the Standing District Committees which have taken the place of the earlier idea of District Councils. The suggestion made in the Resolution dealing with the report for 1904-05, that the annual statements should show the revenue collected and the expenditure under different heads for each district separately, has not been complied with during the year under review; but the Lieutenant-Governor notes that it has been accepted by the Corporation; and effect will doubtless be given to it in future.

4. During the first three years of its revised constitution the attention of the Corporation had been largely devoted to the task of general departmental reorganisation, and in the Government review of the working of the year

1902-03 mention was made of various important reforms comprising the amalgamation of the Engineering and Conservancy Departments; the formation of a separate Building Department; the revision of the Accounts Department; the re-modelling of the Collection Department, and of minor measures calculated to render more efficient the working of the License, Hackney Carriage, Secretary's and Assessor's offices. The history of the administration during the succeeding triennium has been generally one of progress. Some expectations were disappointed, noticeably in respect of the Accounts Department, and further requirements became manifest in departments which had been considered to have been revised, but these have been gradually remedied and new lines have been followed when necessary. The working of the combined Engineering and Conservancy Departments has been the subject of much discussion; and while the District Engineer, under the scheme of decentralisation by districts, is still in charge of conservancy also, the separation of the subordinate establishments was tried experimentally in two districts in 1904, and has recently been effected throughout the city, with the exception of District IV, in which a similar re-organisation is pending the completion of the new gowkhana. It was also found necessary to re-organise the Building Department during the past year, ward overseers taking the place of the sarkars previously entertained, and the district building surveyors being given larger powers of sanction in order that the disposal of work might be expedited. Complaints of delay have thus been reduced. The hopes entertained in 1902-03 of a final settlement of the difficulties of the Accounts Department were unfortunately premature. The re-organisation continued to occupy the attention of the Corporation during the subsequent years, but it is satisfactory that the Chairman now reports it to be complete, and that all sections are so far working smoothly and satisfactorily. At the same time the auditors' report (1905-06) notices "a steady and marked improvement both in organisation and book-keeping," and an Accounts Code has been issued which it is anticipated will help materially to regularise the procedure. Monthly progress statements of revenue and expenditure as compared with the budget provision are now regularly submitted to the General Committee, who should thus be fully informed of the financial position; and the system of forecasting receipts and expenditure month by month at the beginning of the year and revising such forecasts from time to time, as recommended by the Government of India, has also been adopted, thus preventing any unforeseen depletion of the funds. The reforms effected in the Collection Department had already yielded excellent results prior to the recent triennium, and these have continued since, although the percentage of realisations during 1905-06, *i.e.*, 99·11, is slightly below that of the preceding two years.

5. A further re-organisation of the License Department was completed during 1903-04, and its beneficial results are shown by the fact that the collection during 1905-06 were in excess by Rs. 1,43,5 .8 of those of the year preceding the reform, while recourse was had sparingly to coercive measures; but the working of the year immediately under review was marred by irregularities on the part of an employé, and the measures found necessary to adjust the arrear demand would point to the earlier existence of some confusion. Changes in the system of audit and collection were introduced, which should lead to further improvement. The organisation of the Hackney Carriage Department does not appear to have undergone further change; but while the condition of licensed conveyances still leaves much to be desired, some progress in recent years is admitted. It has been found necessary to strengthen the Secretary's office in order to cope with increasing work, and the full result of this measure is still to be seen. The working of the Assessment Department has been uniformly commended during the last three years, and the gross assessed valuation of the town, which amounted to Rs. 2,40,40,704 in 1902-03, has risen to Rs. 2,83,12,920 on the 31st March 1906; but the latter figure, unlike the former, includes the valuation (Rs. 5,72,765) upon the lands and buildings belonging to the Corporation. The disposal of objections has been expedited and appeals to the Civil Court have been few; and the Lieutenant-Governor is glad to note the assurance given in response to a suggestion in the Resolution of the previous year, that fuller information will be given to assessees of the grounds of enhancement, and that proposed

enhancements will be notified both to occupiers and owners. With reference to the recommendations of the Corporation in favour of a change in the system of assessment, it was mentioned last year that His Honour was not prepared at present to consider the amendment of the Act. An entirely new departure effected during 1905-06 was the creation of a special Law Department. The legal work of the Corporation was previously entrusted to a firm of solicitors, but the new system promises economy and permits more easily of legal advice being available.

6. Looking at the results of the three years, the Lieutenant-Governor does not doubt that in matters appertaining to the improvement of the administrative machinery progress has been made. Greater efficiency of service usually requires a more highly paid establishment, and the growth of the city adds to the work to be done and to the staff necessary for its performance. Nevertheless the warning of the Corporation as to the growth of the expenditure upon establishment is not out of place; and indeed the interests of economy, more especially at the present juncture, have already been urged by Government. During the three years ending with that under review a total sum of ninety lakhs of rupees has been raised in loans in comparison with 38½ lakhs during the preceding triennium; and the loan liability which amounted to Rs. 3,26,92,090 on the 1st April 1903, stood at Rs. 3,86,47,890 at the close of 1905-06. Of this aggregate Rs. 12,95,390 represents the balance of the Government consolidated loan, the immediate repayment of which, as advocated by the Corporation, the Lieutenant-Governor found himself unable to recommend. The net indebtedness of the Corporation, viz., the amount owed less the sums to credit in sinking funds and reserve, has increased by about 60 lakhs during the recent triennium, as against a similar addition of some 15 lakhs during the preceding three years; and it is evident therefore that the period 1903-04—1905-06 has been one of heavy borrowing, mainly on account of the expenditure involved in the water-supply and the suburban drainage schemes. To these projects the Corporation is already committed, and the decision to make provision under these heads before all other needs, and to curtail as far as possible expenditure from loan funds generally, unless upon reproductive works, is of commendable prudence. At the same time the general financial position of the town need give no cause for apprehension. The legal limit up to which the Corporation can still borrow, calculated under section 131 of the Act and with the usual assumptions as to the interest at which a debenture loan can be floated at par, has increased during the last three years by over 23 lakhs in comparison with an addition of about 21 lakhs in the earlier triennium, and it now stands at Rs. 1,52,63,800. The actual present borrowing power, as limited by the surplus available after deducting the estimated expenditure from the estimated receipts *plus* the opening balance, is no doubt considerably less, and is stated by the Chairman to amount to rather over 34 lakhs only, but the calculation takes no account of the possibility of an enhancement of the general rate which is still feasible.

		Rs.
1903-04	...	45,00,000
1904-05	...	30,00,000
1905-06	...	15,00,000

7. Closely connected with the financial position of the Corporation are the matters of account touching the proper distribution of charges between revenue and capital, the preparation of a balance sheet, and the maintenance of a proper stock book. When reviewing the operations of the year 1904-05, Sir Andrew Fraser had occasion to comment unfavourably upon the tendency to relieve the revenue head at the expense of capital. While it is satisfactory that during the succeeding year the suggestion has been adopted that the sale proceeds of surplus lands should be credited to capital, no change was made in the practice of debiting to capital the expenditure upon advertisements, stamps and commission in connection with the floating of loans or on petty improvements not exceeding Rs. 1,000 in value individually. Of the charges for water-works establishment and contingencies, 67 per cent. has been charged to capital (in place of the whole as in the previous year), and of general supervision, the maintenance of the municipal office, and of the Chief Engineer's Department about two-sevenths or about 1½ lakhs of rupees. This procedure has been distinctly challenged by the auditors whose criticisms

appear to be well-founded, but the view of the matter taken by the Corporation is not clear.

The auditors have also discussed in detail the question of the balance sheet and the valuation of the block, but their suggestions are not altogether accepted by the Chairman and the Corporation, although the latter records the opinion that the present system of block valuation requires radical alteration and is entirely misleading. The subject is too technical to permit of discussion within the compass of the present Resolution, but the Lieutenant-Governor would be glad to be informed separately of the final conclusions come to.

The independent stock-taking advocated in last year's Resolution has resulted in the discovery of a considerable shortage, the value of which is variously stated in different parts of the annual report as Rs 63,000, Rs. 82,000, and Rs. 86,513. The circumstances leading to this result are apparently under investigation, but the Lieutenant-Governor agrees with the opinion of the Corporation that it is not satisfactory, while he is disposed also to agree with the auditors that an independent expert valuation would have been preferable to the departmental pricing of the balances in hand. The future maintenance of these important accounts upon a more regular footing deserves strict attention.

8. Under the revenue head it is noticeable that the triennium, which opened with a credit balance of Rs. 9,09,578, closed with a balance of Rs. 8,58,456; and the following figures, from which all non-recurring items have been excluded, show graphically the progress of receipts and expenditure during the last six years:—

Year.	(In thousands of rupees.) Receipts.	Expenditure.
	Rs.	Rs.
1900-01	57,53	55,18
1901-02	62,09	57,68
1902-03	58,32	60,30
Annual average	59,31	57,72
1903-04	61,51	64,62
1904-05	64,33	63,56
1905-06	67,78	65,52
Annual average	64,54	64,56

In other words the recurring expenditure of the Corporation, since the year 1900-01, has increased by 18 per cent. against a similar increase upon the receipt side of 17 per cent.

9. The most important projects with the execution of which the Corporation was concerned during the triennium continued to be the suburban drainage scheme and the improvement of the water-supply. The nature of the former work has been previously described on more than one occasion. At the commencement of the year 1903-04 the sewering west of Tolly's Nullah had been completed, and as regards that to the east 14,222 feet of main sewers out of 39,136 feet, and 32,048 feet of branch sewers out of 129,683 feet sanctioned, had been laid. The progress of the intervening three years covers the installation of new engines at Palmer's Bridge; the erection of machinery at the Budge-Budge pumping station; the construction of the pumping station at Balliganj; the completion of the suburban outfall works and the practical completion of those for the town; the laying of the remainder of the main sewers with the exception of some 1,100 feet; the reconstruction, still in hand, of mains which had collapsed; and good progress with the branch sewers, of which some 29,040 feet only are still remaining to be put down. The Lieutenant-Governor is of opinion that the record of work done is a satisfactory one, but the difficulties in connection with the syphon under Tolly's Nullah still remain unsettled. Briefly the alternative lies between the construction of the syphon in the bed of the nullah, with the risks resulting from the unsuitable nature of the bed and

the absence of facilities for repair, and the carriage of the sewage through an overhead pipe, the initial cost of which would be large, while recurring expenditure on pumping would be involved. Complications are also introduced by the possibility of the canalisation of the nullah at some future time. The discussion at present rests with the decision of the Corporation to call for tenders for both schemes.

As regards other schemes of drainage, that for Baliaghata was started during 1904-05, and its completion is anticipated during the current year; but the important projects dealing with the fringe area, at an estimated expenditure of Rs. 29½ lakhs, and the suburban surface drainage, estimated to cost nearly Rs. 9 lakhs, still hang fire. The latter has recently received the sanction of Government; the former was delayed pending a decision as to the discharge of storm water into the Circular Canal, a course which has recently been ruled to be inadmissible. The fact that suburban Calcutta returns a mortality of 47·7 per mille and the fringe area a rate of 40·1 per mille, in comparison with that of 36·1 in urban Calcutta proper, argues the urgent need of both schemes.

9. The proposals for improving the filtered water-supply of the city have passed through greater vicissitudes and have made less practical progress. While regretting this result, the Lieutenant-Governor recognises that it was to some extent inevitable. The magnitude of the problem and the complicated interests concerned demanded the fullest expert consideration, and an immediate finding as to the best policy was impossible. After protracted discussion, the Corporation now seems at length to be approaching a conclusion as to the course of action to be followed, and some more definite progress may be hoped for.

The delay has been due to the abandonment of the scheme in hand at the close of the year 1902-03, which contemplated the retention and improvement of the existing underground reservoirs and pumping stations, although little actual work had been done in connection with it. The year 1904 saw a fresh project, initiated by Mr. MacCabe, Chief Engineer, for the substitution of a central elevated reservoir from which the water would be distributed by a system of gravitation, and pending the receipt of expert opinion from England upon its merits work was suspended except in so far as it was common to both plans. The opinion taken having proved favourable, and the report having been adopted by the Corporation during 1905, an advance might have been anticipated, but a suggestion to discard the dual supply of filtered and unfiltered water led to further discussion and delay. The merits of the substitution of a single filtered supply can scarcely be disputed The question was purely whether within a reasonable cost it was practicable to effect the improvement, and this had eventually to be decided in the negative. Allowing for a provision for the next 25 years, it was finally estimated that for non-domestic purposes only an addition of 25 millions filtered gallons would be required, at a cost of about Rs. 40 lakhs, if the use of unfiltered water was to cease. Such an expenditure was deemed prohibitive, and, assuming the continuance of the unfiltered supply, the scheme narrowed itself once more to the provision of a further 20-million gallons of filtered water which, added to the same quantity which is at present available, was estimated to meet the requirements of the city and suburbs for domestic use during the next quarter of a century. The method of the introduction of this supply next claimed attention, and the proposed construction of a masonry aqueduct from Pulta to Tallah was vetoed upon sanitary grounds. The substitution of an iron main being held to be unduly expensive, an alternative scheme providing a daily supply of 32 million gallons by increased pressure upon the mains is now under consideration, an elevated reservoir taking the place of the present pumping arrangements. The outlines of the project are still to be elaborated, but in the meantime they have received the general approval of Government.

11. It is not the case, however, that pending the decision thus arrived at, nothing has been done towards improving the filtered water-supply during the last three years. The work which would be required in any event, whether distribution was to be by gravity or by pumping, was estimated to cost Rs. 14,56,000, including a new reservoir at Tallah, together with the larger mains, and the meters, sluices, etc., requisite for a con-

tinuous supply, and the greater part of this expenditure has been incurred. An outlay of Rs. 1,27,000 for the construction of two new filter beds at Pulta has only recently been approved. Meanwhile the erection during 1904-05 of new machinery putting pressure on the mains at Pulta has proved thoroughly successful, and the increased daily supply so secured is over 6 million gallons. Taking the triennium as a whole, the population to which the continuous supply, so called, is available has increased from 107,793 during 1902-03 to 459,000 in 1905-06; but the ideal of a continuous supply at a pressure of 40 feet throughout the 24 hours has not yet been arrived at, and until this has been achieved the full benefits of the continuous supply in enforcing economy in the use of water are lost. The Lieutenant-Governor has read with interest the remarks of the Health Officer regarding Dr. Mullan's analysis of the statistics of cholera cases in connection with water-supply; and the decision to increase the number of standposts in *bustees* is fully justified by the conclusion that those living in huts which are scantily supplied with water are much more liable to contract cholera than the inmates of masonry houses where the water-supply is adequate.

The reports for each of the three last years have commented upon the difficulties encountered in maintaining the supply of unfiltered water; and the remedial action taken has consisted of the better maintenance of the engines at Mullick's Ghat, the linking up of that pumping station and Watganj, and the laying of new and larger mains. It is now proposed to spend Rs. 60,000 upon the improvement of the plant at Mullick's Ghat.

12. The street conservancy of the town has always presented special difficulties due largely to the popular habit of dumping refuse upon the roads at all hours, and complaints of inefficiency have not been wanting during the last three years. During the year under review, however, measures have been taken after a valuable enquiry by the Deputy Chairman, Mr. Payne, which will, it is hoped, give a satisfactory afternoon as well as morning service throughout the city. The requirements of each district in respect of carts and animals have been fixed, deficiencies of stock have been partially made good, and a better organisation has been prescribed. The additional annual expenditure involved is Rs. 39,000, but the object in view is well worth paying for. The annual expenditure* upon road repairs has fluctuated curiously during the last three years, and it can scarcely be said that a marked improvement has been effected. Various trials were made with different materials, with more or less success, and noticeably the costly experiment of the use of moorum was discontinued. Useful progress has been made in the paving of sideways and in the kerbing and channelling of roads. The lighting of the town is still in a backward condition, though oil lamps are being gradually relegated to the bye-lanes and suburbs, and incandescent gas has been extended to the principal roads. The consideration of the arrangements to be entered into when the present gas contract terminates in 1911 is an important subject of the near future.

* *Expenditure upon road repairs.*

	Rs.
1903-04	4,72,466
1904-05	3,98,181
1905-06	4,48,487

13. The most noticeable building operations of the triennium comprised the erection of the new head office amid vastly improved surroundings; the construction of offices in Districts I and IV and of a gowkhana in the former; the extension of the Tangra slaughter-house; the completion of the Lansdowne Market; the opening of a vaccine station at Balliganj; and the installation of a crematorium. In their administration of the Sir Stuart Hogg Market the Corporation can claim a marked success; the total receipts of Rs. 1,77,285 in 1902-03 have risen to Rs. 2,38,142 in 1905-06. Further extensions to the market are contemplated, but the Lansdowne Market has not so far proved a profitable venture.

14. The birth and death-rates in the whole town during the three years ending with 1905 were as follows:—

	* Births per mille.	* Deaths per mille.
1903	15·5	35·1
1904	17·9	32·2
1905	18·4	37·9

*Calculated on census population 1901.

The statistics of births have long been recognised to be defective, and although there would seem some indication of improvement, there is no doubt that accuracy has not yet been arrived at. The Lieutenant-Governor would urge the desirability of a speedy decision as to the extension of the system of check by a peripatetic staff, which has been in successful working in District I since 1903. As regards the figures of mortality, the whole of the report of the Health Officer is full and interesting, but it is not possible here to do more than notice the more salient features. Plague, which showed a recrudescence in 1903, was less prevalent in the succeeding year, but was again severe during 1905. Fortunately it again waned during 1906. Cholera prevailed extensively during the triennium, and was especially severe in 1905. The future prevention of this scourge is bound up with the extension of the filtered water-supply. Small-pox after occasioning little mortality during 1903 and 1904, and during the greater part of 1905, assumed an epidemic form in December of that year, which during the first quarter of 1906 developed into an outbreak of greater severity than had been known for 20 years. The Lieutenant-Governor has pleasure in recognising the admirable work done by the Vaccination Department, noticeably by Mr. Chetty, the Officer in charge of the Balliganj Depôt. A serious feature in the returns of the last three years is the increase in the number of deaths recorded from tubercle and respiratory diseases (other than tubercle of the lung). The growing registered mortality under the former head is possibly due to more accurate diagnosis, and although special remedial measures are advocated by the Health Officer, it is not clear what line it is proposed that they should take. It is from the prevention of overcrowding that much practical good may be hoped for, and it cannot be said that great progress has been made in this direction in recent years. The Lieutenant-Governor is glad to observe that the matter of improving the milk supply has been taken in hand by the Corporation. A scheme of sanitary municipal cowsheds to be rented to *gowalas* would offer a possible solution of the existing difficulties, but the financial aspects of such a proposal deserve careful consideration.

15. Upon a review of the history of the past three years, the Lieutenant-Governor notes with satisfaction the progress that is taking place in all branches of the Municipal Administration. This no doubt is largely due to the increased co-operation which has been obtained from the Commissioners by the appointment of Standing Committees, which have enabled individual members to exercise a far closer and more effective control over the work of the several Departments. Many valuable suggestions have also been received from the Committees which reviewed the Chairman's annual reports, and Sir Andrew Fraser congratulates the Commissioners on the zeal with which they have responded to the increased opportunities of control and on the numerous and valuable improvements which have resulted from their efforts.

16. Owing to ill-health Mr. Greer, Chairman of the Corporation, was compelled to proceed on leave, and after a short officiating incumbency of Mr. Payne, Deputy Chairman, Mr. Allen was appointed and ultimately confirmed in the post. Mr. Payne continued to fill the office of Deputy Chairman, and Babu Nilámbará Mukharji that of Vice-Chairman. To all these officers the Lieutenant-Governor tenders his cordial thanks for the zealous and efficient manner in which their duties have been discharged, while equally to the members of the Corporation and General Committee who have recently laid down office, and to their successors, he desires to offer his acknowledgment of the industry and public spirit with which they have joined in the administration of the affairs of the town.

By order of the Lieutenant-Governor of Bengal.

REPORT ON THE STATE OF THE SALT MARKET FOR THE THIRD QUARTER OF 1906-1907.

No. 843B., dated Calcutta, the 9th February 1907.

From—PANDIT RAMA BALLABHA MISRA, M.A., Offg. Secretary to the Board of Revenue, L. P.,

To—The Secretary to the Government of Bengal, Financial Department.

I AM directed to submit the following report on the state of the salt market for the third quarter of the year 1906-1907, comprising the months of October, November and December 1906.

Member in charge:
THE HON'BLE MR. W. C. MACPHERSON, C.S.I.

2. The quantity of salt of every description cleared during the quarter amounted to 28,33,025 maunds, as compared with 21,55,780 maunds in the previous quarter, and 26,08,975 maunds in the corresponding quarter of the previous year. The net amount of duty levied thereon was Rs. 38,33,752, as against Rs. 29,43,586 in the previous quarter, and Rs. 35,79,211 in the corresponding quarter of the previous year.

3. The subjoined Table I shows in detail the importations into the port of Calcutta and the total clearances of sea-imported salt during the quarter, as compared with the figures of the corresponding quarters of the two previous years :—

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

≏, dew.

DECLARATION

No. 1070J.—The 4th March 1907.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz, for the Bengal-Nagpur Railway Grand Chord Line near Mohoda station, between miles 208 and 209, and whereas coal-mines are situate under the said land, and whereas the Bengal Coal Company, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seam of coal known as the bottom seam, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Bengal Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Manbhum.

Now, therefore the Lieutenant-Governor of Bengal is pleased to declare, under section 5, sub-section (2), clause (*b*), of the abovementioned Act XVIII of 1885, that the working shall be carried on by the said Bengal Coal Company, Limited, in the manner and subject to the restrictions below specified, viz.—

(*a*) No gallery shall be driven under the land acquired in any place, where the cover from the natural surface to the top of the gallery, if driven, would be less than 50 feet thick.

(*b*) The gallery already driven may be enlarged to a width of 12 feet.

(*c*) Any other galleries shall be not more than 12 feet wide, with centres not less than 60 feet apart, forming pillars not less than 48 feet square to be left unworked for the support of the acquired land.

(*d*) Manholes, not exceeding 6 feet high, 3 feet wide and 4 feet deep, may be made, when required by any rules under the Indian Mines Act.

(*e*) The above restrictions shall apply to the Bottom seam only and to the area edged with pink on the plan and the Bengal Coal Company, Limited, shall give notice under section 4 of the Land Acquisition (Mines) Act, 1885, before commencing work in any other seam under the acquired land or under any other area, and that except as provided above, no further excavation shall be made in the gallery which already has been driven, the actual height and width of which has been carefully recorded on the plan marked L.A.M.A. No. 67 signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

MARINE DEPARTMENT.

The 5th March 1907.

No. 16Marine.—In exercise of the powers conferred upon him by sections 51 and 51A of the Inland Steam-vessels Act, 1884 (VI of 1884), as amended by the Indian Steam-ships Law Amendment Act, 1890 (III of 1890), and with the sanction of the Governor-General in Council, the Lieutenant-Governor of Bengal is pleased to make the rules set forth below for the protection of passengers in river steamers against the spread of plague and other dangerous epidemic disease by persons travelling in such steamers within the territories under his administration.

W. A INGLIS,
Secy. to the Govt. of Bengal.

RULES

1. (1) Whenever any case of plague, small-pox, cholera or other dangerous epidemic disease occurs on board a river steamer, the Medical Officer of the steamer or, where there is no such Medical Officer, the master or serang, shall immediately—

(*a*) remove the patient, together with his bedding, drinking-utensils and food to a part of the deck at the extreme stern of the steamer, where he shall be segregated from the rest of the passengers by a *purdah* or awning;

(*b*) cause all excreta, vomit and urine which may have been discharged on to the deck by the patient to be cleaned away with a solution of cyllin; and

(*c*) report the case to the Subdivisional or District Magistrate within whose jurisdiction the nearest ghat lies, and also to the Civil Surgeon of the district.

(2) Where such ghat is not at the head-quarters of a subdivision or district, the report mentioned in sub-clause (*c*) of clause (1) shall be sent by the Medical Officer of the steamer or master or serang, as the case may be, by the most expeditious means available to the next head-quarters of a subdivision or district at which the steamer will touch.

2. If, when the case occurs, the steamer is lying at a ghat at the head-quarters of a subdivision or district, or, otherwise, when the steamer has reached the nearest ghat which is at such head-quarters, the master or serang shall not move the steamer therefrom until permission has been given by the District or Subdivisional Magistrate or by the Medical Officer under rule 8.

3. (1) On receipt of the report mentioned in rule 1, the Magistrate or Civil Surgeon shall at once depute a Medical Officer to inspect and disinfect the steamer.

(2) Such Medical Officer shall visit the steamer, and if a suitable hospital is available, or if other satisfactory arrangements can be made for his treatment and segregation, shall bring the patient to land.

4. Where no such hospital is available and no such arrangement can be made, the patient shall not be allowed to land, but the Medical Officer deputed under rule 3 shall take steps to ensure the proper segregation of the patient on the steamer and to satisfy himself that every possible precaution has been taken to prevent the spread of the disease.

5. The Medical Officer deputed under rule 3 shall in all cases cause the deck, cabins, latrines and any other part of the steamer where the patient has been, to be thoroughly washed down with a strong solution of cyllin, and all utensils which have been used by the patient, to be disinfected.

6. (1) In case of death the body of the patient shall be made over to his friends, or, where he is without friends, to the police, who shall arrange for its disposal.

(2) The clothes of the deceased (except those in his baggage), his bedding and all food in his possession shall be burnt unless orders to the contrary are passed by the Medical Officer.

7. The Medical Officer deputed under rule 3 shall ascertain the names and addresses of all members of the party accompanying the patient, and shall report them through the Magistrate to the Magistrate of the district to which they are proceeding.

8. When the orders contained in these rules have been complied with, and the Medical Officer deputed under rule 3 is satisfied that there is no reason further to detain the steamer, he may give permission to the master or serang to proceed on the journey.

9. The owner of every steamer shall be bound to keep on board each steamer one gallon of cyllin.

10. The patient may be permitted to land on the expiry of a period to be fixed by the Medical Officer deputed under rule 3.

11. Any person committing a breach of any of the above rules shall be punished with fine which may extend to Rs. 20.

The 5th March 1907.

No. 17 Marine.—It is hereby notified that, under the powers conferred upon him by section 29 of the Inland Steam-vessels Act, 1884, as amended by subsequent enactments, the Lieutenant-Governor proposes to make the following amended rules to regulate the granting of certificates of competency to masters and serangs of inland steam-vessels in supersession of those published under this Government Notifications Nos. 21 Marine and 22 Marine, dated the 2nd April 1894. These rules will be taken into consideration on the expiry of a month from the date of their *Calcutta Gazette*, and the Lieutenant-Governor will be glad to consider any observation regarding them within that period.

W. A. INGLIS,

Secy. to the Govt. of Bengal.

REGULATIONS RELATING TO THE EXAMINATION OF MASTERS AND SERANGS OF INLAND STEAM-VESSELS.

1. *Certificates of Competency* will be granted to those persons who pass the requisite examinations, and otherwise comply with the requisite conditions. For this purpose arrangements have been made for holding examinations periodically at the Port of Calcutta. Certificates granted to persons who pass examinations.

2. The examinations will be held by the Port Officer and one or more other examiners to be appointed by the Government from time to time. They will commence early in the forenoon, and will be continued from day to day until all the candidates whose names appear upon the Port Officer's list on the day of examination are examined. Examinations continued till all the candidates are examined

3. Candidates for examination must make their application upon the appropriate form Exn. 2*b*, which must be filled up at the Port Office. The Exn. 2*b* properly filled in, together with the candidates' testimonials and discharges, must be lodged with the Port Officer not later than the day before the day of examination.

4. Testimonials of character, and of sobriety, experience, ability, and good conduct on boardship for at least the last twelve months' service preceding the date of application to be examined will be required from all applicants. Applicants who have not served on boardship within the last twelve months will be required to produce, in addition to the preceding testimonials, certificates of a like nature from their employers, or if unemployed from some respectable house-holder. No candidate will be allowed to be examined unless he has served on boardship at sea or on inland waters two years within the last six years, and six months within the last three years preceding the date of his application to be examined. Testimonials of character, conduct, and ability required.

5. The testimonials of servitude of Foreigners and of British seamen serving in foreign vessels, which cannot be verified by the Port Officer, must be confirmed either by the Consul of the country to which the ship in which the candidate served belonged, or by some other recognized official authority of that country; or by the testimony of some credible person on the spot having personal knowledge of the facts required to be established. The production, however, of such proofs will not of necessity be deemed sufficient. Each case must be decided on its own merits; and if the sufficiency of the proofs given appears to be at all doubtful, the point must be referred to the Government. Testimonials of Foreigners.

6. Testimonials of servitude must ordinarily be based on their employers' office-records.

Service claimed which cannot be verified from the employer's office-records must be authenticated by affidavits of men under whom such services have been performed as well as by the candidate himself.

Testimonials of servitude from European commanders will be accepted.

Certificates as to age.

6. Should any doubt exist as to the age of a candidate, he will be required to produce a certificate of birth or baptism.

Foreigners to know English.

7. Foreigners must prove to the satisfaction of the Examiners that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel.

In the case of natives of India who may not be able to speak English, their certificate shall be endorsed to the effect that they are valid only for vessels manned and officered entirely by Asiatics.

Sight and Colour Tests.

8. Any persons, including the holders of Certificates of Competency, or persons about to apply for Certificates of Competency, if desirous of being examined in colours only, must make application to the Port Officer in Form Exn. 2*a*, and pay a fee of one rupee.

9. No candidate will be examined in colours until he has passed the sight tests.

This rule must be observed whether the candidate has or has not on any previous occasion passed the sight tests.

10. Candidates who fail to pass the sight test can be re-examined at intervals of three months.

11. If he fails in colours, it will be open to him to be examined again for three occasions only at intervals of three months. A fresh fee must be paid on each occasion.

12. A candidate who holds a Certificate of Competency, and who, on presenting himself for examination for a certificate of a higher grade, is unable to pass the colour test, will notwithstanding be permitted to proceed with the examination for the certificate of the higher grade.

13. Should he pass this examination, the following statement will be written on the face of the higher certificate which may be granted to him, viz.—"This officer has failed to pass the examination in colours."

14. Should he ultimately fail to pass the examination, a like statement, relating to his being colour-blind, will be made by the Port Officer on his existing certificate before it is returned to him.

15. Holders of certificates which bear the statement of their having failed to pass in colours, and who may desire to have the statement removed from their certificates, must obtain the special permission of the Government.

Qualifications for Certificates of Competency as First Class Masters.

16. *Examinations in sight and colours.*—All candidates for certificates of competency must first be examined in sight and colours.

17. A candidate for a certificate as first class master of inland steam-vessels must be not less than twenty-four years of age, and must have served as second class master in charge of a steam-vessel for not less than three years, or he must be not less than twenty-two years of age, hold a certificate of competency as second mate granted under Act I of 1859 (for the amendment of the law relating to Merchant Seamen), or the Merchant Shipping Acts, 1854 to 1883, or a certificate to which the provisions of any such Act have been made applicable under the Merchant Shipping (Colonial) Act, 1869, and have served as mate of an inland steam-vessel or master of a river flat for not less than one year; or he must be not less than twenty-four years of age, and must have served either not less than three years sea at and three years as mate of a river steamer or master of a river flat, or not less than six years as mate of a river steamer or master of a river flat.

18. Each candidate will be examined apart, and *viva voce*, in each and all of the following subjects:—

(1)—The rules of the road.
(2)—The management of river steamers under all contingencies.
(3)—The tide-table.
(4)—Storm-signals.

(5) The provisions of Act VI of 1884, and the rules issued under sections 29, 50, 50A, 51 and 51A of the Act.

Qualifications for Certificates of Competency as Second Class Masters.

19. *Examinations in sight and colours.*—All candidates for Certificates of Competency must first be examined in sight and colours.

20. A candidate for a certificate as second class master of an inland steam vessel must not be less than twenty-two years of age, and must produce certificates of sobriety and intelligence. He must have served at least five years at sea or on inland waters, the three years of which service must have been as chief helmsman of a steam-vessel of over 50 nominal horse power, or an alternative service of two years as a certificated serang and one year as helmsman of steam-vessel of over 50 nominal horse power, and shall be examined *viva voce* as to his knowledge in the following subjects :—

Failure.

23. If a candidate fails, he will not be re-examined *until after a lapse* of three months' active service from the date of such failure.

Re-examination in case of failure Certificate of lower grade.

24. If a candidate has failed in his examination, but the subjects in which he has failed are not included in the subjects required for a certificate of a lower grade, he may, if he desires it, receive a certificate of such lower grade.

25. No part, however, of the fee he has paid will be returned to him, and on presenting himself, when entitled so to do, for re-examination for the higher grade of certificate, he will be required to pay again the full fee.

Fees.

26. Candidates for examination in making their application on Form No. 28, will be required to pay the examination fee before any step is taken, whether by enquiring into their services or testing their qualifications, &c. Should it be found that their service is not sufficient to entitle them to be examined, or should their testimonials be unsatisfactory, or should they from any other cause not be examined, no part of the fee will be returned to them, but when they have fulfilled the requisite service, or are able to produce satisfactory testimonials as the case may be, they will be allowed to again present themselves for examination for a certificate of the same grade without paying any further fee.

Fees to be paid by applicants for examination.

27 The fee for examination must be paid to the Port Officer. In any case in which a candidate offers money to any other officer, and in any place but in the Port Office, the candidate

so offering money will be regarded as having committed an act of misconduct, and will be rejected and not allowed to be again examined for twelve months.

28. If a candidate fails in his examination, *no part of the fee will be returned to him.*

29. If the candidate satisfy the examiners as to his knowledge of the prescribed subjects, and generally as to his competency to command an inland river steamer, they shall certify the same to the Government, which will then grant a certificate to the candidate.

30. The fees are as follows :—

	Rs.

LEGISLATIVE DEPT.,
BOOK DEPÔT BRANCH;
The 15th January, 1907.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Note by the Hon'ble Babu Jogendra Nath Mukharji, M.A., B.L., regarding proposed legislation with reference to sanitation of areas outside Unions. [Paper No. 43.]

2. The amendments which we recommend should be made are, as far as possible, printed in antique type, and are explained in the following paragraphs.

3. The fact that the abolition of Sadar Local Boards would leave the Sadar sub-division unrepresented on the District Board of districts, in the other sub-divisions of which Local Boards have been established, seems to have been overlooked in drafting the Bill. The retention of that portion of clause 2 which repeals the proviso to section 6 would necessitate a recast of the elective machinery provided in the Act. Such a recast is not only outside the scope of the present legislation, but is also, in our opinion, not called for by the necessity of the case. We consider it will be sufficient to repeal the latter part only of the proviso.

4. The authority of a Local Board does not extend to a municipal area within the sub-division for which the Local Board is established; therefore a resident within such area has no statutory right to stand for election to the Local Board. This was seemingly not the intention of the framers of the original Act. The change we recommend in clause (*2*) of the proviso to section 13 will leave no room for doubt on the point.

5. We have carefully considered the objections put forward against the proposed delegation to Commissioners of certain powers now exercised by the Lieutenant-Governor. Every change which has the effect of decentralizing the administration must, we take it, be a step towards more complete local self-government. The proposed changes will obviate the delay of reference to the Local Government. On these grounds,

in addition to those given in the Statement of Objects and Reasons, we would retain the clauses of the Bill conferring these powers on Commissioners. Furthermore, it seems to us to be only consistent that, if the Commissioner is empowered to remove members for absence from meetings under the new section 18A in clause 7A of the Bill, he should also have power to remove members for any of the causes mentioned in the first part of clause (*a*), and clauses (*b*) and (*d*) of the existing section 18. We have, therefore, substituted for the present clause 7, a clause amending section 18, and adding a new section 18A. At the same time we recommend that power should be given to remove in the same manner members of Union Committees.

6. We think that the grant of pensions and gratuities to the families of deceased employés should be restricted to special cases, and be subject to special conditions. We understand that it is the intention of the Local Government to frame model rules prescribing such restrictions and conditions for adoption by District Boards, but we consider it best to make it clear in the amendment of section 35 by clause 17 of the Bill that such grants can only be made in extraordinary circumstances.

7. The exact meaning of the words "for the purposes of this section" in clause 19, sub-clause (*a*) of clause 21, sub clause (*b*) of clause 55, and clause 58 of the Bill, is not very clear. We have so amended the clauses as to remove doubt on the point.

8. In view of the very decided opposition to the provisions of the proposed new sections 46A to 46F, in clause 22 of the Bill, evinced in the opinions submitted by the public bodies and associations consulted, we feel constrained to recommend the omission of clause 22 from the Bill. Were these sections enacted they would, we believe, remain a dead-letter by reason of the difficulty of obtaining a two-thirds majority of the members of any Board to support a scheme which might involve the imposition of a special rate. The omission of clause 22 involves the consequential omission of portions of clauses 24, 25 and 39 of the Bill.

9. The Act does not prescribe the method of crediting a loan raised under section 50. We have made an addition to clause 25 in order to make it clear that such loans become part of the District Fund.

10. Suitable houses at most head-quarter stations are now so much in request by wealthy non-officials, and have gone up so much in rent, that great difficulty has in some cases been experienced by the District Engineer in securing a residence for himself. Being the most important servant of the District Board, it is absolutely necessary that this officer should be certain of finding a house available for his occupation at head-quarters. We, thereforet think it very important that, in order to obviate future difficulties, Distric, Boards should be empowered to spend funds not only for the acquisition of land for, and the construction thereon of, a house for the District Engineer, but also for the purchase of any suitable house and compound which happens to be available. The occupation by a District Engineer of a District Board house will, of course, be subject to the conditions as to the payment of rent prescribed by rules. We have accordingly inserted amendments in head (*ii*) of sub-clause (*a*) of clause *Fifthly* of section 53 in clause 26 of the Bill, and also in the new clause (*h1*) to be inserted by sub-clause (*4*) of clause 59.

11. Sub-clause (*ii*) of clause *Fifthly* of section 53, in clause 26 of the Bill, is limited to expenses incurred by a District Board in the "performance of duties" imposed by the Act. But the new clause proposed for section 100 confers a power, and so do all the other clauses of that section; they do not in terms impose any duties on the Board, and, since money clauses are construed strictly, we deem it advisable to make the amendment we have suggested in the said sub-clause (*ii*).

12. The new sub-clause (*aa*), which we recommend should be inserted in clause *Fifthly* of section 53, explains itself. We think it right that the District Boards should have it in their power to help their establishments to get suitable accommodation.

13. It seems to us that there is just as much justification for the payment to members of a Local Board of travelling expenses incurred by them in attending their Board meetings as there is for the like payment to members of a District Board. We think, too, that attendance at Sub-Committee meetings should not be allowed to cause pecuniary loss to members either of a District Board or a Local Board. The amendments we propose in sub-clause (*3*) of clause 26 of the Bill, are intended to give effect to our views.

14. We recommend that a new clause 29A be inserted in the Bill, and that by clause 29 it be enacted that the provisions of sections 87 to 91, relating to sanitation, be made applicable to every District Board. The reason why these sections were not applied generally by the framers of the Act is not apparent.

15. We are of opinion that the Board's resources should not be applied to Secondary Education until the District Board has fully done its duty in supporting primary schools. We understand that such also is the policy of the Local Government. In addition to the consent of the District Board, which is a condition precedent to the making of grants or incurring expenses in aid of secondary schools and hostels, we consider that the Local Government should impose a check on such expenditure by rules. We have therefore suggested amendments in clauses 31 and 32, and in sub-clause (*5*) of clause 59 of the Bill.

16. The Deputy Inspector of Schools should be a member of the Education Committee in addition to the six members mentioned in clauses (*a*) and (*b*) of the new section 65B introduced by clause 34 of the Bill. The members of the Education Committee who are not members of the District Board should receive travelling allowance. The amendment we suggest in sub-section (*3*) of the new section 65B in clause 34 of the Bill will confer this privilege.

17. Medical Practitioners are numerous, and a District Board should have no difficulty in securing a suitable Medical Officer when required. We therefore think that the need to train a medical practitioner for a special post should never arise. Competent Midwives and Compounders, however, are not so easy to find. We understand that it is in no way the intention that District Boards should start training institutions for Midwives, Compounders and Veterinary Practitioners, but that they should be enabled to contribute to the cost of their training at some good hospital or institution.

18. We have recast and amended the new section 86A which is to be inserted by clause 41 of the Bill. We approve of the imposition of tolls to meet the cost of the increased facilities of communication, which the provision of bridges confers; and we would like to encourage the Boards not only to construct bridges, but also to purchase disused or unnecessary railway bridges, and make it worth the while of Railway Companies so to construct or widen railway bridges as to make room for a foot or roadway. In cases, too, where a river forms the boundary between two districts, the Boards of these districts should have power to join in the construction or purchase of a bridge to connect the areas under their respective authority. We think, however, that no toll-bar should be established unless the cost to the District Board amounts to at least ten thousand rupees. The interest likely to accrue cannot easily be taken into account in calculating the cost of the bridge, for it would be impossible to ascertain it. We have made alterations in conformity with our views in the second proviso to the new section 86A. We have also inserted the word "persons" as subject to the toll, the omission from the new section being apparently due to inadvertence.

19. If District Boards are to be allowed to join in the purchase or construction of a bridge, some provision will be necessary to regulate the

management of the toll and the adjustment of the proceeds. The new section 86BB, inserted by clause 41 of the Bill, and the new clause (*mmm*) in section 138, inserted by sub-clause (*8*) of clause 59, are intended to meet the necessity.

20. The alterations we suggest in the proposed new sections 86C and 86H, are mere corrections in drafting.

21. The object of the amendment we propose in clause 43 of the Bill is to enable the Boards to take relief measures not only in times of famine, but also in times of flood and other serious distress. The existing section 99 allows gratuitous provision of food only at fixed places. It is often necessary, as, for instance, during heavy floods, to send round officers to distribute food wherever distress is found.

22. The use of the word "its" in clause (*3*) of section 100 precludes a Board from holding a fair or exhibition within a Municipality. This was surely not the intention of the framers of the original Act. We have, by a new sub-clause (*1a*) of clause 45, removed the difficulty.

23. From the same clause we have cut out the sub-section (*3*) (*d*), relating to the fee for license to ply boats which was inserted to meet the requirements of the district of Chittagong. As that district is no longer a part of this Province, the sub-section is no longer necessary. In its place we have inserted a new sub-section (*3*) (*d*) giving District Boards power to promote the improvement of agriculture, the breeding of cattle and horses and to support veterinary institutions.

24. The amendment we have made in clause 48 is merely intended to make clearer the meaning of clauses 48 and 49 of the Bill as introduced.

25. Section 118 of the Act, as it now stands, gives to a Union Committee, in certain cases, power to levy the cost of cleaning public tanks, wells, streams or drains from persons resident within the Union. By clause 53 of the Bill, section 118 has been recast so as to give the Union Committees extended powers to improve the water-supply, but at the same time the substituted section omits to mention the source from which the cost of such improvements is to be met, or to provide for the levy of any local taxation. This omission, we understand, was not intentional. We have replaced the original section 118 by a new section 118A, substantially reproducing it.

We agree that the scope of a Union Committee's powers with regard to sanitation and drainage should be greatly enlarged, and that its powers of taxation should be correspondingly increased. We think that expenditure from the Union Fund should be allowed not only for the purposes of water-supply, but also of sanitation and drainage. The Committee should have power, too, to control and regulate building operations in villages within the Union, and to remove insanitary blocks. We have considered the proposals brought forward by the Hon'ble Babu Jogendra Nath Mukharji, and are in sympathy with them. At the same time we recognize that it would be necessary to formulate a completely new scheme both as to the body by which, and the method in which, the powers desired are to be exercised, and for the taxation which would be required to meet the extra charges on the Union Fund; also that such changes introducing a new principle, would cause great delay in carrying through the legislation now before the Council. An improvement of the machinery for cleansing and keeping clean insanitary rural areas is an undoubted necessity, but we think it should be brought about by a special and self-contained enactment. We believe, and hope, that the Government contemplates undertaking in the near future legislation of the kind to which we refer.

26. The alterations we have made in clause 59 are consequential upon alterations made elsewhere in the Bill. The new sub-clause (*12*) relegates the power to insert a penal clause in rules under clause (*qq*) of section 138 to its proper place in the section.

27. The words "vakil or pleader" in clause 62 of the Bill appear to be not sufficiently wide. The substitution of the words "legal practitioners" seems to be required.

28. The alterations in the Bill noted above are, in our opinion, not such as to necessitate re-publication of the Bill, and we recommend that the Bill be passed as now amended.

The 26th February, 1907.

With due respect to the opinion expressed by my Hon'ble Colleagues with regard to the sanitation of areas outside village unions,* I have ventured to record my opinion on the subject in a separate note and have drafted certain new sections which may, to my mind, be embodied with advantage in the present Local Self-Government Act.

JOGENDRA NATH MUKHARJI.

The 28th February, 1907.

I sign the Report subject to my note of dissent.

NOTE OF DISSENT.

I am opposed to the proposed amendments of sections 7, 10, 18 (18A), and 32. The proposed delegation to Commissioners of certain powers now exercised by the Lieutenant-Governor is, in my opinion, not "a step towards more complete self-government." District Boards are now wholly under the control of the District Magistrate and the Commissioner, and larger control by the Commissioner means loss independence. Again, the partition of Bengal was intended to afford the Lieutenant-Governor opportunities for more direct and personal rule than was exercised by him before. If the matter of the appointment and dismissal of members of the District Board is taken away from him, he will lose touch with the District Boards altogether, excepting making certain rules for them once for all. I cannot also agree to the change proposed in the present law (section 32). The District Boards have been making rules for the conduct of business for the last 22 years, subject to the nominal control of the Lieutenant-Governor, without any complaint being heard against such procedure by any authority. Now this power of making rules is proposed to be taken away practically from them by making it subject to the sanction of the Commissioner who will, in all probability, exercise his powers of control very frequently. There is a probability of the Boards being reduced to mere machines carrying on business in the way commanded by the Commissioner. I would humbly recommend that the power of making rules for the conduct of business under section 32 should not be under the control of any authority. I am one of those who are of opinion that before granting extensive political rights, the Government should grant more independence to Municipal and District Boards and free them more completely from official control. Recent legislation about Municipalities and District Boards does not tend in that direction.

* Both the note and the draft sections have been circulated to Hon'ble Members of Council. They appear on the pages directly following the Bill as amended.

2. I cannot also agree to the power given to District Boards to build houses for District Engineers. From the papers before me, no case has been made out for making the change after 23 years, having regard to the notorious impecuniosity of the Boards.

3. I cannot also agree to any part of the funds of the District Board being spent for hostels for high schools and middle schools and for making grants-in-aid to any but primary schools. The change proposed by section 64A is uncalled for and inexpedient in the present condition of the country. The majority of the Select Committee are of opinion that the resources of the District Boards "should not be applied to secondary education until the District Board has fully done its duty in supporting primary schools." The resources of the District Boards are admittedly wholly insufficient for the purposes of imparting primary education to the people, and it is therefore illogical and inexpedient to cast upon them the work of secondary education, which they can only do by neglecting, and to the detriment of their legitimate duty of carrying on the work of primary education. I am therefore opposed to section 64A, and can only accept it if the words "out of moneys granted by the Government especially for the purpose" be added after the word "Act" and before clause (*a*).

4. Irrigation works are admittedly outside the scope of the duties of District Boards. I cannot therefore agree to bring them within the scope of such duties during a time of famine. Famine relief is a duty which was not intended to be discharged out of the road and public works cesses when the said cesses were imposed, nor can irrigation works be carried out from such funds. The innovation proposed by section 99A is, in my opinion, unjustifiable, and I can only accept it if the words "out of moneys granted by the Government especially for the purpose" be added.

THE BENGAL LOCAL SELF-GOVERNMENT (AMENDMENT) BILL, 1906.

[AS AMENDED BY THE SELECT COMMITTEE.]

(Showing in antique type amendments recommended by the Select Committee.)

A

BILL

to amend the Bengal Local Self-Government Act of 1885.

WHEREAS it is expedient to amend the Bengal Local Self-Government Act of 1885 in manner hereinafter appearing; Ben. Act III of 1885.

It is hereby enacted as follows:—

Short title and extent.

1. (*1*) This Act may be called the Bengal Local Self-Government (Amendment) Act, 1907.

(*2*) It shall extend to all the territories subject to the Lieutenant-Governor of Bengal in which the Bengal Local Self-Government Act of 1885 is in force.

Repeal of portions of Bengal Act III of 1885.

2. The following portions of the Bengal Local Self-Government Act of 1885 are hereby repealed, namely:— Ben. Act III of 1885.

in section 1, the words "or of the districts of Singhbhum, the Sonthal Parganas or the Chittagong Hill-tracts";

in the proviso to section 6, the words "and in any other sub-division to which the provisions of the next succeeding Chapter shall have been extended";

section 16;

section 24;

the last paragraph of section 25;

section 34;

section 72;

the proviso to section 73, and

in section 103, the words "A Local Board shall exercise powers of supervision and control over all Union Committees within the area under its authority, and".

Addition to section 5.]

3. To section 5 of the said Act, the following shall be added, namely:—

"and 'sanitation' includes water-supply."

Amendment of sections 7, 11 and 15.

4. (*1*) In section 7 of the said Act, after the figures "23" the words, figures and letter "section 23A or section 29" shall be inserted.

(*2*) For the words "Lieutenant-Governor," where they occur in the sixth paragraph of section 7, in section 11, and in the first paragraph of section 15 of the said Act, the word "Commissioner" shall be substituted.

New section 10.

5. For section 10 of the said Act, the following shall be substituted, namely:—

"10. If, within the time prescribed by rules made by the Lieutenant-Governor under this Act, the prescribed proportion of elected members of any District Board or Local Board is not duly elected, the Commissioner may appoint members to make up that proportion."

Power to appoint members of District or Local Board, if prescribed proportion not duly elected.

Amendment of proviso to section 13.

5A. In clause (*2*) of the proviso to section 13 of the said Act, for the words "the area under the authority of such Local Board" the words "the sub-division for which such Local Board has been established" shall be substituted.

The Bengal Local Self-Government (Amendment) Bill, 1906.

(Clauses 6-8.)

Amendment of section 17.

6. In section 17 of the said Act, for the words "Lieutenant-Governor" and for the word "Commissioner," in both places in which they respectively occur, the word "Commissioner" and the words "District Board," respectively, shall be substituted.

Amendment of section 18.

7. (*1*) Section 18 of the said Act shall be re-numbered section 18, sub-section (*1*).

(*2*) In the said sub-section (*1*)—

(*i*) for the words "Lieutenant-Governor", wherever they occur, the word "Commissioner" shall be substituted;

(*ii*) for the words "or Local Board" the words "Local Board or Union Committee" shall be substituted;

(*iii*) in clause (*a*), the words from "or is convicted" to the words "unfits him to Gover- be a member" shall be omitted.

(*3*) To the said section the following shall be added, namely:—

"(*2*) Any member who is removed under sub-section (*1*) may appeal to the Lieutenant-nor, whose decision shall be final."

New section 18A.

7A. After section 18 of the said Act the following shall be inserted, namely:—

"18A. The Lieutenant-Governor may remove any member of a District Board, Local Board or Union Committee who is convicted of any such offence, or is subjected by a Criminal Court to any such order, as, in the opinion of the Lieutenant-Governor, formed, after due inquiry, unfits him to be a member."

Power of Lieutenant-Governor to remove members convicted or unfit to be members.

New sections 19 and 19A.

8. For section 19 of the said Act, the following shall be substituted, namely:—

"19. (*1*) When the place of an elected member of a District Board or Local Board becomes vacant by his resignation, removal or death, a new member shall be elected, in accordance with the rules made by the Lieutenant-Governor under this Act, to fill the place:

Filling of casual vacancies.

Provided that if, within the time prescribed by rules made by the Lieutenant-Governor under this Act, no new member is duly elected, the Commissioner may appoint a new member to fill the place.

(*2*) When the place of an appointed member of a District Board or Local Board becomes vacant as aforesaid, the Commissioner may appoint a new member to fill the place.

(*3*) No act of any District Board or Local Board, or of its officers, or of the Board in meeting, shall be deemed to be invalid by reason only of the fact that the number of members of the Board, at the time of the performance of the act, was less than the prescribed number.

"19A. (*1*) A member of a District Board or Local Board who has been appointed by official designation shall, subject to sections 17, 18 and 18A of this Act, and unless the Lieutenant-Governor otherwise directs, continue to be a member of the Board while he continues to hold the office to which such designation refers.

[*Cf.* Ben. Act III of 1885, s. 16 and s. 19, last para.]

Term of office of member of District Board or Local Board.

(*2*) A member of a District Board or Local Board who has been elected or appointed under section 19 shall, subject as aforesaid, hold office until the person whose place he fills would regularly have gone out of office, and shall then go out of office.

The Bengal Local Self-Government (Amendment) Bill, 1906.

(Clauses 9-14.)

(*3*) In cases not provided for by sub-section (*1*) or sub-section (*2*) of this section, the term of office of a member of a District Board or Local Board shall be fixed by the Lieutenant-Governor by rules, which may provide for the retirement of members by rotation.

(*4*) An outgoing member of a District Board or Local Board may, if otherwise qualified, be re-elected or re-appointed."

Amendment of section 22.

9. In section 22 of the said Act, after the word "elected" the words "either by name or by virtue of his office" shall be inserted.

New section 23A.

10. After section 23 of the said Act, the following shall be inserted, namely:—

"23A. If any District Board fails to elect a Chairman or Vice-Chairman within the time prescribed by rules made by the Lieutenant-Governor under this Act, the Lieutenant-Governor may appoint a Chairman or Vice-Chairman, as the case may be."

Appointment of Chairman or Vice-Chairman of District Board on failure to elect.

Amendment of section 25.

11. In section 25 of the said Act,—

(*a*) after the word "elected" the words "either by name or by virtue of his office" shall be inserted; and

(*b*) for the words "Lieutenant-Governor," in the first, second, fourth and fifth places in which they occur, the word "Commissioner" shall be substituted.

New sections 26 and 26A.

12. For section 26 of the said Act, the following shall be substituted, namely:—

"26. (*1*) Every Local Board shall, from time to time, within a period prescribed by rules made by the Lieutenant-Governor, under this Act, elect one of its members to be Vice-Chairman.

Vice-Chairman of Local Board.

(*2*) If any Local Board fails to elect a Vice-Chairman within such period, the Commissioner may appoint a Vice-Chairman.

"26A. A District Board or Local Board may grant leave of absence to their Chairman or Vice-Chairman for any period not exceeding three months in any one year."

[*Cf.* Ben. Act III of 1884, s. 26B.]

Leave of absence to Chairman or Vice Chairman of District or Local Board.

Amendment of section 27.

13. In section 27 of the said Act, for the words "to the Lieutenant-Governor, and on such resignation being accepted," the following shall be substituted, namely:—

"in the case of a Chairman of a District Board, to the Lieutenant-Governor, and, in the case of a Chairman of a Local Board, to the Commissioner; and, on such resignation being accepted by the Lieutenant-Governor or Commissioner, as the case may be".

New sections 29 and 29A.

14. For section 29 of the said Act, the following shall be substituted, namely:—

"29. (*1*) If a Chairman of a District Board dies, resigns, is removed, or avails himself of leave granted under section 26A, the Lieutenant-Governor may appoint a new Chairman, or may direct that, within a period prescribed by rules made by the Lieutenant-Governor under this Act, a new Chairman be elected by the members of the Board from among their own number, subject to his approval.

Casual vacancies in office of Chairman or of Vice-Chairman of District or Local Board.

The Bengal Local Self-Government (Amendment) Bill, 1906.

(Clauses 15, 16.)

(3) If a Chairman of a Local Board or a Vice-Chairman of a District Board or Local Board dies, resigns, is removed, or avails himself of leave granted under section 26A, the Board shall, at a special meeting held for the purpose within a period prescribed by rules made by the Lieutenant-Governor under this Act, elect from among its members a new Chairman or Vice-Chairman, as the case may be.

(5) If any District Board or Local Board fails to elect a new Chairman or Vice-Chairman within the prescribed period, the Lieutenant-Governor (in the case of a District Board) or the Commissioner (in the case of a Local Board) may appoint a new Chairman or Vice-Chairman, as the case may be.

Term of office of Chairman and Vice-Chairman.

"29A. (1) The term of office of an elected Chairman or Vice-Chairman of a District Board or Local Board, or of an appointed Vice-Chairman of a District Board or Chairman or Vice-Chairman of a Local Board, shall, subject to sections 27 and 28 of this Act, be the residue of his term of office as a member of the Board. [*Cf.* Ben. Act III of 1885, s. 24; s 25, last para.; s. 26, second para.; and s. 29, third para.]

(2) The term of office of an appointed Chairman of a District Board shall, subject as aforesaid, be one year from the date of his appointment; but he may be re-appointed on the expiration of that term.

(3) Notwithstanding anything contained in sub-section (1) or sub-section (2), the term of office of a Chairman or Vice-Chairman appointed or elected to fill a casual vacancy consequent upon the grant of leave under section 26A shall expire upon the return from leave of the person whose office he was appointed or elected to fill. [*Cf.* Ben. Act III of 1884, s. 27.]

(4) Every appointed Chairman of a District Board shall be deemed to be a member of the Board during his term of office."

Amendment of section 32.

15. In section 32 of the said Act,—

(a) for the words "Every District Board, and every Local Board with the sanction of the District Board," the following shall be substituted, namely:—

> "Any District Board, with the sanction of the Commissioner and subject to the control of the Lieutenant-Governor, and any Local Board, with the sanction of the District Board and of the Commissioner and subject to the control of the Lieutenant-Governor";

(b) for the words "leave, suspension and removal," in clause (g), the words "leave, leave allowance and punishment (including suspension and removal)" shall be substituted;

(c) after the words "and may" the words "with the like sanction and subject to the like control" shall be inserted; and

(d) for the concluding paragraph the following shall be substituted, namely:—

> "All rules made under this section, and all orders repealing or altering any such rules, shall be published in such manner as the Lieutenant-Governor may direct; and, so far as they are consistent with this Act and with any rules made by the Lieutenant-Governor hereunder, shall, upon such publication, have the force of law."

Amendment of section 33.

16. In section 33 of the said Act, after the words and figures "under section 30" the following shall be inserted, namely:—

"or by an Education Committee referred to in section 65B."

The Bengal Local Self-Government (Amendment) Bill, 1906.

(*Clauses 17-24.*)

New section 35.

17. For section 35 of the said Act, the following shall be substituted, namely:—

"35. A District Board may, from time to time, with the sanction of the Commissioner and subject to the control of the Lieutenant-Governor, make rules for pensions and gratuities to be granted and paid out of the District Fund to its establishment and for the grant and payment therefrom of extraordinary pensions and gratuities to the families of deceased employés; and may with the like sanction, and subject to the like control, repeal or alter such rules."

Pensions and gratuities to be paid out of the District Fund.

New section 35A.

18. After section 35 of the said Act, the following shall be inserted, namely:—

"35A. A District Board may, from time to time, with the sanction of the Commissioner and subject to the control of the Lieutenant-Governor, make rules— [Cf. Ben. Act III of 1894, s. 47.

Provident Fund.

(*a*) for the creation and management of a Provident Fund for its several establishments;

(*b*) for compelling members of its establishments to make contributions to such Fund;

(*c*) for supplementing such contributions by grants from the District Fund; and

(*d*) for the payment of moneys out of such Provident Fund;

and may, with the like sanction and subject to the like control, repeal, add to, or alter such rules."

Amendment of section 36.

19. In the proviso to section 36 of the said Act, before the words "Local Board" the words "District Board, or of the" shall be inserted, and for the words "is subordinate" the words and figures "may have been declared by an order under section 119 to be, for the purposes of this section, subordinate" shall be substituted.

New section 41A.

20. After section 41 of the said Act, the following shall be inserted, namely:—

"41A. Every Union Committee shall, from time to time, elect one of its members to be Chairman of the Committee."

Chairman of Union Committee.

Amendment of section 44.

21. In section 44 of the said Act,—

(*a*) for the words "the Local Board to which it is subordinate as hereinafter provided," the words and figures "the District Board or of the Local Board to which the Committee may have been declared by an order under section 119 to be, for the purposes of this section, subordinate" shall be substituted, and

(*b*) for the words "the Local Board," the words "the aforesaid District Board or Local Board" shall be substituted.

Addition to section 48.

23. To section 48 of the said Act, the following shall be added, namely:—

"*Explanation.*—Alterations or modifications may be made or directed by the Commissioner under this section on any of the grounds mentioned in the penultimate paragraph of section 47."

Addition to section 50.

24. To section 50 of the said Act, the following shall be added, namely:—

"Provided that no loan shall be raised for the purpose of constructing and maintaining a railway or tramway under the provisions of section 80, unless it is authorized by a resolution which has been passed at a meeting specially convened for the purpose, and in favour of which a majority of not less than two-thirds of the members of the District Board have voted."

41. After section 86 of the said Act the following shall be inserted, namely:—

"*D*(*1*).—*Tolls on Bridges.*

Power of District Board to establish toll-bars and levy tolls on bridges.

"86A. The District Board, with the sanction of the Lieutenant-Governor, may establish a toll-bar—

[*Cf.* Ben. Act III of 1884, ss. 158, 159 (*1*).]

(i) on any bridge in the district which, after the date of the commencement of the Bengal Local Self-Government (Amendment) Act, 1907, has been constructed or purchased out of the District Fund, or to the cost of the construction or purchase of which after the said date contribution has been made out of the District Fund; or

Ben. Act of 1907.

(ii) on the road-way or foot-way of any railway bridge which, after the said date, has, at the instance of the District Board and out of the District Fund, been so constructed or widened as to allow the passage of persons, vehicles or animals; or

(iii) at any place in the district adjacent to any bridge described in clauses (i) and (ii) at which tolls may conveniently be levied;

and may levy tolls at such toll-bar on persons, vehicles and animals passing over such bridge, road-way or foot-way:

The Bengal Local Self-Government (Amendment) Bill, 19 · ·.

(Clause 41.)

Provided as follows:—

(*l*) no toll-bar shall be established, or tolls levied, otherwise than for the purpose of recovering—

(*a*) the expenses incurred by the District Board in constructing, purchasing or contributing to such bridge, road-way or foot-way;

(*b*) interest on such expenses, at the rate of four *per centum per annum*, and

(*c*) the capitalised value of the estimated cost, or share of the cost, of maintaining such bridge, road-way or foot-way and of renewing it, if it requires periodical renewal;

(*2*) no toll-bar shall be established, or tolls levied, on or in respect of any bridge, road-way or foot-way, the cost or estimated cost of which, as indicated in clauses (*a*) and (*c*) of proviso (*1*), was or is less than ten thousand rupees.

"86B. The District Board may grant a lease, for any period not exceeding three years, of any toll-bar established under section 86A of this Act. [*Cf.* Ben. Act III of 1884, s. 164.]

Lease of toll-bar.

"86BB. When the District Boards of two adjacent districts, having jointly constructed, purchased or contributed towards the cost of the construction of a bridge, road-way or foot-way, have received sanction under section 86A to the establishment thereon of a toll-bar, the tolls shall be levied or granted in lease by such District Board as the Lieutenant-Governor may in his order according sanction direct, and the proceeds of such tolls, or of the lease thereof, shall be adjusted between the two District Boards according to the rules made in this behalf by the Lieutenant-Governor.

Tolls where bridge joins two districts.

"86C. (*1*) The following persons and things shall be exempted from payment of tolls at any toll-bar established under section 86A of this Act, namely:— [*Cf.* Ben. Act III of 1884, s. 168.]

(*b*) police-officers and other public officers travelling on duty, District Board officers so travelling, persons in the custody of any of the officers aforesaid, property belonging to or in the custody of any of the officers aforesaid, and vehicles and animals employed by any of the officers aforesaid for the transport of such persons or property;

(*c*) conservancy carts and other vehicles and animals belonging to the District Board, and persons in charge thereof; and

(*d*) any other class of persons or things which may be exempted by order of the District Board.

(*2*) In granting a lease of any toll-bar, the District Board may stipulate that any servants and property of the District Board and any other persons and things shall be exempted from payment of tolls thereat.

"86D. (*1*) When it has been determined that tolls shall be levied at any toll-bar established under section 86A of this Act, the District Board shall make and publish an order specifying the rates at which the tolls shall be levied. [*Cf.* Ben. Act III of 1884, s. 160.]

Rates of tolls.

(*2*) Such rates shall be subject to the sanction of the Commissioner, and may from time to time be varied with the like sanction.

The Bengal Local Self-Government (Amendment) Bill, 1905.

(*Clause 42.*)

"86E. (*1*) A table of such tolls, legibly printed or written in the vernacular of the district, shall be hung up in some conspicuous position near every such toll-bar, so as to be easily readable by all persons required to pay the tolls. [*Cf.* Ben. Act III of 1884, s. 165.]

Table of tolls to be hung up.

(*2*) In default of compliance with sub-section (*1*) of this section, the toll-collector, or the lessee of the toll-bar, as the case may be, shall be liable to fine which may extend to fifty rupees, and to a further fine which may extend to ten rupees for each day after the first during which the default continues. [*Cf.* Ben Act III of 1884, s. 166.]

"86F. The District Board, or the lessee of any toll-bar, may compound with any person for a certain sum to be paid by such person for himself, or for any vehicles or animals kept by him, in lieu of the rates specified under section 86D of this Act. [*Cf.* Ben. Act III of 1884, s. 167.]

Power to compound for tolls.

"86G. Any toll-collector or lessee of a toll-bar established under section 86A of this Act may refuse to allow any person to pass through the toll-bar until the proper toll has been paid. [*Cf.* Ben Act III of 1884, s. 161.]

Power of toll-collector or lessee in case of refusal to pay toll.

"86H. Whoever, having rendered himself liable to the payment of toll, refuses to pay the toll, shall be liable to fine which may extend to fifty rupees. [*Cf* Ben. Act III of 1884, s. 162.]

Penalty for refusing to pay toll.

"86J. If resistance is offered to any person authorized under this Chapter to collect tolls, any police-officer whom he may call to his aid shall be bound to assist him; and such police-officer shall, for that purpose, have the same powers as he has in the exercise of his ordinary police duties. [*Cf.* Ben. Act III of 1884, s. 169.]

Police-officers to assist.

"86K. If any person authorized under this Chapter to collect tolls demands or takes any higher tolls than the tolls authorized under this Chapter, he shall be liable to fine which may extend to fifty rupees, and, in default of payment, to imprisonment for a term which may extend to one month. [*Cf.* Ben. Act III of 1884, s. 170.]

Penalty for taking unauthorized tolls.

"86L. (*1*) When a toll-bar has been established and tolls have been levied, under section 86A of this Act in respect of any bridge, the District Board shall, at the end of each financial year, publish, by causing to be posted up at their office, an abstract account showing— [*Cf.* Ben. Act III of 1884 s. 159.]

District Board to publish expenses, etc., of toll-bars.

(*a*) the amount of the expenses incurred in constructing the bridge;

(*b*) the amount of interest which has accrued due on such expenses;

(*c*) the capitalised value of the estimated cost of maintaining the bridge, and of renewing it, if it requires periodical renewal; and

(*d*) the amount which has been received from the profits of the said toll-bar since its establishment.

(*2*) As soon as such expenses, interest, and capitalised value have been recovered as aforesaid, such toll-bar shall be removed, and tolls shall no longer be levied on such bridge."

New section 88A.

42. After section 88 of the said Act the following shall be inserted, namely:—

"88A. A District Board may, with the sanction of the Lieutenant-Governor, contribute such annual or other sum as may be agreed upon towards the cost of the construction, repair and maintenance, under the provisions of the Bengal Municipal Act, 1884, of water-works, wells or tanks within the district." [*Cf.* Ben. Act III of 1885, s. 69.]

CALCUTTA;
The 5th March, 1907.

L. C. ADAMI,
Offg. Secretary to the Bengal Council.

ANNEXURE TO THE REPORT OF THE SELECT COMMITTEE ON THE BENGAL LOCAL SELF-GOVERNMENT (AMENDMENT) BILL, 1906.

NOTE BY THE HON'BLE BABU JOGENDRA NATH MUKHARJI.

Agreeing entirely as to the rest of the Report, I beg to add a few lines with reference to my proposals regarding sanitation of areas outside Village Unions as well as the constitution of a Sanitary Board and the entertainment of a whole-time Sanitary Inspector in connection with every District Board. While acknowledging my obligations to the Hon'ble Members of the Select Committee for the sympathy they have extended to my proposals, specially to the Hon'ble Mr. F. A. Slacke for the opportunity he allowed me of discussing the question of sanitation of locations in the mining districts of Bengal, in the light of his mature experience, I feel that I should record my conviction that any legislation in connection with the general sanitation of districts cannot be successfully accomplished independently of District Boards and the administrative machinery provided by the Local Self-Government Act. To my mind, the sanitation of areas outside Village Unions is not impossible of achievement without fresh taxation. The Administration Reports show from year to year that there is generally a large unspent balance in the funds of almost every District Board at the end of the year, and the report for 1905-06 for Western Bengal shows that a sum of Rs. 19,18,683 over and above the statutory working balance has been carried over by the District Boards, together, into the current year's accounts. Further, the closing balances in the districts of Darbhanga, Gaya, Saran and Purnea, and generally of the districts in the Presidency and Burdwan Divisions, were unwarrantably heavy, and in the Bihar districts aforesaid, they ranged from Rs. 85,063 to Rs. 2,09,800. It is not perhaps desirable to merely impress upon District Boards the necessity of fully utilising their resources, without at the same time indicating the direction in which the unspent balances may be usefully employed. One may not find it difficult to imagine that if this is done with persistence, it may result in developing in the District Boards a tendency to indiscriminate expenditure, ensuring a cleaner account sheet than a better administration of the District Fund. Further, a more vigorous and searching application of the District Fund must entail a corresponding increase in the Ministerial staff and consequent increase of expenditure on the establishment—a result which it must be conceded is desirable to avoid as much as possible. It seems to me that the District Boards, constituted as they are at present, can hardly cope with the details of village sanitation through the agencies now at their command, and it has become absolutely necessary that panchayats should be constituted in village areas outside Unions to carry out, wherever necessary, the work of sanitation, including water-supply. The scale on which their work should be carried on will of course be lesser in point of extent or magnitude than that of Village Unions. The ordinary staff under the District Boards will be quite fully occupied if they be required only to supervise the work of these panchayats. The details must, therefore, be left to the latter to be carried out, and for that end they must be charged with the necessary statutary powers and obligations. These are the main features of the legislation proposed by me.

2. But if the work of sanitation is to be carried on with vigour and effect, there must be a body of men in the District Boards whose special business should be to pay attention to sanitary matters exclusively. A Sanitary Board should, I venture to submit, therefore be formed and a well-qualified paid whole time Sanitary Inspector entertained in every district, excepting only those where, for special reasons, the Lieutenant-Governor may consider the retention of such special officers to be too expensive or otherwise undesirable. Unless this course be adopted, it will be futile, more or less, to expect either a proper initiation of sanitary measures or a proper supervision of the sanitary works that may have been undertaken by a District Board, Local Board, or Village Union, or by the panchayats. In this view of the matter, I have proposed certain changes in section 91 of the Act. The proposed new section 91, together with a new Chapter IIIA, which I have proposed to add, will be found on the paper appended hereto.

3. Regarding the financial aspect of the question, it seems to me that it will be distinctly advantageous to the object in view, if a regular supply from the proceeds of special taxation were rendered available. I am prepared also to concede that it will be somewhat difficult to carry on the work of sanitation on any comprehensive scale, if the resources available were limited to grants from the District Boards only. But the possibility of grants from the Imperial and Provincial revenues, as also of donations from private individuals, must not be neglected. It is not very uncommon to find a resident, who is habitually absent from his native village, anxious to do something for it and ready to spend money if he could find a responsible local agency fit to carry out his wishes. The main question, therefore,

resolves itself into this: whether legislation should be deferred until a scheme of local taxation, resting entirely on the option of the people concerned, were developed, or that a machinery should be provided for by legislation at once to carry out, as much as possible, the work of sanitation in areas outside Village Unions, keeping clear of the question of taxation. The uncertainties of the former course are obviously manifold. No one can foresee at this stage whether the Government of India and the Secretary of State in Council, or the country at large, is prepared to face the question of fresh taxation. At the same time, it is quite plain that, during the period of twenty-one years that the present Local Self-Government Act has been in operation, little or nothing has been achieved regarding sanitation of the country at large. The present Act appears to me to be deficient in point of organization; so long as the necessary machinery is not provided for, no appreciable results can be expected. The second course, therefore, appears to me to be by far the preferential course to adopt. It has this special advantage also, that if, in future, Government decides to introduce into the scheme the principle of fresh local taxation, whether making it dependent upon local option or not, it can be very easily fitted into it. The urgency of the question requires that what little can be done must not be left undone, simply because of the possibility of a better and more comprehensive scheme being developed in future.

ANNEXURE TO NOTE.

PROPOSED LEGISLATION WITH REFERENCE TO SANITATION OF AREAS OUTSIDE UNIONS.

CHAPTER IIIA.

119A. When the sanitary condition of a village or any other inhabited area in a district, not included in any Union, is, in the opinion of the District Magistrate or Deputy Commissioner of the district in which the village is situate, such as to be injurious to the health of the inhabitants, he may, by an order in writing, published in such manner as the Local Government may by rule prescribe, declare that the village or area is in an insanitary state:

Provided that in a district where there is a District Board and the Chairman of such District Board is not the District Magistrate or the Deputy Commissioner, such Chairman may report, for the consideration of the District Magistrate or the Deputy Commissioner, that any village or inhabited area outside Unions is in an insanitary condition, and that the declaration provided for in paragraph 1 of this section is necessary.

After the publication of the order as provided in paragraph 1 of this section, the provisions contained in sections 119B, 119C, 119D, 119E and 119F shall apply to the village or area referred to in such order from such date as may be specified in the notification.

119B. In every village or area referred to in the order passed under section 119, a panchayat shall be formed, consisting of such number of representatives, not less than four, as the Local Government may by rule prescribe, two of whom shall be appointed by the District Magistrate or the Deputy Commissioner, and the remainder shall be chosen by election from among the inhabitants of the village or area aforesaid.

119C. The panchayat constituted under section 119B shall, subject to the approval of the Chairman of the District Board, or, in districts where there are no District Boards, subject to the approval of the District Magistrate or the Deputy Commissioner, determine the sum that may be necessary either annually or for any fixed period for the village or area referred to in the order passed under section 119A for all or any one of the following purposes:—

(*a*) the proper cleansing and conservancy of the village or area;

(*b*) the provision and maintenance of a supply of wholesome drinking water for the inhabitants of the village or area, and their cattle.

119D. The panchayat shall be responsible to the District Board or the District Magistrate or the Deputy Commissioner, as the case may be, for the proper application of any funds that may be placed at its disposal for the purposes mentioned in section 119C, by the District Board or any other authority, or by any private person or persons, and for carrying out the objects for which such funds may be placed at its disposal, and shall also have authority to carry out generally the purposes mentioned in section 119C.

119E. The District Board, or, in districts where there are no District Boards, the District Magistrate or the Deputy Commissioner, as the case may be, shall, subject to the approval of the Divisional Commissioner, make rules—

(*a*) regulating the mode of election and the proceedings of the panchayats, the term of office of the members of a panchayat, and the circumstances under which, and the authority by whom, they may be removed;

(*b*) the safe custody and application of funds and auditing of the accounts thereof;

(*c*) regulating the conservancy of the village or area in which the panchayat shall have authority, defining and prohibiting public nuisances, and the maintenance of village roads and the prevention of encroachments thereon;

and for the punishment by fine for the breach of any provision therein contained.

119F. The District Board and in districts where there are no District Boards, the District Magistrate or the Deputy Commissioner may direct that the provisions of this Chapter shall cease to have operation in any village or area referred to in section 119A from a date that may be fixed for the purpose, and the panchayat shall, on or before the date so fixed, make over any moneys in its hands to the District Board or, in districts where there are no District Boards, to the District Magistrate or the Deputy Commissioner, as the case may be.

The above sections will of course have to be co-ordinated with the provisions contained in the other parts of the Act.

Co-ordination and other improvements suggested.

Section 88.—Add to clause (*l*): at the end of it, "either directly or through any Local Board, village union, or village panchayat constituted under section 119A."

Add new clause:—

Clause (*4*).—Arrange for the sanitation of villages or other inhabited areas through panchayats constituted under section 119A.

Section 90—Insert the following words after the word "may" where it first occurs: "either directly or through bodies subordinate to it and panchayats constituted under section 119A" . . .

Section 91.—New section to be substituted as follows:—

"Every District Board shall appoint a Sanitary Board consisting of members belonging to it, and not exceeding five in number, under rules framed by the Local Government in this behalf for the purpose of initiating and supervising all works connected with the sanitation of the district, and shall also appoint a properly-qualified whole-time Sanitary Inspector, and, subject to the provisions of section 33, fix the salary of such Sanitary Inspector and the details of the establishment subordinate to it:

Provided that the Lieutenant-Governor may, for reasons which may appear to him to be sufficient, exempt any District Board, wholly or partially, from the operation of this section."

WEDNESDAY, MARCH 6, 1907.

NOTICES TO MARINERS.

THE following Notices are published for general information.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

CALCUTTA, *the 4th March 1907.*

AFRICA, EAST COAST—SOMALILAND.

Athelet (Itala) anchorage—Leading beacons disappeared.

No. 97 (first publication).—With reference to Notice to Mariners No. 323, dated 3rd September 1906, issued by this office, the British Admiralty has given further notice (No. 150 of 1907) that the two leading beacons leading to the northern anchorage off Athelet, and formerly situated at distances of 1.3 cables N. 23° E. and 12½ cables N. 30° E. respectively from Garesa flagstaff, have disappeared.

Approximate position of La Garesa, lat. 2° 45½′ N., long. 46° 18½′ E.

(Variation 4° Westerly in 1907.)

This Notice affects the following Admiralty Chart:—Plan of Athelet anchorage on chart No. 671: Also, Africa Pilot, part III, 1905, page 523.

EASTERN ARCHIPELAGO—CELEBES ISLAND—MAKASSAR.

Great Lae Lae shoal—Light established.

No. 98 (first publication).—With reference to Notice to Mariners No. 124, dated 5th April 1904, issued by this office, the British Admiralty has given further notice (No. 153 of 1907) that a *white flashing* light *every three seconds*, the duration of each flash being one second, has been established in a black beacon on Great Lae Lae shoal, Makassar road.

Approximate position, lat. 5° 8′ 50″ S., long. 119° 23′ 25″ E.

The beacon on the reef has been removed.

This Notice affects the following Admiralty Charts:—Approach to Makassar, No. 1293; plan of Makassar road on chart No. 2632: Also, List of Lights, Part VI, 1906, No. 552; Eastern Archipelago, Part II, 1904, page 306; and Supplement, 1906, page 16.

EASTERN ARCHIPELAGO—BORNEO, EAST COAST.

Balik Papan bay—Buoy withdrawn.

No. 99 (first publication).—The British Admiralty has given notice (No. 154 of 1907) that the white conical buoy, No. 2, on the southern side of the entrance to the anchorage in Balik Papan bay, and formerly situated at a distance of 5⅛ miles S. 54° E. from Tokong, has been withdrawn.

Approximate position of Tokong, lat. 1° 16′ S., long. 116° 48′ E.

(Variation 2° Easterly in 1907.)

This Notice affects the following Admiralty Chart:—Plan of Balik Papan bay on chart No. 3031: Also, Eastern Archipelago, part II, 1904, page 291; and Supplement, 1906, page 15.

EASTERN ARCHIPELAGO—CELEBES.

Gulf of Boni—Reefs.

No. 100 (first publication).—The British Admiralty has given notice (No. 155 of 1907) of the existence of the undermentioned coral reefs in the following positions in the gulf of Boni:—

(*a*) A reef, which dries, in approximately lat. 3° 45′ S., long. 121° 2′ 45″ E. This reef is one mile long in a north-north-westerly and south-south-easterly direction.

(*b*) A reef, which dries, in approximately lat. 3° 42′ 40″ S., long. 120° 59′ 40″ E. This reef is about half a mile long in a north-north-westerly and south-south-easterly direction.

(*c*) A reef, which dries, in approximately lat. 3° 42′ 30″ S., long 120° 57′ 40″ E. This reef is about one mile long in a north-westerly and south-easterly direction, and has a sand bank about 4 feet above water on its south-eastern edge.

(*d*) The reef shown on the chart, with a depth of less than 6 feet over it, in approximately lat. 3° 40¼′ S., long. 120° 55′ E., dries, and is about 2 miles long in a north-westerly and south-easterly direction.

(*e*) A reef, which dries, in approximately lat. 3° 38′ 15″ S, long. 120° 54′ 25″ E. This reef is about 5 cables long in a northerly and southerly direction.

(*f*) A reef, which dries, in approximately lat. 3° 34′ 30″ S., long. 120° 54′ E. This reef is about half a mile long in a north-north-westerly and south-south-easterly direction. A similar reef exists at a distance of half a mile S. 19° W. from this position.

(*g*) A reef, about half a mile long, extending from the shore in approximately lat. 3° 29¾′ S., long. 120° 53¼′ E.

(Variation 2° Easterly in 1907.)

This Notice affects the following Admiralty Charts:—China sea, No. 1883; Eastern Archipelago, western portion, No. 941b; Eastern Archipelago, eastern portion, No. 942a: Also, Eastern Archipelago, Part II, 1904, page 354; and Supplement, 1906, page 20.

AFRICA, EAST COAST—KILIMAN RIVER ENTRANCE.

Light altered—Buoyage amended—Beacons removed.

No. 101 (first publication).—The British Admiralty has given notice (No. 156 of 1907) that the following alterations have been made in the lighting and buoyage of Kilimán river:—

Light:—

A *white fixed* light, elevated 65 feet above high water, and visible in clear weather from a distance of 11 miles, has been established in a pyramidal structure, painted white, erected on Tangalane point at a distance of 1¼ cables N. 75° E. from the site of the former lighthouse, the light of which has been discontinued and the tower removed, owing to the erosion of the coast in its neighbourhood.

The new light is 57 feet above the ground.

Approximate position, lat. 18° 1½′ S., long. 36° 58½′ E.

Buoys have been established in the undermentioned positions:—

1. A black cylindrical buoy, named "Espera," or Fairway, surmounted by a staff and white cone under a black cylinder, is moored in a depth of 33 feet at a distance of 7½ miles S. 10° W. from the lighthouse.
2. A red spherical buoy, named Tangalane I, surmounted by a staff and cone, point upwards, is moored in a depth of 11 feet at a distance of 4$\frac{6}{10}$ miles S 16° W. from the lighthouse.
3. A black cylindrical buoy, named Cavallos Marinhos, surmounted by a staff and cylinder, is moored in a depth of 14 feet at a distance of 3$\frac{8}{10}$ miles S. 20° W. from the lighthouse.
4. A red spherical buoy, named Tangalane II, surmounted by a staff and cone, point downwards, is moored in a depth of 14 feet at a distance of 3 miles S, 26° W. from the lighthouse.
5. A black cylindrical buoy, named Olinda, surmounted by a staff and cylinder, is moored in a depth of 15 feet at a distance of 2 miles S. 44° W. from the lighthouse.
6. A black spindle-shaped buoy, named Militao, surmounted by a cylinder, is moored in a depth of 28 feet at a distance of 8$\frac{5}{10}$ cables N. 83° W. from the lighthouse.

In entering, red buoys are to be left to starboard and black buoys to port, after passing the Fairway (Espera) buoy, vessels may cross the bar on which the least depth at present is 11½ feet at low water.

It is presumed the other buoys have been withdrawn, though this is not expressly stated.

The beacons on Tangalane point, which formerly led over the bar, have been removed, but a flagstaff, from which bar signals are made, and a pilot station have been established on this point, the exact position of which is not given.

(*Variation 15° Westerly in 1907.*)

This Notice affects the following Admiralty Charts:—River Zambesi to Mozambique harbour, No. 1810; Kilimáni river on chart No. 650: Also, List of Lights, part VI, 1906, No. 47; and Africa Pilot, part III, 1905, page 274.

CHINA SEA—FORMOSA (TAIWAN), NORTH-EAST COAST.

Petu point light—Replaced by temporary light.

No. 102 (first publication).—The British Admiralty has given notice (No. 158 of 1907) that on 20th December 1903, the white revolving light on Petu point, north-east coast of Formosa, would be replaced by a temporary *red fixed* dioptric light, elevated about 180 feet above high water, and visible in clear weather from a distance of 6 miles; the power of the light, which is shown from a wooden staff erected about 15 feet north-eastward from the lighthouse, is about 100 candles. The lighthouse on this point will be removed.

Approximate position, lat. 25° 8′ N., long. 121° 55′ E.

This Notice affects the following Admiralty Charts:—Hong Kong to Liautung gulf, No. 1862; China sea, No. 1203; Amoy to Nagasaki, No. 2412; Formosa island, No. 1968: Also, List of Lights, part VI, 1906, No. 952; China Sea Directory, vol. III, 1904, page 263

PACIFIC OCEAN—NEW GUINEA, NORTH-EAST COAST.

L'Echiquier islands—Non-existence of reef on the northward.

No. 103 (first publication).—The British Admiralty has given notice (No. 159 of 1907) that an unsuccessful search has been made for the two rocks, 16 to 20 feet in height, reported in 1899 by the Master of the S.S. *Dundee* to be situated about 60 miles northward of L'Echiquier islands; they have therefore been expunged from the charts.

Approximate position, lat. 0° 11′ S., long. 144° 15′ E.

This Notice affects the following Admiralty Charts:—Atlantic and Pacific oceans, No. 2483; Pacific ocean, No. 2683; Pacific, No. 780; Australia, northern portion, No. 2759a; North-east coast of New Guinea, No. 2766: Also, Pacific Islands, vol. I, 1900, page 413.

EASTERN ARCHIPELAGO—SUMATRA, WEST COAST.

Simalur island, south coast—Partially submerged.

No. 104 (first publication).—The British Admiralty has given notice (No. 165 of 1907) that the south coast of Simalur island has been partially submerged by an earthquake, and that pulo Simalur Chut has almost disappeared. A note to this effect has been placed on chart.

Approximate position, lat. 2° 31′ N., long. 95° 58′ E.

Further particulars will be published when the full effects of this catastrophe are known

This Notice affects the following Admiralty Charts :—Acheh head to Tyingkok bay, No. 2760 ; plans of Simalur island on charts Nos. 2201 and 2234 : Also, China Sea Directory, vol. I, 1906, pages 353, 364.

CHINA, CANTON RIVER—Boca Tigris.

China rock—Light established.

No. 105 (first publication).—With reference to Notice to Mariners No. 248, dated 6th July 1906, issued by this Office, the British Admiralty has given further Notice (No. 166 of 1907) that, on the 24th November 1906, a *red fixed* dioptric light of the 6th order elevated 33 feet above high water, and visible in clear weather from a distance of 10 miles, was established in a square red brick tower, 36 feet high, erected on Chain rock, Boca Tigris, Canton river.

Approximate position, lat. 22° 47½′ N., long. 113° 37½′ E.

This Notice affects the following Admiralty Charts :—Macao to Pedro Blanco, No. 3026 ; Canton river delta, No. 3588 ; Canton river, No. 3562 : Lantin bar to Tiger island, No. 1741 : Also List of Lights, Part VI, 1906, page 123 ; and China Sea Directory, vol. III, 1904, page 92.

BAY OF BENGAL—Orissa coast.

False point anchorage.—Outer Ridge buoy replaced in position.

No. 106 (first publication).—With reference to Notice to Mariners No. 421, dated 31st October 1906, issued by this Office, a further telegraphic communication has been received from the Port Officer, Cuttack and Balasore ports, stating that the Outer Ridge buoy, False Point anchorage, has been replaced in position, in 19 feet reduced, flag-staff bearing south 17° east, Jamboo telegraph station south 60° west, magnectic.

BAY OF BENGAL—Chittagong coast.

South Patches—Light vessel replaced in position.

No. 107 (first publication).—With reference to Notice to Mariners No. 448, dated 22nd November 1906, issued by this office, a further telegraphic communication has been received from the Port Officer, Chittagong, stating that South Patches light vessel has been replaced in position.

The 5th March 1907.

INDIA, WEST—Bombay coast.

Bombay harbour approach.—Wreck buoy on wreck of Pilot schooner No. 1 removed.

No. 86 (second publication).—With reference to Notice to Mariners, No. 294, dated 13th August 1906, issued by this office, the Bombay Government has given further notice (No. 11 of 1907) that the wreck of Pilot Schooner No. 1 being no longer an obstruction or danger to navigation the wreck buoy has been removed.

This Notice affects the following Admiralty Charts :—Arabian Sea, No. 1012, India, West, Coast, Sheet I, Vengurla to Cape Comorin, No. 826; Gulf of Kutch to Viziadrug, No. 2736, India, West Coast, Sheet III, Arnala Island to Kundari, No. 737, and Bombay Harbour No. 2621; also West Coast of Hindustan Pilot, 4th edition, 1898, page 207."

CHINA, EAST COAST—Yang tse Kiang.

Alterations in lights and buoys.

No. 87 (second publication).—The British Admiralty has given notice (No. 120 of 1907) that, on or about 1st February next, the following alterations will be made in the lights and buoys in the entrance to the Yang-tse-Kiang :—

North channel—

(1) Liu Chiao occulting light will be discontinued.

Approximate position, lat. 31° 30′ N., long. 121° 41½′ E.

(2) Drinkwater Point light-vessel, exhibiting a *white occulting* light, will be moved 5 miles N. 85° W. to a position situated approximately in lat. 31° 24½′ N. long. 121° 56½′ E.

(3) Drinkwater Point light-buoy, painted in red and black horizontal bands, exhibiting an *occulting* light, will be re-established at a distance of 12$\frac{4}{10}$ miles S. 87° W from Shaweishan light.

Approximate position, lat. 31° 24½′ N., long. 122° 0′ E.

(4) Chi Yao bank light-buoy, exhibiting an occulting light, will be withdrawn.

Approximate position, lat. 31° 25½′ N., long. 121° 49′ E.

(5) A light-buoy, painted black, and named "Middle island gas buoy," will be moored to mark the southern side of the channel, at a distance of 1½ miles S. 45° W. from the site of Liu Chiao lighthouse.

Approximate position, lat. 31° 28½′ N., long. 121° 40½′ E.

Middle island black can buoy, about 14 cables N. 70° W., from this position, will be withdrawn.

South channel—

(*a*) A light-buoy, painted red, will be established in a depth of 30 feet at low-water springs, at a distance of 11 cables S. 41° W. from Quarantine beacon.

(*b*) A conical buoy, painted red, will be established in a depth of 30 feet at low-water springs, at a distance of 1¾ miles S. 16° E. from Quarantine beacon.

The above buoys (*a* and *b*) will mark both the limit of the quarantine anchorage and also the northern side of the channel.

(*c*) The two white buoys at present situated at distances of 9½ cables S. 56° W. and 17 cables S. 1° E., respectively, from Quarantine beacon will be withdrawn.

Approximate position, Quarantine beacon, lat. 31° 26½′ N., long. 121° 31½′ E.

(*Variation 3° Westerly in 1907.*)

NOTE.—Changes in the river-bed before the date given for their establishment may make it necessary to select other positions for the above buoys: the positions given above are therefore only approximate.

This Notice affects the following Admiralty Charts:—Kueshan islands to Yang tse Kiang, No. 1199; approaches to Yang tse Kiang, No. 1602; Wusung river approaches, No. 3585: Also List of Lights, Part VI, 1906, No. 814, page 133: and China Sea Directory, vol. III, 1904, pages 402, 403, 409.

PACIFIC OCEAN—PHILIPPINE ISLANDS—LUZON, SOUTH EAST COAST.

Port Gubat—Shoal reported.

No. 88 (second publication).—The British Admiralty has given notice (No. 122 of 1907) that a rocky shoal, with a depth of about 3¼ fathoms over it, is reported to exist in port Gubat, in a position situated at a distance of one mile S. 80° E. from Gubat Church.

Approximate position, lat. 12° 55′ N., long. 124° 8½′ E.

(*Variation Nil in 1907*).

This Notice affects the following Admiralty Chart:—Plan of port Gubat on Chart No. 3475: Also Eastern Archipelago, Part I, 1903, page 351; and Supplement 1906, page 27.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

⌓, dew; 〓 fog; t thunder; o overcast.

explained in the following paragraphs.

3. It may appear at first sight that we suggest a large number of important alterations in the Bill, but an examination of our Report will show that changes affecting principle are comparatively few. The Bill deals with a large number of points affecting the practical working of the Act, and many of the opinions received have contained valuable suggestions as to improved methods for giving effect to the principles approved or accepted in the Bill as introduced. The adoption of these has in some cases involved consequential amendments in other sections. The majority of the amendments which we propose are of this class. Of the more important and novel amendments which we propose we would call attention to the following:—

(1) The provisions regarding the application of the Act to municipal areas (clause 3).

(2) The revised definition of "village" [clauses 4 (2 and 27A)].

(3) The period for which a commuted rent shall remain unaltered (clause 10).

(4) The provision regarding interest payable on arrears of rent before the institution of a suit (clauses 13 and 15).

(5) The provision regarding the finality of the decision of a Revenue-officer on matters affecting rents settled under section 105 (clause 21B).

(6) The provision enabling fair rents to be settled on the agreement of parties during the framing of a record-of-rights (clause 24).

Letter No. 123, dated the 16th January, 1907, from the District Judge of Burdwan [Paper No. 44.]
Letter No. 13, dated the 14th January, 1907, from the District Judge of Shahabad. [Paper No. 45.]
Letter No. 46, dated the 15th January, 1907, from the District Judge of Patna, with enclosures. [Paper No. 46.]
Letter No. 132, dated the 17th January, 1907, from the Secretary, Bengal Chamber of Commerce. [Paper No. 47.]
Letter, dated the 24th January, 1907, from the Honorary Secretary, Bengal Landholders' Association. [Paper No. 48.]
Letter, dated the 14th February, 1907, from the Honorary Secretary to the Indian Association [Paper No. 49.]
Letter, dated the 14th February, 1907, from Babu Monohur Mookerjee, Zamindar of Uttarpara. [Paper No. 50.]
Letter, dated the 18th February, 1907, from Babu Dasarathi Datta, Deputy Magistrate and Deputy Collector, Jessore. [Paper No. 51.]
Petition, dated 26th March, 1906, from Babu Kalachand Banarjee, of Purulia, and others, and letter, dated the 8th April, 1906, from the Editor, Hindoo Patriot, Zamindar, Presidency Magistrate, etc. [Paper No. 52.]

(7) The provision requiring Revenue-officers to take independent evidence in certain cases when framing a record of proprietor's private land (clause 29A).

(8) The provisions regarding applications for a review of judgment or for setting aside *ex parte* decrees in rent suits (clause 32A).

9) The alterations made in clauses 34, 39 and 43 regarding suits for the recovery of rent brought by co-sharer landlords.

The principal omissions which we propose to make in the Bill as introduced are as follows:—

(*1*) The provision in clause 10 enabling raiyats to sue for a reduction of rent on the ground that their rent is above the prevailing rate.

(*2*) The provision in clause 15 extending to non-occupancy raiyats the right to apply for commutation;

(*3*) The provision in clause 22 regarding the settlement of rents in private estates on the basis of a table of rates.

The remaining changes have been made for the purpose either of improving the drafting of the Bill, or of removing some comparatively unimportant defects and anomalies in the working of the Act, which have been pointed out by Associations and persons consulted in regard to the Bill.

4. *Clause 2.*—The object of the framers of the Bengal Tenancy Act, in inserting section 14, was to facilitate the registration of tenures by the Collector. Since all idea of such registration has been abandoned, we consider the retention of the section unnecessary.

5. *Clause 3.*—The provisions of the Act are intended to apply to agricultural areas, and are unsuitable to such Municipalities or portions thereof as are mainly urban in character. We think that the Local Government should have power to withdraw from the operation of the Act such municipal urban areas by notification, when it is satisfied by inquiry that such withdrawal is expedient. We consider that the operation of the Act should not ordinarily be withdrawn from any area until a record of the rights existing under the Act in such area has been made, but it appears to be unnecessary to provide for this in the Act. We recommend, therefore, the amendment we have suggested in this clause and a consequential amendment in clause 7.

6. *Clause 4 (1).*—The object of this clause as orginally drafted was to widen the definition of "rent" so as to make it clear that interest or damages granted in lieu of interest could be recoverable by the same procedure as rent. But strong objection has been raised to altering the definition, and it has been pointed out, we think rightly, that this would introduce complications in various sections of the Act, in which rent is referred to. We think that the object desired can be best attained by mentioning Chapter XIV of the Act in the definition of "rent" in sub-section (5) of section 3, and by adding a clause to section 161 of the Act explaining that, for the purposes of Chapter XIV regarding sales for arrears under a decree the term "arrears" includes interest or damages awarded in lieu of interest. This has been provided for by the new clause 34A, which we have inserted in the Bill. Clause 34B makes a verbal amendment in section 168 of the Act, so as to make the reference to arrears of rent uniform throughout Chapter XIV.

7. *Clause 4 (2).*—It has been brought to our notice that some practical inconvenience has been caused by the present definition of "village" in sub-section (*10*) of section 3 of the Act as the area included in a village map of the revenue-survey. In the Cadastral Surveys which are now being made in parts of the province in connection with the preparation of a record-of-rights, it is found in many cases, however, that, owing to the clearance of jungle and other causes, the existing boundary of a village does not agree with that ascertained in the revenue-survey, and rule 4 (*c*) of the Rules made by the Bengal Government prescribes that, in such cases, the existing boundary ascertained by the Revenue-officer is to be followed for the purpose of map and record. We propose to bring the law into conformity with this rule, for, we consider it advisable that where a Cadastral Survey has been made on a larger scale and with greater care and accuracy than the Revenue Survey, Government should have power to declare that the maps of the Cadastral Survey should supersede those of the Revenue Survey for the purposes of the Tenancy Act. We propose, therefore, that in the Tenancy Act, the definition of "village", which was adopted in the Land Registration (Amendment) Act of 1906, should be inserted. We consider, however, that the Revenue Survey map should be preserved as far as possible as the unit of survey and record in the course of the Cadastral Survey, and that no change should be made except with the sanction of the Board of Revenue. We have provided for this by the new clause 27A, which we propose to insert in the Bill.

8. *Clauses 5 and 5A.*—It is essential that the landlord should receive notice of transfers under sections 12, 13 and 15 at the earliest possible opportunity. The present practice is, that the landlord's fee is deposited with the Collector, by whom a notice is served on the landlord to come and claim the fee. This practice is not altogether in accordance with the terms of the law, which lays down that the Collector must cause the amount to be paid to the landlord. There is at present no provision for the costs of transmitting the fee. Time will, we think, be saved if the amount necessary for the transmission of the landlord's fee is paid by the transferee in the first instance, and sent with the fee to the Collector, who can thereupon send the fee by money order, or in such way as the Government by rule directs, to the landlord. We would protect the Collector from being held liable for paying the fee to the wrong person, by authorizing him in all cases to pay it to the landlord named in the notice.

The reluctance of landlords to accept fees is due as much to the tenant's habit of understating the rent as to his misdescribing the tenure. We have inserted the words "amount or" before the word "fixity" in the new sub-section (*4*) of section 12 and in clause (*a*) of the new section 17A.

9. *Clause 5 B.*—This clause is consequential upon the changes made in clauses 5 and and 5A.

10. *Clause 6.*—We consider the period of six months for the reclamation of fees by a landlord too short, and have extended it to three years. The insertion of the words "accepted or" is rendered necessary by the use of the word "transmitted" in clauses 5 and 5A.

11. *Clause 7.*—The amendment we propose in this clause has been partly explained in the note on clause 3 above. As drafted in the Bill introduced into Council, the new sub-section (*2*) of section 19, while preserving previously acquired occupancy rights in land included within Calcutta, or in a municipal area excluded from the operation of the Act, would fail to secure therein the fulfilment of obligations attaching to such rights. A landlord would, thus, be powerless to restrain his tenant from converting his land into a bustee, or to eject him, if he used his lands in any of the ways mentioned in section 25. We now suggest a remedy for this.

12. *Clause 8.*—The object of the amendment proposed in this clause is to prevent the acquisition of occupancy holdings by landlords, but it is uncertain

whether the result desired would be achieved by the substitution of the word "tenancy" for the words "occupancy rights,", since the word "tenancy" is nowhere defined. The amendments which we propose to substitute will give effect to the intention of the framers of the Act, by providing that, where a sole landlord acquires an occupancy holding of his raiyat, the interests of such landlord and tenant merge into a landlord's interest; and that where one of several co-sharer landlords or joint tenure-holders acquires an occupancy right of a tenant of all the co-sharers or joint-tenure holders, such landlord cannot thereby acquire an occupancy right, or, by sub-letting, bar the acquisition of raiyati rights by the sub-lessee. At the same time, under the section as modified by us, the landlord will not be prevented from cultivating the land himself, though the holding will not become proprietor's private land.

We have inserted an *Illustration* to make the meaning of the section quite clear.

Our attention has been called to a Ruling of the High Court (4 Calcutta Law Journal, 209) to the effect that the word "acquire," in sub-section (*3*) of section 22, does not include "purchase." In order to prevent the acquisition of a right of occupancy by an *ijaradar* during the period of his lease through a purchase behind the back of the landlord, we have inserted the words "by purchase or otherwise" after the word "acquire."

13. *Clause 9.*—The number of non-occupancy raiyats is so small, that we do not think that a case for legislation extending to them the right to apply for commutation has been made out. We would confine the right to occupancy raiyats as at present. This being so, it is unnecessary to repeal section 40 and re-enact it as section 71A, as was done in the Bill as introduced.

We have contented ourselves with certain amendments in the section. Cases in which part of the rent is paid in cash should be provided for, and we are of opinion that the power to commute rents should be entrusted only to officers of some standing. At present, section 40 contains no provision requiring an officer commuting produce rents to have regard to improvements made by the landlord or tenant in respect of the holding under commutation. We consider this a defect, as the existence of such improvements is often an important factor in determining the amount of the cash rent to be fixed on commutation. We propose, therefore, to add a provision to sub-section (*4*) of section 40 allowing this to be done.

14. *Clause 10.*—Very general objection has been taken to the original clause 10 of the Bill, which allowed occupancy raiyats to sue for a reduction of their rents on the ground that their rate of rent is above the prevailing rate. It has been urged that such a provision would tend to deter landlords from letting out lands; that it is generally difficult to establish the existence of a prevailing rate, and that litigation under the clause would be difficult and vexatious. We consider that it is impossible to deny the force of these practical objections, and that they more than counterbalance any good which the clause might be expected to effect, as a means of reducing rents which were unduly high. In the case of rents improperly enhanced a remedy is supplied by section 112. We would therefore omit the clause from the Bill.

For this clause, we would propose to substitute another clause providing that commuted rents, like rents settled under Chapter X of the Act, shall not be liable to alteration for 15 years, save on certain specified grounds. The absence of such a provision seems to be a defect in the present law.

15. *Clause 11.*—The clause as originally drafted required the landlord or tenant to prove that a custom of measurement existed in the village in order to have the presumption applied that any entry of area had been made after measurement. It has been represented, we think rightly, that it would be very difficult to prove a custom of measurement; and also that what is really relevant is not a general custom, but a usage existing at the time the measurement on which the claim was based was made. We are also of opinion that the village is not a suitable unit for this matter. A village may contain several

estates or permanent tenures, and the practice of the different landlords in regard to measurement may not be identical. There is no reason therefore why the same presumption should apply to all. We consider that the unit should be the estate, permanent tenure or part thereof, in which the holding concerned is situated. We are also of opinion that the presumption should only arise in respect of an area entered in a rent-roll, if it is supported by a corresponding entry in a counterfoil receipt, from which it may be inferred that the tenant knew of and accepted the description of the area of his holding adopted by the landlord. The changes, which we propose in the clause, give effect to these views.

16. *Clause 12.*—We have modified considerably the changes which it was proposed in the Bill to introduce into section 58 of the Act. The terms used in the sub-sections as drafted would practically render the failure to give a receipt a criminal offence, and this is generally objected to by the associations of landlords consulted. We have, therefore, removed the cause of objection by substituting a form of procedure closely akin to that prescribed by section 52 of the Bengal Survey Act, 1875, for the imposition of penalties, and by the Public Demands RecoveryAct, 1895, for their recovery. The tenant must first prove that he received no receipt, and we do not consider it necessary to make any specific provision as to the burden of proof.

We have struck out of the clause the provisions as to compensation to tenants. We fear that the prospect of this compensation would be a temptation to bring false cases.

Further, we think that the provision requiring judicial officers to report cases of failure to grant receipts would be generally disregarded, while the report by Revenue-officers can best be prescribed by Executive order. We have, therefore, omitted the last portion of the proposed sub-section (*4*), and in the same sub-section have proposed a time-limit within which information may be laid or complaint made. We consider that the Board of Revenue should have power to revise any order under the section, and have made provision for this.

17. *Clause 13.*—The original clause 13 has been transferred as clause 38A to a more appropriate place in the Act. The present clause provides definitely for the levy of interest on arrears of rent before the institution of a suit. This point arose in the course of our discussion of clause 4, regarding the definition of "rent." We find that the framers of the Act of 1885 apparently intended to provide for the levy of interest before the institution of a suit, and that this was definitely allowed by the former Acts. From the wording of section 67, however, it might be inferred that interest could only be levied on arrears in cases where a suit had been instituted, and that any interest, taken before a suit was brought, might be treated as an illegal exaction under section 75. It has been represented that it is a common practice for landlords to take interest on arrears paid without the institution of a suit, and that it would be a hardship both to landlords and to tenants to hold that no interest could be charged unless a suit were instituted. We consider that on the whole it is advisable that the law should contain a definite provision in regard to this matter, more especially as such provision would merely be carrying out the intention of the framers of the original Act.

We also propose that the rate of interest should be altered from 12 *per cent.* to 12½ *per cent.* The adoption of the latter rate will greatly facilitate calculation, and this is the rate which is allowed by the Cess Act on arrears of cesses payable by tenants to landlords.

18. *Clause 14.*—A distraint is made for the realization of rent due for not more than a year, whereas appraisement is made in respect of the produce of a crop still in the ground. There is no reason why appraisement should not proceed, although the crop is under distraint. It will be sufficient to effect the end desired if the Collector is prevented from prohibiting the removal of a crop while under distraint.

It was ruled in I. L. R., 18 Calc., 518, that a person appointed by the Collector to make division of crops is not a "public servant" within the meaning of section 186 of the Penal Code. The person so appointed is generally an amin. Were the Ruling above quoted generally known, the

section would be rendered unworkable, since the party opposed to the proceedings could safely obstruct the amin. We think it expedient to expressly declare that such a person is a "public servant."

19. *Clause 15.*—This clause merely makes an amendment in section 75 of the Act, consequential on the amendment proposed in section 67, regarding the levy of interest before the institution of a suit.

20. *Clause 16.*—Unless their agents are expressly authorized in that behalf, it would be unfair to the landlords and detrimental to their interest to enact that recognition of the division or sub-division of a holding, and the acceptance of a proportionate share of rent by their agent is binding upon the landlord. A wide door would be opened to fraud, and it would be easy for tenants to secure recognition by bribes to the agent. We have, therefore, provided that there must be an express authorization for the exercise of this power by the agent.

21. *Clause 17.*—We have raised the proportion of landlords which is to be requisite for a successful application to one-half. It is represented that it should not be in the power of a minority of the landlords to involve the majority in the considerable expenses which a survey and preparation of a record-of-rights entail. An intriguing landlord would often find it comparatively easy to get a following of a quarter of the landlords. The proportion has not been raised in the case of the tenants, as an application made by so large a proportion as one quarter of them would be an indication of a feeling of dissatisfaction sufficiently widespread to call for a remedy.

Sub clause (*3*) of clause 17 of the Bill as introduced finds a more suitable place as a proviso to section 104. We have accordingly transferred it as sub-clause (*2*) of the new clause 20A.

22. *Clause 18.*—It is important that the record should show the name of each proprietor. It was probably contemplated that clause (*d*) of section 102 would be sufficient, but it does not cover the case of an owner who has no tenants.

It has been brought to our notice that doubts have been expressed regarding the authority of the Revenue-officer, making a record-of-rights under Chapter X of the Act, to include in such record entries relating to rights of way or other easements. Such matters, though not special conditions or incidents of a tenancy, may materially effect its value, and we consider that it is advisable that they should be included in the record-of-rights. The provision, we propose, has been adopted from section 77 of the Central Provinces Land Revenue Act, XVIII of 1881.

23. *Clause 19.*—The change we recommend in this clause does not involve any change of principle, but makes it clear that the new section will apply to disputes between all classes of persons, not only as to the use of water, but also as to the passage of water through lands not benefited by it.

24. *Clause 20A.*—The changes to be made by sub-clause (*1*) of this clause are consequential on the changes we propose in sub-clause (*3*) of clause 18.

Sub-clause (*2*) merely removes to a more appropriate place in the Act the provision regarding the settlement of rents in a Government estate, which it was originally proposed by clause 17 to insert in section 101.

25. *Clause 21A.*—This clause is consequential on the addition which we propose to make to section 103 by sub-clause (*3*) of clause 18. We think that, for the purposes of section 104H, the record of easements should be on the same footing as the record of special conditions and incidents of the tenancy, and that this is one of the grounds on which a suit should be allowed to be instituted in the Civil Court regarding an entry in a Settlement Rent-roll prepared under Part II of Chapter X.

26. *Clause 21B.*—In cases where rents are settled under Part II of Chapter X of the Bengal Tenancy Act in Government and temporarily-settled estates, section 104H allows any person aggrieved by an entry of a settled rent to file a suit in the Civil Court, on certain grounds, within six months from the date of the certificate of final publication or from the date of disposal of an appeal under section 104G. There is, however, no corresponding provision in regard to cases in which rents are settled under section 105 in private estates.

The result is that litigation in connection with the settlement of rents under section 105 in private estates is unduly prolonged, especially in cases falling under section 105 (*c*), where the Revenue-officer settles a rent for holdings for which no rent has hitherto been paid, but which the occupant is not entitled to hold without payment of rent. It frequently happens that long after such a rent has been settled, and when the landlord proceeds to realize it, the tenant files a suit in the Civil Court to have it declared that he is entitled to hold the land rent-free. The dispute is thus re-opened. The High Court have held that the Settlement Officer, under section 105, has only to settle a fair and equitable rent for the holding; and that if any dispute is raised in proceedings under section 105, as to the liability of the land to pay rent, proceedings under section 105 must be stayed, and the parties told to file a suit under section 106. This, however, only provides for a small minority of the cases. It usually happens that when the case under section 105 comes up for trial, the time allowed for filing suits under section 106 has expired. Or the tenant may refrain from raising the question in the proceedings under section 105, wait till the landlord attempts to realize the settled rent from him, and then raise the matter in the Civil Court.

We are agreed that it is necessary to take some action which will prevent proceedings from being protracted in this way. It has been suggested that this might be effected by enacting some provision similar to section 104H in Part II of Chapter X of the Act, which allows the entries of rent entered in a Settlement Rent-Roll to be contested in the Civil Courts on certain grounds within six months of the date of the Certificate of final publication. But the majority of us are of opinion that this would only afford a partial remedy, and there is no real analogy between a settlement of rents under Part II and under Part III of Chapter X. In settling rents under Part II in connection with a settlement of land revenue, the Revenue-officer is subject entirely to the control of the Revenue authorities, and appeals against the rent settled lie exclusively to the Revenue authorities. There is therefore good reason for allowing certain matters to be referred to the Civil Courts as under section 104H. But in proceedings under Part III of Chapter X for the settlement of rents in private estates, the Revenue-officer acts judicially. Under section 107, he is required to adopt the procedure for the trial of suits; and under section 109A the appeal against his decision lies to the Special Judge and the High Court.

The majority of us are, therefore, of opinion that there is no reason why finality should not be given to the decisions of Revenue-officers under Part III of Chapter X, subject to appeal to the Special Judge and the High Court. It was the expressly declared intention of the framers of the Amendment Act of 1898 that the proceedings of the Revenue-officers and the Special Judge should be final. The present clause merely gives effect to that intention. The High Court have held that, under the law as it stands, finality attaches only to the rent settled under section 105, and not to incidental matters raised in the course of these rent-settlement proceedings. But in order that a fair rent may be settled, it is essential that such matters should be decided. The Revenue-officer would have the power to decide them finally, subject to appeal to the Special Judge, if they were raised in suits under section 106, and the majority of us can see no valid reason why the same Revenue-officer should not be given power to decide them finally, subject to appeal, if they are raised in proceedings under section 105. We consider that any other course would lead to considerable confusion and practical inconvenience, as it would enable the same matters to be raised simultaneously in the subordinate Civil Courts and before the Special Judge and the High Court. For these reasons, the majority of us are in favour of the proposed clause 21B.

27. *Clause 22.*—Owing to the absence of any previous survey and settlement in the permanently-settled portions of this Province, we doubt very much whether it would be practicable to prepare a table of rates which would form a fair basis for a settlement of fair rents in such areas. We have, therefore, excised clause 22 as it stood in the Bill as introduced, and substituted therefor a new clause 22, which so amends sub-section (*c*) of section 107 of the Act as to provide for the entry on the record of all rents commuted by Settlement Officers under section 40. Such a note is, in our opinion, necessary.

28. *Clause 22A.*—It has been pointed out to us that, under the law as it stands, the Revenue-officer has no power to correct errors in the settlement record after final publication, unless they are made the subject of a dispute under section 106. In the millions of entries which find place in a settlement record, some clerical errors are bound to creep in, and it seems desirable to have a cheap and ready means of correcting them. We propose, therefore, that any Revenue-officer specially empowered in this behalf by the Local Government should be able to correct *bonâ-fide* mistakes, after giving due notice to all the parties concerned.

29. *Clause 22B.*—An amendment of section 109 has been rendered necessary owing to the new section 105A, which it is proposed, by clause 21B, to insert in the Bill. The words "suit" and "application" in section 109 do not cover all questions which may arise in the course of proceedings for the settlement of rents.

30. *Clause 23.*—The addition to this clause allows an appeal to the Special Judge against an order of a Revenue-officer correcting an error in the settlement record under section 108A, which we propose by clause 22A to insert in the Act. It is not likely that the right of appeal will often be exercised in such cases, but it seems advisable to provide some safeguard against a possible improper use of his powers by the Revenue officer.

31. *Clauses 24 and 30.*—We have made considerable modifications in these clauses, mainly in consequence of the criticisms which have been directed against the words "unfair and inequitable," which were used in the clause as originally drafted. It has been represented, we think rightly, that such words are too vague to afford any proper guidance to the Courts and Revenue-officers dealing with agreements or compromises. We consider that it will be best to provide specifically that no effect shall be given to any provisions, embodied in a compromise or agreement filed before a Court or Revenue-officer, which, if embodied in a contract between landlord and tenant, could not be enforced under the Act. We further consider it desirable to provide for the case of agreements or compromises, purporting to be made in settlement of a dispute, or affecting the rights of third parties.

32. *Clause 24 (section 109 E).*—While the majority of us consider it essential that the Revenue-officer should not be compelled to give effect to provisions in an agreement or compromise, which could not be enforced if embodied in a contract, we consider that some discretion should be allowed in dealing with rents, which, though technically illegal, are such as might be settled as fair and equitable. We understand that at present Officers of the Settlement Department are allowed, with the sanction of the Board of Revenue, to disregard technical illegalities in respect of rents, which though they contravene the provisions of section 29, are fair and equitable and are agreed to by the landlord and tenant. It is clearly inadvisable that in such cases, the parties should be forced into litigation regarding rents, which, though technically illegal, would be settled as fair and equitable by any Court, and we consider it desirable to regularize the present practice. We therefore propose that where, in the course of the framing of the record, the parties agree upon a rent, a Revenue-officer specially empowered in this behalf by the Local Government may, if he finds such rent to be fair and equitable, settle it as such, even though it may not be the rent legally payable. We provide for an appeal to the Special Judge on the ground that the parties did not agree to such a rent, and we also propose to give the Board of Revenue power to revise any rent settled under the section within one year of the date of the order settling the rent. We believe that the section as drafted will be useful as saving the parties from unnecessary litigation in regard to rents, by giving the Revenue-officer power, under certain safeguards, to settle a rent, to which the only objection which can be taken, is that, if fixed by a contract, it could not legally be recovered. A Revenue-officer in framing the record usually has opportunities of judging of the fairness and equity of the rents claimed and admitted, and it is not necessary in all cases to confine him to the record of the rent legally payable.

33. *Clause 24A.*—We have inserted this clause in order to prevent an inquiry by a Civil Court into questions of rent and status simultaneously with the preparation of a record-of-rights by a Revenue-officer. It seems to us to be

inadvisable that two authorities should be engaged in the same inquiry at the same time.

34. *Clause 25.*—Though it is probable that the Local Government would be justified in taking action under section 112, as it now stands, in cases where a landlord is demanding rents which have been illegally enhanced above those entered as payable in a record-of-rights, we think it advisable to remove all doubt on the point We consider that the change in the clause as now re drafted is a more convenient way of emphasizing the fact. We consider that any revision of the record-of-rights by the Board of Revenue should be subject to confirmation by the Governor General in Council, and have added sub-clause (*3*) accordingly.

35. *Clause 26 of the Bill as introduced.*—No changes in sub-section (*1*) of section 113 will be necessary, as clause 10 of the Bill as introduced has been omitted.

36. *Clause 27.*—The only change we have made in this clause is intended to legalize the present practice of the Government of recovering costs by instalments.

37. *Clause 27A.*—The object of this clause has already been explained in our notes on clause 4 of the Bill.

38. *Clause 29.*—In view of the wording of section 6 of the Land Acquisition Act, 1894, and the definition contained in section 1 of the Land Acquisition (Mines) Act, 1885, we have substituted "Local Authority" for the expression "Local Body;" and we have substituted the word "any" for "such", because it may happen that land acquired by one local authority may be subsequently transferred to another, for example, land acquired for a Municipality may be made over to a District Board.

39. *Clause 29A.*—This clause in the main re-asserts the principle already accepted in clause 24 that, agreements or compromises made before a Revenue-officer should not be held to affect the rights of third parties. But in regard to the record of proprietor's private land, the majority of us consider it necessary to go further and to provide that the Revenue-officer shall not be bound to record land as proprietor's private land, because it has been declared to be so in a decree which has been obtained *ex-parte* or by collusion or fraud. The question whether land is proprietor's private land affects not merely the parties to a particular suit, *viz.*, the landlord and the tenant for the time being, but also all future occupants of the land, and it is necessary to safeguard their interests as far as possible. It would be easy for a landlord to obtain an *ex-parte* or collusive decree, declaring certain land to be proprietor's private land, by suing a non-existent or fictitious defendant who had no concern with the land. We consider, therefore, that in framing a record-of-rights regarding such land, the Revenue-officer should not be bound by decrees of the nature referred to, but should be required to satisfy himself by independent evidence as to the real nature of the land.

40. *Clause 30.*—The amendments proposed in section 147A have been explained in our note on clause 24.

As regards section 147B, we have substituted the words "subject matter" for the word "land," as we consider that the Court should have regard to entries in the record-of-rights which may be produced before it, and which are relevant to any matter in dispute between the landlord and tenant.

41. *Clause 31.*—We are of opinion that to make clause (*bb*) really effective, it is necessary to require the Court to record reasons when it dispenses with a statement in the plaint. Unless this is done, some landlords will file plaints not containing the required particulars, and to save themselves trouble, Munsiffs will continue to decree according to the claims without reference to the record-of-rights. If the Munsiff is required to record his reasons for dispensing with the statement of the rental according to the record, he will insist on such particulars being furnished wherever possible.

We have re-drafted the proviso to clause (*bb*) as the wording is ambiguous. We consider that in addition to a statement of the rental of a tenancy, the plaint should show the survey-plot numbers comprised in the holding. The Court should not be allowed to have any excuse for not referring to the entries in the record-of-right. Where a plaintiff, for a good and sufficient reason, fails to produce a statement of the rental or a list of survey-plot numbers the Court should be obliged to call for a copy of the record from the

Collector. We think that delay will be prevented and corruption of the amla checked, if in all cases the record-of-rights is supplied by the Collector direct to the Court. No fees should be charged in any case for the copies.

New clause (*bbb*).—We have thought it necessary to insert this clause in the Bill to make it quite clear that a statement of rental and of survey plots in the plaint will be necessary, in cases where, since the record was finally published, a holding has been divided during partition proceedings, or amalgamated with another holding, or in other ways treated so as to obscure its identity.

Sub-clause (*2*).—We think that the provisions of the clause should be extended to maps, and that original copies and extracts should not acquire the evidential value proposed, unless the originals have been not only produced but also admitted in evidence.

42. *Clause 31 A.*—It has been represented that as a matter of fact a tenant pleading that the rent claimed is due to a third person, or that it is in excess of the amount due, has rarely if ever been called upon to deposit the amount claimed or admitted, because the Courts have given too free an interpretation to the exception. The omission of the words "except for special reasons to be recorded in writing," by making a deposit necessary in every case in which the defendant admits money to be due, will check the setting up of false pleas.

43. *Clause 32.*—It was not intended by the framers of the Bill that the new sub-section (*2*) of section 153 should have the effect of excluding the provisions of section 244 of the Code of Civil Procedure. The sub-section was meant to apply to execution proceedings only in suits in which an appeal is barred under section 153. We have substituted an *Explanation* to section 153 for the proposed sub-section (*2*) which, while carrying out the intention, cannot be construed to bar the provisions of section 244 of the Civil Procedure Code.

44. *Clause 32A.*—The conditions which apply under sections 149 and 150 to a plea by a tenant to the effect that the rent claimed is due to a third person or is in excess of the amount really due, should also attach to an application for the setting aside of an *ex-parte* decree under section 108 of the Code of Civil Procedure, for such applications are very often made with the sole object of delaying and obstructing the recovery of rent. A deposit of the decretal amount is required in the case of such an application under section 17 of the Provincial Small Cause Courts Act, 1887. We have inserted the new section 153A with the object of preventing vexatious applications for the purpose of delay, not only under section 108 of the Code of Civil Procedure, but also under section 623 of the same Code. We think that the tenant should be bound to deposit either the amount, if any, which he admits to be due, or such amount as the Court directs. The Court should be empowered to regulate the amount of the deposit after consideration of the statement of injury filed with the application. In all cases the Court should record its reasons for the order it passes, whether it requires or excuses a deposit.

45. *Clause 32B.*—An explanation of this clause has been given in the note on clause 24A, above.

46. *Clause 33.*—The opinions received from the various Associations consulted evince some degree of opposition to this clause. The landlords, while ready to welcome any change in the procedure which will expedite the recovery of rent, do not approve of the safeguards and restrictions with which it is now proposed to surround the extension of the Certificate Procedure for this purpose. Some of them appear to fear that the provisions of the new section 158A will give too much power to the local officers. We understand, however, that the clause is intended to be purely an experimental measure, its main object being to introduce into the Rent Law of Bengal a principle which has not existed there before. It is necessary to be cautious in its application, and to make sure that it does not prove an instrument of oppression of the tenants. We hope that the provision may prove a great inducement to landlords to manage their estates properly, and to maintain their rent accounts in a correct and intelligible manner. It is probable that, after some experience has been gained of the working of the proposed provisions, it will be possible to introduce a measure more general in scope and more detailed in character. On this assumption, we have contented ourselves with

modifying the clause as drafted, so as to provide a tentative but workable system.

Sub-section (*1*).—The word "maintain" should be substituted for the words "periodically revised." At present no scheme for periodical revision has been worked out, and it is not advisable to make any entry in the sub-section which might bind the Government to a particular scheme. We have added the words "or may accrue," since the application will be for the recovery of future as well as of past arrears.

Sub-section (*2*).—The provision that no reasons need be given by the Local Government for any conditions it imposes, or for its refusal or withdrawal of the right, has been objected to. At the present stage, it would, in our opinion, be inadvisable to leave any chance of the exercise of its discretion by the Local Government being questioned. We understand that the sole ground for consideration by the Local Government will be the landlord's conduct as a landlord.

New sub-sections (*3*) *and* (*4*).—The clause as it stands in the Bill as introduced makes no provision for the making of a requisition for issue of a certificate by the landlord, nor does it prescribe the court-fee payable. We have supplied the defect, following section 9(*2*) of the Public Demands Recovery Act, 1895.

It may be assumed that care will be taken in selecting the officers who are to exercise the powers under the section, but we consider it best to assure this by specifically declaring that the Certificate Officer is to be specially appointed by the Government. Ordinarily, we think such powers should be conferred on the officer who is entrusted with the maintenance of the record.

New sub-section (*5*).—In order to make the privilege of being able to recover rent by the certificate procedure of real value, the certificate should have the effect of a decree in a rent-suit. We have amended the sub-section accordingly.

New sub-section (*6*).—It is not necessary to make the provisions of sections 19, 20 and 21 of the Public Demands Recovery Act applicable, but sections 24, 27 and 28 contain provisions which seem to be required.

New sub-sections (*7*) *and* (*8*).—We have made amendments, in order to prevent any conflict of jurisdiction between the Civil Courts and the Revenue-officer in areas where the provisions of this section are in force.

New sub-section (*9*).—We propose to limit the application of the clause to a sole landlord, or to such co-sharer landlords as collect their shares of the rent separately. It would obviously be impossible in the case of joint landlords to let one of several collect by certificate, while the rest have recourse to the Civil Court. As the certificate will have the force of a decree in a suit for arrears of rent, it is necessary that where one of several co-sharer landlords who collect their shares separately applies for the issue of a certificate against a tenant of all the co-sharers, the remaining co-sharers should have notice of the fact.

47. *Clause 34.*—The reasons for the insertion of this clause in the Bill as introduced were explained in the Statement of Objects and Reasons in the notes on clauses 34 and 39 of the Bill. At the time when the Bill was published in the Gazette a reference had been made to a Full Bench of the High Court, in which the correctness of the decision in the case of Jogendra Nath Ghose *versus* Paban Chandra Ghose (8 C. W. N. 472) was called in question. In December last, the Full Bench decided that the question propounded did not properly arise in the case in which it was referred, and declined to give any decision on the point. The Hon'ble the Chief Justice observed that as there appeared to be a considerable conflict of judicial opinion on the question, it would be well if the Legislature settled it. Clause 34, therefore, seems to us to be fully justified. We have inserted a new sub-section in the proposed section 158B, as it has been represented to us that the section would not benefit a large class of co-sharer landlords who collect their shares of the rent separately and are not in a position to know the amounts of rent due from the tenants to their co-sharers, and whether they have been paid or not. Such co-sharer landlords will have no remedy unless they are allowed to sue for the rent due to them only, or to the entire body of co-sharers, according to

the extent of the information available. The new sub-section will allow a co-sharer to sue for his share only where his co-sharers or the tenant have neglected to supply him with information. We have provided in the new sub-section (*3*)—the old sub-section (*2*)—for early notice to the remaining co-sharers of the application for the execution of a decree.

48. *Clauses 34A and 34B.*—An explanation of the insertion of these clauses has been given in the note on clause 4 (*1*) above.

49 *Clause 35.*—The alteration we have made in this clause is consequential upon the insertion of the new sub-section (*2*) in the proposed section 158B, and seems also to us to be an improvement in drafting.

50. *Clause 38.*—The Act contains no definition of the expression "horticultural land." We have supplied one in this clause which we consider sufficiently wide. Sub-clause (*1*) of the clause in the Bill as introduced is, owing to the change explained in the note on clause 9, now unnecessary.

51. *Clause 38A.*—It was intended to insert the new provision as to damages for denial of landlord's title, as section 68A, in Chapter VIII of the Act, which contains general provisions as to rent. It seems to us, however, that the section will find a more appropriate place in Chapter XVII, as section 186A, under the heading "Penalties." We have, therefore, transferred it to its present position in the Bill. The only change we have made in the drafting of the section explains itself.

52. *Clause 39.*—We have recast this clause in order more fully to counteract the Ruling in the case of Jogendra Nath Ghose *versus* Paban Chandra Ghose referred to in the note on clause 34. We have made the provisions of sections 148 to 153 applicable to all suits between landlord and tenant as such instituted by a sole landlord, the entire body of landlords or one or more co-sharer landlords, and have omitted mention of sections 168, 169, 184 and 185, and we have applied the various sections of Chapter XIV of the Act to proceedings in execution of rent decrees in suits framed under section 158B. This was apparently the intention of the framers of the Bengal Tenancy Act, 1885, but the intention was frustrated by the *ratio decidendi* in the case of Jogendra Nath Ghose *versus* Paban Chandra Ghose.

53. *Clause 41.*—The amendment which this clause proposes to make in section 191 opens up difficult questions of merger in connection with the purchase or acquisition of permanently-settled estates by the Government. It is doubtful whether the clause would effect the object in view. We think therefore that it should be omitted.

54. *Clause 43, sub-clauses* (*2*) (*a*) *and* (*4*).—The amendments here proposed will restore to suits for arrears of rent and to executions of rent decrees the rules of limitation originally intended by the framers of the Act to apply to such rent and execution proceedings, as to the applicability of which as explained in the Statement of Objects and Reasons, and in the note on clause 39 in the Statement of Objects and Reasons, and in the note on clause 34 above there may be some doubt.

Sub-clause (*2*) (*b*).—The present state of affairs regarding limitation for the bringing of suits for recovery of rent is anomalous. By this amendment, which has been made on the suggestion of the High Court, we have attempted to remove the anomaly. The change will affect those portions of the Province only where the *Amli* or *Fasli* year prevails. There will result a slight extension in favour of the landlords of the period of limitation, and there can be no reasonable objection from the tenants' point of view. The present custom fulfils no particular object.

55. We recommend that the Bill be passed as now amended.

NOTE OF DISSENT.

WE beg respectfully to record our dissent from the opinion expressed by our honourable colleagues with regard to the provisions contained in clauses 33 and 36 of the Bill as amended by the Select Committee. Clause 33 marks a considerable departure from the procedure now in force for the recovery of rent, and embodying as it does the principle that in cases of selected landlords a certificate should issue in the first instance without any evidence being recorded at all, cannot fail to have consequences of a far-reaching character. Even from the zamindar's point of view it is necessary to examine whether the certificate procedure as adopted by the Bill will really succeed in shortening the procedure for collecting rents to the desired extent. With regard to this point it may be observed that, apart from the questions that are bound to arise in connection with sales by a co-sharer landlord who has obtained the privilege to the exclusion of his partners, and generally in connection with the special provisions of the Bengal Tenancy Act where they do not fit into the provisions of the Public Demands Recovery Act, the latter, so far as they have been adopted by the proposed section 158A, do not provide a simple means for the recovery of rent. By section 12 of the Public Demands Recovery Act (I of 1895, B.C.) the judgment debtor who, after he has been served with a notice under section 10, denies his liability to pay the whole or any part of the amount for which such a certificate has been made and filed against him, may within thirty days from service of such notice or, when no such notice has been duly served, within thirty days from the execution of any process for enforcing such certificate, file a petition of objection denying his liability, and under section 13 of the said Act the Certificate officer is bound to fix a day for hearing any such petition so filed and to decide, after a proper hearing in the manner provided by the Code of Civil Procedure, whether the petitioner is liable for the whole or any part of the amount entered in the certificate, and may set aside or modify or vary the certificate accordingly. The Certificate officer must, further, under the proviso to the said section, refer the petition to the District Collector if there is a *bona fide* claim of right, and the latter, if satisfied that there is such a claim, has to make an order cancelling the certificate. Under section 15 of the said Act, the judgment-debtor may at any time within six months from the service upon him of notice under section 10, or, if he files a petition of objection under section 12, from the date of the determination hereof, or if he appeals under section 32, from the date of the decision of such appeal, bring a suit in the Civil Court to have the said certificate cancelled or modified.

It is thus clear that where objections really exist the procedure laid down in the Public Demands Recovery Act is more complex than that laid down in the Code of Civil Procedure so far as it has been adopted by the present Bengal Tenancy Act. A judgment-debtor where he has a just grievance will, if he has the means, seldom fail to seek redress after the making of the certificate either by putting in an objection and appeal before the Revenue authorities, or, failing these, by a regular suit in the Civil Court; and such a suit may sometimes be of a protracted character. The principal advantage of the certificate procedure is to be looked for in those cases only where the alleged claim is admittedly correct. But in such cases the ordinary procedure for the recovery of rent in the Civil Court is quick enough. Under the Circulars of the High Court two weeks' notice on the defendant is allowed in a rent suit to enable the defendant to appear and answer the claim, whereas in the certificate procedure the Revenue officer has generally to wait for one month before putting the certificate into execution. To this the time that must elapse between the submission of the requisition and the necessary enquiry under the rules and the subsequent making and filing of the certificate must be added. On the other hand it must be remembered that in non-contentious rent suits in a Civil Court, a single patwari or a gomastha may prove dozens of cases in one day, and, generally speaking, there is no unnecessary delay in the disposal of such cases.

Thus while the advantage that a landlord may expect in a certificate procedure is practically illusory: the fact that a decree under this procedure can be obtained by him without any evidence being required to be adduced in support of the claim cannot fail to produce a demoralising effect on his subordinate

amla, and it may reasonably be apprehended that in course of time it will give rise to a tendency to blackmailing in the subordinate staff of a zamindar's establishment, even where no such tendency existed before. An ordinary zamindari sharista, however well regulated it may be in its own way, is not worked by such hard-and-fast rules as to procedure and inspection as are in force in a Government office or in an office under the Court of Wards, nor can a zamindar, however well intentioned he may be, be expected to personally examine and control the details of management. It is a notorious fact that ordinarily speaking the subordinate staff of a zamindari establishment is very ill-paid, the pay of a village patwari in some of the Behar districts being sometimes so low as Rs. 2 or Rs. 3 per month. The consequence is they have to live very often upon their perquisites.

In the case of large landlords, the certificate proceeding if allowed may therefore operate as a great hardship upon the tenants.

The system of accounts kept in a zamindari sharista is not always very simple, and a tenant who pays his rent is very often in a dilemma as to how much of the payment made by him should go to back rents, interest, cesses and other demands, and how much to actual rent for the current year. The making of a certificate with the immediate effect, by its own operation, that all the immoveable properties of a raiyat are placed under attachment will more often than not induce him to submit to unjust demands rather than that he should undertake the troubles of a long journey and incur the expenses incidental to his objections being heard and decided by the Certificate officer, such expenses being often much more than what he could expect to get back by going to the collectorate and thereafter to the Civil Court. But this is not all. Under section 11 of the Public Demands Recovery Act the Certificate officer can, upon an *ex parte* statement of the zamindari amla based merely upon belief, attach the whole or any part of the moveable property of a raiyat even before the judgment-debtor has notice of the certificate. It is needless to say that where such an attachment takes place the troubles of a raiyat can be more easily imagined than described, for in the majority of instances he never gets back all that once passes out of his possession. And if he is unable to pay up the amount of the certificate and his moveables are sold in consequence, it is needless to say he seldom, if ever, succeeds in obtaining their full value. It must also be remembered that generally speaking in cases of such attachment, property worth a great deal more than the amount entered in the certificate is seized, and during all this time, *all* the immoveable property of the raiyat remains under attachment by operation of law. It will be for the legislature to consider whether such a procedure rendered available to an ordinary zamindari amla cannot at any moment be turned into an engine of oppression.

If the general effect of the proposed legislation, irrespective of the principle of selection that the Government proposes to adopt, is such as has been pointed out above, the invidious distinction that the principle of selection will entail, will in our opinion be a source of weakness rather than of strength to the Government. If the proposed section 158A is to have anything like a wide application, the disadvantages of the certificate procedure from the point of view of impartial administration of justice will be very great indeed; and if it is to have a limited application only, the privilege being confined to a favoured few, the irritation that it will produce among those from whom the privilege may be withheld is likely to be very great. Unless a zamindar shall have agreed to become practically a ward of Court and to allow Government to overhaul his accounts at regular and short intervals it will not be possible for Government to admit him to the privilege with any sense of security. But at the same time it is not difficult to foresee that by far the largest majority of zamindars will keep themselves aloof from such an inquisitional process. Besides, the power now reserved to Government of conferring and withdrawing the privilege at its pleasure without assigning any reason is likely to lead to abuse, as the Government will in most cases have to be guided by its local officers and the parties concerned will have no hearing.

With regard to clause 36 of the Bill, we venture to think that it would have been better not only to drop it altogether but to amend

section 174 of the Bengal Tenancy Act and bring it into line with section 310A of the Code of Civil Procedure if it was thought that this section has no application to the Bengal Tenancy Act. It is perfectly immaterial to a landlord whether he receives his decretal dues from the recorded tenant, his mortgagee, the tenant in actual possession of the tenure or holding though not recorded, or any other person interested in saving it, so long as the entire amount due to the zamindar together with the statutory penalty is paid after a sale takes place. No doubt any one of these persons may pay the decretal amount into Court under section 170 of the Bengal Tenancy Act and prevent the sale. But it must be remembered that persons interested in the tenure or holding other than the recorded tenant need not be made a party to the suit under the Bengal Tenancy Act, and therefore they have very often no notice of the sale until it has actually taken place. It is sometimes urged that the pressure of the Government demand upon a landlord is great, and therefore there is justification for a provision like the one contemplated by clause 36, and that complications may arise after the sale if persons other than the judgment-debtor are allowed to make the deposit. But to our mind these questions do no arise in view of the fact that as a matter of fact payment can be made by the judgment-debtor after the sale, and if there be any complications at all they can arise in either case, whether persons other than the judgment-debtor are allowed to pay or not. We venture to think that any possible difficulty of a zamindar arising upon a deposit made under section 174, Bengal Tenancy Act, or 310A, Civil Procedure Code, is confined mainly, if not entirely, to the questions (1) whether the amount in question has been deposited within the statutory limit of time. and (2) whether the entire amount has been paid or not. It is obvious these questions are independent of the person who makes the payment. To avoid any possible inference to the effect that by accepting payment from a person not recorded as a tenant the zamindar recognises him as a tenant, a provision on the lines laid down in clause 6 of the Bill could have been easily made, if necessary. But we venture to think no such fear need be entertained; for section 170 of the present Act, as it has been pointed out already, enables persons other than recorded tenants to deposit the amount. This clause therefore does not serve any useful purpose so far as we can see, while it makes the position of unrecorded tenants and encumbrances, as also of under-tenants in certain cases, unnecessarily difficult.

Clause 29A.—I think it would be a mistake to invest a Revenue officer with authority to enquire and decide whether a decree of a Civil Court in a contested suit was obtained by collusion or fraud which is practically the effect of clause 29A: it is objectionable on principle and of very doubtful value in practice. The clause fixes no time within which a Civil Court decree may be challenged before a Revenue officer, and the provision will lead to settled questions being re-opened after lapse of considerable time and to unnecessary litigation.

(*b*) as an express consent, under the provisions of section 88, to the division of the tenure or holding, or to the distribution of the rent thereof.

"17B. All fees now in deposit, or which may hereafter be deposited, under the foregoing sections and under section 18, clause (*a*), for payment to a landlord, may, unless accepted or claimed by the landlord within three years from the date of the commencement of this Act or from the date of service of the notice prescribed in sections 12, 13 and 15, whichever is later, be forfeited to the Government."

Forfeiture of unclaimed fees.

Amendment of section 19.

7. (*1*) Section 19 of the said Act shall be re-numbered section 19, sub-section (*1*).

(*2*) In the said sub-section (*1*), after the words "this Act," in both places where they occur, the words, brackets and figures "or the Bengal Tenancy (Amendment) Act, 1907," shall be inserted. Ben. Act of 1907.

(*3*) After the said sub-section (*1*), the following shall be inserted, namely:—

"(*2*) The exclusion from the operation of this Act, by a notification under sub-section (*3*) of section 1, of any area constituted a Municipality under the provisions of the Bengal Municipal Act, 1884, or of any part of such area, or the inclusion of any land in the town of Calcutta by notification under section 637 of the Calcutta Municipal Act, 1899, shall not affect any right, obligation or liability previously acquired, incurred or accrued with regard to any land affected by such exclusion or inclusion." Ben. Act II of 1884. Ben. Act III of 1899.

The Bengal Tenancy (Amendment) Bill, 1906.

(Clauses 8-11.)

Amendment of section 22.

8. In section 22 of the said Act—

(*a*) in sub-section (*1*), for the words "the occupancy-right shall cease to exist" the words "such landlord shall obtain thereby no right to hold the land as a tenant" shall be substituted;

(*b*) in sub-section (*2*) for the words from "it shall cease to exist" to the end of the sub-section, the following shall be substituted, namely:—

"he shall be entitled to hold the land subject to the payment to his co-proprietors or joint permanent tenure-holders of the shares of the rent which may be from time to time payable to them; and if such transferee sub-lets the land to a third person, such third person shall be deemed to be a tenure-holder or a raiyat, as the case may be, in respect of the land:

Provided that the special incidents attaching to a proprietor's private lands under Chapter XI shall not apply to such land.

Illustration.—*A*, a co-sharer landlord, purchases the occupancy holding of a raiyat *X*. *A* is entitled himself to hold the land on payment to his co-sharers of the shares of the rent payable to them in respect of the holding. *A* sub-lets the land to *Y*, who takes it for the purpose of establishing tenants on it; *Y* becomes a tenure-holder in respect of the land. Or *A* sub-lets it to *Z*, who takes it for the purpose of cultivating it himself; *Z* becomes a raiyat in respect of the land."

(*c*) in sub-section (*3*), after the word "acquire" the words "by purchase or otherwise" shall be inserted.

Amendment of section 40.

9. In section 40 of the said Act—

(*i*) in sub-section (*1*), after the words "partly in another" the words "or partly in cash and partly in one of these ways" shall be inserted;

(*ii*) in sub-section (*2*), for the words "an officer making a settlement of rents" the following shall be substituted, namely:—

"a Revenue-officer appointed by the Local Government under the designation of Settlement Officer or Assistant Settlement Officer for the purpose of making a survey and record-of-rights";

(*iii*) in clause (*b*) of sub-section (*4*), the word "and" shall be omitted, and

(*iv*) to the said sub-section (*4*) the following shall be added, namely:—

"and (*d*), improvements effected by the landlord or by the occupancy-raiyat in respect of the raiyat's holding, and to the rules laid down in section 33 regarding enhancement of rent on the ground of a landlord's improvement."

New section 40A.

10. After section 40 of the said Act the following shall be inserted, namely:—

"40 A (*1*) Where the rent of a holding has been commuted under section 40, it shall not, except on the ground of a landlord's improvement or of a subsequent alteration of the area of the holding, be enhanced for fifteen years; nor shall it be reduced for fifteen years, save on the ground of alteration in the area of the holding, or on the ground specified in clause (*a*) of sub-section (*1*) of section 38.

Period for which commuted rents are to remain unaltered.

(*2*) The said period of fifteen years shall be counted from the date on which the order takes effect under sub-section (*5*) of section 40."

Addition to section 52.

11. To section 52 of the said Act, as amended by the Bengal Tenancy (Amendment) Act, 1898, the following shall be added, namely:— Ben. Act III of 1898.

"(*6*) When in a suit under this section the landlord or tenant proves that, at the time the measurement on which the claim is based was made, there existed in respect of the estate or permanent tenure or part thereof in which the tenure or holding is situate, a practice of settlement being made after measurement of the land assessed with rent, it may be presumed

that the area of the tenure or holding specified in any patta or kabuliyat, or, rent-roll relating to it, has been entered in such patta, kabuliyat or rent-roll after measurement."

Amendment of section 58.

12. In section 58 of the said Act, for sub-section (*f*), the following shall be substituted, namely :—

Amendment of section 88.

16. (*1*) In section 88 of the said Act, for the words "with his consent in writing," the words "with his express consent in writing, or with that of his " shall be substituted.

(*2*) To the same section the following proviso shall be added, namely :—

"Provided that, if there is proved to have been made in a landlord's rent-roll any entry showing that the tenure or holding of any tenant has been divided, or that the rent payable in respect thereof has been distributed, such landlord may be presumed to have given his express consent in writing thereto within the meaning of this section."

The Bengal Tenancy (Amendment) Bill, 1906.

(Clauses 17-19.)

17. In sub-section (2) of section 101 of the said Act, as amended by the Bengal Tenancy (Amendment) Act, 1898,— Ben. Act III of 1898.

Amendment of sub-section (2) of section 101.

(1) for clause (*a*) the following clause shall be substituted, namely:—

"(*a*) where—

(*i*) the landlord or tenants, or

(*ii*) a proportion of not less than one-half of the total number of landlords, or

(*iii*) a proportion of landlords, the aggregate of whose interests in the lands of the local area, estate or tenure or part thereof is not less than one-half of the total shares of all the landlords therein, or

(*iv*) a proportion of not less than one-fourth of the total number of tenants,

applies or apply for such an order, and on his or their depositing, or giving security for such amount for the payment of expenses as the Local Government directs."

(2) to clause (*c*) the following shall be added, namely:—

"or a Manager appointed by the District Judge under the provisions of section 95;".

Amendment of section 102.

18. In section 102 of the said Act so amended—

(1) after clause (*d*) the following clause shall be inserted, namely:—

"(*dd*) the name of each proprietor;"

(2) after clause (*g*) the following clause shall be inserted, and shall be deemed to have been so inserted from the commencement of the Bengal Tenancy (Amendment) Act, 1898, namely:— Ben. Act III of 1898.

"(*gg*) the rights and obligations of each tenant and landlord in respect of—

(*i*) the use by tenants of water for agricultural purposes, whether obtained from a river, *jhil*, tank or well or any other source of supply, and

(*ii*) the repair and maintenance of appliances for securing a supply of water for the cultivation of the land held by each tenant, whether or not such appliances be situated within the boundaries of such land;".

(3) After clause (*h*) the following shall be inserted, namely:—

"(*i*) any customs relating to rights of way or other easements";

and the existing clause (*i*) shall be re-lettered clause (*j*).

New section 102A.

19. After section 102 of the said Act so amended the following shall be inserted, namely:—

"102A. The Local Government may,

for the purpose of settling or averting disputes existing or likely to arise between landlords, tenants, proprietors, or persons belonging to any of these classes regarding the use or passage of water,

Power to order survey and preparation of record-of-rights as to water.

make an order directing that a survey be made, and a record-of-rights be prepared, by a Revenue-officer, in order to ascertain and record the rights and obligations of each tenant and landlord in any local area, estate or tenure or part thereof, in respect of—

(*a*) the use by tenants of water for agricultural purposes, whether obtained from a river, *jhil*, tank or well or any other source of supply; and

(Clauses 20-21)

(*b*) the repair and maintenance of appliances for securing a supply of water for the cultivation of the land held by each tenant, whether or not such appliances be situated within the boundaries of such land."

Amendment of section 103B.

20. For section 103B of the said Act so amended, the following shall be substituted, namely :—

"103B. (*1*) In any suit or other proceeding in which a record-of-rights prepared and published under this Chapter, or a duly certified copy thereof, or extract therefrom, is produced, such record-of-rights shall be presumed to have been finally published, unless this is expressly denied, and a certificate signed by the Revenue-officer, or by the Collector of any district in which the local area, estate or tenure or part thereof to which the record-of-rights relates, is wholly or partly situate, stating that a record-of-rights has been finally published under this Chapter, shall be conclusive evidence of such publication.

Presumption as to final publication and correctness of record-of-rights.

(*2*) The Local Government may, by notification, declare, with regard to any specified area, that a record-of-rights has been finally published for every village included in such area, and such notification shall be conclusive evidence of such publication.

(*3*) Every entry in a record-of-rights so published shall be evidence of the matter referred to in such entry, and shall be presumed to be correct until it is proved by evidence to be incorrect."

Amendment of sections 104 and 105.

20A. (*1*) In clause (*a*) of section 104, and in sub-section (*2*) of section 105 of the said Act so amended, for the word, letter and brackets "clause (*i*)" the word, letter and brackets "clause (*f*)" shall be substituted.

(*2*) To the said section 104, the following proviso shall be added, namely :—

"Provided that it shall not be necessary to settle the rents of tenants of every class in an estate or tenure belonging to the Government, when it does not appear to the Government to be expedient to do so."

Amendment of heading to Part II of Chapter X.

21. In the heading to Part II of Chapter X of the said Act so amended for the words "*decision of disputes*" the words "*disposal of objections*" shall be substituted.

Amendment of sub-section (*1*), clause (*g*) of section 104H.

21A. In clause (*g*) of sub-section (*1*) of section 104H of the said Act so amended, after the word "tenancy" the words "or any custom relating to a right of way or other easement" shall be inserted.

New section 105A.

21B. After section 105 of the said Act so amended, the following shall be inserted, namely :—

"105A. Where, in any proceedings for the settlement of rents under this Part, any of the following questions arise :—

Decision of questions relating to the correct settlement of rents under this Part.

(*a*) whether the land is, or is not, liable to the payment of rent ;

(*b*) whether the land, although entered in the record-of-rights as being held rent-free, is liable to the payment of rent ;

(*c*) whether the relation of landlord and tenant exists ;

(*d*) whether the land has been wrongly recorded as part of a particular estate or tenancy, or wrongly omitted from the lands of an estate or tenancy ;

(*e*) whether the tenant belongs to a class different from that to which he is shown in the record-of-rights as belonging ;

(*f*) whether the special conditions and incidents of the tenancy or any custom relating to a right-of-way or other easement have not been recorded or have been wrongly recorded,

the Revenue-officer shall hear and decide such question ; and his decision thereon shall have the force and effect of a decree of a Civil Court in a suit between the parties, and, subject to the provisions of sections 108 and 109A, shall be final.

The Bengal Tenancy (Amendment) Bill, 1906.

(Clauses 22-24.)

New sub-section (2) of section 107.

22. For sub-section (2) of section 107 of the said Act so amended, the following shall be substituted, namely :—

"(2) A note of all rents settled under section 105 and of all decisions of disputes under section 106, and of all rents commuted under section 40 by a Revenue-officer appointed by the designation of Settlement Officer or Assistant Settlement Officer, shall be made in the record-of-rights finally published under section 103A, sub-section (2), and such note shall be considered as part of the record."

New section 108A.

22A. After section 108 of the said Act so amended, the following shall be inserted, namely :—

Correction of mistakes in record-of-rights.

"108A. Any Revenue-officer specially empowered by the Local Government in this behalf, may, on application or of his own motion, within twelve months from the date of the certificate of the final publication of the record-of-rights under sub-section (2) of section 103A, correct any entry in such record-of-rights which he is satisfied has been made owing to a *bond-fide* mistake:

Provided that no such correction shall be made if an appeal affecting such entry is pending under section 109A, or until reasonable notice has been given to the parties concerned to appear and be heard in the matter."

Amendment of section 109.

22B. In section 109 of the said Act so amended, for the words and figures "under section 105, section 106, section 107 or section 108", the words, figures and brackets "or any proceedings taken under sections 105 to 108 (both inclusive)" shall be substituted.

Amendment of section 109A.

23. (1) In sub-section (2) of section 109A of the said Act so amended, after the figures "108" the letter "A" shall be inserted.

(2) To the said section the following shall be added, namely :—

"(4) A note of all rents settled and of all decisions of disputes on revision or appeal, under section 108 or under this section, shall be made in the record-of-rights finally published under section 103A, and such note shall be considered as part of the record." [*Cf.* Act VIII of 1885, s. 107 (2).]

New sections 109D and 109E.

24. In Part IV of Chapter X of the said Act so amended, immediately before section 110, the following shall be inserted, namely :—

"109D.

Power of Revenue-officer to give effect to agreement or compromise.

(1) In framing a record-of-rights and in deciding disputes, under this Chapter, the Revenue-officer shall give effect to any lawful agreement or compromise made or entered into by the landlord and tenant,

but he shall not give effect to any agreement or compromise the terms of which, if they were embodied in a contract, could not be enforced under this Act.

(2) Where an agreement or compromise has been made for the purpose of settling a dispute as to the rent payable, the Revenue-officer shall, in order to ascertain whether the effect of such agreement or compromise would be to enhance the rent in a manner, or to an extent, not allowed by section 29 in the case of a contract, record evidence as to the rent which was legally payable immediately before the period in respect of which the dispute arose.

(3) Where the terms of an agreement or compromise are such as might affect unfairly or inequitably the rights of third parties, the Revenue-officer shall not give effect to such agreement or compromise, unless and until he is satisfied by evidence that the statements made by the parties thereto are correct.

Illustration.—A, a proprietor, agrees that B, his tenant, shall be recorded as an occupancy-raiyat at a fixed rent. The Revenue-officer must, under sub-section (3), inquire whether B is a under-holder or a raiyat, as defined in section 5. If he finds on the evidence that B is a raiyat, he may give effect to the agreement, but shall not do so if he finds that B is a settled raiyat.

Power of Revenue-officer to give effect to agreement or compromise.

"109E. (1) Notwithstanding anything contained in section 109D, if in any case, while the record is being prepared, the landlord and tenant agree as to the rent which shall be recorded as payable for the tenure or holding, a Revenue-officer specially empowered in this behalf by the Local Government may, if he is satisfied

(*Clauses* 24A-27.)

that the rent agreed upon is fair and equitable, but not otherwise, settle such rent as a fair and equitable rent, although the terms of the agreement are such that, if they were embodied in a contract, they could not be enforced under this Act; and the provisions of section 113 shall apply to a rent so settled.

(2) A landlord or tenant may appeal to the Special Judge appointed under section 109A on the ground that the rent settled by the Revenue-officer, under sub-section (1), as a fair and equitable rent was not agreed to by such landlord or tenant, and on no other ground.

(3) The Board of Revenue may, on application made, or of its own motion in proceedings undertaken, within one year from the date of the order, under sub-section (1), settling a rent as a fair and equitable rent, direct the revision of the rent so settled:

Provided that no such direction shall be made until reasonable notice has been given to the parties concerned to appear and be heard in the matter."

Amendment of section 111.

24A. In section 111 of the said Act so amended, after the word "entertain" the words and figures "any application made under section 158, or" shall be inserted.

Amendment of section 112.

25. (1) In sub-section (1) of section 112 of the said Act so amended, for the words "invest a Revenue-officer acting under this Chapter" the following shall be substituted, namely:—

"or that any landlord is demanding rents which have been illegally enhanced above those entered as payable in a record-of-rights prepared under this Chapter, invest a Revenue-officer".

(2) After sub-section (2) of the said section the following shall be inserted, namely:—

"(3) A settlement of rent under this section shall be made in the manner provided by sections 104 to 104J (both inclusive)."

and the existing sub-section (3) shall be re-numbered sub-section (4).

(3) To the said sub-section (4), so re-numbered, the following shall be added, namely:—

"and the revision, by direction of the Board of Revenue under sub-section (2) of section 104G, of a record-of-rights, or any portion of a record-of-rights, prepared under this section, shall be subject to a like confirmation by the Governor General in Council."

Amendment of section 114.

27. In section 114 of the said Act so amended—

(1) in sub-section (1)—

(a) the words "by the Government" shall be omitted, and

(b) for the words "from time to time in the maintenance," the following shall be substituted, namely:—

"at any time, whether before or after the preparation of the record-of-rights, in the maintenance, repair or restoration."

(c) after the word "proportions" the words and brackets "and in such instalments (if any)," shall be inserted.

(2) after sub-section (1), the following shall be inserted, namely:—

"(2) The estimated amount of the expenses likely to be incurred for the maintenance, repair or restoration of boundary-marks for a period not exceeding fifteen years, or such part of such expenses as the Local Government may direct, may be recovered in advance in the same manner as if they had been already incurred";

and the present sub-section (2) shall be re-numbered sub-section (3).

The Bengal Tenancy (Amendment) Bill, 1906.

(*Clauses 27A-30.*)

(3) after sub-section (3), so re-numbered, the following shall be added, namely :—

"(4) The cost of the preparation of copies of the survey maps and record-of-rights, prepared under this Chapter for distribution to landlords and tenants, shall be deemed to be part of the expenses incurred in carrying out the provisions of this Chapter."

New section 115A. 27A. After section 115 of the said Act so amended, the following shall be inserted, namely :—

Demarcation of village boundaries.

"115A. In the demarcation of village boundaries for the purpose of making a survey and preparing a record-of-rights under this Chapter, a Revenue-officer shall, so far as is possible, and subject to the provisions of the Bengal Survey Act, 1875, preserve, as the unit of survey and record, the area contained within the exterior boundaries of the village maps of the revenue survey, if any; Ben. Act V of 1875.

and, where village maps prepared at a previous revenue survey exist, he shall not, without the sanction of the Board of Revenue, adopt any other area as such unit."

Addition to heading to Chapter XI. 28. To the heading to Chapter XI of the Bengal Tenancy Act, 1885, the following words shall be prefixed, namely :— VIII of 1885.

"NON-ACCRUAL OF OCCUPANCY AND NON-OCCUPANCY RIGHTS, AND"

Amendment of section 116. 29. In section 116 of the said Act, after the words "shall apply to" the following shall be inserted, namely :—

"lands acquired under the Land Acquisition Act, 1894, for the Government or for any local authority or for a Railway Company, or lands belonging to the Government within a Cantonment under the Cantonments Act, 1889, while such lands remain the property of the Government, or of any local authority or Railway Company, or to." 1 of 1894. XIII of 1889.

Amendment of section 120. 29A. After sub-section (2) of section 120 of the Bengal Tenancy Act, 1885, the following shall be inserted, namely :— VIII of 1885.

"(3) Notwithstanding anything contained in any agreement or compromise, or in any decree which has been passed *ex-parte* or which is proved to his satisfaction to have been obtained by collusion or fraud, a Revenue-officer shall not record any land as proprietor's private land, unless it is proved to be such by satisfactory evidence of the nature described in sub-sections (1) and (2),"

and the existing sub-section (3) shall be re-numbered sub-section (4).

New sections 147A and 147B. 30. After section 147 of the said Act the following shall be inserted, namely :—

Compromise of suits between landlord and tenant.

"147A. (1) The provisions of section 375 of the Code of Civil Procedure shall not apply to any suit between landlord and tenant as such. XIV of 1882.

(2) Where any suit between landlord and tenant as such is adjusted wholly or in part by any lawful agreement or compromise, or if the defendant satisfies the plaintiff in respect to the whole or any part of the matter of the suit the Court shall pass a decree in accordance with such agreement, compromise or satisfaction, so far as it relates to the suit. [*Cf.* Act XIV of 1882, s. 375.]

(3) No decree shall be passed in accordance with any agreement, or compromise the terms of which, if they were embodied in a contract, could not be enforced under this Act.

The Bengal Tenancy (Amendment) Bill, 1906.

(*Clause 31.*)

(4) Where an agreement or compromise has been made for the purpose of settling a dispute as to the rent payable, the Court shall, in order to ascertain whether the effect of such agreement or compromise would be to enhance the rent in a manner, or to an extent, not allowed by section 29 in the case of a contract, record evidence as to the rent which was legally payable immediately before the period in respect of which the dispute arose.

(5) Where the terms of an agreement or compromise are such as might affect unfairly or inequitably the rights of third parties, the Court shall not pass a decree in accordance with such agreement or compromise, unless and until it is satisfied by evidence that the statements made by the parties thereto are correct.

Illustration.—*A*, a proprietor, agrees that *B*, his tenant, shall be recorded as an occupancy-raiyat; this affects the rights of the tenants of *B*. The Court must, under sub-section (5), inquire whether *B* is a tenure-holder or a raiyat as defined in section 5. If the Court finds on the evidence that *B* is a raiyat, it may pass a decree in accordance with the agreement, but shall not do so if it finds that *B* is a tenure-holder.

(6) A decree passed in accordance with any lawful agreement, compromise or satisfaction shall be final so far as it relates to so much of the subject-matter of the suit as is dealt with by such agreement, compromise or satisfaction.

"147B. In all areas in which a record-of-rights has been prepared and finally published under sub-section (8) of section 103A, a Civil Court shall, in all suits between landlord and tenant as such, have regard to the entries in such record-of-rights relating to the subject matter in dispute which may be produced before it, unless such entries have been proved by evidence to be incorrect; and when a Civil Court passes a decree at variance with such entries, it shall record its reasons for so doing."

Regard to be paid by Civil Courts to entries in record-of-rights.

Amendment of section 148.

31. (1) In section 148 of the said Act, after clause (*b*), the following shall be inserted, namely:—

"(*bb*) where the suit is for the rent of land situated within an area in which a record-of-rights has been prepared and finally published, the plaint shall, unless the Court is satisfied, for reasons to be recorded in writing, that the plaintiff was prevented by any sufficient cause from furnishing such statement, further contain a list of the survey plots comprised in the tenancy and a statement of the rental of the tenancy according to the record-of-rights:

Provided that, in all cases in which the Court admits a plaint which does not contain such statement, the Court shall, and in any other case in which it sees fit the Court may, require the Collector to supply, without payment of fee, a verified or certified copy of, or extract from, the record-of-rights relating to the tenancy.

"(*bbb*) Where, since the record-of-rights was prepared and finally published, an alteration has been made in the area of the tenancy, the plaint shall further contain a statement of the rental of the original tenancy according to the record-of-rights, together with a statement showing how the amount of rent claimed in the suit has been calculated.

(2) After clause (*f*) of the same section, the following shall be inserted, namely:—

"(*ff*) When any account-books, rent-rolls, collection or measurement papers or maps have been produced by a landlord in any Court, and have been admitted in evidence in a suit pending therein, copies of, or extracts from, such documents, certified by a duly authorized officer of such Court to be true copies or extracts, may, with the permission of the Court, be substituted on the record for the originals, which may then be returned to the landlord;

and thereafter copies and extracts, so certified, may be admitted in evidence in any other suit instituted in same or another Court, unless the Court in which such copies of extracts are produced sees fit to require the production of the originals".

The Bengal Tenancy (Amendment) Bill, 1906.

(*Clauses 31A -33.*)

Amendment of sections 149 and 150.

31A. The words "except for special reasons to be recorded in writing," in sections 149 and 150 of the said Act, shall be omitted.

Addition of Explanation to section 153.

32. To section 153 of the said Act the following *Explanation* shall be added, namely :—

"*Explanation.*—A question as to the regularity of the proceedings in publishing or conducting a sale in execution of a decree for arrears of rent is not a question relating to title to land or to some interest in land as between parties having conflicting claims thereto."

New section 153A

32A. After section 153 of the said Act the following shall be inserted, namely :—

"153A. Every application for an order under section 108 of the Code of Civil Procedure to set aside a decree passed *ex-parte*, or for a review of judgment, under section 623 of the said Code, shall contain a statement of the injury sustained by the applicant by reason of the decree or judgment; XIV of 1882

Deposit on application to set aside *ex-parte* decree.

and no such application shall be admitted—

(*a*) unless the applicant has, at or before the time when the application is admitted, deposited in the Court to which the application is presented the amount, if any, which he admits to be due from him to the decree-holder, or such amount as the Court may, for reasons to be recorded by it in writing, direct ; or

(*b*) unless the Court, after considering the statement of injury, is satisfied, for reasons to be recorded by it in writing, that no such deposit is necessary."

Amendment of sub-section (*1*) of section 158

32B. In sub-section (*1*) of section 158 of the Bengal Tenancy Act, 1885, to the words "The Court having jurisdiction" the words and figures "Subject to the provisions of section 111" shall be prefixed. VIII 1885

New heading and new section 158A

33. After section 158 of the said Act the following shall be inserted, namely :—

"*Summary Procedure for the Recovery of Rents under the Public Demands Recovery Act, 1895.* Ben. Act I of 1895.

"158A. (*1*) Any landlord whose land is situate in an area in which a record-of-rights has been prepared and published, and in which such record is maintained, [*Cf.* Bom. Act V of 1879, ss. 86, 88.]

Recovery of arrears by application of procedure prescribed in the Public Demands Recovery Act, 1895, in certain areas

may apply to the Local Government, through the Collector of the district in which his land is situate, for the application of the procedure prescribed by the Public Demands Recovery Act, 1895 [as amended by the Bengal Public Demands Recovery (Amendment) Act, 1897], to the recovery of the arrears of rent which he alleges are, or may accrue, due to him for lands in such area. Ben. Act I of 1895. Ben. Act I of 1897.

(*2*) The Local Government may refuse to allow the landlord's application, or may allow it subject to such terms and conditions as it may see fit to impose, and may at any time add to or vary those terms and conditions, or withdraw its allowance of the application, without, in any of these cases, assigning any reason for its action.

(*3*) When any such application has been allowed, the landlord may make a requisition in writing, in the Form prescribed, to such Revenue-officer as the Local Government may appoint, for the purpose of this section, to perform the functions of a Certificate Officer under the Public Demands Recovery Act, 1895, [as amended by the Bengal Public Demands Recovery (Amendment) Act, 1897,] for the recovery of any arrears of rent which he alleges are due to him from any tenant. Ben. Act I of 1895. Ben. Act I of 1897.

(*4*) Every such requisition shall be signed and verified by the landlord making it, in accordance with the provisions of sections 51 and 52 of the Code of Civil Procedure as to the verification of plaints; and there shall be payable in respect of every such requisition a Court-fee of the same amount as is payable under the Court-fees Act for the time being in force in respect of a plaint for the recovery of a sum of money equal to that stated in such requisition. XIV of 1882. VII of 1870.

The Bengal Tenancy (Amendment) Bill, 1906.

(Clause 34.)

(5) On receipt of such requisition the Revenue-officer may in accordance with such rules as the Local Government may prescribe in this behalf under this Act,

issue certificates for the recovery of the arrears alleged to be due in the Form prescribed therefor, and any such certificate shall, as regards the remedies for enforcing the same and so far only, have the force and effect of a decree of a Civil Court passed in a suit for the recovery of rent, and the provisions of Chapter XIV of this Act shall, so far as may be practicable, be applicable to all proceedings for the execution of such certificate

(6) The following provisions of the Public Demands Recovery Act, 1895 [as amended by the Bengal Public Demands Recovery (Amendment) Act, 1897] shall, so far as they are applicable, apply to the proceedings for the execution of all certificates for the recovery of rent issued under sub-section (5), namely :— Ben. Act I of 1895. Ben. Act I of 1897.

'the proviso to sub-section (1) of section 7, and sections 10 to 17 (both inclusive), 22 to 33 (both inclusive).'

(7) No landlord shall, during the pendency of any proceedings under this section, institute a suit in a Civil Court for the recovery of any arrears of rent in respect of which he has applied for the issue of a certificate;

and, subject to the provisions of section 15 of the Public Demands Recovery Act, 1895, no tenant, after the issue of any certificate against him, shall institute a suit in, or apply to, a Civil Court for the alteration of the rent payable by him, or the determination of his status as a tenant, in respect of the period during which the arrears of rent for which such certificate has been issued against him has accrued. Ben. Act I of 1895.

(8) No certificate shall be issued for the recovery of arrears of rent of a tenancy regarding which a suit has been instituted in a Civil Court for the alteration of the rent payable by the tenant or the determination of his status as a tenant, in respect of the period during which it is alleged in the requisition made under sub-section (2) the arrears of rent sought to be recovered have accrued;

and, if after the issue of a certificate it is found that such a suit has been instituted in a Civil Court before the issue of the certificate, such certificate shall be cancelled.

(9) 'Landlord' in this section includes an entire body of landlords, and also one or more co-sharer landlords who collects or collect his or their share or shares of the rent separately and, where the Revenue officer issues a certificate on the requisition of one or more such co-sharer landlords, he shall at the same time issue to each of the remaining co-sharer landlords a copy of such certificate."

New section 158B.

34. In Chapter XIV of the Bengal Tenancy Act, 1885, immediately before section 159, the following shall be inserted, namely: — VIII of 1885.

"158 B. (1) Where a tenure or holding is sold in execution of a decree for arrears of rent due in respect thereof, or of a decree for damages under section 186A, the tenure or holding shall, subject to the provisions of section 22, pass to the purchaser, provided that the decree in execution of which it has been sold has been obtained by—

Passing of tenure or holding sold in execution of decree.

(a) a sole landlord; or

(b) the entire body of landlords; or

(c) one or more co-sharer landlords, who has, or have, sued for the rent due to all the co-sharers in respect of the whole tenure or holding and made all the remaining co-sharers parties defendant to the suit.

(2) Where, in a suit framed under the provisions of sub-section (1), a plaintiff co-sharer landlord is unable to ascertain the amount of rent due for the whole tenure or holding or whether the rent due to the other co-sharer landlords has been paid or not, owing to the refusal or neglect of the tenant or of the co-sharer landlords, defendant to the suit, to furnish him with correct information on these points, or on either of them,

The Bengal Tenancy (Amendment) Bill, 1906.

(*Clauses 34A-38A.*)

such plaintiff shall be entitled to sue for his share only of the rent, and a decree obtained by him in a suit so framed shall, as regards the remedies for enforcing the same, be as effectual as a decree obtained by a sole landlord or an entire body of landlords in a suit brought for the rent due to all the co-sharers.

(*3*) On one or more co-sharer landlords, who has, or have obtained a decree in a suit framed under the provisions of sub-section (*1*) or sub-section (*2*) applying for the execution of the decree by the sale of the tenure or holding, the Court shall, before proceeding to sell the tenure or holding, give notice of the application for execution to the other co-sharers."

Addition of clause (*c*) to section 161.

34A. To section 161 of the said Act the following shall be added, namely:—

"(*c*) the terms 'arrears' and 'arrear of rent' shall be deemed to include interest decreed under section 67 or damages awarded in lieu of interest under sub section (*1*) of section 68."

Amendment of section 168.

34B. In sub-section (*1*) of section 168 of the said Act, for the words "decrees for rent" the words "a decree for an arrear of rent" shall be substituted.

Amendment of sub-section (*1*) of section 169 and addition of proviso

35. (*1*) In clause (*c*) of sub-section (*1*) of section 169 of the said Act, after the words "the date of" the words "the confirmation of" shall be inserted.

(*2*) To the said sub-section the following proviso shall be added, namely:—

"Provided that, where a tenure or holding has been sold in execution of a decree obtained by one or more co-sharer landlords in a suit framed under the provisions of sub section (*1*) or sub-section (*2*) of section 158B,—

(*i*) payment of the amount due under such decree shall, notwithstanding anything contained in clause (*b*), be made to the decree-holder and to the other co-sharer landlords in proportion to the amount found due to each, and,

(*ii*) if there remains a balance, payment of any rent which may have fallen due in respect of the tenure or holding between the institution of the suit and the date of the confirmation of the sale shall, notwithstanding anything contained in clause (*c*), but subject to the determination, in the manner and with the effect mentioned in sub-section (*2*), of any dispute as to their respective rights to receive such rent, be made to the said decree-holder and the other co-sharer landlords in proportion to their respective shares in the tenure or holding".

Amendment of section 170.

36. In section 170 of the said Act, after the words and brackets "(both inclusive)," the word, figures and letter "and 310A" shall be inserted.

Amendment of section 174.

37. To the proviso to sub-section (*2*) of section 174 of the said Act, the following shall be added, namely:—

"and if he applies under this section, he shall not be entitled to make an application under section 311 of the Code of Civil Procedure" XIV of 1882.

Amendment of sub-section (*3*) of section 178.

38. (*1*) In proviso (*iii*) to sub-section (*3*) of section 178 of the Bengal Tenancy Act, 1885, after the words "cultivation of" the words "horticultural or" shall be inserted. VIII of 1885.

(*2*). To the same proviso the following *Explanation* shall be added, namely:—

"*Explanation*—'Horticultural land' means garden land in the occupation of a proprietor or permanent tenure-holder, which is used *bonâ fide* for the cultivation of flowers and vegetables grown for the personal enjoyment of such proprietor or permanent tenure-holder and his family, and not for profit or sale."

New heading and new section 186A.

38A. After section 186 of the said Act, the following shall be inserted, namely:— [*Cf.* Act V of 1882, s. 111].

"*Damages for denial of landlord's title.*

Damages for denial of landlord's title.

"186A. (*1*) When, in any suit between a landlord and tenant as such, the tenant renounces his character as tenant of the landlord by setting up without reasonable or probable cause title in a third

(Clauses 39-43.)

person or himself, the Court may pass a decree in favour of the landlord for such amount of damages, not exceeding ten times the amount of the annual rent payable by the tenant, as it may consider to be just.

(2) The amount of damages decreed under sub-section (1), together with any interest accruing due thereon, shall, subject to the landlord's charge for rent, be a first charge on the tenure or holding of the tenant; and the landlord may execute such decree for damages and interest, either as a decree for a sum of money, or, subject to the provisions of section 158B, in any of the modes in which a decree for rent may be executed."

New section 188A.

39. After section 188 of the said Act, the following shall be inserted, namely:—

"188A. Notwithstanding anything contained in this Act, every suit between landlord and tenant as such instituted by—

Provision in suits by joint landlords with separate collection.

(a) a sole landlord,

SURVEY OF INDIA.

NOTIFICATION.

Calcutta, the 12th February 1907.

No. 209—An examination for admission to the Provincial Service of the Survey of India will commence on the 26th August next at Calcutta, Dehra Dun, Mussooree, Bangalore, Poona and Maymyo.

The number of vacancies offered for this year's examination will probably be 6, of which 1 will probably be for native candidates.

Applications for rules (a copy of which is printed below) should be addressed to the Assistant Surveyor General, in charge Surveyor General's Office, 13 Wood Street, Calcutta

No application to appear as a candidate for the examination will be entertained after the 30th June 1907.

It is probable that this special departmental examination will not be held in future.

T. F. B. RENNY-TAILYOUR, BT. LIEUT.-COLONEL, R.E.,
for *Surveyor General of India.*

SURVEY OF INDIA.

(*Vide* R. & A. Department No. 53—157—2, dated the 4th January 1901.)

MEMO. OF INSTRUCTIONS FOR APPLICANTS FOR THE PROVINCIAL SERVICE OF THE SURVEY OF INDIA.

1st.—Every candidate for the Survey of India must forward his application in writing to the Surveyor General, accompanied by such certificates as to *age* (Baptismal Certificate required in case of European and Eurasian Candidates), *moral character*, *education*, *soundness of health*, and *good eye-sight* as will clearly establish his suitability for employment. The application must further be accompanied by *specimens of Plan and Freehand drawing* * The candidate's name having been registered, he will be informed of the time and place of examination, when decided on. The examination papers will be issued from the Trigonometrical Branch Office in Dehra Dun.

2nd.—No application can be entertained from any individual whose age at the date of the completion of the examination will be under 18 or above 22 years, except in the case of Natives whose maximum age is fixed at 24 years. The Surveyor General, however, has the power to extend the age limit to 30 years in the case of those candidates who are at the time in pensionable service in the subordinate grades of the Survey of India. No person who is married or is likely to be soon married will be admitted unless of pure Asiatic origin. Candidates, if of European parentage, must be Statutory Natives of India and have at least passed the High School Pass examination or First Arts examination at an Indian University having qualified in Algebra as one of the subjects, and if Natives the F.A. Pass examination.

3rd—Candidates must be prepared to undergo the examination detailed below, which will give them entrance to the Training School at Dehra; no candidate will be considered to have qualified unless he gets 50 per cent. of the marks in Mathematics and 30 per cent. of the total marks in Drawing.

4th—Examinations will be held in August as a rule. The most suitable of the candidates who qualify will be selected.

5th.—When under examination for the Department, the candidate must sign the Bond printed on the reverse of this paper.

6th.—The selected candidates will enter the Department as Probationary Sub-Assistant Superintendents, 3rd grade, on a salary of Rs. 120 *per mensem*, and they must pass out of the Training School within a maximum limit of two years. They will not be confirmed in their appointments until they have served at least one year in a field party and have been well reported on.

7th.—As Surveyors are liable to much exposure and to work in trying climates, the medical certificate should particularly specify that the candidate is of good physique and is likely to stand hard work, such as riding and walking long distances. The medical certificate should be in the form as given overleaf, signed by a Medical officer in Government employ not lower in rank than Lieutenant. During his course at the Training School should he prove to be, in the opinion of the Superintendent, Trigonometrical Surveys, physically unfitted for the Department, that officer may demand a further certificate of fitness.

T. W. RICHARDSON,
Secy. to the Govt. of Bengal.

No. 2155—2169-17, dated Calcutta, the 7th March 1907.

RESOLUTION—By the Govt. of India, Dept. of Commerce and Industry.

THE Government of India have received through His Majesty's Secretary of State a communication from the British Consular authorities at San Francisco to the effect that there is very little prospect of employment for Indian labourers in California.

2. The Governor-General in Council accordingly requests all Local Governments and Administrations to make the above intimation generally known, particularly in places from which emigration to California is believed to be most common. Steps should be taken to warn intending emigrants at the ports of embarkation of the risks they run in proceeding to that State.

(*i*) the supply of stamps to be used under the said Act;

(*ii*) the number of stamps to be used for denoting any fee chargeable under the said Act;

(*iii*) the renewal of damaged or spoiled stamps;

(*iv*) the keeping of accounts of all stamps used under the said Act;

(*v*) the sale of stamps to be used under the said Act;

(*vi*) the persons by whom alone such sale is to be conducted, and

(*vii*) the duties and remuneration of such persons,

shall be substituted for the like rules published with Notification No. 3684S.R., dated the 1st August 1893, as subsequently amended by the Notifications mentioned in the margin.

"Court-fee stamps defined."

1. Adhesive and impressed stamps bearing the words "Court-fee" are called court-fee stamps, and the fees chargeable under Act VII of 1870 shall be collected only by means of such stamps, subject to the exceptions mentioned in section 3 of the Act.

Ex-officio vendors.

2. The Treasurer at the head-quarters of a district, and at subdivisions the subordinate officer entrusted with the custody and sale of stamps on behalf of Government, shall be *ex-officio* vendors, and shall sell on behalf of Government, "Court-fee" stamps to licensed vendors, and to the public on application.

Licensed vendors.

3. Such persons as may be licensed by the District Officers, shall be licensed vendors and shall sell to the public such stamps as are indicated in their licenses.

License what to specify.

4. Every license shall specify the name of the licensee, the description of stamps which may be sold under the license, the place of vend, and such other matters as may be necessary, and shall be signed by the authority granting it. The license shall be revocable at any time by the authority who grants it.

Fraction of an anna to be omitted in calculating fee.

5. If in any case the amount of the fee chargeable involves a fraction of an anna, such fraction shall be remitted.

Number and kind of stamps to be used—when fees amount to less than Rs. 10.

6. When, in the case of fees amounting to less than Rs. 10, the amount can be denoted by a single adhesive stamp, such fee shall be denoted by a single adhesive stamp of the required value. But if the amount cannot be denoted by a single adhesive stamp, or if a single adhesive stamp of the required value is not available, the next lower value available shall be used, and the deficiency shall be made up by the use of one or more additional adhesive stamps of the next lower values which may be required to make up the exact amount of the fee.

When fees amount to or exceed Rs. 10.

7. When, in the case of fees amounting to or exceeding Rs. 10, the amount can be denoted by a single impressed stamp, the fee shall be denoted by a single impressed stamp of the required value. But if the amount cannot be denoted by a single impressed stamp, or if a single impressed stamp of the required value is not available, an impressed stamp of the next lower value available shall be used, and the deficiency shall be made up by the use of one or more additional impressed stamps of the next lower values available, which may be required to make up the exact amount of the fee, in combination with adhesive stamps to make up fractions of less than Rs. 10.

Certificate to be given by a licensed stamp vendor when a single stamp is not available.

8. When the application for the required stamp is made to a licensed vendor of Court-fee stamps, and such vendor is unable to furnish a single stamp of the required value, he shall give a certificate to that effect in the form below. The certificate referred to must be affixed to the document and filed with it:—

Form of Certificate.

"Certified that a single stamp of the value of Rs. required for this document is not available, but that in lieu thereof, I have furnished a stamp of the next lower value available and made up the deficiency by the use of one or more $\frac{\text{adhesive}}{\text{impressed}}$ stamps of the next lower values available required to make up the exact amount of the fee."

No such certificate required from an official vendor.

9. No such certificate shall be required under similar circumstances from an official vendor, but the latter shall carefully observe the same principl, of issuing, whenever practicable, a single stamp of the required value, or when, from any reason, this is not possible, of furnishing a stamp of the next lower value available and of making up the deficiency by the use of one or more additional stamps of the next lower values available which may be required to make up the exact amount of the fee as directed in rules 6 and 7.

10. Any adhesive stamps which may be used under rule 7 shall be affixed to the impressed stamp of the highest value employed in denoting the fee, or to the first sheet of the document to be inscribed in such manner as not to conceal the value of the stamp thereon.

Mode of stamping and engrossing instruments for which a single stamp is not available.

11. A document stamped otherwise than in accordance with the preceding rules is not properly stamped within the meaning of section 28 of the Court-fees Act, 1870.

When a document is not properly stamped.

12. When one or more impressed stamps used to denote a fee are found insufficient to admit of the entire document being written on the side of the paper which bears the stamp, so much plain paper may be joined thereto as may be necessary for the complete writing of the document, and the writing on the impressed stamps and on the plain paper shall be attested by the signature of the person or persons executing the document.

Directions for the use of plain paper with impressed stamps.

13. Every licensed vendor shall at all times have stuck up, in a conspicuous place outside the place of vend, a signboard bearing the name of the vendor with the words "*Licensed Vendor of Stamps*" in the vernacular language of the district. He shall also have in the place of vend his license and the Acts of the Legislature and their Schedules referring to the stamps sold by him, together with these rules in English, placed so that they can readily be seen and read by purchasers.

Licensed vendor to exhibit signboard, license, etc.

14. Every *ex-officio* or licensed vendor shall insert at the time of sale to the public the name of the purchaser, the date of sale, and the signature of the vendor on the blank space left for this purpose on each adhesive Court-fee stamp.

Particulars to be entered on adhesive stamps.

NOTE.—In Calcutta and other places, where the sale of stamps of low value is so great as to render it difficult to carry out the above rule 14 in its entirety, the Board have power to relax it to such extent and in such a manner as may appear necessary, provided that no such relaxation shall apply to stamps of the value over one rupee, and that in each case the extent and manner of the relaxation shall be distinctly stated in the order, and be published for general information.

15. Every *ex-officio* or licensed vendor shall write at the time of sale on the back of every impressed Court-fee stamp which he sells, the date of sale, the name of the purchaser, and the value of the stamp in full in words, and shall affix his signature to the endorsement.

Particulars to be entered on impressed stamps.

16. Licensed vendors at all places purchasing Court-fee stamps of the total value of Rs. 25 and upwards at one time, by payment of ready money shall receive the same at a discount at the following rates:—

Rates of discount on Court-fees.

For stamps of the value of one rupee or less, Re. 1-0-8 per cent.; for stamps of higher value, Re. 0-12-6 per cent.

17. No discount shall be allowed on purchase of any stamp of which the value is more than Rs. 50. Stamps above that value are procurable from the District and the Subdivisional Officers.

No discount on stamps of more than Rs. 50.

18. No licensed vendor shall be supplied with stamps on credit without the special sanction of Government.

No licensed vendor to get supply on credit.

19. A licensed vendor shall obtain all the supplies of stamps which he is authorised to sell only from the treasury or a sub-treasury of the district for which his license was granted, and shall sell stamps only at the place mentioned in his license.

Licensed vendor to obtain supply from treasury only.

20. When persons cannot be found willing to undertake the sale of judicial stamps in any locality in which the establishment of a vendor seems desirable, some person in the public service may be appointed stamp vendor on a small salary in addition to the usual rate of discount allowed to licensed vendors. This system shall not, however, be introduced without the sanction of Government.

Special arrangement for vend of stamps.

21. In order that the public may be provided with every facility for readily obtaining stamps in outlying localities where otherwise stamps might not always be easily available, licenses for the sale of stamps of every description may be granted to any respectable and reasonably substantial person who wishes to sell them either as a special business or as an addition to some other business which he carries on. At district and subdivisional head-quarters and in large towns where vendors are readily found, the number of them shall be such as to offer reasonable facilities to the public, but it shall be limited so as to allow of a moderate income from the sale of stamps being derived by each.

Who may be licensed vendors.

Licenses may be granted to Rural Registrars or their Muharrirs and to Postmasters with the consent of the Postmaster-General.

Every licensed vendor to keep a proper supply of stamps.

22. Every licensed vendor shall keep such stock of the stamps which he is authorized to sell as is sufficient to meet the public demand. If he fails to do so, his license may be cancelled.

Ministerial officers not to be allowed any discount.

23. No treasurer or other subordinate officer in charge of stamps shall purchase stamps at a discount for sale on his own account to the public.

Special care to be taken with adhesive stamps.

24. Extra precautions shall be taken to preserve the adhesive stamps from damp, and to prevent their becoming firmly fixed together by the gum on the back. The stocks shall be carefully examined and dried when necessary, and the place where they are stored shall be always kept properly dry. The sheets also, as far as possible, shall be kept face to face and never back to back.

Adhesive stamps to be kept in tin box within the almirah or chest in some districts.

25. As extra precautions seem to be necessary in the district of Darjeeling and the districts of the Presidency, Orissa, and Burdwan Divisions to preserve adhesive stamps from damp, the Treasury Officers of those districts shall keep all adhesive stamps remaining in their hands in a small air-tight and locked tin box within the stamp almirah or chest.

Deficiency in store to be at once reported.

26. Any deficiency that may be discovered in the store of stamps shall be immediately reported both to the Controller of Printing, Stationery and Stamps for information and to the Commissioner of the Division who shall report it to the Board.

Issue from double locks.

27. The Treasury Officer shall cause the store under double locks to be opened, and the required quantity of stamps to be counted and delivered in his presence to the treasurer at the head-quarters of a district, and at subdivisions to the subordinate officer entrusted with the custody and sale of stamps on behalf of Government. The number and value of stamps delivered to the treasurer at head-quarters, and to the subordinate officer at subdivisions shall be entered in the store-book, and the balance struck at the time of delivery. This balance shall be attested by the initials of the Treasury Officer and treasurer at head-quarters, and of the Treasury Officer and subordinate officer at subdivisions, both of whom shall invariably be present during the whole time that the store under double locks, or any part of it, remains open. The deliveries shown in the store-book shall agree with the indent as approved, and shall also agree with the entries in the account of daily sales (*i.e.*, single lock account) of the treasurer at head-quarters and of the subordinate officers at subdivisions.

Issue from double locks at intermediate times.

28. If the treasurer at head-quarters, or the subordinate officer at a subdivision, requires stamps at any intermediate time, the same process shall be observed as is prescribed in the preceding rule.

Agreement of daily sales with Accountant's register.

29. In checking the account of daily sales of stamps as laid down in rule 18 of the rules prescribed by the Government of India in the Resolution of the Finance Department No. 3715Exc., dated 30th June 1905, the officer in charge of the depôt shall see that the daily totals agree with the Accountant's register of stamp sales and initial both.

Supervision by District Officers and Commissioners.

30. District Officers shall exercise a strict supervision over their treasuries in this department, and Commissioners shall, in their inspectional visits, pay particular attention to the state of the stamp accounts.

Half yearly verification of stock.

31. In making the half-yearly verification of stock on the last open day of September and March each year, a statement shall be prepared showing the number and value of each denomination of stamps as they are examined, and the verifying officer shall see, by personally testing the same, that the values shown in this statement under each denomination correspond with the true value as ascertained by actual calculation, and that the total value of each description corresponds with the sum of the totals of each denomination. The total value of each description shall then be carried into the half-yearly certificate prescribed in rule 36 of the rules of the Government of India referred to in rule 29 above.

Personal liability of Treasury Officer.

32. Every Treasury Officer shall be held personally liable for any loss that may occur to Government during his incumbency owing to his neglect to observe the rules.

Cross-totalling of entries.

33. Inspecting officers invariably, and the officer in charge of the depôt from time to time, shall cross-total the entries in the registers of stamps under double and single lock.

Account of daily sales in sub-treasury.

34. In subdivisions, when the sub-treasury officer is present at his station and no amount is made over to the sub-treasurer for custody under single lock, the daily account of sales mentioned in rule 18 of the rules of the Government of India referred to in rule 29, shall be kept up by passing the daily sales through the account both as receipts and issues. While the sub-treasury officer is away, the daily account shall be maintained like any other single lock account.

Refund of impressed Court-fee stamps and of Court-fee adhesive labels.

35. When any person is possessed of impressed Court-fee stamps for which he has no immediate use or which have been spoiled or rendered unfit or useless for the purpose intended, or when any person is possessed of two or more (or in the case of denominations below Rs. 5, four or more) Court-fee adhesive labels which have never been detached from each other, and for which he has no immediate use, the Collector shall, on application, repay to him the value of such stamps or labels in money, deducting one anna in the rupee, upon such person delivering up the same to be cancelled, and proving to the Collector's satisfaction that they were purchased by him with a *bonâ fide* intention to use them, that he has paid the full price thereof, and that they were so purchased, or, in the case of impressed Court-fee stamps, so purchased, spoiled or rendered useless, within the period of six months preceding the date on which they were so delivered :

Provided that the Collector may, in special cases, allow refunds when application is made within one year from the date of purchase of the stamps or labels, or, also in the case of impressed Court-fee stamps, within one year from the date on which the stamps were spoiled or rendered useless.

Refund of value of stamps to vendors less one anna in the rupee.

36. (1) In the following cases, the full value of the stamps returned into store, less one anna in the rupee, shall be paid to the stamp vendors :—

(*a*) When the vendor resigns his license.
(*b*) When the license is revoked for any fault of the licensee.
(*c*) When the stamps are returned on the death of the vendor.
(*d*) When the stamps are returned on the application of the vendor for leave to restore any stamps.

Refund of value of stamps to vendors less discount.

(2) In the following cases, the full value of the stamps returned into store, less only the discount allowed on their sale, shall be paid to licensed vendors :—

(*a*) When stamps are returned on expiry of the license.
(*b*) When they are recalled by Government.
(*c*) When the license is revoked for any cause other than the fault of the licensee.

Stamps may be exchanged.

Provided that a licensed vendor may exchange unsold stamps, which are fit for use, for other stamps of the same kind.

Provided also that no adhesive stamp shall be received back into store, unless, in cases where the value of each label is not less than Rs. 5, there are at least two such labels which have never been detached from each other; and in cases where the value of each label is less than Rs. 5, unless there are at least four such labels which have never been detached from each other.

Refund of adhesive labels attached to impressed sheets of Court-fee stamps.

37. When adhesive labels are attached to impressed sheets of Court-fee stamps in accordance with the directions contained in Notification by the Government of India, No. 361, dated the 18th April 1883, such labels shall be regarded as impressed stamps for the purposes of refund under these rules.

Refund of the value of the stamp on the plaint presented to any Civil or Revenue Court.

38. When a plaint disclosing a reasonable case on the merits is presented to any Civil or Revenue Court, in such a form that the presiding Judge or officer without summoning the defendent rejects it, not for any substantial defect, but on account of an entirely technical error in form only, and so as to leave the plaintiff free to prosecute precisely the same case in another form against the same defendant or defendants, the value of the stamp on the plaint shall be refunded on presentation of an application to the Collector of the district in which the Court is situated, together with a certificate from the Judge or officer who rejected the plaint, that it was rejected under the circumstances above described, and that the value of the stamp should, in his opinion, be refunded.

Renewal on the certificate of the presiding officer of any Court of adhesive court-fee stamps which have been rendered useless.

39. The presiding officer of any Court, where adhesive Court-fee stamps are used, shall, in the exercise of his discretion, be competent to issue a certificate for the renewal, free of charge, of the stamp or stamps on any document, in any case in which the rewriting of such document has, through inadvertence or accident, been, in his opinion, rendered necessary; or when, after it has been duly stamped, and the stamps have been cancelled, it is found that the reason for presenting it to, or filing it in, the Court has ceased to exist. Such certificate shall be sufficient authority to the Collector or officer in charge of a subdivision, as the case may be, to issue to the holder of a certificate other stamps of the value specified in the certificate, on delivery of the stamps which have been rendered useless.

Renewal of stamps used under section 3 of the Court-fees Act in the High Court of Calcutta, on the certificate of the taxing officer.

40. As regards stamps used under section 3 of the Court-fees Act in the High Court of Calcutta, the taxing officer mentioned in section 5 of the Court-fees Act, VII of 1870, is, in the exercise of his discretion, competent to issue a certificate for the renewal, free of charge, of the stamp or stamps on any document in cases when the rewriting of such document has, through inadvertence or accident, been, in his opinion, rendered necessary; or where, after a document has been duly stamped and the stamps cancelled, it is found that the reason for presenting it to, or filing it in, the Court has

ceased to exist. Such certificate shall be sufficient authority to the Collector to issue to the holder of the certificate other stamps of the value specified in the certificate, on delivery of the stamps which have been rendered useless.

Contents of application.

41. Applications for refund or renewal shall be made on the printed form given below (which shall be obtained from the Officer in charge of the Forms Department by indent in the usual way), containing the particulars required by law, with counterfoils, including the receipt to be given by the Collector and the receipt for money or fresh stamps, as the case may be, to be given by the party. These forms are to be obtained from the nazir or stamp vendors at one pice per sheet. Stamp vendors may obtain the forms from the Collectors' offices at the rate of 80 copies per rupee for retail to the public at one pice per sheet, and while such printed forms are available they shall be used by applicants.

13. Signature of Collector.
14. Date of despatch of stamps to Controller of Printing, Stationery and Stamps for destruction.
15. Date of receipt of Controller's certificate of destruction.
16. Remarks.

Procedure after receipt of application.

43. On receipt of an application, the stamped papers shall be counted, and the counterfoil attached to the form shall be filled up and returned to the applicant, who shall be told when the Collector's order will be passed.

The Collector to examine the stamps and the grounds of application.

44. The Collector shall satisfy himself that the stamps are genuine, and that no marks of cancelment have been erased. He shall also carefully examine the grounds of the application before granting the refund or renewal.

Particulars to be noted by the Collector at the time of granting refund or renewal.

45. If the Collector is satisfied that the applicant is entitled to the refund or renewal, he shall grant such refund or renewal, as the case may be, entering the necessary particulars in the counterfoil attached to the application, and taking the applicant's receipt thereon.

Procedure to be followed when affidavit or deposition is necessary.

46. If the Collector thinks it necessary to require an affidavit, he shall return the application for that purpose. If a deposition be thought necessary, the Collector shall take it or have it taken at once.

Procedure when stamp is purchased in different districts.

47. If the stamp has been bought in a district other than that in which it is presented for refund or renewal, the Collector shall refer the applicant to the Collector of the district where the stamp was purchased.

Who to receive application.

48. Applications for refund or renewal may be received by either the Collector or the Stamp Deputy Collector; in the latter case they shall be sent immediately to the Collector for orders.

Treasurer's report necessary in exceptional cases.

49. The Collector may, only where the circumstances of the case are very exceptional, call for a report from the Treasurer.

Refunds when to be made.

50. Refunds shall, if possible, be made on the day of application.

Procedure when application is made to subdivisional officer.

51. An application for refund of the value or renewal of stamps purchased at a subdivision may be received by the subdivisional officer, who shall forward it with the stamps and with the deposition of the applicant, if a deposition is considered necessary, to the Collector for disposal.

Entries in the register of applications when to be filled in.

52 Columns 1 to 6 of the register referred to in rule 42 above shall be filled up on the day an application is filed, and the remaining columns when it has been disposed of.

Circumstances under which applications may be struck off and the stamps destroyed.

53. When an application for refund of the value, or renewal, of spoilt or useless stamps is sanctioned, or a deposition, affidavit, or futher evidence demanded in support of it, if the amount of the refund, or fresh stamps are not taken, or the deposition, affidavit, or further evidence, called for, is not given, as the case may be, within one year of the date of the order, in either case, the application shall be struck off, and the stamps sent to the Controller of Printing, Stationery and Stamps for destruction.

Cancellation of stamp after grant of refund.

54. When a refund or renewal is granted, the district officer shall then and there punch or mark the stamp in such a way that it can never be presented again.

Cancelled stamps to be forwarded to Controller of Printing, Stationery and Stamps.

55. At convenient intervals, not less frequent than once a fortnight, stamped papers, in respect of which refund or renewal has been granted, shall be forwarded by the Collector to the Controller of Printing, Stationery and Stamps in a sealed packet for destruction, together with an extract from the Refund Register relating to each stamp. On receipt of the stamps, the Controller will cause them to be carefully examined, to ascertain that they are genuine and in order, and any irregularity which the Controller may notice shall be communicated to the Collector who will report to the Board of Revenue.

Destruction of stamps by Controller of Printing, Stationery and Stamps.

56. If the Controller finds that the number and value of the stamps received corresponds with the extract from the Refund Register, and that the stamps are genuine, he will destroy them and certify to the Collector that he has done so.

NOTIFICATION No. 4614.

State Technical Scholarships for Statutory Natives of Bengal tenable in the United Kingdom, on the Continent of Europe, or in America.

THE Government of India have for the last three years awarded, on the recommendation of the Government of Bengal, a few Technical Scholarships of the value of £150 a year each tenable by Statutory Natives of Bengal, for two years in the United Kingdom, on the Continent of Europe, or in America. Law, Medicine, Forestry, Veterinary Science, Agriculture and Engineering are excluded from the scope of the scheme, and scholarships will, in the first instance, be given preferably to students who wish to go through a course of Mining instruction. A few of these scholarships are likely to be available this year also, but no guarantee to that effect can be given at present. Intending candidates are required to submit their applications to the undersigned on or before the 30th April 1907, with certificates as to (1) their moral character, (2) their educational qualifications, (3) their knowledge of the language of the country in which they may elect to study, and (4) their physical fitness. Candidates must name the country to which they propose to proceed, and the course of studies they propose to take up while in receipt of the scholarships. Candidates for Mining Scholarships should state in their applications whether they have had any actual experience of mining. Government does not guarantee to provide successful candidates with employment on their return to India.

NOTIFICATION.

THE HON'BLE MR. K. G. GUPTA, I.C.S.

Dated Calcutta, the 11th March 1907.

IT is hereby notified for general information that the Board of Revenue, Lower Provinces have, in exercise of the powers conferred by section 75 of the Sea Customs Act, 1878 (VIII of 1878), made the following revised rules for the realization of Customs duty on articles imported by His Majesty's Letter or Parcel Mails over sea into Calcutta, in supersession of the like rule 14 of the rules published under Notification No. 221B., dated the 8th January 1885, at pages 31 and 32 of the *Calcutta Gazette*, Part I of the 14th *idem*:—

1. On the arrival of any mail, the Collector of Customs shall depute a Customs Officer to attend at the Post Office for the purpose of assessing to duty articles imported by such mail.

2. The Customs Officer shall deal with all parcels and such letters as have been detained by the Postmaster under the Postal Regulations for examination.

3. A list in form appended of all parcels and such letters as are detained shall be made out in duplicate by the carbon process in the Post Office before the Customs Officer's arrival, from the declarations accompanying the parcels and from the covers of the letters. The columns for value in Indian money and duty shall be left blank and shall be filled up by the Customs Officer on his arrival. When any of the particulars required cannot be obtained from the declarations or the covers of the letters, the columns in question shall be left blank and shall be filled in by the Customs Officer after examination of the parcel or letter in question.

4. The Customs Officer, on his arrival, shall examine the list, fill in any details that may be wanting, and assess the parcels and letters to duty, entering the duty on the list. In his assessment he shall ordinarily be guided by the sender's declaration, but he may have any parcel opened for examination at his discretion. Letters and insured parcels must be opened, under the Postal Regulations, in the presence of the addressee, or a duly authorised agent, or of an Assistant Postmaster. The Customs Officer shall call upon the Postmaster to detain any parcel or letter upon which the Collector's orders may be required.

5. When the assessment is completed, the Customs Officer shall sign both original and duplicate, retain the original, and hand over the duplicate to the Post Office from which the necessary entries shall be made on the parcels and letters for collection of duty at time of delivery. The original shall be taken to the Custom House and made over to the Accountant who shall enter the total of each parcel list in a register, and strike the total for each month. From this total shall be deducted any refunds paid by the Post Office with the sanction of the Collector of Customs to the addressees of parcels, and the net total shall then be credited as import duty by *per contra* debit to the Postal Department.

Foreign Mail Parcel and Letter List.

ACCOUNTS AND FINANCE.
MINT.

The 8th March 1907.

No. 1448-*A.*—1. In exercise of the power conferred by section 16 of the Indian Coinage Act, 1906 (III of 1906), and in supersession of all notifications previously issued in this behalf, the Governor General in Council is pleased to authorise the undermentioned persons to cut, or break, diminished or defaced silver coins, namely:—

(1) Every Officer in charge of a District Treasury, a Sub-Treasury, or a Military Treasure Chest.

(2) Every Commissioner, Deputy Commissioner and Assistant Commissioner of the Department of Paper Currency.

(3) The Mint Masters, Calcutta and Bombay.

(4) The Collectors of Customs at Calcutta, Bombay, Madras, Rangoon, Chittagong and Karachi.

(5) The Judges of the Courts of Small Causes at Calcutta, Sealdah and Rangoon.

(6) The Registrar, Chief Court, Rangoon.

(7) The Secretary and Treasurer of each of the Presidency Banks and every Agent in charge of a branch of any of the said Banks.

(8) The Chairman and Vice-Chairman of the Commissioners for the Port of Calcutta, of the Commissioners for the Port of Rangoon, of the Commissioners for the Port of Chittagong, and of the Trustees of the Port of Karachi; the Chairman of the Trustees of the Port of Bombay, and of the Trustees of the Port of Madras; and the Port Engineer of the Port of Chittagong.

(9) The Chairman, Vice-Chairman, Deputy Chairman and Secretary to the Municipal Corporation of Calcutta; the Municipal Commissioner and Deputy Municipal Commissioner for the City of Bombay and the Secretary of the Municipal Corporation of the City of Bombay; the President of the Municipal Corporation of Madras; and the President, Vice-President and the Secretary of the Rangoon Municipality and of the Mandalay Municipality.

2. In exercise of the power conferred by section 20 of the same Act, and in supersession of all notifications previously issued in this behalf, the Governor General in Council is pleased to authorise the undermentioned persons to cut or break counterfeit silver coins, namely:—

(1) Every person authorised to act under section 16 of the said Act, and

(2) The Manager, Agent, Secretary, or other principal officer of the several offices and agencies (if any) in India of each of the Banks and firms specified in the schedule annexed to this notification.

3. And in exercise of the powers conferred by section 21 of the same Act, the Governor General in Council is pleased to prescribe the following rules, namely:—

(1) A loss of 6¼ per cent. below standard weight in the case of the rupee and half-rupee and of 12½ per cent. in the case of the quarter-rupee and eighth of a rupee, shall be the limit of reasonable wear; and a loss of 25 per cent. below standard weight shall be the further percentage referred to in section 17 of the Act, in the case of all silver coins.

(2) Where a rupee or a half-rupee, which has been diminished in weight so as to be more than 2 per cent. but not more than 6¼ per cent. below standard

weight, and which has not been fraudulently defaced, is tendered to any person authorised to act under section 16 of the Act such person shall accept the coin at its nominal value and the coin shall thereupon be withdrawn from circulation at Government cost.

(3) Where a rupee or a half-rupee, which has been diminished in weight so as to be more than 6¼ per cent. but not more than 25 per cent. below standard weight, and which has not been fraudulently defaced, is tendered to any person authorised to act under section 16 of the Act, such person shall, if the tenderer so requests, instead of returning the cut coin, accept it at the following rates, namely :—

(*a*) rupees and half-rupees weighing between ¼ths and ⅛ths of their proper weight, at rates of 14 annas and 7 annas, respectively ;

(*b*) rupees and half-rupees weighing between ⅛ths and ⅛ths of their proper weight, at rates of 13 annas and 6½ annas, respectively ; and

(*c*) rupees and half-rupees weighing between ⅛ths and ⅛ths of their proper weight, at rates of 12 annas and 6 annas, respectively.

(4) Where a quarter-rupee or an eighth of a rupee which has been diminished in weight so as to be more than 12½ per cent. but not more than 25 per cent. below standard weight and which has not been fraudulently defaced, is tendered to any person authorised to act under section 16 of the Act, such person shall, if the tenderer so requests, instead of returning the cut coin, accept it at its nominal value, and it shall thereupon be withdrawn from circulation at Government cost.

(5) Silver coin received by Government officers under these rules and withdrawn from circulation shall, whether or not it has been cut or broken under these rules, be sent by the first convenient opportunity to the Master of the Mint at Bombay or Calcutta, or to any principal Treasury appointed by the Accountant General or Comptroller to receive such coin for remittance to the mint. Such coin will be credited in the officer's cash balance as " uncurrent coin " at the actual value at which it has been received, and on transfer to the mint will be credited at the rates prescribed in these rules, any loss incurred in re-coinage being taken as a charge of the mint.

(6) Silver coin received by a person other than a Government officer under these rules and withdrawn from circulation shall, whether or not it has been cut or broken under these rules, be sent to the nearest Government Treasury, where it will be paid for at the rates respectively prescribed in these rules, and thereafter it will be dealt with in the manner prescribed in clause (5).

(7) In cutting or breaking any diminished, defaced or counterfeit coin, Government officers and other persons authorised in this behalf shall not completely divide the coin, as identification of the parts of a coin becomes practically impossible if the pieces are wholly separated.

(8) Persons authorised under section 20 of the Act to cut or break counterfoil silver coins should not receive and pay for the coin according to the value of the silver bullion contained therein as permitted under that section, save where from the excellence of the execution or for any other cause it seems desirable that the coin should be acquired as a specimen. The cost of paying for the coin will be charged to Government. The broken pieces of coins so paid for should be forwarded to the Mint at Calcutta or Bombay.

(9) The officers specified in clauses (1), (2), (3) and (7) of paragraph 1 of this notification are hereby authorised to accept sovereigns and half sovereigns where such coins have lost weight so as to be of less weight than that for the time being prescribed for light coins by or under the Coinage Act, 1870, as the least current weight, at the following rates, namely :—

(*a*) when such coins have not been reduced by more than three grains below standard weight, that is, are not less in weight than grains 120·27447 and 58·63723, respectively, at their face value, and

(*b*) when such coins are of less weight than grains 120·27447 and 58·63723 respectively, at their bullion value by weight :

Provided that such coins have not been illegally dealt with, that is, have not been impaired, diminished, or lightened, otherwise than by fair wear and tear, or defaced by having any name, word, device or number stamped thereon, whether the coin has or has not been thereby diminished or lightened.

(10) Light weight gold coins received under the preceding clause shall not be reissued to the public.

(11) In determining the loss of weight in the case of gold or silver coins, to which solder or other metal has been attached, the weight of such solder or other metal shall not be taken into account.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

QUESTIONS AND ANSWERS.

SCHOOLS FOR INDIAN GIRLS.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked :—

(*a*) Is the Government aware that it is possible to teach orthodox Hindu and Muhammadan girls with male teachers without objection up to the middle vernacular standard before they are married under the prevailing custom ?

(*b*) Will the Government be pleased to state how many schools for orthodox Hindu and Muhammadan girls there are in this Province teaching up to the middle vernacular standard ?

(*c*) When some years ago an Hon'ble Member of Council brought it to the notice of the Government that female education beyond the primary stage is practically unknown in this country, the Government was pleased to promise the establishment of girls' schools teaching a higher standard. Will the Government be pleased to state what steps have been taken to give effect to such intention ?

The Hon'ble MR. RICHARDSON replied:—

"(*a*) If the Hon'ble Member means that it is feasible to employ male teachers to teach orthodox Hindu and Muhammadan girls up to and inclusive of the middle vernacular standard, the Government is certainly not aware of the fact. The standard in question is prescribed for children of the ages of twelve and thirteen years.

"(*b*) A statement is laid on the table showing the number of middle vernacular, middle English and High English Institutions for Indian girls. It is impossible to say at short notice how many of these institutions are attended by orthodox Hindu and Muhammadan girls.

"(*c*) The answer given in this Council to which the Hon'ble Member refers is no doubt that which appears in the Proceedings of this Council for the 9th April, 1902. It was stated that inquiries were being made in the districts which were most likely to favour female education with a view to the expansion of Girls' Schools, and it was added that districts and towns in which local efforts and local subscriptions were forthcoming in aid of Girls' schools might count on the sympathy and support of Government. The subject has since continued to receive attention. The want of properly qualified female teachers is an impediment in the way of progress, and, as the Hon'ble Member is probably aware, efforts are now being made to supply that want."

STATEMENT REFERRED TO IN THE ABOVE ANSWER.

FEMALE EDUCATION.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked :—

Will the Government be pleased to consider the advisability of showing the expenditure for female education under a separate heading in the budget ?

The Hon'ble MR. RICHARDSON replied :—

"The suggestion will be considered."

PRIMARY EDUCATION.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked :—

Will the Government be pleased to state whether there will be any substantial increase in the expenditure for primary education in the next budget, for starting a larger number of primary schools and for teaching a larger number of pupils in such schools than last year ?

The Hon'ble MR. RICHARDSON replied :—

"There is no specific provision in the budget for the purpose mentioned by the Hon'ble Member. There is provision for increased expenditure in connection with primary education. It is hoped that the normal rate of growth in the number of primary schools and pupils attending such schools will be maintained, and that the scheme for the better training of *gurus* will lead to an improvement in the quality of the education imparted. As the Hon'ble Member is aware, a proposal to abolish fees in primary schools is under consideration."

TECHNICAL COLLEGE.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked :—

(*a*) Has the attention of the Government been drawn to the adverse criticisms in the Indian papers about the proposed Technical College being for the next year meant principally for teaching motor-car driving ?

(*b*) Will the Government be pleased to state when it intends to start a proper Technical College as was promised last year ?

(*c*) Will the Government be pleased to consider whether it is not possible to start proper mechanical engineering, electrical engineering, mining engineering and industrial chemistry classes teaching up to the standard of European technical colleges in connection with the Sibpur Engineering College within the next two or three years, as was recommended by the Committee appointed for framing a scheme for a Technical College ?

The Hon'ble MR. RICHARDSON replied :—

"(*a*) The first of the Hon'ble Member's questions no doubt refers to the answer I gave at the last meeting of this Council. The interpretation placed upon that answer is somewhat unfair. The scheme for teaching motor-car driving was referred to because it has been sanctioned and because, so far as it goes, it is a step in advance. I also referred, however, to a scheme for imparting instruction in Industrial Chemistry and Chemical Technology which has not yet arrived at the stage of being a sanctioned scheme, but is in a fair way towards that stage.

"(*b*) As I explained at the last meeting of the Council it is not proposed to open a Technical College independent of the Civil Engineering College. It is proposed to develop and expand the existing College in accordance with the needs of the situation. There is necessary delay in carrying out improvements and additions, which are recognized as very urgent, owing to the fact that they cannot be carried out until the important question of the site of the College has been settled. It is earnestly hoped that this will now be settled at an early date.

"(c) I have already referred to the scheme for imparting instruction in Industrial Chemistry. As regards Mechanical, Electrical and Mining Engineering, the Principal of the Civil Engineering College states that a re-organization of both the Apprentice and Engineering Departments of the College is under consideration with a view to the introduction of new or more specialized courses.

"Instruction, it may be added, is now given in Civil and Mechanical and Electrical Engineering, and in the Apprentice Department a two-year course in Mining Engineering was introduced last year and is now in full working order.

"The recommendations of the Education Department on the whole subject will be awaited, and I cannot at present commit the Government to specific arrangements, but I may with confidence express the hope that in two or three years' time substantial progress will have been made in the direction the Hon'ble Member is understood to contemplate."

THE BENGAL TENANCY (AMENDMENT) BILL, 1906.

The Hon'ble MR. CARLYLE presented the Report of the Select Committee on the Bill to amend and supplement the Bengal Tenancy Act, 1885 (VIII of 1885). He said:—

"I hope the Council will be able to take up the consideration of the Bill as now amended, on the 2nd April. I would draw the special attention of Hon'ble Members to paragraph 3 of the Report of the Committee."

THE BENGAL LOCAL SELF-GOVERNMENT (AMENDMENT) BILL, 1906.

The Hon'ble MR. MCINTOSH presented the Report of the Select Committee on the Bill to amend the Bengal Local Self-Government Act of 1885.

The Hon'ble BABU JOGENDRA NATH MUKHARJI said:—"I beg leave to explain one of the points with reference to the Report of the Select Committee on the Bengal Local Self-Government Act (Amendment) Bill. The first question that I would beg leave to explain is the one relating to the use to which the Road Cess Funds should be put, and I think there exists some misapprehension on the point. By my signing the Report I never meant that the larger question that the road cess should be applied to the purposes for which it was originally meant should not be raised at all. What I meant to submit was that the restricted form in which the question came up before the Select Committee could not be considered at all.

"When I endorsed my view with reference to the appropriation of District Funds to the question of secondary education, I had never before my mind the idea that road cess could be applied to such a purpose. The fund as it exists at present is composed not only of the road cess but of the profits derived from ferries as well as pounds, and occasionally all this is supplemented by grants from Government, so that when it was proposed that power should be given to the District Board to apply its funds to purposes of secondary education, it was at least never intended by me that the Road Cess Fund should be applied to such a purpose, nor that in times of famine the District Fund should be applied to education purposes, and that the money should come from the Road Cess Fund, strictly speaking. Of course as the question stood before the Select Committee that was the only course left open.

"In times of famine there may be Districts where the money could be applied with advantage to the making or repairing of roads, and in such districts I think it would be very unwise to apply the District Funds to a purpose like education if that could be done advantageously, and it was never meant that the Road Cess Fund should be applied to such a purpose. Similarly in the case of secondary education this should be the case. Therefore, what I

beg to add is that the larger question can still be considered by this Council, and by the Report of the Select Committee it was never meant that the District Road Cess Fund should be applied for purposes other than those for which it was originally raised.

"These are the remarks I beg to lay before the Council to explain my position with reference to the Report of the Select Committee."

THE CHOTA NAGPUR TENANCY (AMENDMENT) BILL, 1907.

The Hon'ble MR. SLACKE moved that the Hon'ble Member who may be appointed for the Orissa and Chota Nagpur Divisions be added to the Select Committee on the Bill further to amend the Chota Nagpur Landlord and Tenant Procedure Act and the Chota Nagpur Commutation Act, 1897.

The motion was put and agreed to.

The Council was then adjourned to Saturday, the 23rd March, 1907.

NOTICES TO MARINERS.

THE following Notices are published for general information.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

CALCUTTA, *the 9th March 1907.*

BAY OF BENGAL.—BURMA COAST.

Irrawaddy Shoal off Kyauk Pyu.

No. 108 (first publication).—The following Notice to Mariners (No. 17 of 1907) issued by the Bombay Government is republished:—

The Surveyor in charge Marine Survey of India reports that a rock which uncovers two feet at Low Water Spring Tides, and has a surface area of about 4 feet, exists and has been lauded upon on the Irrawaddy Shoal off Kyauk Pyu.

It is situated in Latitude 19° 25′ 33″ N., Longitude 93° 22′ 13″ E. Soundings were taken round it, but no further shoals beyond those already charted were found.

This notice affects Admiralty Charts Nos. 821 and 829; also Bay of Bengal Pilot, Third edition, 1901, page 262.

AUSTRALIA—VICTORIA PORT PHILLIP.

Geelong harbour approach.—Buoys replaced by beacons.

No. 109 (first publication).—The British Admiralty has given notice (No. 176 of 1907) that on or about 1st March 1907, the undermentioned buoys in the approach to Geelong harbour will be replaced by single pile beacons as folows:—

(1) Arthur the Great buoy (red conical), situated at a distance of 2¼ miles N. 65° E. from point Wilson by a pile beacon.

(2) Point Wilson buoy (red conical), situated at a distance of 1¼ miles S. 5° E. from point Wilson. This beacon will be surmounted by a staff and ball.

(3) East Bellarine buoy (black can), situated at a distance of $3\frac{8}{10}$ miles South from point Wilson, This beacon will be surmounted by a staff and cage.

(4) West Bellarine buoy (black can), situated at a distance of 4 miles S 11° W. from point Wilson, will be withdrawn.

Approximate position, point Wilson, lat. 38° 5¼′ S., long. 144° 30½′ E.

This Notice affects the following Admiralty Charts :—Banka strait to Singapore, No. 2757 ; Linga and Singkep channels, No. 789 : Also, China Sea Directory, vol. I, 1906, page 591.

PACIFIC OCEAN—THE PHILIPPINE ISLANDS—LUZON, WEST COAST.

Port Matalvi.—Position of beacon altered.

No. 111 (first publication)—The British Admiralty has given notice (No. 184 of 1907) that Iagat beacon in port Matalvi, which had been blown down, has been re erected at a distance of 2½ cables N. 59° W. from its former site. The new beacon, which consists of a wooden tripod, surmounted by a white rectangular topmark, is situated at a distance of 11⅝ cables N. 85° E. from the eastern point of Makalaba island.

Approximate position, lat. 15° 30′ N., long. 119° 55′ E.

Variation Nil in 1907.

This Notice affects the following Admiralty Chart :—Ports Masinlok Matalvi, No. 945 : Also, China Sea Directory, vol. II., 1906, page 334; and Eastern Archipelago, vol. I., 1902, page 54; and Supplement, 1906, page 7.

EASTERN ARCHIPELAGO—BORNEO, EAST COAST.

Sibuko bay—Hand rock—Beacon erected.

No. 112 (first publication).—With reference to Notice to Mariners No. 150, dated 4th May 1903, issued by this office, the British Admiralty has given further notice (No. 185 of 1907) that a steel beacon with a top mark has been placed on Hand rock in Sibuko bay.

Approximate position, lat. 4° 8½′ N., long. 118° 11′ E.

It is presumed that the conical buoy marking this danger has been withdrawn.

This Notice affects the following Admiralty Charts :—Sulu archipelago, No. 2576 ; Sibuko bay, No. 1681 : Also, Eastern Archipelago, part I, 1902, page 213 ; and Supplement, 1906, page 15.

EASTERN ARCHIPELAGO—GILLOLO PASSAGE.

Ardassier island—Non-existence of—Amended positions of shoals.

No. 113 (first publication).—The British Admiralty has given notice (No. 188 of 1907) of the non-existence of the undermentioned island, and that the positions of certain shoals in Gillolo passage have been amended as follows :—

1. Ardassier island. This island was reported by the ship *Ardassier* in 1808; its assigned position, however, has been passed over by the ships *City of Hankow* in 1900, and by the *Emilia* in 1901, without any indication of land being seen; it is considered therefore that it does not exist, and it has in consequence been expunged from the charts.

   Approximate position, lat. 0° 42′ N., long. 129° 1½′ E.

2. Ormsby bank is situated about five miles N. 75° E. from the position shown on the chart or in approximately lat. 0° 45′ N., long. 129° 59½′ E.

The reef reported by the *Chusan* and marked P.D. on the chart and shown at a distance of 17 miles N. 22° E. from Saiang island is situated approximately in lat. 0° 36½′ N., long. 129° 57′ E. P.D. has however been retained against this danger. In

consequence of this alteration in position, it is probable that the reef, with much less water over it, reported by the Master of the *Chusan* to exist to the northward of this (P.D.) reef, was the southern part of the Ormsby bank (*see* Eastern Archipelago, part I, 1902, page 444).

3. Hunter bank is situated about 5 miles N. 85° E. from its position as shown on the chart, or in approximately lat. 0° 20′ N., long. 129° 58½′ E.

(*Variation 2° Easterly in 1907.*)

This Notice affects the following Admiralty Charts:—Eastern Archipelago, No. 942a, b: Also, Eastern Archipelago, 1902, pages 444, 446.

EASTERN ARCHIPELAGO—Moluccas—Ombi islands.

Courier rock.—Amended position of.

No. 114 (first publication).—The British Admiralty has given notice (No. 189 of 1907) that Courier rock is stated to be situated at a distance of about 29 miles S. 85° E. from the northern point of Tapat island, or about 4 miles N. 26° E. from its assigned position. P.D. has been placed against it on the charts.

Approximate position, lat. 1° 14′ S., long. 127° 52½′ E.

(*Variation 2° Easterly in 1907.*)

This notice affects the following Admiralty Chart:—Eastern archipelago, No. 942a: Also, Eastern Archipelago, part I, 1902, page 438.

AUSTRALIA, SOUTH—Tasmania, south coast.

Norfolk and Blackman bays—connected by Denison canal.

No. 115 (first publication).—The British Admiralty has given notice (No. 192 of 1907) that the Denison canal which has been opened, between Norfolk and Blackman bays, is marked as follows:—

(*a*) Two beacons, structures consisting of three piles, have been erected in its approach from Dunally bay.

(*b*) Two single-pipe beacons, with diamond-shaped topmarks, have been erected on either side of the seaward entrance in Blackman bay, the northern beacon being white, and the southern beacon black.

Two similar beacons have also been erected on either side of the entrance to the canal.

(*c*) The channels from seaward in Blackman and East bay to the entrance of the canal are marked by white single-pile beacons and buoys on the northern side, and black beacons and buoys on the southern side.

A plan of Denison canal has not yet been received, and its exact position is not known, but it is stated that vessels drawing 10 feet can use this canal. There is a bridge across it, which will be opened for the passage of vessels annually from 1st April to 30th September, between sunrise and sunset, and from 1st October to 31st March, from 6 A.M. to 6 P.M.

The canal is in charge of a Superintendent, whose directions must be followed by Mariners desirous of passing through it.

Approximate position, Dunally, lat. 42° 53½′ S., long. 147° 48½′ E.

This notice affects the following Admiralty Chart:—Frederick Henry and Norfolk bays, No. 809: Also, Australia Directory, vol. I. 1897, pages 722, 700.

PACIFIC OCEAN—The Philippine islands—Luzon, north-east coast.

Port San Vincente—Light established.

No. 116 (first publication).—The British Admiralty has given notice (No. 197 of 1907) that a *red fixed* lantern-light, elevated 12 feet above high water, and visible in clear weather from a distance of 7 miles, has been established on a concrete pillar erected in place of the beacon on the north-eastern point of the shoal extendinig north-eastward from San Vincente island, port San.

Approximate position, lat. 18° 31′ 10″ N., long. 122° 7′ 20″ E.

This Notice affects the following Admiralty Chart:—Port San Vincente, No. 3392: Also, List of Lights, part VI, 1907, page 127; and Eastern Archipelago, part I, 1902, page 367; Supplement, 1906, page 29; and China Sea Directory, vol. III., 1904, page 223.

AFRICA, NORTH-EAST—Gulf of Aden.

Obokh—Alteration in buoyage.

No. 117 (first publication).—The British Admiralty has given notice (No. 198 of 1907) that the following alterations have been made in the buoyage of Obokh:—

1. The light-buoy marking the eastern extremity of Laclocheterie bank has been replaced by a black buoy from which a light is occasionally exhibited.
2. A white buoy has been established off the western end of Surcou (Surcouf) bank; it has been placed on the chart at a distance of 7½ cables S. 82° E. from South island centre.

There are now no other buoys except the above in the port. The white buoy marking Pearl bank, and the black buoy a quarter of a mile to the westward of it, have therefore been expunged from the chart.

Approximate position, South island, lat. 11° 57′ N., long. 43° 17′ E.

(*Variation 3° Westerly in 1907.*)

This Notice affects the following Admiralty Charts:—Jebel Jehan to Shab Kulangarit, No. 253; plan of Obokh on chart No. 910: Also, Red Sea Pilot, 1900, page 358; and Supplement, 1904, page 41.

The 9th March 1907.

AFRICA, EAST COAST—Somaliland.

Atheiet (Itala) anchorage—Leading beacons disappeared.

No. 67 (second publication).—With reference to Notice to Mariners No. 323, dated 3rd September 1906, issued by this office, the British Admiralty has given further notice (No. 150 of 1907) that the two leading beacons leading to the northern anchorage off Athelet, and formerly situated at distances of 13 cables N. 23° E. and 12½ cables N. 30° E. respectively from Garesa flagstaff, have disappeared.

Approximate position of La Garesa, lat. 2° 45¼′ N., long. 46° 18¼′ E.

(*Variation 4° Westerly in 1907.*)

This Notice affects the following Admiralty Chart:—Plan of Athelet anchorage on chart No. 671: Also, Africa Pilot, part III, 1905, page 523.

EASTERN ARCHIPELAGO—Celebes island—Makassar.

Great Lae Lae shoal—Light established.

No. 98 (second publication).—With reference to Notice to Mariners No. 124, dated 5th April 1904, issued by this office, the British Admiralty has given further notice (No. 153 of 1907) that a *white flashing* light *every three seconds*, the duration of each flash being one second, has been established in a black beacon on Great Lae Lae shoal, Makassar road.

Approximate position, lat. 5° 8′ 50″ S., long. 119° 23′ 25″ E.

The beacon on the reef has been removed.

This Notice affects the following Admiralty Charts:—Approach to Makassar, No. 1893; plan of Makassar road on chart No. 2652: Also, List of Lights, Part VI, 1906, No. 558; Eastern Archipelago, Part II, 1904, page 306; and Supplement, 1906, page 16.

EASTERN ARCHIPELAGO—Borneo, east ast.

Balik Papan bay—Buoy withdrawn.

No. 99 (second publication).—The British Admiralty has given notice (No. 154 of 1907) that the white conical buoy, No. 2, on the southern side of the entrance to the anchorage in Balik Papan bay, and formerly situated at a distance of 5$\frac{4}{10}$ miles S. 54° E. from Tokong, has been withdrawn.

Approximate position of Tokong, lat. 1° 16′ S., long. 116° 48′ E.

(*Variation 2° Easterly in 1907.*)

This Notice affects the following Admiralty Chart:—Plan of Balik Papan bay on chart No. 3031: Also, Eastern Archipelago, part II, 1904, page 291; and Supplement, 1906, page 15.

EASTERN ARCHIPELAGO—Celebes.

Gulf of Boni—Reefs.

No. 100 (second publication).—The British Admiralty has given notice (No. 155 of 1907) of the existence of the undermentioned coral reefs in the following positions in the gulf of Boni:—

(*a*) A reef, which dries, in approximately lat. 3° 45′ S., long. 121° 2′ 45″ E. This reef is one mile long in a north-north-westerly and south-south-easterly direction.

(*b*) A reef, which dries, in approximately lat. 3° 42′ 40″ S., long. 120° 59′ 40″ E. This reef is about half a mile long in a north-north-westerly and south-south-easterly direction.

(*c*) A reef, which dries, in approximately lat. 3° 42′ 30″ S., long 120° 57′ 40″ E. This reef is about one mile long in a north-westerly and south-easterly direction, and has a sand bank about 4 feet above water on its south-eastern edge.

(*d*) The reef shown on the chart, with a depth of less than 6 feet over it, in approximately lat. 3° 40½′ S., long. 120° 55′ E., dries, and is about 2 miles long in a north-westerly and south-easterly direction.

(*e*) A reef, which dries, in approximately lat. 3° 38′ 15″ S., long. 120° 54′ 25″ E. This reef is about 5 cables long in a northerly and southerly direction.

(*f*) A reef, which dries, in approximately lat. 3° 34′ 30″ S., long. 120° 54′ E. This reef is about half a mile long in a north-north-westerly and south-south-easterly direction. A similar reef exists at a distance of half a mile S. 19° W. from this position.

(*g*) A reef, about half a mile long, extending from the shore in approximately lat. 3° 29¾′ S., long. 120° 53½′ E.

(*Variation 2° Easterly in 1907.*)

This Notice affects the following Admiralty Charts:—China sea, No. 1263; Eastern Archipelago, western portion, No. 941b; Eastern Archipelago, eastern portion, No. 941a: Also, Eastern Archipelago, Part II, 1904, page 354; and Supplement, 1906, page 20.

AFRICA, EAST COAST—Kiliman river entrance.

Light altered—Buoyage amended—Beacons removed.

No. 101 (second publication).—The British Admiralty has given notice (No. 156 of 1907) that the following alterations have been made in the lighting and buoyage of Kilimán river:—

Light:—

A *white fixed* light, elevated 65 feet above high water, and visible in clear weather from a distance of 11 miles, has been established in a pyramidal structure, painted white, erected on Tangalane point at a distance of 1¾ cables N. 75° E. from the site of the former lighthouse, the light of which has been discontinued and the tower removed, owing to the erosion of the coast in its neighbourhood.

The new light is 57 feet above the ground.

Approximate position, lat. 18° 1½′ S., long. 36° 58½′ E.

Buoys have been established in the undermentioned positions:—

1. A black cylindrical buoy, named "Espera," or Fairway, surmounted by a staff and white cone under a black cylinder, is moored in a depth of 33 feet at a distance of 7½ miles S. 10° W. from the lighthouse.
2. A red spherical buoy, named Tangalane I, surmounted by a staff and cone, point upwards, is moored in a depth of 11 feet at a distance of 4$\frac{8}{10}$ miles S. 16° W. from the lighthouse.
3. A black cylindrical buoy, named Cavallos Marinhos, surmounted by a staff and cylinder, is moored in a depth of 14 feet at a distance of 3$\frac{9}{10}$ miles S. 20° W. from the lighthouse.
4. A red spherical buoy, named Tangalane II, surmounted by a staff and cone, point downwards, is moored in a depth of 14 feet at a distance of 3 miles S. 26° W. from the lighthouse.
5. A black cylindrical buoy, named Olinda, surmounted by a staff and cylinder, is moored in a depth of 15 feet at a distance of 2 miles S. 44° W. from the lighthouse.
6. A black spindle-shaped buoy, named Militao, surmounted by a cylinder, is moored in a depth of 28 feet at a distance of 8$\frac{3}{10}$ cables N. 83° W. from the lighthouse.

In entering, red buoys are to be left to starboard and black buoys to port, after passing the Fairway (Espera) buoy, vessels may cross the bar on which the least depth at present is 11½ feet at low water.

It is presumed the other buoys have been withdrawn, though this is not expressly stated.

The beacons on Tangalane point, which formerly led over the bar, have been removed, but a flagstaff, from which bar signals are made, and a pilot station have been established on this point, the exact position of which is not given.

(Variation 15° Westerly in 1907.)

This Notice affects the following Admiralty Charts:—River Zambesi to Mozambique harbour, No. 1810; Kilimdn river on chart No. 650: Also, List of Lights, part VI, 1906, No. 47; and Africa Pilot, part III, 1905, page 274.

CHINA SEA—Formosa (Taiwan), north-east coast.

Petu point light—Replaced by temporary light.

No. 102 (second publication).—The British Admiralty has given notice (No. 158 of 1907) that on 20th December 1906, the white revolving light on Petu point, north-east coast of Formosa, would be replaced by a temporary *red fixed* dioptric light, elevated about 180 feet above high water, and visible in clear weather from a distance of 6 miles; the power of the light, which is shown from a wooden staff erected about 15 feet north-eastward from the lighthouse, is about 100 candles. The lighthouse on this point will be removed.

Approximate position, lat. 25° 8′ N., long. 121° 55′ E.

This Notice affects the following Admiralty Charts:—Hong Kong to Liautung gulf, No. 1262; China sea, No. 1263; Amoy to Nagasaki, No. 2412; Formosa island, No. 1968: Also, List of Lights, part VI, 1906, No. 953; China Sea Directory, vol. III, 1904, page 263.

The 5th March 1907.

PACIFIC OCEAN—New Guinea, north-east coast.

L'Echiquier islands—Non-existence of reef on the northward.

No. 103 (second publication).—The British Admiralty has given notice (No. 159 of 1907) that an unsuccessful search has been made for the two rocks, 16 to 20 feet in height, reported in 1899 by the Master of the S.S. *Dundee* to be situated about 60 miles northward of L'Echiquier islands; they have therefore been expunged from the charts.

Approximate position, lat. 0° 11′ S., long. 144° 15′ E.

This Notice affects the following Admiralty Charts:—Atlantic and Pacific oceans, No. 2483; Pacific ocean, No. 2683; Pacific, No. 780; Australia, northern portion, No. 2759a; North-east coast of New Guinea, No. 2766: Also, Pacific Islands, vol. I, 1900, page 413.

EASTERN ARCHIPELAGO—Sumatra, west coast.

Simalur island, south coast—Partially submerged.

No. 104 (second publication).—The British Admiralty has given notice (No. 165 of 1907) that the south coast of Simalur island has been partially submerged by an earthquake, and that pulo Simalur Chut has almost disappeared. A note to this effect has been placed on chart.

Approximate position, lat. 2° 31′ N., long. 95° 58′ E.

Further particulars will be published when the full effects of this catastrophe are known.

This Notice affects the following Admiralty Charts:—Acheh head to Iyingkok bay, No. 2760; plans of Simalur island on charts Nos. 2801 and 2884: Also, China Sea Directory, vol. I, 1906, pages 353, 364.

CHINA, CANTON RIVER—Boca Tigris.

China rock—Light established.

No. 105 second publication).—With reference to Notice to Mariners No. 248, dated 6th July 1906, issued by this Office, the British Admiralty has given further Notice (No. 166 of 1907) that, on the 24th November 1906, a *red fixed* dioptric light of the 6th order elevated 33 feet above high water, and visible in clear weather from a distance of 10 miles, was

established in a square red brick tower, 36 feet high, erected on Chain rock, Boca Tigris Canton river.

SUMMARY OF THE RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE MONTH OF FEBRUARY 1907.

In February, the rainfall was general over the Province. Showers were of daily occurrence from the 1st to the 8th, more especially in Bihar and Chota Nagpur, where they were also very heavy.

In South-West Bengal, rain was deficient in the districts of Midnapore, Howrah, 24-Parganas, Nadia, Murshidabad, and Jessore, while in the other districts it was in slight excess.

In Bihar, except in the district of Purnea, and in Chota Nagpur the precipitation was well above the average. Bihar received nearly four times and Chota Nagpur three times the average.

In Orissa, also, except in the districts of Puri and Balasore, the fall was above the normal, being nearly three times the average.

Percentage excesses were recorded in Bihar, Orissa and Chota Nagpur, while there was a slight defect in South-West Bengal. Bihar received 356 per cent. of the normal, Orissa 318 per cent., Chota Nagpur 301 per cent. and South-West Bengal 93 per cent.

The following table gives a summary of the rainfall data of each of the four Meteorological Divisions of the Province of Bengal for the month of February 1907:—

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

☁, dew.

RAILWAY DEPARTMENT.

The 8th March 1907.

No. 2R.—Notification.—The following notification issued by the Government of India in the Department of Commerce and Industry is republished for general information.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

No. 1851, dated 27th February 1907.

THE following is published for general information :—

No. 1836—1850, dated Calcutta, the 27th February 1907.

RESOLUTION—By the Government of India, Department of Commerce and Industry (Railways).

IN the Circular issued by the Public Works Department, No 1-Railway, dated the 9th March 1898, sanction was accorded to the adoption by Railway Administrations, among other risk note forms, of Form B, intended for articles despatched at a "special reduced" or "owner's risk" rate, and of Form H, used as an alternative to Form B, when a sender desired to enter into a general agreement, in place of executing a separate risk note for each consignment.

2. It has from time to time been represented that Railway Administrations should undertake a greater measure of responsibility in the case of consignments carried by them at the "special reduced" or "owner's risk" rates than is entailed by the existing risk note forms; and, as the Government of India agreed with this contention, the question of the revision of the forms was referred to the Indian Railway Conference Association for consideration. The Association, at their meeting in October 1904, revised the form of Risk Notes B and H; and these amended forms, after further revision by the Government of India, have now been finally accepted by all the railways represented by the Association.

3. The Governor-General in Council is pleased to approve, under section 72, sub-section (*c*), clause (*b*) of the Indian Railways Act, 1890 (IX of 1890), the use of the Forms B and H appended to this Resolution by Railway Administrations working railways to which the Indian Railways Act, 1890 (IX of 1890), applies, with effect from the 1st April 1907.

4. In the case of railways in Native States to which the provisions of the Indian Railways Act, 1890 (IX of 1890), have been, or may in future be, applied, the Governor-General in Council is also pleased to approve the use of these forms from the 1st April 1907, or from any later date on which the Indian Railways Act may be applied.

ORDERED, that a copy of this Resolution and of its enclosures be communicated to the Local Governments and Administrations noted in the margin, for information and guidance, to the Government of the Punjab, the Chief Commissioner, Central Provinces, the Agent to the Governor-General in Baluchistan, the Accountant General, Public Works Department, and to the Foreign Department for information; and to the Secretary to the Railway Board for further necessary action.

The Governments of Madras, Bombay and Burma, Public Works Department, Railway Branch.
The Governments of Bengal, the United Provinces, and Eastern Bengal and Assam, Public Works Department.
The Government of Bengal, Marine Department.
The Hon'ble the Resident at Hyderabad.
The Chief Commissioner of Ajmer-Merwara.

Ordered, also, that the Resolution, and the accompanying forms, be published under a notification in Part I of the *Gazette of India*, and that they be reproduced in the local Government Gazettes.

NOTIFICATION No. 4614.

State Technical Scholarships for Statutory Natives of Bengal tenable in the United Kingdom, on the Continent of Europe, or in America.

THE Government of India have for the last three years awarded, on the recommendation of the Government of Bengal, a few Technical Scholarships of the value of £150 a year each tenable by Statutory Natives of Bengal, for two years in the United Kingdom, on the Continent of Europe, or in America. Law, Medicine, Forestry, Veterinary Science, Agriculture and Engineering are excluded from the scope of the scheme, and scholarships will, in the first instance, be given preferably to students who wish to go through a course of Mining instruction. A few of these scholarships are likely to be available this year also, but no guarantee to that effect can be given at present. Intending candidates are required to submit their applications to the undersigned on or before the 30th April 1907, with certificates as to (1) their moral character, (2) their educational qualifications, (3) their knowledge of the language of the country in which they may elect to study, and (4) their physical fitness. Candidates must name the country to which they propose to proceed, and the course of studies they propose to take up while in receipt of the scholarships. Candidates for Mining Scholarships should state in their applications whether they have had any actual experience of mining. Government does not guarantee to provide successful candidates with employment on their return to India.

NOTIFICATION.

THE HON'BLE MR. K. G. GUPTA, I.C.S.

Dated Calcutta, the 11th March 1907.

IT is hereby notified for general information that the Board of Revenue, Lower Provinces have, in exercise of the powers conferred by section 75 of the Sea Customs Act, 1878 (VIII of 1878), made the following revised rules for the realization of Customs duty on articles imported by His Majesty's Letter or Parcel Mails over sea into Calcutta, in supersession of the like rule 14 of the rules published under Notification No. 22B., dated the 8th January 1885, at pages 31 and 32 of the *Calcutta Gazette*, Part I of the 14th *idem* :—

1. On the arrival of any mail, the Collector of Customs shall depute a Customs Officer to attend at the Post Office for the purpose of assessing to duty articles imported by such mail.

2. The Customs Officer shall deal with all parcels and such letters as have been detained by the Postmaster under the Postal Regulations for examination.

3. A list in form appended of all parcels and such letters as are detained shall be made out in duplicate by the carbon process in the Post Office before the Customs Officer's arrival, from the declarations accompanying the parcels and from the covers of the letters. The columns for value in Indian money and duty shall be left blank and shall be filled up by the Customs Officer on his arrival. When any of the particulars required cannot be obtained from the declarations or the covers of the letters, the columns in question shall be left blank and shall be filled in by the Customs Officer after examination of the parcel or letter in question.

4. The Customs Officer, on his arrival, shall examine the list, fill in any details that may be wanting, and assess the parcels and letters to duty, entering the duty on the list. In his assessment he shall ordinarily be guided by the sender's declaration, but he may have any parcel opened for examination at his discretion. Letters and insured parcels must be opened, under the Postal Regulations, in the presence of the addressee, or a duly authorised agent, or of an Assistant Postmaster. The Customs Officer shall call upon the Postmaster to detain any parcel or letter upon which the Collector's orders may be required.

5. When the assessment is completed, the Customs Officer shall sign both original and duplicate, retain the original, and hand over the duplicate to the Post Office from which the necessary entries shall be made on the parcels and letters for collection of duty at time of delivery. The original shall be taken to the Custom House and made over to the Accountant who shall enter the total of each parcel list in a register, and strike the total for each month. From this total shall be deducted any refunds paid by the Post Office with the sanction of the Collector of Customs to the addressees of parcels, and the net total shall then be credited as import duty by *per contra* debit to the Postal Department.

MEDICAL DEPARTMENT.

No. 16.—In supersession of the rules contained in Military Department Notification No. 891 of 1905, the following regulations for the grant of study leave to officers of the Indian Medical Service are published for information :—

1. Extra furlough for the purpose of study may be granted to officers of the Indian Medical Service on the recommendation of the Director-General, Indian Medical Service.

2. The period of such study leave will be calculated at the rate of one month for each year of service, up to a total of 12 months in all, during an officer's service.

3. Study leave may be taken at any time, but will not be granted more than twice in the course of an officer's service.

4. The minimum period of study which will render an officer eligible for study leave shall be two months.

5. The minimum period of leave granted solely as study leave shall be six months. Time spent on the journey to and from India by an officer whose study leave is not combined with any other kind of leave will reckon as study leave, but the allowance specified in Rule 10 will be granted during the period of study only.

6. Study leave can be combined with any other kind of leave, provided the period occupied in study is not less than two months and, in the case of leave on medical certificate, provided that the Medical Board at the India Office certifies that the officer is fit for study. In the case, however, of officers in military employment study leave cannot be taken in continuation of the combined privilege leave and furlough admissible under the terms of India Army Order No. 64 of 1904, if the total period would thereby exceed eight months, but study leave may be so taken provided such leave is for not less than two months and the total period of combined privilege leave, furlough and study leave does not exceed eight months; this limitation to eight months does not, however, apply in the case of study leave combined with privilege leave alone. The total period of absence from India, in the case of officers under the Leave Rules of 1886 for the Indian Army, will be strictly limited to two years.

7. Except as provided for in Rule 8, all applications for study leave shall be submitted, with the audit officer's certificate, to the Director-General, Indian Medical Service, through the prescribed channel, and the course or courses of study contemplated and any examination the candidate proposes to undergo shall be clearly specified therein.

8. Officers on furlough who wish to have part of their furlough converted into study leave should address the Under-Secretary of State, India Office, and should furnish a statement showing how it is proposed to spend the study leave.

9. An officer who is at home on combined leave may be permitted to commence a course of study before the end of his privilege leave, and to count the period so spent as part of his study leave without forfeiting his privilege leave allowances during such period.

10 During the course of study lodging allowance at the rate of 8*s.* a day for a field officer, 6*s.* for a Captain and 4*s.* for a Lieutenant will be granted. It is to be understood that, in order to qualify for the grant of study leave or for the receipt of lodging allowance, a definite course of study at a recognised institution, which will occupy the time of the officer for five or six days a week, must be pursued. This allowance will not be admissible to an officer who retires from the service without returning to duty in India after a period of study leave.

11. An officer in civil employ will be entitled to draw furlough pay at civil rates for a portion of his study leave equal to one-twelfth of his service under civil rules, and for the remainder either (1) at the military rate, or (2) if furlough is due to him under civil rules, at the rate admissible under those rules; in the latter case a corresponding portion of the ordinary furlough earned under civil rules which is at his credit will be treated as if it had been earned under military rules.

12. On completion of study the certificates of examinations passed, or the certificates of special study, which must show the dates of commencement and termination of the course, with any remarks by the instructor, shall be forwarded to the Under-Secretary of State, India Office, who will arrange for the transmission of the documents to the Director-General, Indian Medical Service. Officers may also be called upon to report themselves in person to the President of the Medical Board, India Office, on the conclusion of their course of study.

13. Study leave will count as service for promotion and pension, but, except so far as it may be taken during privilege leave (see Rule 9), it will not count for furlough or any other leave. It will not affect any leave which may already be due to an officer, and will not be taken into account in reckoning the aggregate amount of furlough taken by an Officer towards the maximum period of six years admissible under article 299 of the Civil Service Regulations.

No. 495M.—The March 1907.—The following rules, which have been made by the Corporation of Calcutta under sub-section (5) of section 96 of the Calcutta Municipal Act, 1899 (Ben. Act III of 1899), for the purpose of regulating the conduct of business at meetings of Special Committees, having been sanctioned by the Lieutenant-Governor under sub-section (1) of section 569 of the said Act, are hereby published for general information in accordance with the provisions of section 570 thereof:—

Dates and times of meetings.

1. Meetings of Special Committees shall be called at such times and on such days as the Chairman (or President) may determine, subject to any directions which may be given by the Corporation or by the Committee concerned.

Appointment and Proceedings of Special Committees.

2. The Special Committees appointed by the Corporation may appoint Special Sub-Committees for purposes to be specified by the Committee. All proceedings of such Special Sub-Committees shall be subject to confirmation by the Special Committee which appointed them.

Appointment of President.

3. The Chairman shall be the President of every Special Committee of which he is member. At the first meeting of every Special Committee of which the Chairman is not a member, the first business shall be to choose a President. In the absence of the President from any meeting of the Committee, a President for that particular occasion shall be appointed.

Special Meetings of Committees.

4. Presidents of Special Committees, or on the refusal, or in the absence, of the President, any three members may call Special Meetings of the Special Committees to which they belong, stating the business to be brought before such Special Meetings, and no other business shall be considered at such Special Meetings.

Vacancies on Committees.

5. Every vacancy in any Special Committee shall be notified to the Corporation at their next meeting after such vacancy shall have occurred, whereon such vacancy may, if it be deemed expedient, be filled up.

Information for Committees.

6. Where any question or inquiry is referred to a Special Committee by the Corporation, all information obtained on the subject of enquiry by the Chairman shall, if possible, be submitted to the Special Committee before being made known to the Corporation.

Signing of Minutes.

7. All Minutes of Proceedings of Special Committee shall be entered in books kept for the purpose, and shall be submitted for confirmation at the following or subsequent meeting of the Committee and signed by the President of such meeting.

8. The proceedings of any Special Committee regarding any matter with reference to which a final resolution of the Committee has been passed shall be submitted to the Corporation at the next ensuing meeting after confirmation by the Committee, but the Chairman may, with the consent of the Committee, submit for confirmation by the Corporation the proceedings regarding any urgent matter, even though they may not have been already confirmed by the Committee under Rule 7.

Reports to be signed by the Presidents.

9. The reports of all Special Committees presented to the Corporation shall be signed by their respective Presidents or the Acting President at the meeting at which such report shall be approved.

Number required for quorum.

10. The quorum of any Special Committee shall be such a number exclusive of the Chairman as exceeds by one, one-sixth of the numbers on Committee.

11. Any Commissioner may submit to a meeting of any Special Committee any resolution if he shall have given not less than 48 hours' previous notice thereof to the Secretary.

12. The Secretary shall send to every member of a Special Committee, not less than twenty-four hours before the time of meeting, a list of the business to be transacted at each meeting of the said Committee, including any resolution of which he may have received notice under Rule 11.

13. If the Commissioner, who has given notice of a resolution under the said rule, be not a member of the said Special Committee, he shall be invited to attend the meeting at which his resolution is to be discussed and may take part in such discussion provided that he shall not vote at such meeting nor take part in the discussion of any other question brought before the meeting.

14. Every question brought before a Special Committee shall be decided by a majority of votes of the members present and voting on that question, the presiding authority having a second or a casting vote when there is an equality.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Hooghly, will be put up to sale at the Hooghly Collectorate on the 25th March 1907, corresponding to 11th Chaitra 1313 B.S.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in each estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and the purchaser to be bound to respect the rights of the resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount of bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by the noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2nd.—The sale is to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of the resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of the purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

THE SCHEDULE.

ENACTMENTS REPEALED.

An Act to consolidate and amend the Law relating to Insolvency in British India, as administered by Courts having jurisdiction outside the Presidency-towns and the Town of Rangoon.

WHEREAS it is expedient to consolidate and amend the law relating to insolvency in British India as administered by Courts having jurisdiction outside the Presidency-towns and the Town of Rangoon; It is hereby enacted as follows:—

Short title, extent and commencement.

1. (*1*) This Act may be called the Provincial Insolvency Act, 1907.

(*2*) It extends to the whole of British India, except the Scheduled Districts: and

(*3*) It shall come into force on the first day of January 1908.

Definitions.

2. (*1*) In this Act, unless there is anything repugnant in the subject or context,—

(*a*) "available act of insolvency" means any act of insolvency available for an insolvency petition at the date of the presentation of the petition on which the order of adjudication is made:

(*b*) "creditor" includes a decree-holder, "debt" includes a judgment-debt, and "debtor" includes a judgment-debtor:

(*c*) "District Court" means the principal Civil Court of original jurisdiction in any area outside the local limits for the time being of the Presidency-towns and of the Town of Rangoon:

(*d*) "prescribed" means prescribed by rules made under this Act:

(*e*) "property" includes any property over which or the profits of which any person has a disposing power which he may exercise for his own benefit:

(*f*) "secured creditor" includes a landlord who under any enactment for the time being in force has a charge on land for the rent of that land: and

(*g*) "the Court" means the Court exercising jurisdiction under this Act.

(*2*) Save as herein otherwise provided, all words and expressions defined in the Code of Civil Procedure shall have the same meanings as those respectively assigned to them in the said Code.

Insolvency jurisdiction.

3. (*1*) The District Courts shall be the Courts having jurisdiction under this Act:

Provided that the Local Government may, with the previous sanction of the Governor General in Council, by notification in the local official Gazette, invest any Court subordinate to a District Court with jurisdiction in any class of cases, and any Court so invested shall within the local limits of its jurisdiction have concurrent jurisdiction with the District Court under this Act.

(*2*) For the purposes of this Act, a Court of Small Causes shall be deemed to be subordinate to the District Court.

Acts of insolvency.

4. A debtor commits an act of insolvency in each of the following cases, namely:—

(*a*) if, in British India or elsewhere, he makes a transfer of his property to a third person for the benefit of his creditors generally;

(*b*) if, in British India or elsewhere, he makes a transfer of his property or of any part thereof with intent to defeat or delay his creditors;

(*c*) if, in British India or elsewhere, he makes any transfer of his property or of any part thereof, or of any interest therein, which would, under this or any other enactment for the time being in force, be void as a fraudulent preference if he were adjudged an insolvent;

(*d*) if, with intent to defeat or delay his creditors,—

(*i*) he departs or remains out of British India,

(*ii*) he departs from his dwelling-house or usual place of business or otherwise absents himself,

(*iii*) he secludes himself so as to deprive his creditors of the means of communicating with him;

(*e*) if any of his property has been sold in execution of the decree of any Court for the payment of money;

(*f*) if he petitions to be adjudged an insolvent under the provisions of this Act;

(*g*) if he gives notice to any of his creditors that he has suspended, or that he is about to suspend, payment of his debts;

(*h*) if he is imprisoned in execution of the decree of any Court for the payment of money.

Explanation.—For the purposes of this section the act of an agent may be the act of the principal.

Petition and adjudication.

5. Subject to the conditions specified in this Act, if a debtor commits an act of insolvency, an insolvency petition may be presented either by a creditor or by the debtor, and the Court may on such petition make an order (hereinafter called an order of adjudication) adjudging him an insolvent.

Explanation.—The presentation of a petition by the debtor shall be deemed an act of insolvency within the meaning of this section, and on such petition the Court may make an order of adjudication.

6. (*1*) Every insolvency petition shall be in writing, and shall be signed and verified in the manner prescribed by the Code of Civil Procedure for signing and verifying plaints, and the procedure laid down by the said Code with respect to the admission of plaints shall, so far as it is applicable, be followed in the case of such petitions.

Presentation and admission of petition.

[IV of 1882.

(*2*) Every insolvency petition shall be presented to a Court having jurisdiction under this Act in any local area in which the debtor ordinarily resides or carries on business or personally works for gain, or, if he has been arrested or imprisoned, where he is in custody.

(*3*) The debtor shall not be entitled to present an insolvency petition unless—

(*a*) his debts amount to five hundred rupees; or

(*b*) he has been arrested or imprisoned in execution of the decree of any Court for the payment of money; or

(*c*) an order of attachment in execution of such a decree has been made, and is subsisting, against his property.

(*4*) A creditor shall not be entitled to present an insolvency petition against a debtor unless—

(*a*) the debt owing by the debtor to the creditor, or, if two or more creditors join in the petition, the aggregate amount of debts owing to such creditors, amounts to five hundred rupees, and

(*b*) the debt is a liquidated sum payable either immediately or at some certain future time, and

(*c*) the act of insolvency on which the petition is grounded has occurred within three months before the presentation of the petition.

(*5*) If the petitioning creditor is a secured creditor, he shall in his petition either state that he is willing to relinquish his security for the benefit of the creditors in the event of the debtor being adjudged insolvent or give an estimate of the value of the security. In the latter case he may be admitted as a petitioning creditor to the extent of the balance of the debt due to him after deducting the value so estimated in the same way as if he were an unsecured creditor.

(*6*) No insolvency petition shall be presented against any corporation or against any association or company registered under any enactment for the time being in force.

7. No petition, whether presented by a debtor or by a creditor, shall be withdrawn without the leave of the Court.

Withdrawal of petitions.

8. Where two or more insolvency petitions are presented against the same debtor or where separate petitions are presented against joint debtors, the Court may consolidate the proceedings or any of them, on such terms as the Court thinks fit.

Consolidation of petitions.

9. Where the petitioner does not proceed with due diligence on his petition, the Court may substitute as petitioner any other creditor to whom the debtor may be indebted in he amount required by this Act in the case of a etitioning creditor.

Power to change carriage of proceedings.

10. If a btor by or against whom an insolvency petition has been presented dies, the proceedings in the matter shall, unless the Court otherwise orders, be continued as if he were alive.

Continuance of proceedings on death of debtor.

11. (*1*) Every insolvency petition presented by a debtor shall contain the following particulars, namely:—

Contents of petition.

(*a*) a statement that the debtor is unable to pay his debts;

(*b*) the place where he ordinarily resides or carries on business or personally works for gain, or, if he has been arrested or imprisoned, the place where he is in custody;

(*c*) the Court (if any) by whose order he has been arrested or imprisoned, or by which an order has been made for the attachment of his property; together with particulars of the decree in respect of which any such order has been made;

(*d*) the amount and particulars of all pecuniary claims against him, together with the names and residences of his creditors so far as they are known to, or can by the exercise of reasonable care and diligence be ascertained by, him;

(*e*) the amount and particulars of all his property, together with—

(*i*) a specification of the value of all such property not consisting of money;

(*ii*) the place or places at which any such property is to be found; and

(*iii*) a declaration of his willingness to place at the disposal of the Court all such property save in so far as it includes such particulars (not being his books of account) as are exempted by the Code of Civil Procedure or by any other enactment for the time being in force from liability to attachment and sale in execution of a decree.

[IV of 1882.

(*2*) Every insolvency petition presented by a creditor or creditors shall set forth the particulars regarding the debtor specified in clause (*b*) of sub-section (*1*), and shall also specify—

(*a*) the act of insolvency committed by such debtor together with the date of its commission; and

(*b*) the amount and particulars of his or their pecuniary claim or claims against such debtor.

Procedure on admission of petition.

12. (1) Where an insolvency petition is admitted, the Court shall make an order fixing a date for hearing the petition.

(2) Notice of the order under sub-section (1) shall be given to creditors by publication in the local official Gazette, and in such other manner as may be prescribed.

(3) Where the debtor is not the petitioner, notice of the order under sub-section (1) shall be served on him in the manner provided for the service of summons.

Interim proceedings against debtor.

13. At the time of making the order referred to in section 12, sub-section (1), or at any subsequent time before adjudication, the Court may, either of its own motion or on the application of any creditor, make one or more of the following orders, namely:—

(1) order the debtor to give reasonable security for his appearance until final orders are made upon the petition, and direct that, in default of giving such security, he shall be detained in the civil prison,

(2) order the appointment of an interim receiver of the property of the debtor or of any part thereof,

(3) order the attachment by actual seizure of the whole or any part of the property in the possession or under the control of the debtor, other than such particulars (not being his books of account) as are exempted by the Code of Civil Procedure or by any other enactment for the time being in force from liability to attachment and sale in execution of a decree,

XIV of 1882.

(4) order a warrant to issue with or without bail for the arrest of the debtor and direct either that he be detained in the civil prison, until the disposal of the petition, or that he be released on such terms as to security as may be reasonable and necessary:

Provided that an order under clause (2), clause (3) or clause (4) shall not be made unless the Court is satisfied that the debtor, with intent to defeat or delay his creditors or to avoid any process of the Court,—

(i) has absconded or has departed from the local limits of the jurisdiction of the Court or is about to abscond or to depart from such limits, or is remaining outside them, or

(ii) has failed to disclose or has concealed, destroyed, transferred or removed from such limits, or is about to conceal, destroy, transfer or remove from such limits, any documents likely to be of use to his creditors in the course of the hearing, or any part of his property other than such particulars as aforesaid.

Procedure at hearing.

14. (1) On the day fixed for the hearing of the petition, or on any subsequent day to which the hearing may be adjourned, the Court shall require proof—

(a) that the creditor or the debtor, as the case may be, is entitled to present the petition,

(b) that the debtor, if he does not appear on a petition presented by a creditor, has been served with notice of the order referred to in section 12, sub-section (1), and

(c) that the debtor has committed the act of insolvency alleged against him.

(2) The Court shall also examine the debtor, if he is present, as to his conduct, dealings and property in the presence of such creditors as appear at the hearing, and the creditors shall have the right to question the debtor thereon.

(3) The Court shall, if sufficient cause is shown, grant time to the debtor or to any creditor to produce any evidence which appears to it to be necessary for the proper disposal of the petition.

(4) A memorandum of the substance of the examination of the debtor and of any other oral evidence given shall be made by the Judge and shall form part of the record of the case

Dismissal of petition.

15. (1) Where the Court is not satisfied with the proof of the right to present the petition or of the service of notice on the debtor as required by section 12, sub-section (3), or of the alleged act of insolvency, or is satisfied by the debtor that he is able to pay his debts or that for any other sufficient cause no order ought to be made, the Court shall dismiss the petition.

(2) Where a petition presented by a creditor is dismissed under sub-section (1) and the Court is satisfied that the petition was frivolous or vexatious, the Court may, on the application of the debtor, award against such creditor such amount, not exceeding one thousand rupees, as it deems a reasonable compensation to the debtor for the expense or injury occasioned to him by the petition and the proceedings thereon, and such amount may be realised as if it were a fine.

(3) An award under this section shall bar any suit for compensation in respect of such petition and the proceedings thereon.

Order of adjudication.

16. (1) Where a petition is not dismissed under the preceding section and the debtor is unable to propose any composition or scheme which shall be accepted by the creditors and approved by the Court in the manner hereinafter provided, the Court shall make an order of adjudication

(2) On the making of an order of adjudication—

(a) the whole of the property of the insolvent, save in so far as it includes such

particulars (not being his books of account) as are exempted by the Code of Civil Procedure or by any other enactment for the time being in force from liability to attachment and sale in execution of a decree, shall vest in the Court or in a receiver as hereinafter provided and shall become divisible among the creditors, and

XIV of 1882.

(*b*) the insolvent, if in prison for debt, shall be released;

and thereafter, except as provided by this Act, no creditor to whom the insolvent is indebted in respect of any debt provable under this Act shall during the pendency of the insolvency proceedings have any remedy against the property or person of the insolvent in respect of the debt or commence any suit or other legal proceeding, except with the leave of the Court and on such terms as the Court may impose.

(*3*) For the purposes of sub-section (*2*), clause (*a*), all goods being, at the date of the presentation of the petition on which the order is made, in the possession, order or disposition of the insolvent in his trade or business, by the consent and permission of the true owner, under such circumstances that he is the reputed owner thereof, shall be deemed to be the property of the insolvent.

(*4*) All such property as may be acquired by or devolve on the insolvent after the date of an order of adjudication and before his discharge shall forthwith vest in the Court or receiver and become divisible among the creditors in accordance with the provisions of sub-section (*2*), clause (*a*).

(*5*) Nothing in this section shall affect the power of any secured creditor to realise or otherwise deal with his security in the same manner as he would have been entitled to realise or deal with it if this section had not been passed.

(*6*) An order of adjudication shall relate back to, and take effect from, the date of the presentation of the petition on which it is made.

(*7*) Notice of an order of adjudication stating the name, address and description of the insolvent, the date of the adjudication and the Court by which the adjudication is made, shall be published in the local official Gazette and in such other manner as may be prescribed.

Power to cancel one of concurrent orders of adjudication.

17. If in any case in which an order of adjudication has been made it shall be proved to the Court by which such order was made that insolvency proceedings are pending in another Court against the same debtor and that the property of the debtor can be more conveniently distributed by such other Court, the Court may rescind the order of adjudication and stay all proceedings or dismiss the petition on such terms (if any) as the Court thinks fit.

Appointment of receiver.

18. (*1*) The Court may, at the time of the order of adjudication, or at any time afterwards, appoint a receiver for the property of the insolvent, and such property shall thereupon vest in such receiver.

(*2*) Subject to such conditions as may be prescribed, the Court may—

(*a*) require the receiver to give such security as it thinks fit duly to account for what he shall receive in respect of the property; and

(*b*) by general or special order, fix the amount to be paid as remuneration for the services of the receiver out of the assets of the insolvent

(*3*) Where the Court appoints a receiver, it may remove the person in whose possession or custody any such property as aforesaid is, from the possession or custody thereof:

Provided that nothing in this section shall be deemed to authorise the Court to remove from the possession or custody of property any person whom the insolvent has not a present right so to remove.

(*4*) Where a receiver appointed under this section—

(*a*) fails to submit his accounts at such periods and in such form as the Court directs, or

(*b*) fails to pay the balance due from him thereon as the Court directs, or

(*c*) occasions loss to the property by his wilful default or gross negligence,

the Court may direct his property to be attached and sold, and may apply the proceeds to make good any balance found to be due from him or any loss so occasioned by him.

Power to appoint Official Receivers.

19. (*1*) The Local Government may appoint such persons as it thinks fit (to be called "Official Receivers") to be receivers under this Act within such local limits as it may prescribe.

(*2*) Where any Official Receiver has been so appointed for the local limits of the jurisdiction of any Court having jurisdiction under this Act, he shall be the receiver for the purpose of every order appointing a receiver issued by any such Court, unless the Court for special reasons otherwise directs.

(*3*) Any sum payable under section 18, sub-section (*2*), clause (*b*), in respect of the services of an Official Receiver shall be credited to such fund as the Local Government may direct.

(*4*) Every Official Receiver shall receive such remuneration out of the said fund or otherwise as the Local Government may fix in this behalf, and no remuneration whatever beyond that so fixed shall be received by the Official Receiver as such.

Duties and powers of receiver.

20. Subject to the provisions of this Act the receiver shall, with all convenient speed, realise the property of the debtor and distribute dividends among the creditors entitled thereto, and for that purpose may—

(*a*) sell all or any part of the property of the insolvent;

(*b*) give receipts for any money received by him;

and may, by leave of the Court, do all or any of the following things, namely:—

(*c*) carry on the business of the insolvent so far as may be necessary for the beneficial winding up of the same;

(*d*) institute, defend or continue any suit or other legal proceeding relating to the property of the insolvent;

(*e*) employ a pleader or other agent to take any proceedings or do any business which may be sanctioned by the Court;

(*f*) accept as the consideration for the sale of any property of the insolvent a sum of money payable at a future time subject to such stipulations as to security and otherwise as the Court thinks fit;

(*g*) mortgage or pledge any part of the property of the insolvent for the purpose of raising money for the payment of his debts;

(*h*) refer any dispute to arbitration, and compromise all debts, claims and liabilities, on such terms as may be agreed upon;

(*i*) divide in its existing form amongst the creditors, according to its estimated value, any property which, from its peculiar nature or other special circumstances, cannot readily or advantageously be sold.

Special provisions in regard to immoveable property.

21. (*1*) In any local area in which a declaration has been made under section 320 of the Code of Civil Procedure and is in force, no sale of immoveable property paying revenue to the Government or held or let for agricultural purposes shall be made by the receiver; but, after the other property of the insolvent has been realised, the Court shall ascertain— XIV of 1882.

(*a*) the amount required to satisfy the debts proved under this Act after deducting the monies already received,

(*b*) the immoveable property of the insolvent remaining unsold, and

(*c*) the incumbrances (if any) existing thereon,

and shall forward a statement to the Collector containing the particulars aforesaid; and thereupon the Collector shall proceed to raise the amount so required by the exercise of such of the powers conferred on him by sections 322 to 325 of the said Code as he thinks fit, and subject to the provisions of those sections so far as they are applicable, and shall hold at the disposal of the Court all sums that may come to his hands by the exercise of such powers.

(*2*) Nothing in this Act shall be deemed to affect any provisions of any enactment for the time being in force prohibiting or restricting the execution of decrees or orders against immoveable property; and any such provisions shall be deemed to apply to the enforcement of an order of adjudication made under this Act as if it were such a decree or order.

Appeal to Court against receiver.

22. If the insolvent or any of the creditors or any other person is aggrieved by any act or decision of the receiver, he may apply to the Court, and the Court may confirm, reverse or modify the act or decision complained of and make such order as it thinks just:

Provided that no application under this section shall be entertained after the expiration of twenty-one days from the date of the order or decision complained of.

Powers of Court if no receiver appointed.

23. Where no receiver is appointed, the Court shall have all the rights of, and may exercise all the powers conferred on, a receiver under this Act.

Schedule of creditors.

24. (*1*) All persons alleging themselves to be creditors of the insolvent in respect of debts provable under this Act shall tender proof of their respective debts by producing evidence of the amount and particulars thereof, and the Court shall, by order, determine the persons who have proved themselves to be creditors of the insolvent in respect of such debts, and the amount of such debts, respectively, and shall frame a schedule of such persons and debts:

Provided that, if, in the opinion of the Court, the value of any debt is incapable of being fairly estimated, the Court may make an order to that effect, and thereupon the debt shall not be included in the schedule.

(*2*) A copy of every such schedule shall be posted in the Court-house.

(*3*) Any creditor of the insolvent may, at any time before the discharge of the insolvent, tender proof of his debt and apply to the Court for an order directing his name to be entered in the schedule as a creditor in respect of any debt provable under this Act, and not entered in the schedule, and the Court, after causing notice to be served on the insolvent and the other creditors, and hearing their objections (if any), shall comply with or reject the application.

Mode of proof.

25. (*1*) A debt may be proved under this Act by delivering, or sending by post in a registered letter, to the Court an affidavit verifying the debt.

(*2*) The affidavit shall contain or refer to a statement of account showing the particulars of the debt, and shall specify the vouchers (if any) by which the same can be substantiated. The Court may at any time call for the production of the vouchers.

Disallowance and reduction of entries in schedule.

26. (*1*) Where the receiver thinks that a debt has been improperly entered in the schedule, the Court may, on the application of the receiver and after notice to the creditor, and such inquiry (if any) as the Court thinks necessary, expunge such entry or reduce the amount of the debt.

(*2*) The Court may also, after like inquiry, expunge an entry or reduce the amount of a debt upon the application of a creditor where no receiver has been appointed, or where the receiver declines to interfere in the matter, or, in the case of a composition or scheme, upon the application of the debtor.

Compositions and schemes of arrangement.

27. (*1*) Where a debtor, whether before or after the making of an order of adjudication, submits a proposal for a composition in satisfaction of his debts or a proposal for a scheme of arrangement of his affairs, the Court shall fix a date for the

consideration of the proposal and shall issue a notice to all creditors by publication in the local official Gazette and in such other manner as may be prescribed.

(2) If on the consideration of the proposal a majority in number and three-fourths in value of all the creditors whose debts are proved and who are present in person or by pleader, resolve to accept the proposal, the same shall be deemed to be duly accepted by the creditors.

(3) The debtor may at the meeting amend the terms of his proposal if the amendment is, in the opinion of the Court, calculated to benefit the general body of creditors.

(4) Where the Court is of opinion, after hearing the report of the receiver, if a receiver has been appointed, and after considering any objections which may be made by or on behalf of any creditor, that the terms of the proposal are not reasonable or are not calculated to benefit the general body of creditors, the Court shall refuse to approve the proposal.

(5) If any facts are proved on proof of which the Court would be required either to refuse, suspend or attach conditions to the debtor's discharge, the Court shall refuse to approve the proposal unless it provides reasonable security for payment of not less than six annas in the rupee on all the unsecured debts provable against the debtor's estate.

(6) In any other case the Court may either approve or refuse to approve the proposal.

(7) If the Court approves the proposal, the terms shall be embodied in an order of the Court and the Court shall frame a schedule in accordance with the provisions of section 24, the order of adjudication (if any) shall be annulled and the composition or scheme shall be binding on all the creditors entered in the said schedule so far as relates to any debts entered therein.

(8) If default is made in the payment of any instalment due in pursuance of the composition or scheme, or if it appears to the Court that the composition or scheme cannot proceed without injustice or undue delay or that the approval of the Court was obtained by fraud, the Court may, if it thinks fit, adjudge the debtor insolvent and annul the composition or scheme but without prejudice to the validity of any transfer or payment duly made or of anything duly done under or in pursuance of the composition or scheme. When a debtor is adjudged insolvent under this sub-section, all debts provable in other respects which have been contracted before the date of such adjudication shall be provable in the insolvency.

(9) No composition or scheme shall be approved by the Court which does not provide for the payment in priority to other debts of all debts directed to be so paid in the distribution of the property of an insolvent.

Debts provable under this Act.

28. (1) Save as provided by sub-section (2), all debts and liabilities, present or future, certain or contingent, to which the debtor is subject when he is adjudged an insolvent or to which he may become subject before his discharge by reason of any obligation incurred before the date of such adjudication, shall be deemed to be debts provable under this Act.

(2) Demands in the nature of unliquidated damages arising otherwise than by reason of a contract or breach of trust shall not be provable under this Act.

Debt payable at a future time.

29. A creditor may prove for a debt not payable when the debtor is adjudged an insolvent as if it were payable presently, and may receive dividends equally with the other creditors, deducting therefrom only a rebate of interest at the rate of six per centum per annum computed from the declaration of a dividend to the time when the debt would have become payable, according to the terms on which it was contracted.

Mutual dealings and set-off.

30. Where there have been mutual dealings between an insolvent and a creditor proving or claiming to prove a debt under this Act, an account shall be taken of what is due from the one party to the other in respect of such mutual dealings, and the sum due from the one party shall be set off against any sum due from the other party, and the balance of the account, and no more, shall be claimed or paid on either side respectively.

Secured creditors.

31. (1) Where a secured creditor realises his security, he may prove for the balance due to him, after deducting the net amount realised.

(2) Where a secured creditor relinquishes his security for the general benefit of the creditors, he may prove for his whole debt.

(3) Where a secured creditor does not either realise or relinquish his security, he shall, before being entitled to have his debt entered in the schedule, state in his proof the particulars of his security, and the value at which he assesses it, and shall be entitled to receive a dividend only in respect of the balance due to him after deducting the value so assessed.

(4) Where a security is so valued, the Court may at any time before realisation redeem it on payment to the creditor of the assessed value.

(5) Where a creditor, after having valued his security, subsequently realises it, the net amount realised shall be substituted for the amount of any valuation previously made by the creditor and shall be treated in all respects as an amended valuation made by the creditor.

(6) Where a secured creditor does not comply with the provisions of this section, he shall be excluded from all share in any dividend.

Interest.

32. (1) On any debt or sum certain whereon interest is not reserved or agreed for, and which is overdue when the debtor is adjudged an insolvent, and which is provable under this Act, the creditor may prove for interest at a rate not exceeding six per centum per annum,—

(a) if the debt or sum is payable by virtue of a written instrument at a certain

time, from the time when such debt or sum was payable to the date of such adjudication; or,

(*b*) if the debt or sum is payable otherwise, from the time when a demand in writing has been made giving the debtor notice that interest will be claimed from the date of the demand until the time of payment to the date of such adjudication.

(*2*) Where a debt which has been proved under this Act includes interest or any pecuniary consideration in lieu of interest, the interest or consideration shall, for the purposes of dividend, be calculated at a rate not exceeding six per centum per annum, without prejudice to the right of a creditor to receive out of the debtor's estate any higher rate of interest to which he may be entitled after all the debts proved have been paid in full.

Priority of debts.

33. (*1*) In the distribution of the property of the insolvent there shall be paid in priority to all other debts—

(*a*) all debts due to the Crown or to any local authority; and

(*b*) all salary or wages, not exceeding twenty rupees in all, of any clerk, servant or labourer in respect of services rendered to the insolvent during four months before the date of the presentation of the petition.

(*2*) The debts specified in sub-section (*1*) shall rank equally between themselves, and shall be paid in full, unless the property of the insolvent is insufficient to meet them, in which case they shall abate in equal proportions between themselves.

(*3*) Subject to the retention of such sums as may be necessary for the expenses of administration or otherwise, the debts specified in sub-section (*1*) shall be discharged forthwith in so far as the property of the insolvent is sufficient to meet them.

(*4*) In the case of partners the partnership property shall be applicable in the first instance in payment of the partnership debts, and the separate property of each partner shall be applicable in the first instance in payment of his separate debts. Where there is a surplus of the separate property of the partners, it shall be dealt with as part of the partnership property; and, where there is a surplus of the partnership property, it shall be dealt with as part of the respective separate property in proportion to the rights and interests of each partner in the partnership property.

(*5*) Subject to the provisions of this Act, all debts entered in the schedule shall be paid rateably according to the amounts of such debts respectively and without any preference.

(*6*) Where there is any surplus after payment of the foregoing debts, it shall be applied in payment of interest from the date on which the debtor is adjudged an insolvent at the rate of six per centum per annum on all debts entered in the schedule.

Restriction of rights of creditor under execution.

34. (*1*) Where execution of a decree has issued against the property of a debtor, no person shall be entitled to the benefit of the execution against the receiver except in respect of assets realised in the course of the execution by sale or otherwise before the date of the order of adjudication.

(*2*) Nothing in this section shall affect the rights of a secured creditor in respect of the property against which the decree is executed.

(*3*) A person who in good faith purchases the property of a debtor under a sale in execution shall in all cases acquire a good title to it against the receiver.

Duties of Court executing decree as to property taken in execution.

35. Where execution of a decree has issued against any property of a debtor which is saleable in execution and before the sale thereof notice is given to the Court executing the decree that an order of adjudication has been made against the debtor, the Court shall, on application, direct the property, if in the possession of the Court, to be delivered to the receiver, but the costs of the execution shall be a first charge on the property so delivered, and the receiver may sell the property or an adequate part thereof for the purpose of satisfying the charge.

Avoidance of voluntary transfer.

36. Any transfer of property not being a transfer made before and in consideration of marriage or made in favour of a purchaser or incumbrancer in good faith and for valuable consideration shall, if the transferor is adjudged insolvent within two years after the date of the transfer, be void against the receiver and may be annulled by the Court.

Avoidance of preference in certain cases.

37. (*1*) Every transfer of property or of any interest therein, every payment made, every obligation incurred, and every judicial proceeding taken or suffered by any person unable to pay his debts as they become due from his own money in favour of any creditor, with a view of giving that creditor a preference over the other creditors, shall, if such person is adjudged insolvent on a petition presented within three months after the date thereof, be deemed fraudulent and void as against the receiver and shall be annulled by the Court.

(*2*) This section shall not affect the rights of any person who in good faith and for valuable consideration has acquired a title through or under a creditor of the insolvent

Protection of *bond fide* transactions.

38. Subject to the foregoing provisions of this Act with respect to the effect of insolvency on an execution and with respect to the avoidance of certain transfers and preferences, nothing in this Act shall invalidate in the case of an insolvency—

(*a*) any payment by the insolvent to any of his creditors;

(*b*) any payment or delivery to the insolvent;

(*c*) any transfer by the insolvent for valuable consideration; or

(*d*) any contract or dealing by or with the insolvent for valuable consideration:

Provided that any such transaction takes place before the date of the order of adjudication.

39. (*1*) In the calculation of dividends, the receiver shall retain in his hands sufficient assets to meet—

Dividends.

(*a*) debts provable under this Act and appearing, from the insolvent's statements or otherwise, to be due to persons resident in places so distant that in the ordinary course of communication they have not had sufficient time to tender their proofs;

(*b*) debts provable under this Act, the subject of claims not yet determined;

(*c*) disputed proofs or claims; and

(*d*) the expenses necessary for the administration of the estate or otherwise.

(*2*) Subject to the provisions of sub-section (*1*), all money in hand shall be distributed as dividends.

(*3*) Any creditor who has not proved his debt before the declaration of any dividend or dividends, shall be entitled to be paid, out of any money for the time being in the hands of the receiver, any dividend or dividends which he may have failed to receive before that money is applied to the payment of any future dividend or dividends; but he shall not be entitled to disturb the distribution of any dividend declared before his debt was proved by reason that he has not participated therein.

(*4*) When the receiver has realised all the property of the insolvent or so much thereof as can in the opinion of the Court be realised without needlessly protracting the receivership, he shall declare a final dividend; but before so doing he shall give notice in manner prescribed to the persons whose claims to be creditors have been notified but not proved, that if they do not prove their claims within the time limited by the notice he will proceed to make a final dividend without regard to their claims. After the expiration of the time so limited, or if the Court on application by any such claimant grants him further time for establishing his claim then on the expiration of such further time, the property of the insolvent shall be divided among the creditors entered in the schedule without regard to the claims of any other persons.

(*5*) No suit for a dividend shall lie against the receiver; but, where the receiver refuses to pay any dividend, the Court may, on the application of any creditor who is entered in the schedule, order him to pay it, and also to pay out of his own money interest thereon for the time that it is withheld, and the costs of the application.

40. (*1*) The Court may appoint the insolvent himself to superintend the management of the property of the insolvent or of any part thereof, or to carry on the trade (if any) of the insolvent for the benefit of the creditors, and in any other respect to aid in administering the property in such manner and on such terms as the Court may direct.

Management by and allowance to insolvent.

(*2*) The Court may, from time to time, make such allowance as it may think just to the insolvent out of his property for the support of himself and his family, or in consideration of his services if he is engaged in winding up his estate; but any such allowance may, at any time, be varied or determined by the Court.

41. The insolvent shall be entitled to any surplus remaining after payment in full of his creditors, with interest as provided by this Act, and of the expenses of the proceedings taken thereunder.

Right of insolvent to surplus.

42. (*1*) Where, in the opinion of the Court, a debtor ought not to have been adjudged insolvent, or where it is proved to the satisfaction of the Court that the debts of the insolvent have been paid in full, or where a composition or scheme has been approved by the Court under section 27, the Court shall, on the application of the debtor or of any other person interested, by order in writing, annul the adjudication.

Power to annul adjudication of insolvency.

(*2*) Where an adjudication is annulled under sub-section (*1*), all sales and dispositions of property and payments duly made, and all acts theretofore done, by the Court or receiver shall be valid; but, subject as aforesaid, the property of the debtor who was adjudged insolvent shall vest in such person as the Court may appoint, or, in default of any such appointment, shall revert to the debtor to the extent of his right or interest therein on such conditions (if any) as the Court may, by order in writing, declare.

(*3*) Notice of every order annulling an adjudication shall be published in the local official Gazette and in such other manner as may be prescribed.

43. (*1*) Every debtor, whether before or after the making of an order of adjudication, shall produce all books of account, give such inventories of his property, and such lists of his creditors and debtors and of the debts due to and from them respectively, submit to such examination in respect of his property or his creditors, attend at such times before the Court or receiver, execute such instruments, and generally give such aid in the realisation of his property and the distribution of the proceeds amongst his creditors, as may be required by the Court or receiver, or as may be prescribed.

Duties of debtors.

(*2*) If a debtor, whether before or after the making of an order of adjudication,—

(*a*) wilfully makes false entries in the inventories or lists referred to in sub-section (*1*), or

(*b*) fraudulently or vexatiously conceals, destroys, transfers, removes or refuses to produce any property or books of account, or

(*c*) commits any other act of bad faith in the performance of the duties imposed on him by this section,

the Court may sentence him, by order in writing, to simple imprisonment for a term which may extend to one year; and in every such case the Court shall record the facts constituting the offence with the statement (if any) made by the debtor.

Discharge

44. (1) A debtor may, at any time after the order of adjudication, apply to the Court for an order of discharge; and the Court shall fix a day, notice whereof shall be given by publication in the local official Gazette and in such other manner as may be prescribed, for hearing such application, and any objections which may be made thereto.

(2) Subject to the provisions of this section, the Court may, after considering the objections of any creditor and, where a receiver has been appointed, the report of the receiver,—

(a) grant or refuse an absolute order of discharge; or

(b) suspend the operation of the order for a specified time; or

(c) grant an order of discharge subject to any conditions with respect to any earnings or income which may afterwards become due to the insolvent, or with respect to his after-acquired property.

(3) The Court shall refuse to grant an absolute order of discharge on proof of any of following facts, namely:—

(a) that the insolvent's assets are not of a value equal to eight annas in the rupee on the amount of his unsecured liabilities, unless he satisfies the Court that the fact that the assets are not of a value equal to eight annas in the rupee on the amount of his unsecured liabilities has arisen from circumstances for which he cannot justly be held responsible;

(b) that the insolvent has omitted to keep such books of account as are usual and proper in the business carried on by him and as sufficiently disclose his business transactions and financial position within the three years immediately preceding his insolvency;

(c) that the insolvent has continued to trade after knowing himself to be insolvent;

(d) that the insolvent has contracted any debt provable under this Act without having at the time of contracting it any reasonable or probable ground of expectation (the burden of proving which shall lie on him) that he would be able to pay it;

(e) that the insolvent has failed to account satisfactorily for any loss of assets or for any deficiency of assets to meet his liabilities;

(f) that the insolvent has brought on, or contributed to, his insolvency by rash and hazardous speculations, or by unjustifiable extravagance in living, or by gambling, or by culpable neglect of his business affairs;

(g) that the insolvent has, within three months preceding the date of the presentation of the petition, when unable to pay his debts as they become due, given an undue preference to any of his creditors;

(h) that the insolvent has on any previous occasion been adjudged an insolvent or made a composition or arrangement with his creditors;

(i) that the insolvent has concealed or removed his property or any part thereof, or has been guilty of any other fraud or fraudulent breach of trust.

(4) For the purposes of this section, the report of the receiver shall be deemed to be evidence; and the Court may presume the correctness of any statement contained therein.

(5) The powers of suspending, and of attaching conditions to, an insolvent's discharge may be exercised concurrently.

Effect of order of discharge.

45. (1) An order of discharge shall not release the insolvent from—

(a) any debt due to the Crown;

(b) any debt or liability incurred by means of any fraud or fraudulent breach of trust to which he was a party; or

(c) any debt or liability in respect of which he has obtained forbearance by any fraud to which he was a party.

(2) Save as otherwise provided by sub-section (1), an order of discharge shall release the insolvent from all debts entered in the schedule.

(3) An order of discharge shall not release any person who, at the date of the presentation of the petition, was a partner or co-trustee with the insolvent, or was jointly bound or had made any joint contract with him or any person who was surety for him.

Appeals.

46. (1) Any person aggrieved by an order made in the exercise of insolvency jurisdiction by a Court subordinate to a District Court may appeal to the District Court, and the order of the District Court upon such appeal shall be final:

Provided that the High Court, for the purpose of satisfying itself that an order made in any appeal decided by the District Court was according to law, may call for the case and pass such order with respect thereto as it thinks fit.

(2) Any person aggrieved by an order made by the District Court under section 15, 16, 24, 26, 36, 37, 42, 43, sub-section (2), or 44 otherwise than in appeal from an order made by a subordinate Court may appeal to the High Court.

(3) Any person aggrieved by any other order made by a District Court otherwise than in appeal from an order made by a subordinate Court may appeal to the High Court by leave of the District Court or of the High Court.

(4) The periods of limitation for appeals to the District Court and to the High Court under this section shall be thirty days and ninety days respectively.

General powers of Courts.

47. (1) Subject to the provisions of this Act, the Court, in regard to proceedings under this Act, shall have the same powers and shall follow the same procedure as it has and follows in the exercise of original civil jurisdiction.

(2) Subject as aforesaid, High Courts and District Courts, in regard to proceedings under this Act in Courts subordinate to them, shall have the same powers and shall follow the same procedure as they respectively have and follow in regard to civil suits.

Summary administration.

48. When a petition is presented by or against a debtor, if the Court is satisfied by affidavit or otherwise that the property of the debtor is not likely to exceed in value five hundred rupees, the Court may make an order that the debtor's estate be administered in a summary manner, and thereupon—

(a) the estate shall, where practicable, be distributed in a single dividend,

(b) the provisions of this Act shall be subject to such other modifications as may be prescribed with the view of saving expense and simplifying procedure:

Provided that nothing in this section shall permit the modification of the provisions of this Act relating to the examination or discharge of the debtor.

Costs.

49. The costs of any proceeding under this Act, including the costs of maintaining a debtor in the civil prison, shall, subject to any rules made under this Act, be in the discretion of the Court in which the proceeding is had.

Courts to be auxiliary to each other.

50. All Courts having jurisdiction in insolvency and the officers of such Courts respectively shall severally act in aid of and be auxiliary to each other in all matters of insolvency, and an order of a Court seeking aid with a request to another of the said Courts shall be deemed sufficient to enable the latter Court to exercise, in regard to the matters directed by the order, such jurisdiction as either of such Courts could exercise in regard to similar matters within their respective jurisdictions.

Power to make rules.

51. (1) The High Court may, with the previous sanction, in the case of the High Court of Judicature at Fort William in Bengal, of the Governor General in Council, and, in the case of any other High Court, of the Local Government, make rules for carrying into effect the provisions of this Act.

(2) In particular and without prejudice to the generality of the foregoing power, such rules may provide—

(a) for the appointment and remuneration of receivers (other than Official Receivers), the audit of the accounts of all receivers and the costs of such audit,

(b) for meetings of creditors, and

(c) for the procedure to be followed in the case of estates to be administered in a summary manner.

(3) All rules made under this section shall be published in the Gazette of India or in the local official Gazette, as the case may be, and shall, on such publication, have effect as if enacted in this Act.

Delegation of powers to Official Receivers.

52. (1) The High Court, with the like sanction, may from time to time direct that, in any matters in respect of which jurisdiction is given to the Court by this Act, the Official Receiver shall, subject to the directions of the Court, have all or any of the following powers, namely:—

(a) to hear insolvency petitions, to examine the debtor and to make orders of adjudication;

(b) to frame schedules and to admit or reject proofs of creditors;

(c) to grant orders of discharge;

(d) to approve compositions or schemes of arrangement;

(e) to make interim orders in any case of urgency;

(f) to hear and determine any unopposed or *ex parte* application.

(2) Subject to the appeal to the Court provided for by section 22, any order made or act done by the Official Receiver in the exercise of the said powers shall be deemed the order or act of the Court.

Undischarged insolvent obtaining credit.

53. (1) An undischarged insolvent obtaining credit to the extent of fifty rupees or upwards from any person without informing such person that he is an undischarged insolvent shall, on conviction by a Magistrate, be punishable with imprisonment for a term which may extend to six months, or with fine, or with both.

(2) Where the Court has reason to believe that an undischarged insolvent has committed the offence referred to in sub-section (1), the Court, after making any preliminary inquiry that may be necessary, may send the case for trial to the nearest Magistrate of the first class, and may send the accused in custody or take sufficient security for his appearance before such Magistrate; and may bind over any person to appear and give evidence on such trial.

Power of Local Government to bar application of certain provisions to certain Courts.

54. Any Local Government, with the previous sanction of the Governor General in Council, may, by notification in the local official Gazette, declare that the following provisions or any of them shall not apply to insolvency proceedings in any Court or Courts having jurisdiction under this Act in any part of the territories administered by such Local Government, namely:—

section 15, sub-sections (2) and (3),

section 16, sub-section (3),

sections 25 to 40 (except sub-section (1), clause (a), and sub-section (4) of section 33),

section 44, sub-sections (3) and (4), and

section 53.

Savings.

55. Nothing in this Act shall—

11 & 12 Vict., c. 21. (*a*) affect the Indian Insolvency Act, 1848, or section 8 of the Lower Burma Courts Act, 1900, or VI of 1900.

(*b*) apply to cases to which Chapter IV of the Dekkhan Agriculturists' Relief Act, 1879, is applicable. XVII of 1879.

Repeals.

56. (*1*) The enactments mentioned in the Schedule are hereby repealed to the extent specified in the fourth column thereof.

(*2*) Where in any enactment or instrument in force at the date of the commencement of this Act reference is made to Chapter XX (OF INSOLVENT JUDGMENT-DEBTORS) of the Code of Civil Procedure, 1877, or of the Code of Civil Procedure, 1882, or to any section of either of those Chapters, such reference shall, so far as may be practicable, be construed as applying to this Act or to the corresponding section thereof. X of 1877. XIV of 1882

THE SCHEDULE.

No. 124 (first publication).—With reference to Notice to Mariners, No. 483, dated 11th December 1906 issued by this Office, the British Admiralty has given further notice (No. 223 of 1907) that, on 15th February 1907, a *white flashing* light will be established in the tower recently erected on Sanganeb reef in the approach to Sheik el Barghut (port Sudan).

Approximate position, lat. 19° 43½′ N., long. 37° 26′ E.

This Notice affects the following Admiralty Charts:—Red Sea, Nos. 2533 and 8c; Mersa Durur to Trinkitat, No 81: Also Lists of Lights, 1907, Part V, No. 1443; Part VI, No 159; Red Sea, &c., Pilot, 1900, page 155; and Supplement, 1904, page 17.

BAY OF BENGAL—Burma coast.

Arakan river—Depth over outer bar.

No. 125 (first publication).—With reference to Notice to Mariners No. 251, dated 13th July 1906, issued by this office, the following Notice to Mariners (No. 224 of 1907), issued by the British Admiralty, is republished:—

Information, dated 9th January 1907, has been received from the Officer in charge of the Marine Survey of India, that the result of a recent survey shows that though the outer bar has shoaled in places as much as 2 feet, yet nowhere is there at the present time less than 21 feet over it at low-water springs, and that by keeping Savage island light in line with Fakir point flagstaff N. 6° W., the outer bar may be crossed in a least depth of 25 feet at low water. The note respecting the shoaling of this bar has therefore been erased from the charts.

Approximate position, lat. 20° 3′ N, long. 92° 54′ E.

(*Variation 3° Easterly in 1907*)

This Notice affects the following Admiralty Charts:—Elephant point to Cheduba strait, No. 821; Arakan river with plan of Akyab, No. 1884: Also, Bay of Bengal Pilot, 1901, page 216.

EASTERN ARCHIPELAGO—Java—Bali strait.

Bansering—Leading lights established.

No. 126 (first publication).—With reference to Notice to Mariners, No. 230, dated 26th June 1906, issued by this office, the British Admiralty has given further notice (No. 225 of 1907), that two leading lights, half a mile apart, in a direction N. 4° E. and S. 4° W. from each other, the northern and high light being *white fixed* and the low light *red fixed*, have been established near Bansering. These lights are produced by acetylene gas.

Approximate position, high light, lat. 8° 3½′ S., long. 114° 25½′ E.

(*Variation 2° Easterly in 1907.*)

This Notice affects the following Admiralty Charts:—Eastern archipelago, No. 941b; Java island, No. 1654; plan of Bali strait on chart No. 934: Also, List of Lights, part VI, 1907, No. 607; Eastern Archipelago, Part II, 1904, page 143; and Supplement, 1906, page 12.

CHINA, EAST COAST—YUNG RIVER.

Alteration in depths in entrance.

No. 127 (first publication).—The British Admiralty has given notice (No 228 of 1907) that the depths in the entrance to the Yung river have altered so much that the Admiralty chart No. 1592 can no longer be considered a safe guide, and the channel should be examined, or local assistance obtained, before entering it.

A note to this effect has been placed on the chart.

Approximate position, lat. 29° 58′ N., long. 121° 44′ E.

This Notice affects the following Admiralty Chart:—Yung river, No. 1592: Also China Sea Directory, vol. III, 1904, page 382.

AUSTRALIA, EAST COAST—BARRIER REEF.

Capricorn channel—Discoloured water.

No. 128 (first publication).—The British Admiralty has given notice (No. 230 of 1907) as follows:—

Information is given in the Remark Book of the Navigating Officer of H. M. S. *Pegasus* that, on 6th December 1906, that vessel passed a quarter of a mile to the southward of a large patch of discoloured water with apparently only a few feet of water over it, situated at a distance of approximately 10 miles N. 60° E. from North reef lighthouse. "Discoloured water" has therefore been noted on the chart in this position.

Approximate position, lat. 23° 7½′ S, long. 152° 6½′ E.

(*Variation 8° Easterly in 1907.*)

This Notice affects the following Admiralty Charts:—Australia, No. 2759a; Coral sea, No. 2763; Keppel islands to Percy islands No. 346: Also, Australia Directory, vol. II, 1898, page 261.

AUSTRALIA, EAST COAST.

QUEENSLAND—BARRIER REEF.

Trinity Opening—Existence of reefs—Amended positions of some and non-existence of others.

No. 129 (first publication).—The British Admiralty has given Notice (No. 231 of 1907) of the existence of the undermentioned reefs, and the amended positions of and non-existence of others, in Trinity opening, as follows:—

REEFS REPORTED.

(1) A sunken coral reef, about 4 cables in extent in a northerly and southerly direction, with depths of 5 to 6 feet over it at low water, is situated about 4 miles S. 38° E. from the new position of Onyx reef, as given in paragraph 3, or in approximately lat. 16° 29′ 45″ S., long. 146° 7′ 20″ E

(2) A sunken coral reef, half a mile in extent in an easterly and westerly direction, having a depth of 2 fathoms over it at low water is situated 5$\frac{1}{10}$ miles N. 83° E. from Pixie reef, in approximately lat. 16° 32′ 50″ S., long 145° 57′ 40″ E.

AMENDED POSITIONS.

(3) Onyx reef, which is 4 cables in extent, has a least depth of 2½ fathoms over it and is situated half a mile S. 38° E. from its position as formerly shown on the chart, or in approximately lat. 16° 26′ 20″ S., long. 146° 5′ 10″ E.

(4) The 3-fathom patch shown on the chart in lat. 16° 32′ S., long. 146° 8½′ E., is situated about half a mile to the north-eastward of this position, its centre, which is its shoalest part, being in approximately lat. 16° 31′ 45″ S., long. 146° 8′ 45″ E. This reef is three-quarters of a mile in extent in a north-north-westerly and south south easterly direction.

(5) The two small reefs, shown on the chart at distances of 3¾ and 4¾ miles N. 30° E. respectively from Pixie reef, do not exist.

(*Variation 6° Easterly in 1907.*)

This Notice affects the following Admiralty Charts:—Coral sea, Nos. 2763, 2764; cape Grafton to Hope islands, No. 2024: Also, Australia Directory, vol. II, 1898, page 376.

Shoals in the neighbourhood of Foul Island, north-ward of Sandoway.

No. 130 (first publication).—The Bombay Government has given Notice (No. 21 of 1907). Information has been received from the Surveyor in charge Marine Survey of India of the following shoals discovered in the neighbourhood of Foul Island, off the Burma Coast, to the southward of Sandoway. True bearings and distances are given from the summit of Foul Island as follows:

Vestal Shoal.—S. 78°½ E., distant 6·6 miles, least water is less than 6 feet—rock—
New Shoal —N. 80° E., distant 9·1 miles, least water obtained was 3 fathoms rock—probably less water—not fully examined
Brougham Shoal.—N. 15°½ E, distant 4 8 miles, least water is less than 6 feet—rock—

Carpenter Shoals—

No. 1.—N. 12°½ W.—distant 10·5 miles, least water 2¾ fathoms,—rock—
No. 2 —N. 23°½ W —distant 12·5 miles, least water 3¾ fathoms,—stones—
No. 3.—N. 30°½ W.—distant 12·7 miles, least water 8 fathoms, coral.

Over all these shoals the sea breaks in rough weather.

Position of Foul island according to Longitudes adopted on Admiralty Chart No. 822—

Lat. 18° 03′ 51″ N.
Long. 94° 05′ 07″ E.

BAY OF BENGAL.—Burma coast.

Irrawaddy Shoal off Kyauk Pyu.

No. 108 (second publication).—The following Notice to Mariners (No. 17 of 1907) issued by the Bombay Government is republished:—

The Surveyor in charge Marine Survey of India reports that a rock which uncovers two feet at Low Water Spring Tides, and has a surface area of about 4 feet, exists and has been lauded upon on the Irrawaddy Shoal off Kyauk Pyu.

It is situated in Latitude 19° 25′ 38″ N., Longitude 93° 22′ 13″ E. Soundings were taken round it, but no further shoals beyond those already charted were found.

This notice affects Admiralty Charts Nos. 821 and 829; also Bay of Bengal Pilot, Third edition, 1901, page 262.

AUSTRALIA—Victoria Port Phillip.

Geelong harbour approach.—Buoys replaced by beacons.

No 109 (second publication).—The British Admiralty has given notice (No. 176 of 1907) that on or about 1st March 1907, the undermentioned buoys in the approach to Geelong harbour will be replaced by single pile beacons as folows:—

(1) Arthur the Great buoy (red conical), situated at a distance of 2¼ miles N. 65° E. from point Wilson by a pile beacon.

(2) Point Wilson buoy (red conical), situated at a distance of 1¼ miles S. 5° E. from point Wilson. This beacon will be surmounted by a staff and ball.

(3) East Bellarine buoy (black can), situated at a distance of 3$\frac{9}{10}$ miles South from point Wilson. This beacon will be surmounted by a staff and cage.

(4) West Bellarine buoy (black can), situated at a distance of 4 miles S 11° W. from point Wilson, will be withdrawn.

Approximate position, point Wilson, lat. 38° 5¼′ S., long. 144° 30½′ E.

(*Variation 8° Easterly in 1907*).

This Notice affects the following Admiralty Charts:—Port Philip, No. 1171b; Geelong harbour, No. 2731; Also Australia Directory, vol. 1, 1897, pages 467, 469; and Supplement, 1900, page 18.

AFRICA, NORTH-EAST—Gulf of Aden.

Obokh—Alteration in buoyage.

No. 117 (second publication).—The British Admiralty has given notice (No. 198 of 1907) that the following alterations have been made in the buoyage of Obokh:—

1. The light-buoy marking the eastern extremity of Laclocheterie bank has been replaced by a black buoy from which a light is occasionally exhibited.
2. A white buoy has been established off the western end of Surcou (Surcouf) bank; it has been placed on the chart at a distance of 7½ cables S. 82° E. from South island centre.

There are now no other buoys except the above in the port. The white buoy marking Pearl bank, and the black buoy a quarter of a mile to the westward of it, have therefore been expunged from the chart.

Approximate position, South island, lat. 11° 57′ N., long. 43° 17′ E.

(*Variation 3° Westerly in 1907.*)

This Notice affects the following Admiralty Charts:—Jebel Jehan to Shab Kulangarit, No. 253; plan of Obokh on chart No. 919: Also, Red Sea Pilot, 1900, page 358; and Supplement, 1904, page 41.

AFRICA, EAST COAST—Somaliland.

Athelet (Itala) anchorage—Leading beacons disappeared.

No. 97 (third publication).—With reference to Notice to Mariners No. 323, dated 3rd September 1906, issued by this office, the British Admiralty has given further notice (No 150 of 1907) that the two leading beacons leading to the northern anchorage off Athelet, and formerly situated at distances of 13 cables N. 23° E. and 12½ cables N. 30° E. respectively from Garesa flagstaff, have disappeared.

Approximate position of La Garesa, lat. 2° 45½′ N., long. 46° 18½′ E.

This Notice affects the following Admiralty Chart:—Plan of Balik Papan bay on chart No. 3031: Also, Eastern Archipelago, part II, 1904, page 291; and Supplement, 1906, page 15.

EASTERN ARCHIPELAGO—CELEBES.

Gulf of Boni—Reefs.

No. 100 (third publication).—The British Admiralty has given notice (No. 155 of 1907) of the existence of the undermentioned coral reefs in the following positions in the gulf of Boni:—

(*a*) A reef, which dries, in approximately lat. 3° 45′ S., long. 121° 2′ 45″ E. This reef is one mile long in a north-north-westerly and south-south-easterly direction.

(*b*) A reef, which dries, in approximately lat. 3° 42′ 40″ S., long. 120° 59′ 40″ E. This reef is about half a mile long in a north-north-westerly and south-south-easterly direction.

(*c*) A reef, which dries, in approximately lat. 3° 42′ 30″ S., long 120° 57′ 40″ E. This reef is about one mile long in a north-westerly and south-easterly direction, and has a sand bank about 4 feet above water on its south-eastern edge.

(*d*) The reef shown on the chart, with a depth of less than 6 feet over it, in approximately lat. 3° 40½′ S., long. 120° 55′ E., dries, and is about 2 miles long in a north-westerly and south-easterly direction.

(*e*) A reef, which dries, in approximately lat. 3° 38′ 15″ S., long. 120° 54′ 25″ E. This reef is about 5 cables long in a northerly and southerly direction.

(*f*) A reef, which dries, in approximately lat. 3° 34′ 30″ S, long. 120° 54′ E This reef is about half a mile long in a north-north-westerly and south-south-easterly direction. A similar reef exists at a distance of half a mile S. 19° W. from this position.

(*g*) A reef, about half a mile long, extending from the shore in approximately lat. 3° 29¾′ S., long. 120° 53½′ E.

(*Variation 2° Easterly in 1907.*)

This Notice affects the following Admiralty Charts:—China sea, No. 1963; Eastern Archipelago, western portion, No. 941b; Eastern Archipelago, eastern portion, No. 942a: Also, Eastern Archipelago, Part II, 1904, page 354; and Supplement, 1906, page 20.

AFRICA, EAST COAST—KILIMAN RIVER ENTRANCE.

Light altered—Buoyage amended—Beacons removed.

No. 101 (third publication).—The British Admiralty has given notice (No. 156 of 1907) that the following alterations have been made in the lighting and buoyage of Kilimán river:—

Light:—

A *white fixed* light, elevated 65 feet above high water, and visible in clear weather from a distance of 11 miles, has been established in a pyramidal structure, painted white, erected on Tangalane point at a distance of 1¾ cables N. 75° E. from the site of the former lighthouse, the light of which has been discontinued and the tower removed, owing to the erosion of the coast in its neighbourhood.

The new light is 57 feet above the ground.

Approximate position, lat. 18° 1¼′ S., long. 36° 58¾′ E.

Buoys have been established in the undermentioned positions:—

1. A black cylindrical buoy, named "Espera," or Fairway, surmounted by a staff and white cone under a black cylinder, is moored in a depth of 33 feet at a distance of 7½ miles S. 10° W. from the lighthouse.
2. A red spherical buoy, named Tangalane I, surmounted by a staff and cone, point upwards, is moored in a depth of 11 feet at a distance of $4\frac{9}{10}$ miles S. 16° W. from the lighthouse.
3. A black cylindrical buoy, named Cavallos Marinhos, surmounted by a staff and cylinder, is moored in a depth of 14 feet at a distance of $3\frac{9}{10}$ miles S. 20° W. from the lighthouse.
4. A red spherical buoy, named Tangalane II, surmounted by a staff and cone, point downwards, is moored in a depth of 14 feet at a distance of 3 miles S. 26° W. from the lighthouse.
5. A black cylindrical buoy, named Olinda, surmounted by a staff and cylinder, is moored in a depth of 15 feet at a distance of 2 miles S. 44° W. from the lighthouse.
6. A black spindle-shaped buoy, named Militao, surmounted by a cylinder, is moored in a depth of 28 feet at a distance of $8\frac{8}{10}$ cables N. 83° W. from the lighthouse.

In entering, red buoys are to be left to starboard and black buoys to port, after passing the Fairway (Espera) buoy, vessels may cross the bar on which the least depth at present is 11½ feet at low water.

It is presumed the other buoys have been withdrawn, though this is not expressly stated.

The beacons on Tangalane point, which formerly led over the bar, have been removed, but a flagstaff, from which bar signals are made, and a pilot station have been established on this point, the exact position of which is not given.

(Variation 13° Westerly in 1907)

This Notice affects the following Admiralty Charts:—River Zambesi to Mozambique harbour, No. 1810; Kilimáin river on chart No. 650: Also, List of Lights, part VI, 1906, No. 47; and Africa Pilot, part III, 1905, page 274.

CHINA SEA—FORMOSA (TAIWAN), NORTH-EAST COAST.

Petu point light—Replaced by temporary light.

No. 102 (third publication).—The British Admiralty has given notice No. 158 of 1907) that on 20th December 1906, the white revolving light on Petu point, north-east coast of Formosa, would be replaced by a temporary *red fixed* dioptric light, elevated about 180 feet above high water, and visible in clear weather from a distance of 6 miles; the power of the light, which is shown from a wooden staff erected about 15 feet north-eastward from the lighthouse, is about 100 candles. The lighthouse on this point will be removed.

Approximate position, lat. 25° 8′ N., long. 121° 55′ E.

This Notice affects the following Admiralty Charts:—Hong Kong to Liautung gulf, No 1262; China sea, No. 1263; Amoy to Nagasaki, No. 2412; Formosa island, No. 1968: Also, List of Lights, part VI, 1906, No. 952; China Sea Directory, vol. III, 1904, page 263.

The 5th March 1907.

PACIFIC OCEAN—NEW GUINEA, NORTH-EAST COAST.

L'Echiquier islands—Non-existence of reef on the northward.

No. 103 (third publication).—The British Admiralty has given notice (No. 159 of 1907) that an unsuccessful search has been made for the two rocks, 16 to 20 feet in height, reported in 1899 by the Master of the S.S. *Dundee* to be situated about 60 miles northward of L'Echiquier islands; they have therefore been expunged from the charts.

Approximate position, lat. 0° 11′ S., long. 144° 15′ E.

This Notice affects the following Admiralty Charts:—Atlantic and Pacific oceans, No. 2483; Pacific ocean, No. 2683; Pacific, No. 780; Australia, northern portion, No. 2759a; North-east coast of New Guinea, No. 2766: Also, Pacific Islands, vol. I, 1900, page 413.

EASTERN ARCHIPELAGO—SUMATRA, WEST COAST.

Simalur island, south coast—Partially submerged.

No. 104 (third publication).—The British Admiralty has given notice (No. 165 of 1907) that the south coast of Simalur island has been partially submerged by an earthquake, and that pulo Simalur Chut has almost disappeared. A note to this effect has been placed on chart.

Approximate position, lat. 2° 31′ N., long. 95° 58′ E.

Further particulars will be published when the full effects of this catastrophe are known.

This Notice affects the following Admiralty Charts:—Acheh head to Tyingkok bay, No. 2760; plans of Simalur island on charts Nos. 2201 and 2284: Also, China Sea Directory, vol. I, 1906, pages 353, 364.

CHINA, CANTON RIVER—BOCA TIGRIS.

China rock—Light established.

No 105 third publication).—With reference to Notice to Mariners No. 248, dated 6th July 1906, issued by this Office, the British Admiralty has given further Notice (No. 166 of 1907) that, on the 24th November 1906, a *red fixed* dioptric light of the 6th order elevated 33 feet above high water, and visible in clear weather from a distance of 10 miles, was

established in a square red brick tower, 36 feet high, erected on Chain rock, Boca Tigris Canton river.

Approximate position, lat. 22° 47½′ N., long. 113° 37½′ E.

This Notice affects the following Admiralty Charts:—Macao to Pedro Blanco, No. 3026; Canton river delta, No. 3588; Canton river, No. 2552: Lintin bar to Tiger island, No. 1741: Also List of Lights, Part VI, 1906, page 121; and China Sea Directory, vol. III, 1904, page 92.

REPORT ON THE ADMINISTRATION OF THE OPIUM DEPARTMENT DURING THE SEASON 1905-06.

NOTIFICATION.

No. 321—O.—The 13th March 1907.—The following extracts from the Report of the Board of Revenue on the Administration of the Opium Department during the year 1905-06, are published for general information.

H. J. MCINTOSH,
Secy. to the Govt. of Bengal.

No. 1029B., dated Calcutta, the 16th February 1907.

From—PANDIT RAMA BALLABHA MISRA, M.A., Offg. Secretary to the Board of Revenue, L. P.,

To—The Secretary to the Government of Bengal, Financial Department.

THE HON'BLE MR. W. C. MACPHERSON, C.S.I.

I AM directed by the Board of Revenue to submit the annual report on the operations of the Opium Agencies of Bihar and Benares during the season 1905-06, that is to say, from the 1st November 1905 to 31st October 1906.

* * * * *

5. *Check measurement by Gazetted officers.*—In the Bihar Agency there has been a marked increase in the area test-measured as compared with the previous season, which is satisfactory. The total area test-measured was 21,189 bighas, or 6·5 per cent. of the cultivated area, as compared with 20,544 bighas, or 6·2 per cent. in the preceding year. The number of raiyats whose lands were test-measured also increased from 32,588 in the preceding year to 37,177. The results obtained have also been satisfactory, for, except in the case of one muharrir in Tirhut who was punished with suspension, no false measurements were detected. In that Sub-Agency there were also a few cases in which the cultivators had made only a pretence of sowing poppy.

The return of test-measurements in the Benares Agency exhibits 48,389 bighas test-measured out of a total of 671,064 bighas, or 7·21 per cent. against 7·85 in the previous year. The work of the measuring muharrirs was found to have been generally well done in all divisions.

6. *Settlements.*—In the Bihar Agency 338,020 bighas were settled or 2,129 bighas less than in the previous year. In Tirhut, Motihari, Gaya, Tehta and Hazaribagh the area settled was greater than in the previous year, while in the remaining Sub-Agencies, viz., Chapra, Aliganj, Bettiah, Shahabad, Patna and Monghyr, there was a decrease. In Aliganj the decrease is attributed partly to the giving up by the Department of unprofitable lands, and partly to the relinquishment of some lands by cultivators who find other crops more profitable. In Dehri (Shahabad) the decrease is attributed to the fact that owing to deaths from plague and the absconding of raiyats, land has fallen into the hands of maliks who are unwilling to re-engage for poppy. The reason stated for the decrease in other Sub-Agencies, where any is given, is the giving up of unprofitable lands, and this is especially true in Monghyr, where over 1,000 bighas were struck off in one *kothi*. Mr. Bright will continue to impress upon all his officers that they should follow the policy of relinquishment of unprofitable lands when conducting their settlements.

7. *Measurements and actual cultivation.*—In the Bihar Agency the area cultivated during the year under review was less by 5,428 bighas than in the preceding year, while the decrease in the area engaged for was no less than 10,380 bighas. The cultivation over an area of 6,914 bighas, as against 8,040 in the preceding year, is reported to have failed owing to climatic causes, while non-fulfilment of engagements accounts for the decrease of 3,775 against 4,149 bighas. The decrease was shared by all the Sub-Agencies except Tirhut, Aliganj, Motihari and Bettiah. The Sub-Agencies in which the greatest decreases occurred were Chapra (4,143 bighas), Patna (1,110 bighas), and Hazaribagh (525 bighas). Relinquishments of bad lands have been the general cause of the decrease.

In the Benares Agency, on the other hand, the measurements showed that 671,064 bighas of poppy had been sown, or 27,338 bighas in excess of the area engaged for. Mr. House reports that this rise of 4¼ per cent. at measurements is unusual, and no doubt is to be explained to a great extent by the difficulty which was experienced in many divisions in obtaining the seed for cereals. In the whole Agency the area on which the crop failed owing to climatic causes was 16,311 bighas as against 16,704 in the preceding year, and the area wilfully left unsown was only 386 bighas. Opium cultivation in this Agency is decreasing in the east and extending to the west and north-west.

8. *Weather and general results.*—The season in Bihar is described by the Agent as having been disastrous. Generally speaking, what promised early in the season to be a bumper crop turned out a very poor one. Moisture for sowings was generally sufficient. Then followed abnormally hot weather and some damage was done to the seedlings which here and there had to be resown. But prospects on the whole continued to be good until the end of December. January brought a few showers only. In the middle of February a spell of bad weather set in which lasted well into March. This extraordinarily inclement weather, which was worst in the large Sub-Agencies of Gaya and Tehta, washed the drug off the capsules continuously and did great damage to leaf. In Hazaribagh and Monghyr excessive rain in February, boisterous winds and some hail had also a most disastrous effect on both the leaf and opium,

and the result in both Sub-Agencies was most disappointing. Tirhut was similarly affected by unsettled weather, which greatly damaged the leaf-supply and diminished seriously the outturn of opium. The other Sub-Agencies were less seriously affected, but the damage done throughout the Agency was so great that while the estimated outturn was 29,356 maunds, the actual outturn was less than 25,000. For the same reason the leaf-supply was very small. The year was a most disappointing one for cultivators, who were much disheartened.

In the Benares Agency also the weather conditions were not very favourable. The monsoon rains of 1905 came to an end somewhat earlier than usual. The dryness of the season in the earlier part rendered second and third sowings necessary in most divisions, and complaints of damage by various insect-pests were not uncommon. Throughout the Agency practically no rain fell until the third week of February, when heavy falls occurred, accompanied in some divisions by hail-storms of varying severity. There was also some rain in March. Certain tracts benefited greatly by the rain in the later part of the season, but in others the continuous cloudy weather and the heavy falls of rain injuriously affected the outturn, both of opium and of leaf.

* * * * *

10. *Outturn of opium.*— * * *

* * . In the two Agencies taken together the *damdami* produce at 70° consistence, which showed a decrease of 7,585 maunds in 1904-05 as compared with that of the season 1903-04, has increased by 3,260 maunds in the year under review in comparison with the produce of the preceding season. This result is due to an increase of 12,636 maunds in the production of the Benares Agency in which fourteen out of nineteen Sub-Agencies show an increase, whereas all the divisions of the Bihar Agency show a decrease amounting in all to 9,376 maunds, or about 26 per cent. less than the produce of 1904-05. In Bihar the general average gross produce per bigha (excluding failures) fell from 4 seers 2 chitaks 2 kachas to 3 seers 3 kachas, while in the Benares Agency the average produce per bigha was 5 seers 1 chitak, or 7 chitaks over that of the preceding year. The best divisional average was that of Rae Bareli, viz., 6 seers 2 chitaks.

* * * * *

11. *Average area per license and per cultivator.*—In the Bihar Agency the average area cultivated with poppy by a raiyat is highest in Shahabad and lowest in Tirhut. In the Benares Agency Etawah shows the highest, and Basti the smallest, area. Mr. House observes that the largest licenses as a rule give not merely the largest gross outturn but the largest average per cultivator. He attaches considerable importance to the maintenance of large licenses and observes that men of position will not take up petty licenses.

12. *Average produce per license and per cultivator.*—In Bihar the average produce per cultivator has decreased from 2 seers 7 chitaks and 3 kachas to 1 seer 12 chitaks and 2 kachas, whereas in the Benares Agency it has increased from 3 seers 1 chitak and 2 kachas to 3 seers and 6 chitaks during the year under review. Five Sub-Agencies, viz., Etawah, Budaon, Lucknow, Bara Banki and Rae Bareli, show an average produce of more than 4 seers per cultivator. On the contrary there is only one Sub-Agency in Bihar, viz., Shahabad, which shows more than 3 seers as the average produce per cultivator. Unless a cultivator can get not less than 4 seers of opium to the bigha his profit from the cultivation is only of moderate amount.

* * * * *

15. *Consistence of the season's opium.*—The consistence of the drug of the Bihar Agency was high this year, the general average having been 74·68° which is very nearly equal to the average of the last ten years and nearly two degrees better than in 1904-05. Out of the eleven Sub-Agencies, four—Aliganj, Motihari, Gaya and Hazaribagh—supplied opium of a consistence between 76° and 77°. The improvement is generally attributed to the greater heat in April which dried the drug more quickly than in the previous year. For the Benares Agency, however, the average consistence was again low this year, being 68·69° as compared with 70·18°, the average of the previous ten years

The lowest consistence (63·73°) was again that of the Etawah Division. The low consistence of the Benares drug may be attributed to the continuous cloudy weather and the heavy falls of rain during the exudation of the juice as stated in paragraph 8 of this report.

* * * * *

21. *Advances and outstanding balances.*—The total advances in the Bihar Agency on account of opium, leaf and trash for season 1905-06 amounted to Rs. 65,80,962, and the final payments amounted to Rs. 65,63,600. The balance of advances outstanding in the Bihar Agency at the end of the year amounted to Rs. 17,970* on account of opium (or 0·2 per cent. on the total advances), as compared with Rs. 12,396 in the preceding year; and Rs. 16 on account of leaf. Considering the disastrous character of the season the amount of outstanding for the year is small. The largest part is due in Gaya, where the raiyats suffered extremely from inclement weather and where, in the previous year, there had been severe damage from hail. During the year outstandings of previous years to the amount of Rs. 11,880 were adjusted.

	Rs.
* On account of the year 1905-06 ...	17,445
On account of preceding year ...	525

In Benares the total advances amounted to Rs. 1,76,92,928 and the total payments to Rs. 1,97,40,746; the final payments after adjustment amounted to Rs. 1,97,31,899. The balances unrealized at the conclusion of the year amounted to Rs. 9,972† (or 0·05 per cent. on the total advances) as compared with Rs. 10,698 in the preceding year. Of the balances of previous years, a sum of Rs. 9,573 has been adjusted during the year. The outstanding balances are due in most cases to damage caused by hail, notably in the Etawah Division. It is reported that the amount of Rs. 1,125 outstanding on account of previous years is irrecoverable.

	Rs.
† On account of the year 1905-06 ...	8,847

22. *Advances for wells.*— * * The Bihar Agent remarks that the conditions upon which these advances are made are too often forgotten by the raiyats, and with a cultivation which is yearly falling off, it becomes more and more necessary to be cautious about the giving out of such advances, as new cultivation of poppy, which is usually promised, generally disappears when the well has been in use for a short time. There is no doubt, however, that the wells are very useful to the raiyats.

* * * * *

In the Benares Agency applications for well advances were far more numerous than in the preceding year, and were specially popular in the Budaon and Mainpuri Divisions. The number of masonry wells constructed and under construction are also the largest in these two divisions. The Agent observes that such extensive well-making in the two canal-irrigated districts is remarkable. During the last thirteen years advances aggregating nearly 5½ lakhs of rupees have been made in this Agency for the construction and repair of wells; between 6,000 and 7,000 masonry wells have been built or are being built and 3,000 or 4,000 have been repaired; and about 32,000 *non*-masonry wells have been sunk. This is a satisfactory record.

* * * * *

29. *Expenditure.*—The total expenditure in the Bihar Agency amounted to Rs. 73,75,481, as compared with Rs. 96,07,215 in the previous year. * * * * * * * * The average cost per maund and per chest of opium rose from Rs. 267 to Rs. 277 and from Rs. 477 to Rs. 497, respectively. This increase of cost was due to the poor outturn and to the high price of timber.

In the Benares Agency the total expenditure of the season amounted to Rs. 2,14,44,733 against Rs. 1,84,46,044 in the preceding year. The average cost per maund of opium has been Rs. 266 as compared with Rs. 271 in the previous year; and per chest was Rs. 467 against Rs. 473. The decrease of cost is due to the increase in outturn during the year under review.

30. *Cost of a chest of Provision Opium and net revenue.*—During the calendar year 1906, 52,800 chests of provision opium were sold in equal proportions from Bihar and Benares, the average prices realized for a chest from each Agency were Rs. 1,416 and Rs. 1,325, or Rs. 1,370 for both combined, against an average of Rs. 1,498 in 1905. The total sale-proceeds in 1906 amounted to Rs. 7,23,65,450. The total cost of manufacture of the produce sold (including Presidency charges, &c.) amounted to Rs. 1,32,64,980 in Bihar and to Rs. 1,36,98,376 in Benares, or a total of Rs. 2,69,63,356, giving an average cost per chest of Rs. 511. The net revenue derived from opium during the two calendar years 1905 and 1906 amounted to Rs. 4,81,84,115 and Rs. 4,54,02,094, respectively.

31. *Sales.*—The opium sales during the twelve months from November 1905 to October 1906, comprised 41,762 chests manufactured in 1903-1904 and 10,238 chests manufactured in 1904-1905, in all 52,000 chests, of which half was taken from each Agency in monthly lots of 4,000 chests during November and December 1905, and of 4,400 chests during January to October 1906. The number of chests sold during the twelve months was 52,000 chests, or 4,000 chests more than were sold during the previous corresponding period.

* * * * *

* * * * As compared with 1904-1905, the average prices of Bihar and Benares opium for the twelve months under notice showed a decrease of Rs. 165 and Rs. 185 per chest, respectively. This may be due to the increased number of chests sold in 1906.

GENERAL SUMMARY.—Rain fell generally throughout the Province during the week. In Bankura, Hooghly, Jessore, Angul, Hazaribagh, Ranchi, Manbhum and Singhbhum it was fairly heavy. In the rest of the Province it was light. The recent rain, which was accompanied with hail in places, has done some damage to those *rabi* crops that were ready to be harvested. Such damage is reported from Hooghly, Patna, Shahabad, Champaran, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, Purnea, Hazaribagh, Ranchi and Palamau. The number of persons on test-works is—Champaran 105, Muzaffarpur 17 and Darbhanga 1,530. In Darbhanga the number on gratuitous relief is 11,416, and on relief works 19,309. Cattle-disease is reported from ten districts. Fodder and water are reported sufficient, except in parts of Jessore. The price of common rice has risen in four and fallen in five districts and has remained stationary in the rest of the Province.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; d, drizzling rain; ≏, dew; p, passing temporary showers; K, thunderstorm; t, thunder, <, lightning.

Draft Notification and Rules.

IN exercise of the power conferred by section 2 of the Poisons Act, 1904 (I of 1904), the Lieutenant-Governor is pleased to make the following rules to regulate the possession for sale, and the sale, of certain poisons within the limits of Municipalities and Cantonments :—

I. The following poisons shall be deemed to be poisons for the purposes of these rules :—

Aconite, Nux Vomica, Perchloride of Mercury (Corrosive Sublimate), Cyanide of Potash, and Stramonium (Dathura) and any mixtures containing such poisons.

II. No person shall possess any poison specified in rule I for sale by retail except under a license granted in this behalf by the District Magistrate and no persons not possessing any such license shall sell any such poison by retail.

III. The grant or withdrawal of a license to any applicant shall be at the discretion of the District Magistrate whose decision thereon shall be final.

IV. A fee of Re. 1 shall be charged for each license granted under rule III and shall be paid before the grant of such license. The license shall be inscribed on a non-judicial impressed stamped paper of the appropriate value. Provided that no fee shall be charged to any person already licensed to possess white arsenic for sale under the rules framed under section 4 of the Act.

V. A license shall terminate on the death of the license-holder.

VI. The District Magistrate may for any sufficient cause revoke or cancel any license granted under rule III.

VII. A license-holder shall effect every sale of poison in person.

VIII. A license-holder shall not sell any poison to any person unless the latter is personally known to him, or identified to his satisfaction. He shall not sell any poison to any person who appears to him to be under the age of 18 or to any person who does not appear to him to be in full possession of his faculties, or to any wandering mendicant

IX. A license-holder shall not sell any poison of a quantity exceeding one ounce at any one time and to any one person.

X. A license-holder shall maintain a register in which he shall enter all sales of poison The following particulars shall be entered in such register in respect of each sale, viz. :—

(*a*) Name of poison.
(*b*) Quantity sold.
(*c*) Date of sale.
(*d*) Name of purchaser.
(*e*) Address of purchaser.
(*f*) Purpose for which the poison is stated to be required.
(*g*) Signature of purchaser (or where purchaser is illiterate, his thumb-mark).
(*h*) Signature of vendor.

XI. A license-holder shall maintain in respect of each poison specified in rule I a stock register which shall contain the following particulars :—

(*a*) Serial number.
(*b*) Date.
(*c*) Amount received.
(*d*) Name and address of person from whom received.
(*e*) Amount sold.
(*f*) Balance in stock.
(*g*) Remarks.

XII. Any Magistrate or Police officer of or above the rank of Sub-Inspector, any Revenue officer of or above the rank of Naib-Tahsildar, or any Medical officer of or above the rank of Hospital Assistant, may at any time visit and inspect the premises of a license-holder where poison is kept for sale and may inspect all poisons found therein and the registers maintained under rules X and XI.

XIII. All poisons specified in rule I shall be kept in a separate locked almirah or box which shall have the word "poison" in English and Vernacular painted on it in red letters. Each small receptacle within such almirah or box shall be marked in paint with the name of the poison contained in it and shall also have the word "poison" in English and Vernacular painted upon it in red letters.

XIV. No poison shall be kept otherwise than in securely closed receptacles of glass, tin or earthenware.

XV. When any poison is sold it shall be securely packed in a packet and every packet sold shall be labelled by the vendor with a red label bearing the name of the poison in the Vernacular and the number and date of the entry in the register of sales

XVI. The powers conferred by these rules upon a District Magistrate may be exercised in the town of Calcutta, as defined in section 3 of the Calcutta Municipal Act, 1899, by the Commissioner of Police, and in a Cantonment by the Cantonment Magistrate.

No. 606 Medl.— The 21st March 1907.—The following draft of rules to regulate the possession for sale, and the sale, of white arsenic, which the Lieutenant-Governor proposes to make under section 4 of the Poisons Act, 1904 (I of 1904), is published for the information of the persons likely to be affected thereby.

The draft will be taken into consideration on or after the 1st May 1907, and any objection or suggestion which may be received by the undersigned before that date will be duly considered by the Lieutenant-Governor.

H. J. McINTOSH,
Secy. to the Govt. of Bengal.

Draft Notification and rules.

IN exercise of the power conferred by section 4 of the Poisons Act, 1904 (I of 1904), the Lieutenant-Governor is pleased to make the following rules to regulate the possession for sale, and the sale, of white arsenic :—

I. For the purposes of these rules the expression "white arsenic" includes every substance in which there is free arsenious oxide.

II. No person shall possess white arsenic for retail sale except under a license granted in this behalf by the District Magistrate, and no person not possessing any such license shall sell any white arsenic by retail.

III. The grant or withdrawal of a license to any applicant shall be at the discretion of the District Magistrate, whose decision thereon shall be final.

IV. A fee of Re. I shall be charged for each license granted under rule III, and shall be paid before the grant of such license. The license shall be inscribed on a non-judicial impressed stamped paper of the appropriate value: Provided that no fee shall be charged to any person already licensed to possess poisons for sale under the rules framed under section 2 of the Act.

V. A license shall terminate on the death of the license-holder.

VI. The District Magistrate may for any sufficient cause revoke or cancel any license granted under rule III.

VII. A license-holder shall effect every sale of white arsenic in person.

VIII. A license-holder shall not sell any white arsenic to any person unless the latter is personally known to him, or identified to his satisfaction. He shall not sell any white arsenic to any person who appears to him to be under the age of 18 or to any person who does not appear to him to be in full possession of his faculties, or to any wandering mendicant.

IX. A license-holder shall not sell white arsenic in a quantity exceeding one ounce at any one time and to any one person.

X. A license-holder shall maintain a register in which he shall enter all sales of white arsenic. The following particulars shall be entered in such register in respect of each sale, viz —

(*a*) Name of poison.
(*b*) Quantity sold.
(*c*) Date of sale.
(*d*) Name of purchaser.
(*e*) Address of purchaser.
(*f*) Purpose for which the white arsenic is stated to be required.
(*g*) Signature of purchaser (or where the purchaser is illiterate, his thumb-mark).
(*h*) Signature of vendor.

XI. A license-holder shall maintain a stock register, which shall contain the following particulars:—

(*a*) Serial number.
(*b*) Date.
(*c*) Amount received.
(*d*) Name and address of person from whom received.
(*e*) Amount sold.
(*f*) Balance in stock.
(*g*) Remarks.

XII. Any Magistrate, any Police officer of or above the rank of Sub-Inspector, any Revenue officer of or above the rank of Naib-Tahsildar, or any Medical officer of or above the rank of Hospital Assistant, may at any time visit and inspect the premises of a license-holder where white arsenic is kept for sale and may inspect the stock found therein and the registers.

XIII. White arsenic shall be kept in a separate locked almirah or box which shall have the word "poison" in English and Vernacular painted on it in red letters. Each small receptacle within such almirah or box shall be marked in paint with the name of the poison contained in it, and shall also have the word 'poison' in English and Vernacular painted upon it in red letters.

XIV. No white arsenic shall be kept otherwise than in securely closed receptacles of glass, tin or earthenware.

XV. When any white arsenic is sold it shall be securely packed in a packet, and every packet sold shall be labelled by the vendor with a red label bearing the name of the poison in the Vernacular and the number and date of the entry in the register of sales.

XVI. A license-holder shall not sell powdered white arsenic to any person, unless the same is, before the sale thereof, mixed with soot, indigo, or Prussian blue in the proportion of half an ounce of soot, indigo, or Prussian blue at least to one pound of the white arsenic, and so in proportion for any greater or less quantity:

Provided that, where such arsenic is stated by the purchaser to be required for some purpose for which such admixture would, according to the representation of the purchaser, render it unfit, a license-holder may sell such arsenic, without such admixture, in a quantity of not less than ten pounds at any one time.

XVII. The powers conferred by these rules upon a District Magistrate may be exercised in the town of Calcutta, as defined in section 3 of the Calcutta Municipal Act, 1899 by the Commissioner of Police, and in a cantonment by the Cantonment Magistrate.

DECLARATION.

No. 1444J.—The 25th March 1907.—Whereas certain land was acquired by the Government of Bengal under the provisions of the Land Acquisition Act, 1894 (I of 1894), and the Land Acquisition (Mines) Act, 1885 (XVIII of 1885), for a public purpose, viz, for the Jharia-Katras Branch and Damuda Branch of the East Indian Railway, and whereas coal-mines are situate under the said land; and whereas the Jherria Coal Syndicate have been working or getting mines or minerals lying under the said land; and whereas the said mines have been inspected by an officer appointed by the Government of Bengal under section 11 of the said Land Acquisition (Mines) Act, 1885, and it appears to the Government of Bengal that the mines have been worked contrary to the provisions of the said Act and that the drivings made by or on behalf of the said Jherria Coal Syndicate are such as to cause damage to the railway at some future time, and that additional precautions are necessary to secure the safety of the line.

Manbhum.

Now, therefore, the Lieutenant-Governor of Bengal is pleased to give notice, under section 13 of the said Land Acquisition (Mines) Act, 1885, to the said Jherria Coal Syndicate to construct the following works within six months from the date of this notice for making safe the acquired land and the works thereon, and preventing injury thereto. The workings coloured pink on the plan shall be kept isolated from the rest of the workings by means of walls. Walls shall be built at the points marked W.-W. in red on the plan, and in the event of any further communication being made with the workings coloured pink, a wall shall be built at the place where the communication is made.

Every wall shall be of sound masonry, shall be built across the whole width of the gallery, and from floor to roof, and shall be at least 3 feet 6 inches thick at the bottom and at least 1 foot 6 inches thick at the top, with a batter of at least two feet on the outer side.

In each wall two holes, each not exceeding 9 inches square, may be left, for purposes of ventilation and drainage.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties interested.

W. W. HORNELL,
Asst. Director of Public Instruction, Bengal.

NOTIFICATION No. 4614.

State Technical Scholarships for Statutory Natives of Bengal tenable in the United Kingdom, on the Continent of Europe, or in America.

THE Government of India have for the last three years awarded, on the recommendation of the Government of Bengal, a few Technical Scholarships of the value of £150 a year each tenable by Statutory Natives of Bengal, for two years in the United Kingdom, on the Continent of Europe, or in America. Law, Medicine, Forestry, Veterinary Science, Agriculture and Engineering are excluded from the scope of the scheme, and scholarships will, in the first instance, be given preferably to students who wish to go through a course of Mining instruction. A few of these scholarships are likely to be available this year also, but no guarantee to that effect can be given at present. Intending candidates are required to submit their applications to the undersigned on or before the 30th April 1907, with certificates as to (1) their moral character, (2) their educational qualifications, (3) their knowledge of the language of the country in which they may elect to study, and (4) their physical fitness. Candidates must name the country to which they propose to proceed, and the course of studies they propose to take up while in receipt of the scholarships. Candidates for Mining Scholarships should state in their applications whether they have had any actual experience of mining. Government does not guarantee to provide successful candidates with employment on their return to India.

No. 1556B.

NOTIFICATION.

THE HON'BLE MR. K. G. GUPTA, I.C.S.

Dated Calcutta, the 11th March 1907.

IT is hereby notified for general information that the Board of Revenue, Lower Provinces have, in exercise of the powers conferred by section 75 of the Sea Customs Act, 1878 (VIII of 1878), made the following revised rules for the realization of Customs duty on articles imported by His Majesty's Letter or Parcel Mails over sea into Calcutta, in supersession of the like rule 14 of the rules published under Notification No. 22B., dated the 8th January 1885, at pages 31 and 32 of the *Calcutta Gazette*, Part I of the 14th *idem* :—

1. On the arrival of any mail, the Collector of Customs shall depute a Customs Officer to attend at the Post Office for the purpose of assessing to duty articles imported by such mail.

2. The Customs Officer shall deal with all parcels and such letters as have been detained by the Postmaster under the Postal Regulations for examination.

3. A list in form appended of all parcels and such letters as are detained shall be made out in duplicate by the carbon process in the Post Office before the Customs Officer's arrival, from the declarations accompanying the parcels and from the covers of the letters. The columns for value in Indian money and duty shall be left blank and shall be filled up by the Customs Officer on his arrival. When any of the particulars required cannot be obtained from the declarations or the covers of the letters, the columns in question shall be left blank and shall be filled in by the Customs Officer after examination of the parcel or letter in question.

4. The Customs Officer, on his arrival, shall examine the list, fill in any details that may be wanting, and assess the parcels and letters to duty, entering the duty on the list. In his assessment he shall ordinarily be guided by the sender's declaration, but he may have any parcel opened for examination at his discretion. Letters and insured parcels must be opened, under the Postal Regulations, in the presence of the addressee, or a duly authorised agent, or of an Assistant Postmaster. The Customs Officer shall call upon the Postmaster to detain any parcel or letter upon which the Collector's orders may be required.

5. When the assessment is completed, the Customs Officer shall sign both original and duplicate, retain the original, and hand over the duplicate to the Post Office from which the necessary entries shall be made on the parcels and letters for collection of duty at time of delivery. The original shall be taken to the Custom House and made over to the Accountant who shall enter the total of each parcel list in a register, and strike the total for each month. From this total shall be deducted any refunds paid by the Post Office with the sanction of the Collector of Customs to the addressees of parcels, and the net total shall then be credited as import duty by *per contra* debit to the Postal Department.

QUESTIONS AND ANSWERS.

PRICE OF PADDY AND RICE.

The Hon'ble BABU RADHA CHARAN PAL asked:—

(*a*) What is the report received by the Government about the outturn of the last winter paddy crop in Bengal as compared with the corresponding period of the last three years?

(*b*) Has the attention of the Government been drawn to the excessively high and exorbitant price of paddy and rice in Bengal in comparison with the price which prevailed at this time last year and which itself was considered as a scarcity rate?

(*c*) If so, does not the Government think it necessary to institute inquiries as to the cause of this unprecedented rise of the staple food of the people of Bengal?

(*d*) Having regard to the fact that the price of rice reaches its maximum during the period commencing from the end of the rains to the next harvest, does not the Government think that the situation after the next rains will be most alarming, if there is no tendency to a fall in the present excessively high rate; if so, what measures does the Government contemplate to prevent such a catastrophe?

(*e*) Has the excessively high rate of paddy and rice any connection with the export of rice and will the Government kindly publish figures showing the export of rice during the last three years?

The Hon'ble MR. CARLYLE replied:—

"(*a*). A statement showing the estimated outturn of the last winter paddy crop in this Province, as compared with the estimated outturn in the three preceding years, is laid on the table.

"(*b*) and (*c*). The attention of Government has been given to the marked rise of prices in Bengal; some attempt has been made to ascertain the causes of that rise, but such an inquiry to be successful must necessarily take into consideration conditions affecting other Provinces and other commodities. This Government will make further inquiries on the subject.

"(*d*). The Government is of opinion that there is no reason for alarm if the next monsoon is a seasonable one. Although Government cannot account fully for the present price of rice, there can be little doubt that two causes are in operation which must tend to raise the price of rice. One is the magnitude of the sums paid for the last jute crop with the resulting profit reaped by the cultivators and the consequent increase in the purchasing and consuming power of a large portion of the population in parts of Eastern Bengal and Assam and in some portions of this Province. Another factor is almost certainly that people are, in many parts of this Province and the Province of Eastern Bengal and Assam, replenishing the reserves for their own consumption and are in consequence keeping back a considerable portion of the harvest from the market.

"(*e*). A statement of the exports of rice from Bengal by sea to foreign countries in the ten months, April, 1906, to January, 1907, and in the corresponding periods for the three previous years is laid on the table.

"In answering this question it has been assumed that the Hon'ble Member refers to exports out of India. As will be seen from the figures supplied, there appears to be no connexion between the present high prices and the exports from Bengal to foreign countries."

Statement referred to in Question (a) above.

CASE OF KISHORI MOHAN MITTER AND OTHERS.

The Hon'ble BABU RADHA CHARAN PAL, in the absence of the Hon'ble BABU BHUPENDRA NATH BASU, asked:—

(*a*) Has the attention of Government been drawn to the proceedings of the criminal case in Bhagalpur, Emperor *vs.* Kishori Mohan Mitter and two others, in which the Station Master of the Sultangunj Railway Station, East Indian Railway, and his assistant and his son were prosecuted under sections 448 and 109, Indian Penal Code, for bringing some benches from the local District Board school, then closed for the *Dusahara* vacation at the time, and using them for the accommodation of the audience in an amateur theatrical performance which was attended, amongst others, by some members of the school committee and a number of students and *ex*-students of the school and some local police officers, after which the benches were returned and replaced in good order?

(*b*) Is it not a fact that the Station Master's son addressed the audience on the Swadeshi question at the close of the theatrical performance and that this circumstance came to the notice of Mr. Lyall, District Magistrate of Bhagalpur, before he started the prosecution in which he himself became the first informant?

Is it usual for a District Magistrate to be the first informant in cases investigated and tried by his subordinates in which he is not personally concerned? If not, will the Government be pleased to inquire and state why the usual rule was departed from in this instance?

(*c*) Has the attention of Government been drawn to the fact that two of the accused, *viz.*, the Assistant Station Master and the Station Master's son were convicted by Maulvi Abdul Malik, Deputy Magistrate of Bhagalpur, under sections 448 and 109, Indian Penal Code, and sentenced to pay a fine of Rs. 100 each, in default to undergo rigorous imprisonment for what the Deputy Magistrate described in his judgment as a technical offence, and in regard to which the

Deputy Magistrate was not quite confident whether it constituted an offence under the Indian Penal Code, and observed that if he had erred in his view of the law he would be corrected by the higher tribunals, and has the attention of the Government been drawn to the fact that the Sessions Judge of Bhagalpur has set aside the conviction and sentence on the ground that the facts alleged did not constitute an offence?

(*d*) Does not the Government consider that under the circumstances found by the Deputy Magistrate himself, and having regard to the monthly salary of the Station Master and the Assistant Station Master, the sentence was wholly out of proportion to the offence alleged?

(*e*) In view of the finding of the Sessions Judge of Bhagalpur, does the Government propose to give any compensation to the accused persons who were unnecessarily prosecuted?

(*f*) Having regard to the nature of the case as disclosed in the judgments of the Deputy Magistrate and the Sessions Judge, was it necessary to appoint the Public Prosecutor to conduct this case throughout in both the Courts? Will the Government be pleased to state the amount of the fees paid to the Public Prosecutor in this case and out of what fund it was paid? Will the Government be pleased to consider whether the appointment of the Public Prosecutor in original criminal cases should not be made subject to the previous sanction of the Legal Remembrancer?

(*g*) Has the attention of the Government been drawn to the action of Mr. Lyall in appointing two persons, *viz.*, Babu Nirsu Lall and Babu Makundi Chaudhuri, who were helping the defence during the Police investigation, as special constables under section 17 of Act V of 1861, one of whom was afterwards exempted on his undertaking to leave the place, and the other was directed to continue as special constable till the termination of the said criminal case?

Does the Government consider that the local Police Force was unable to prevent disturbances of the peace and that the temporary addition of Babu Makundi Lal was necessary to strengthen the police force to maintain the peace? And if special constables were regarded as necessary, how was the necessity met by one of the gentlemen enrolled as special constable being exempted on his undertaking to leave the place?

(*h*) Does the Government consider the appointment of a person taking an interest in a pending case as a special constable till the termination of that case legal and within the purview of section 17 of Act V of 1861, and having regard to the fact that the District Magistrate was himself the prosecutor in this case, does the Government consider that there was a proper and judicious use of the power vested in him under that section in the present instance?

(*i*) Will the Government be pleased to state the number of days that Babu Makundi Chaudhuri had to serve as a special constable and what duties he had to perform during this time?

Should the Government be of opinion that there was no sufficient justification for the appointment of Babu Makundi Chaudhuri as a special constable, will the Government be pleased to state whether it is proposed to give him any compensation for his trouble and harassment and the curtailment of his personal liberty during the period of his service?

The Hon'ble MR. CARLYLE replied:—

"The Lieutenant-Governor does not think it desirable that he should discuss in Council judicial proceedings in which the District Magistrate appears to have acted within his powers.

"In the Lieutenant-Governor's opinion there is no occasion for giving compensation to the accused persons who were acquitted by the Sessions Judge of Bhagalpur.

"The appointment of Public Prosecutor is a matter within the discretion of the District Officers; and the Lieutenant-Governor does not consider it desirable that any restriction should be placed on the discretion now given to District Officers.

"With reference to the appointment of special constables, it is a matter in which local officers must necessarily be allowed to act on their own discretion.

"As regards Babu Makundi Chaudhuri, he had to serve for 58 days as special constable. His sole duty was to report once a day to the Sub-Inspector of Police.

"There appears to be no reason for giving compensation to Babu Makundi Chaudhuri for the services he was required to render."

APPOINTMENT OF SPECIAL CONSTABLES.

The Hon'ble BABU BHUPENDRA NATH BASU said:—

Having regard to the recent misuse of the power vested in District Magistrates in regard to the appointment of special constables in several instances, will the Government be pleased to lay down certain rules for the guidance of District Officers in the exercise of their powers under section 17 of Act V of 1861?

The Hon'ble MR. CARLYLE replied:—

"The Lieutenant-Governor does not see any necessity for laying down rules for the guidance of District Officers in the exercise of their power under section 17 of Act V of 1861.

"The Lieutenant-Governor is not aware of any recent case of misuse of their powers in this Province."

CASE OF MR. LYALL.

The Hon'ble BABU BHUPENDRA NATH BASU asked:—

(*a*) Has the attention of the Government been drawn to the report published in the *Amrita Bazar Patrika* in its issue of the 28th January last and other papers to the effect that Mr. Lyall, the District Magistrate of Bhagalpur, exercises his official influence upon the zamindars and the local gentry in order to prevent them from joining in political movements?

(*b*) Is it a fact that he sent for Babu Sri Mohan Thakur, Zamindar, and asked him to resign his Presidentship of the Reception Committee formed at Bhagalpur, to receive Babu Surendra Nath Bannerjee, Mr. J. Chaudhuri and others in August last?

(*c*) Is it a fact that he persuaded Babu Surendra Mohan Sinha, Zamindar, Babu Surya Prosad, Pleader; Babu Basanta Lal Sahu, Merchant, and Babu Jado Prosad Sahu, Merchant and Zamindar, not to take part in political movements?

(*d*) Has the attention of Government been drawn to the specific instances in which Mr. Lyall sought to discourage the Swadeshi movement at Bhagalpur mentioned in the *Bengalee* of the 2nd February last?

(*e*) If the Government does not approve of the action of Mr. Lyall in the matters mentioned above as proper, will the Government be pleased to take steps to prevent its recurrence?

The Hon'ble MR. CARLYLE replied :—

"The Government does not think it necessary to make any inquiry regarding these statements. The District Magistrate ought to take every opportunity of talking freely and confidentially with Indian gentlemen about many things; and it would be mischievous to do anything which would interfere with the frank interchange of views and opinions. The Lieutenant-Governor does not therefore think that any explanation should be called for on these newspaper reports.

"If the gentlemen named, who are quite competent to protect themselves, have any objection to anything done by the Collector, they can bring their objection to the notice of the Commissioner. No action will therefore be taken by the Government."

PROVINCIAL EXECUTIVE SERVICE

The Hon'ble BABU BHUPENDRA NATH BASU asked :—

(*a*) Will the Government be pleased to lay on the table the correspondence between itself and the Government of India and the Secretary of State about "direct appointments" to the Provincial Executive Service in the higher grades, which has led to the placing of outsiders above the heads of the older members of the service?

(*b*) Will the Government be pleased to state whether any attention was paid to University qualifications in making these "direct appointments"?

(*c*) Is it a fact that one of the gentlemen so appointed is a European clerk from the Financial Commissioner's office, Punjab, and will the Government be pleased to state what special considerations moved the Government in making this appointment in the seventh grade, giving him preference over all the members in the eighth grade?

The Hon'ble MR. CARLYLE replied:—

"(*a*) It is not in accordance with practice to lay on the table copies of such correspondence; and Government regrets it cannot do so on the present occasion. It is somewhat misleading to speak as though officers had been superseded and deprived of reasonable expectation of promotion. A number of new appointments were created; and some of these were given to outsiders, both to secure better men than would otherwise have been available, and also to prevent a block in promotion.

"(*b*) In making direct appointments to the higher grades, University qualifications were not considered as essential. The gentlemen selected had generally proved their fitness in other ways, though five officers so appointed were graduates.

"(*c*) One of the gentlemen so appointed held a substantive *pro tempore* appointment in the Financial Commissioner's office, Punjab. His substantive appointment was in the Foreign Department of the Government of India. He was placed in the seventh grade by the then officiating Lieutenant-Governor after full consideration of his case.

"The attention of the Hon'ble Member is drawn to my answer of the 12th January to a question by the Hon'ble Babu Jogendra Chandra Ghose relating to vacancies caused by the increase in the cadre."

EUROPEAN MEMBERS OF THE PROVINCIAL EXECUTIVE SERVICE.

The Hon'ble BABU BHUPENDRA NATH BASU asked:—

(*a*) Has the attention of Government been drawn to an article in the *Amrita Bazar Patrika* of the 11th February in which it states that two European members of the Provincial Executive Service have been promoted over the heads of 65 and 97 officers, respectively, and that another European officer, who was third in the fourth grade, and a Bengali officer, who was first in that grade, were both temporarily promoted to the third grade in October last, and while the Bengali officer has been confirmed in the third grade, the European officer has been promoted over his head to the second grade?

(*b*) Are these statements true? And if so, and if the supersession was on the ground of merit, will the Government be pleased to explain how in the first case the qualifications of 65 and 97 officers, respectively, were scrutinized as against the superseding officers?

(*c*) Is it true that in the second case, the gentleman who has superseded the Indian officer is "utterly deaf and uses a ear trumpet," as stated in the *Patrika*?

The Hon'ble MR. CARLYLE replied:—

"The statements made in the first paragraph of the question are correct.

"In the case of one of the officers to whom special promotion was given, consideration was taken of the fact that he had for many years suffered serious loss through being obliged at an early period of his service to retire from Government service owing to leave being refused, and he has now been replaced in a position somewhat lower than he would have reached in the ordinary course had he not been obliged to leave Government service temporarily. In the case of all the other officers, promotion was given on the ground of very exceptional merit and the claims of all officers senior to them were considered. An opportunity for giving such promotion was afforded by the increase of the cadre of the Provincial Service.

"The officer referred to in clause (*c*) of the question is deaf, but notwithstanding this affliction his work is of exceptional merit."

DIAMOND JUBILEE COLLEGE OF MONGHYR.

The Hon'ble BABU JOGENDRA NATH MUKHARJI asked:—

(*a*) Will the Government be pleased to state what grants have been made from the Local Funds, *viz.*, the District Board and the Municipality, to the Diamond Jubilee College of Monghyr?

(*b*) Will the Government be pleased to inquire and state what has been the total number of students on the rolls of that College during the current and the last financial years?

(*c*) Will the Government be pleased to state if there are at present any rules which regulate grants by local bodies to secondary or college education; if so, what they are and the conditions upon which such grants can be made?

The Hon'ble MR. RICHARDSON replied:—

"(*a*) It has been ascertained that the Diamond Jubilee College at Monghyr has received during the financial years 1905-06 and 1906-07 a total of Rs. 2,100 from the District Board, and a total of Rs. 1,900 from the Municipality, the grants during the two years aggregating Rs. 4,000.

"(*b*) The total number of students on the rolls at the beginning of the current financial year was 32 and at the beginning of the previous financial year 26.

"(*c*) Municipalities are required to spend 3·2 *per cent.* of their income on the encouragement of primary education before they are at liberty to aid secondary schools.

"District Boards are required to spend on primary education not less than the amount given by Government from time to time for such education, or than the amount expended on such education in the year 1901-02, together with the amount of any additional grant made to them for the purpose in that year or subsequently, whichever sum is the greater.

"I am not aware that there are any other administrative rules on the subject."

THE CHOTA NAGPUR TENANCY (AMENDMENT) BILL, 1907.

The Hon'ble MR. SLACKE moved that the presentation of the Report of the Select Committee on the Bill further to amend the Chota Nagpur Landlord and Tenant Procedure Act and the Chota Nagpur Commutation Act, 1897, be deferred. He said:—

"This will enable Government to consider certain further proposals that have been made and to consult locally certain selected persons from among those interested in the Bill."

The Hon'ble BABU KALI PADA GHOSH said:—"The motion made by the Hon'ble Mr. Slacke has my cordial support, and it will, I am sure, be hailed by the people of Chota Nagpur with a sense of relief. The Bill, as it now stands, contains certain provisions which have evoked a great measure of discontent, and the people have complained that they were not given such time and opportunity to consider them as the importance of the measure demanded.

"During the discussion of the Bill in the Select Committee certain new provisions were proposed to be inserted, and I was permitted to point out to the Hon'ble Member in charge of the Bill that to insert such provisions without giving publicity to them and without allowing the people proper opportunity to consider them would involve an additional injustice. I am gratified to find that the Hon'ble Member has thought it proper to drop the Bill for the present presumably with Your Honour's approval, so that the people may have further opportunity to consider its provisions. We are grateful to Your Honour for the decision Your Honour has arrived at in this matter and for not allowing the measure to be rushed through in the face of the people's protest.

"We hope that a thorough and searching inquiry will be made as to the existence of the so-called customs which the Bill proposes to codify, and that care will be taken to safeguard the interests of all classes of people. I admit that the circumstances of Chota Nagpur are to a certain extent different from those of Bengal Proper, but certainly they are not so widely different as to necessitate a measure calculated to destroy individual rights based on fundamental principles of law.

"Clause 9 of the existing Bill contains provisions of such an objectionable character that they have created an alarm in the minds of a large section of the people in the district of Ranchi, where the provisions in question are sought to be made exclusively applicable, and it would afford the people much gratification to find this clause altogether deleted from the Bill.

"We venture to hope that in the further stages the Bill will pass through, sufficient and due consideration will be shown by Your Honour's Government to the people's representation".

The Hon'ble BABU JOGENDRA NATH MUKHARJI said:—"As a Member of the Select Committee appointed to consider the Chota Nagpur Landlord and Tenant Procedure Bill and the Chota Nagpur Commutation Bill, I also beg to support the Hon'ble Mr. Slacke in his motion. I endorse every word that has fallen from the Hon'ble Babu Kali Pada Ghosh I will only add that as Your Honour is going to make a thorough and sifting inquiry into the question of a custom, I would venture to describe the legal elements of a custom, *namely*, that it must be ancient, definite and reasonable These conditions constituting a custom must not be overlooked, and I may further submit that these customs, as I understand them being in derogation of the ordinary law of the country, should be strictly proved. If these points are borne in mind, a great many of the difficulties which seem to have arisen in connection with the present Bill will be got over. With these few words I venture to support the motion of the Hon'ble Mr. Slacke."

The motion was put and agreed to.

THE BENGAL FINANCIAL STATEMENT FOR 1907-08.

The Hon'ble MR MCINTOSH laid on the table the Bengal Financial Statement for 1907-08, with explanatory notes. He said:—

"The financial statement for 1907-1908 is laid on the table with the usual appendices and accounts.

"The year 1906-1907 has been, financially, a prosperous one, and the revenue has considerably exceeded the estimates. The new financial settlement with the Government of India, which came into force at the beginning of the year, and the terms of which were explained by my predecessor, the Hon'ble Mr. Shirres, when he presented last year's financial statement to Council, has operated materially to our advantage. Under it we have received a larger share of the increase of revenue which has occurred over the divided heads of revenue that are expanding.

"The increase in the estimate of receipts is Rs. 10,65,000, of which Rs. 5,53,000 represent assignments under the adjusting head of Land Revenue. Of these, the most important is an assignment of Rs. 1,67,000 from Imperial Revenues, on account of the re-organization of the Provincial Service, and a special non-recurring assignment of Rs. 2,23,000 for certain expenditure incurred on account of the partition in Assam but debited to the Eastern Bengal surplus for 1905-06. The balance Rs. 5,12,000, is increase of revenue proper. The principal increases of revenue have occurred under Stamps, Excise, Assessed Taxes, Registration and Irrigation.

'Despite the fact that the opening balance of the year had been over-estimated by about 7½ lakhs, the total expenditure of the year is expected to exceed the original estimate by Rs. 1,77,000, and the closing balance of the year will be larger by Rs. 1,38,000 than was estimated.

"Included in this expenditure is the sum of 7 lakhs for Famine Relief which was not anticipated when the estimate was originally framed. We have been able to meet this unexpected demand, and the increased expenditure in the Jail, Police and other Departments, resulting from the high prices of food-grains, without unduly curtailing expenditure in other directions.

"In preparing our budget for next year, we have at our disposal the opening balance of Rs. 91,14,000 (of which Rs. 50 lakhs are reserved for the Calcutta Improvement Scheme, and are not therefore immediately available), assignments

from Imperial revenues amounting to Rs. 21,99,000, a special refund of Rs. 2,14,000, and our ordinary revenues which it is anticipated will amount to Rs. 4,96,15,000. The total of these comes to Rs. 6,11,42,000. Included in the assignments is a further grant of 4 lakhs from Imperial revenues for police reforms.

"Deducting from this total the sum of Rs. 70 lakhs which must for the present be retained as the minimum closing balance, the amount actually available for expenditure in 1907-08 is Rs. 5,41,42,000. Of this sum we propose to spend Rs. 5,36,86,000, and to carry over Rs. 4,56,000. We thus propose to reduce our accumulated balance by as much as Rs. 16,58,000, and to bring it in much closer relation to the prescribed minimum balance. The statement in paragraph 13 is a list of items of non-recurring expenditure amounting to Rs. 37,48,000, while that in paragraph 14 shows that we provide for large recurring outlay in excess of the scale of expenditure allowed for in the settlement. The reforms and improvements which it is proposed to carry out will be apparent from those lists. I shall be glad to furnish any further information regarding them which Hon'ble Members may desire. From the statement in paragraph 49 it will be seen that there is a lump provision of Rs. 4,54,000 for primary education and other educational schemes.

"There are two points which perhaps should be specially mentioned. Hon'ble Members will observe that there is no provision in next year's budget for famine expenditure, though it is known that some expenditure, which is at present estimated at about 8 lakhs, will be incurred on this account. The reason is that under the new scheme for regulating provincial expenditure on Famine Relief, which is fully explained in the Financial Statement of the Government of India, the expenditure in Bengal in 1907-08 will be met from Imperial revenues. The scheme is one which will operate very greatly to the advantage of the Local Government. The other point is that the estimates do not include any provision for free primary education. Here again I must refer Hon'ble Members to the Financial Statement of the Government of India, where it is stated that the question has not been lost sight of, and that it is now receiving careful attention.

"The Budget will not come up for discussion till the 6th April, so as to allow Hon'ble Members ample time to examine it. I shall be greatly obliged if notice can be given to me a week before the debate of any points which it is proposed to raise, or of any information which is required, that the matter may receive full attention."

THE BENGAL FINANCIAL STATEMENT FOR 1907-1908.

PART I.—General Review.

(1) ACCOUNTS FOR 1905-1906.

IN the revised estimates of 1905-06 which were laid before the Council on the 24th March 1906, the closing balance of that year was estimated at Rs. 1,17,98,000. The actual closing balance was not known till the accounts were finally closed some months later, and it was then ascertained to be less by about 7½ lakhs. The actual receipts exceeded the estimates by Rs. 36,000, but the charges had been under-estimated by about Rs. 7,86,000. The excess of expenditure was chiefly under Jails (Rs. 1,17,000), Police (Rs. 1,90,000), Marine (Rs. 91,000), Medical (Rs. 1,29,000) and Scientific and other Minor Departments (Rs. 2,23,000).

(2) REVISED ESTIMATE FOR 1906-1907.

2. The year 1906-07 is the first year of the new Provincial Settlement which was made with the Government of India, after the redistribution of territorial jurisdictions, and came into operation from the 1st April 1906. The terms of the settlement were explained in paragraphs 10 and 11 of the last Financial statement. The settlement was based on a total provincialized expenditure of Rs. 4,74,40,000, and a total provincialized revenue of Rs. 4,67,01,000, the difference being made good by a fixed assignment of Rs. 7,39,000 from Imperial Revenues.

3. The budget estimate for 1906-07 as passed by the Government of India accepted Rs. 1,17,98,000 as the opening balance, and provided for receipts aggregating Rs. 4,92,72,000 and an expenditure of Rs. 5,20,94,000. It was thus estimated that the year would close with a balance of Rs. 89,76,000. The revised estimate now passed shows a reduced opening balance of Rs. 1,10,48,000 as explained above, and provides for a revenue of Rs. 5,03,37,000 and an expenditure of Rs. 5,22,71,000. The estimated expenditure exceeds the estimated receipts by Rs. 19,34,000, instead of by Rs. 28,22,000 as originally anticipated. This excess is met by a reduction of the accumulated balance.

4. On the receipt side the revenue is expected to show an increase of Rs. 10,65,000. Of this increase, Rs. 5,53,000 is under Land Revenue Adjustments for the following:—

	Rs.
Assignment for increase in the cadre of Deputy Magistrates sanctioned after orders had been passed on the budget ...	1,67,000
Refund of the expenditure incurred in 1905-06 on account of the partition in the new Province of Eastern Bengal and Assam outside the transferred districts	2,23,000
For temporary management of the Madaripur Bhil route ...	50,000
„ Archæological works	10,000
„ European and Eurasian education	65,000
„ temporary occupation of 2 Bankshall Street by the Commerce and Industry Department	16,000
„ training and accommodation of students from Eastern Bengal and Assam at the Veterinary College, Belgachia	26,000
„ Provincialization of the Dhaka Canal	12,000
Total ...	5,71,000
Deduct—	
Contribution for pensionary charges of Calcutta Police Constables paid in the United Provinces of Agra and Oudh ...	21,000
Less contribution for transfer of the balance of the Zamindari Dák Fund, the actual amount being Rs. 2,17,000 in place of Rs. 2,20,000 shown in the original budget ...	(—)3,000
Net deduction ...	18,000
Net increase under Adjustments ...	5,53,000

5. The increase in revenue is the net result of improvements under some heads, and of decreases under others. The improvements aggregate Rs. 8,41,000, which are expected chiefly under the following heads, namely, Rs. 50,000 under Stamps; Rs. 1,90,000 under Excise, mainly for better settlements; Rs. 95,000 under Assessed Taxes; Rs. 2,00,000 under Registration, due in part, it is feared, to the unfavourable character of the season in some localities which necessitated the execution of a larger number of bonds; and Rs. 1,48,000 under Irrigation—Major Works, due to increased demand for water. The decreases aggregate Rs. 3,29,000. The principal decreases are expected to occur under Marine (Rs. 1,02,000); and under Education (Rs. 85,000) on account of smaller sale proceeds of manufactured articles at the Sibpur Engineering College and less receipts from rent of boarding houses.

6. On the expenditure side the revised estimate shows a net increase of Rs. 1,77,000. When the original budget estimate was framed, it was not anticipated that any provision would be needed for direct expenditure on Famine Relief. The failure of crops following the inundations in Bihar and elsewhere necessitated the starting of relief operations; and a sum of 7 lakhs is now provided on this account. The high prices of food-grains have led to an increase in dietary charges under Jails; to this cause is also due increased expenditure in the Police and other Departments, owing to the grant of grain compensation allowance to all whole-time servants of Government on pay of Rs. 30 and less. There are also considerable increases under General Administration (Rs. 1,01,000) chiefly on account of revision of the chaukidari panchayets, leave allowances, increased grant for tour charges, and salary and establishment of the Controller of Office Systems; under Police (Rs. 5,13,000) due chiefly to the reorganization of the Department; under Marine (Rs. 1,31,000) chiefly for earnings and allowances of Pilots and repairs of vessels; under Stationery and Printing (Rs 1,02,000) partly in the Secretariat Press, and partly under stationery supplied from the Central Stores; under Irrigation—Major Works, Working Expenses (Rs. 85,000) chiefly for special repairs to works damaged by floods; and under Contributions from Provincial to Local (Rs. 4,12,000) for the adjustment of the charges for the Magrahat Drainage in the district of the 24-Parganas which will be taken in the Local Account. Against these increases there are savings of Rs. 3,01,000 under Land Revenue, due to the non-utilization of the full grant for additional Deputy Magistrates and their establishment and of the grant for increase in the pay of Ministerial establishments; of Rs. 42,000 under Registration for savings under Rural Sub-Registrars; of Rs. 2,01,000 under Education due largely to transfers to the Public Works Department and District Boards for educational buildings; of Rs. 1,06,000 under Scientific and other Minor Departments; of Rs. 63,000 under Superannuation; of Rs. 8,35,000 under Civil Works in charge of Civil Officers owing chiefly to the non-utilization of a number of special grants, as the schemes for which provision was made were not sufficiently matured to admit of the expenditure being incurred; and of Rs. 6,18,000 under Civil Works in charge of the Public Works Department, owing to the abandonment or postponement of certain projects for which special provision was made at the time of framing the budget.

7. The closing balance of the current year was estimated in March 1906 at Rs. 89,76,000; in the revised estimate it is now placed at Rs. 91,14,000. The difference is due to the following causes:—

	Rs.
Decrease in the opening balance on account of larger expenditure in 1905-06 as shown in paragraph 1 ...	(−)7,50,000
Increase in the estimate of receipts in 1906-07 as shown in paragraph 4	+10,65,000
Increase in expenditure in the current year as shown in paragraph 6	—1,77,000
Net increase ...	1,38,000

(2) BUDGET ESTIMATE, 1907-08.

8. The opening balance of 1907-08 corresponds with the closing balance of the current year, and is therefore placed at Rs. 91,14,000.

9. The estimate shows receipts aggregating Rs. 5,20,28,000; an expenditure of Rs. 5,36,86,000; and a closing balance of Rs. 74,56,000.

10. The ordinary Provincial minimum closing balance is Rs. 20,00,000; but in addition to that amount the Government of Bengal must (as explained last year) keep the special grant for the improvement of Calcutta untouched. Under present circumstances, therefore, the minimum closing balance is 20 + 50 = 70 lakhs. The estimated closing balance is therefore Rs. 4,56,000 in excess of the present minimum.

11. The estimate as passed by the Government of India provides for receipts aggregating Rs. 5,20,28,000. This amount includes, besides the fixed assignment of Rs. 7,39,000 from Imperial Revenues, the following additional grants made by the Government of India for 1907-08 :—

		Rs.
(1)	For Police re-organization	8,00,000
(2)	„ Training and accommodation of students from Eastern Bengal and Assam at the Veterinary College, Belgachia ...	28,000
(3)	„ Technical education	35,000
(4)	„ European ditto	65,000
(5)	„ Grants to Colleges	80,000
(6)	„ Grant to the University	80,000
(7)	„ Temporary administration of the Madaripur Bhil route	50,000
(8)	„ Temporary occupation of a Provincial building by the offices of the Government of India	16,000

(12)	Less contribution to Imperial for pensions of Calcutta Police Constables paid in the United Provinces of Agra and Oudh ...	21,000
	Net additional grant ...	14,60,000

These additional grants raise the fixed assignment of Rs. 7,39,000 to Rs. 21,99,000. Item (10) is merely a book credit for which there is a corresponding debit in accordance with the new Famine Expenditure Scheme, under which Famine Relief charges will, subject to certain limitations, be divided between Imperial and Provincial, instead of being wholly debited to the latter in the first instance. In accordance with this scheme, the Famine Relief charges in 1907-08 which are estimated at 8 lakhs will be wholly Imperial.

12. The estimates for next year also include a refund of Rs. 2,14,000 advanced from the Provincial Revenues for the Magrahat Drainage, which will be adjusted in the Local account and provided for from Loan funds. Excluding this amount, and also excluding the net assignment from Imperial Revenues (Rs. 21,99,000), the ordinary revenues for the year will, it is anticipated, amount to Rs. 4,96,15,000, showing a betterment of Rs. 29,14,000 on the estimate of Rs. 4,67,01,000 on which the settlement was based.

13. On the expenditure side the total estimated charges for 1907-08 are Rs. 5,36,86,000, exceeding the income by Rs. 16,58,000. This excess of expenditure over income is met by reduction of the accumulated balance, and is more than covered by the non-recurring charges which have been provided

for in the estimates for next year the more important of which are shown below:—

PART II.—Detailed remarks on the Budget for 1907-08.

RECEIPTS.

15. *Land Revenue.*—The total collections under this head in 1905-06 amounted to Rs. 2,92,18,589; and the estimate for 1907-08, as passed by the Government of India, is Rs. 2,99,33,000, against Rs. 2,88,50,000 the revised estimate for 1906-07. The estimate includes Rs. 7,93,000 for recoveries of survey and settlement charges, against a write back of Rs. 77,000 in the revised estimate for 1906-07. The details of the recoveries are given in Appendix A.

16. The estimated Provincial share of land revenue is arrived at as follows:—

	Estimate, 1907-08.
	Rs.
Gross Land Revenue	2,99,33,000
Deduct estimated collections from Government estates (now wholly Provincial)	33,00,000
Deduct recoveries of Survey and Settlement charges (Imperial)	7,93,000
Total Deduction ...	40,93 000
Net amount divisible between Imperial and Provincial Funds	2,58,40,000
Provincial share of above (one-half)	1,29,20,000
Add collections from Government estates	33,00,000
Total Provincial ...	1,62,20,000
Add Adjustments as in Appendix A	21,99,000
Total Provincial share ...	1,84,19,000

17. *Stamps.*—The budget estimate of the total revenue from Stamps for 1906-07 was passed by the Government of India for Rs. 1,45,00,000. The actuals in 1905-06 amounted to Rs. 1,43,20,246; those of the first ten months of 1906-07 exceeded the figures of the corresponding period of the preceding year by Rs. 99,000. In view of these figures, and allowing for the adjustment of the shares in the sale of unified stamps between the Postal and the Stamp Departments, the revised estimate for 1906-07 has been passed for Rs. 1,46,00,000. Allowing for a further progressive increase of 6 lakhs, the estimate for 1907-08 has been placed at Rs. 1,52,00,000. The Provincial share is one-half, and amounts to Rs. 73,00,000 in 1906-07 and Rs. 76,00,000 in 1907-08.

18. *Excise.*—The revenue from Excise for 1906-07 was estimated at Rs. 1,57,00,000. The actuals of 1905-06 amounted to Rs. 1,52,58,297, while the figures for the first ten months of 1906-07 show an increase of Rs. 6,82,000 over the actuals of the corresponding period of the preceding year. The revised estimate for the current year has therefore been passed for Rs. 1,60,80,000; and allowing for a progressive increase of about 7½ lakhs, the estimate for next year has been placed at Rs. 1,68,00,000. The Provincial share (one-half) amounts to Rs. 80,40,000 and Rs. 84,00,000 in 1906 07 and 1907-08, respectively.

19. *Provincial Rates.*—The actual collections of the Public Works cess in 1905-06 amounted to Rs. 35,34,948, and the estimate for the current year was Rs. 35,90,000. The receipts in the first nine months of the current year, however, show an increase of Rs. 21,000 over those of the corresponding period of last year. The revised estimate for 1906-07 has accordingly been placed at Rs. 35,70,000; and the estimate for next year at Rs. 35,75,000. An increase is anticipated on the completion of the revaluation now in progress in the districts of Burdwan, Birbhum, Bankura and Khulna. Under General Rates for the management of private estates, the estimate of receipts is Rs. 1,50,000 against Rs. 1,30,000 the revised estimate for 1906-07. The increase is due partly to the inclusion of certain estates and

partly to the increase in the rate for petty estates from Rs. 2-4 to Rs. 2-8 per Rs. 100 of gross income. The total estimate for next year is thus Rs. 37,25,000 (Rs. 35,75,000 + Rs. 1,50,000).

20. *Assessed Taxes.*—The receipts from income-tax for 1906-07 were estimated at Rs. 46,50,000. The actual collections of 1905-06 amounted to Rs. 46,43,415, while those of the 12 months ending 31st January 1907 were Rs. 48,46,000. The revised estimate for the current year has accordingly been placed at Rs. 48,40,000. To this amount nearly 2½ lakhs has been added as the normal increase of revenue, and the estimate for 1907-08 has been passed for Rs. 50,80,000. The Provincial share (one-half) is Rs. 25,40,000.

21. *Forests.*—The total receipts under this head for 1907-08 are estimated at Rs. 11,80,000, against Rs. 10,80,000 the revised estimate for 1906-07, and Rs. 9,92,836 the actuals of 1905-06. The increase is due to expected increased sales of timber in nearly all the Divisions. The Provincial share (one-half) is Rs. 5,90,000.

22. *Registration.*—The budget estimate under this head for 1906-07 was Rs. 10,50,000. The actuals in 1905-06 amounted to Rs. 10,82,248; and the collections in the first ten months of the current year show an increase of Rs. 1,31,000 over those of the corresponding period of the previous year. The increase in the current year is probably special and is due to the larger number of registrations owing to high prices of food-grains and floods. The revised estimate for 1906-07 has been placed at Rs. 12,50,000; but the estimate for 1907-08 has been passed for Rs. 11,90,000, as the receipts are not expected to be as high as in the current year.

23. *Interest.*—The estimate of loans as passed by the Government of India provides for a return of Rs. 4,80,000, thus:—

	Rs.
Interest on advances to cultivators	1,64,000
„ on drainage and embankment advances	58,000
„ on loans to land-holders	14,000
„ „ to Municipalities and District Boards, etc.	1,94,000
Miscellaneous accounts	50,000
Total ...	4,80,000

24. *Law and Justice—Courts of Law.*—The actuals in 1905-06 amounted to Rs. 5,61,310, and the receipts in the first ten months of the current year show an increase of Rs. 18,000 as compared with those of the corresponding period of the preceding year. The revised estimate for 1906-07 has accordingly been placed at Rs 5,80,000. The estimate for 1907-08 is the same amount.

25. *Jails.*—The estimate under this head is Rs. 12,51,000, against Rs. 12,30,000 the revised estimate for 1906-07, and Rs. 12,19,629 the actuals of 1905-06.

26. *Police.*—The actuals of nine months ending 31st December 1906 show an increase of Rs. 7,000 over those of the corresponding period of last year, and as the actuals of 1905-06 were Rs. 1,27,406, the revised estimate has been placed at Rs. 1,38,000. The estimate for next year is Rs. 1,41,000.

27. *Marine.*—The actuals in 1905-06 amounted to Rs. 15,04,678, and the budget estimate for 1906-07 was Rs. 16,50,000. This has been reduced to Rs. 15,48,000 in the revised estimate with reference to the actuals of the first ten months of the current year. The estimate for next year has been passed for Rs. 15,90,000.

28. *Education.*—The actuals in 1905-06 amounted to Rs. 5,80,881. The estimate for 1906-07, amounting to Rs. 6,40,000, has been reduced to Rs. 5,55,000 in the revised estimate, owing to smaller receipts from rent of boarding-houses and sale-proceeds of manufactured articles at the Sibpur Engineering College. The estimate for 1907-08 has been passed for Rs. 5,93,000, as larger receipts are expected under Boarding-houses owing to the contemplated extension of the scheme to the mufassal.

29. *Medical.*—The estimate under this head is Rs. 2,38,000, against Rs. 2,33,000 the revised estimate for 1906-07, and Rs. 4,54,165 the actuals of 1905-06. The actuals included a special contribution of two lakhs from the Calcutta Hospital Port Dues Fund to the Presidency General Hospital and a

rebate of Rs. 15,000 granted by the Calcutta Electric Supply Corporation, Limited, on the charges for units of electricity consumed in the Presidency General Hospital.

30. *Scientific and other Minor Departments.*—The estimate under this head is Rs. 3,00,000, against Rs. 2,96,000 the revised estimate for 1906-07, and Rs. 2,71,968 the actuals of 1905-06. The increase is under Cinchona receipts.

31. *Receipts in aid of Superannuation.*—The total receipts for 1907-08 are estimated at Rs. 56,000, against Rs. 60,000 the revised estimate for 1906-07, and Rs. 86,029 the actuals of 1905-06. The actuals include the cash balance of the Calcutta Police Superannuation Fund credited to Provincial on the abolition of the fund.

32. *Miscellaneous.*—The receipts for 1907-08 are estimated at Rs. 5,85,000, against Rs. 6,00,000 the revised estimate for 1906-07, and Rs. 5,04,662 the actuals of 1905-06. The receipts are of a fluctuating character.

33. *Irrigation—Major Works (Direct Receipts).*—The budget estimate for 1906-07 was Rs. 20,72,000. The revised estimate is taken at Rs. 22,20,000, owing to increased water rate collections from the Orissa Canals, and also to a larger area of *kharif* irrigation and larger navigation receipts from the Sone Canals. The estimate for next year has been passed for Rs. 21,99,000.

34. *Minor Works and Navigation in charge of the Public Works Department.*—The estimate for 1907-08 is Rs. 5,81,000, against Rs. 6,55,000 and Rs. 6,25,000 the sanctioned and revised estimates for 1906-07, respectively. The decrease is chiefly under Nadia rivers due partially to a reduction in the rate of toll.

35. *Civil Works in charge of the Public Works Department.*—The receipts for 1907-08 are estimated at Rs. 2,75,000, against Rs. 2,64,000 and Rs. 3,05,000 the sanctioned and revised estimates, respectively, for the current year. The revised estimate includes receipts from the sale of the buildings on the land acquired for nurses' quarters at the Medical College, Calcutta.

EXPENDITURE.

36. *Refunds and Drawbacks.*—The total Provincial expenditure in 1907-08 is estimated at Rs. 1,30 000, against Rs. 1,24,000 the revised estimate for 1906-07. The estimate is generally based on the average actuals of the last three years excluding special payments.

37. *Land Revenue.*—The total Provincial expenditure for 1907-08 is estimated at Rs. 37,75,000, against Rs. 35,00,000 the revised estimate for 1906-07, as shown below :—

	1906-1907.		1907-1908.

Total ...	38,01,000	35,00,000	37,75,000

The increase in the budget for 1907-08 under (1) over the revised estimate for 1906-07 is due to full provision having been made for the additional Deputy Magistrates sanctioned by the Government of India and to partial provision for the promotion of Deputy Collectors and Sub-Deputy Collectors consequent on the increase in the cadre; to a provision of Rs. 50,000 as part cost of a new steamer for the Commissioner of the Sunderbans; and to the inclusion of the whole cost of the Kanungo establishment and their travelling allowances under this head, instead of one-half as before. A provision of Rs. 1,50,000 has been made under (3) for the Sunderbans reclamation work, and of Rs. 1,50,000 under (5) for initial outlay in bringing up the record-of-rights in Orissa.

38. *Stamps.*—The estimate for 1907-08 amounts to Rs. 4,41,000, against Rs. 3,70,000 the budget estimate for 1906-07, and Rs. 4,38,545 the actuals of 1905-06. The increase is chiefly under "Stamp paper supplied from Central stores." The Provincial share (one-half) is Rs. 2,20,000.

39. *Excise.*—The estimate for 1907-08 is Rs. 7,70,000, against Rs. 7,32,000 the budget grant for the current year. The increase is due to provision—(*a*) for an officer on special duty, (*b*) for establishment for the extension of the contract distillery system, (*c*) for increase in the number of Inspectors and Sub-Inspectors and temporary establishment for inspection duty, and (*d*) for a larger grant for the construction of small spirit depôts. The Provincial share (one-half) is Rs. 3,85,000.

40. *Provincial Rates.*—The estimate for 1907-08 is Rs. 27,000, against Rs. 61,000 the budget grant for 1906-07, and Rs. 56,968 the actuals of 1905-06. The decrease is under Collection Charges, and is due to the abolition of the system of pre-payment of process fees for the collection of arrears of cess, which are now not paid in cash but are adjusted by transfer credit to Stamps.

41. *Assessed Taxes.*—The budget grant for 1907-08 is Rs. 1,52,000, against Rs. 1 45,000 the sanctioned estimate for 1906-07. The increase is chiefly under Assessing establishment, and is due to the introduction of a time scale of pay for assessors. The provincial share (one-half) is Rs. 76,000.

42. *Forests.*—The total expenditure for 1907-08 is estimated at Rs. 7,30,000, against Rs. 6,50,000 the budget estimate for 1906-07. The increase is chiefly on account of the survey of the Sunderbans forest in the district of Khulna. The Provincial share (one-half) is Rs 3,65,000.

43. *Registration.*—The estimate for 1907-08 is Rs. 7,00,000, against Rs. 6,92,000 the budget estimate for 1906 07. The increase is due to a provision of Rs. 10,000 for increase of pay of establishment.

44. *General Administration.*—The total expenditure for the current year was originally estimated at Rs. 17,32,000, but in the revised estimate the figure has been raised to Rs. 18,33,000. The estimate for 1907-08 has been passed for Rs. 18,39,000. The budget includes provision for additional copying staff in the Secretariat for copying old records for the India office, Rs. 30,000 for the revision of the chaukidari panchayets, Rs. 25,000 for increase of pay of Ministerial establishment in the Commissioners' offices, and Rs. 50,000 for house allowances of officers in Calcutta.

45. *Law and Justice—Courts of Law.*—The budget estimate for the current year was Rs. 74,00,000, but in the revised estimate this has been raised to Rs. 74,20,000 with reference to the actuals of the first nine months of the year. The estimate for 1907-08 has been placed at Rs. 74,19,000. The estimate includes provision for the fourth Presidency Magistrate and an additional Subordinate Judge and their establishments.

46. *Jails.*—The estimate for the current year was Rs. 22,71,000, against Rs. 24,50,234 the actuals of last year. The actuals of the first ten months of the current year show an increase of Rs. 1,31,000 as compared with the figures of last year, and the revised estimate for the year has accordingly been raised to Rs 25,10,000. The increase is chiefly under Dietary charges on account of high prices of food-grains, and also to a lesser extent under Jail Manufactures owing to higher prices of raw materials. The estimate for next year is Rs. 24,09,000, and includes Rs. 6,000 for the revision of the Jail Code and Rs. 16,500 for the improvement of the warder service.

47. *Police.*—The following table compares the estimates under this head:—

The actuals of the first ten months of the current year indicate that there will be considerable excesses under the heads "District Executive Force" and "Presidency Police." The revised estimate has therefore been passed for Rs. 68,80,000, including Rs. 2,05,000 for grain compensation allowance. The estimate for 1907-08 has been placed at Rs. 71,00,000. This estimate includes a lump provision of 4 lakhs for further reorganization of the Police Department, of which Rs. 35,000 has been allotted to Presidency Police and Rs. 3,65,000 to District Police. Further details are shown in Appendix B.

48. *Marine.*—The estimate for 1907-08 is Rs. 15,71,000, against Rs. 10,97,000 and Rs. 12,28,000 the budget and revised estimates, respectively, for the current year. The estimate includes Rs. 4,00,000 as part of the cost of a second steam cruiser for the Sandheads, and Rs. 13,000 for part cost of the new steam-launch which is under construction to replace the Engineer and Shipwright Surveyor's launch *Florence*. It also includes provision for a 3rd Surveyor for the survey of steam vessels in the Port of Calcutta. The revised estimate includes anticipated larger payments for building and repairs of pilot vessels and for earnings and allowances of pilots.

49. *Education.*—The total Provincial expenditure in the current year was originally estimated at Rs. 41,00,000, but in the revised estimate this has been reduced to Rs. 38,99,000. A portion of the grant of this Department has been transferred to the Public Works Department and to the District Boards for the construction of educational buildings and acquisition of land. The estimate of departmental expenditure for 1907-08 is Rs. 42,96,000.

This is exclusive of the especial allotment of Rs. 1,50,000 in the Public Works budget for the Patna College Scheme and for Training Colleges at Hooghly and Bhagalpur. The following table shows the growth of expenditure under Education both in the Provincial and Local accounts (most of the expenditure under the latter is met from grants from Provincial Revenues) from the year 1901-02:—

„ guru training school buildings	95,000
Lump provision for primary education, including additional Sub-Inspecting Agency, etc.	4,54,000

50. *Medical.*—The estimate for 1907-08 is Rs. 22,63,000, against Rs. 21,89,000 the budget estimate for 1906-07, and Rs. 21,74,075 the actuals of 1905-06. The estimate includes Rs. 10,000 for improvement of pay and position of Civil Hospital Assistants, and Rs. 12,600 for the salary of a whole-time Superintendent of the Berhampore Lunatic Asylum. Larger provision has also been made for diet of patients in Hospitals and Lunatic and Leper Asylums.

51. *Political.*—The budget grant for 1907-08 is Rs. 45,000, against Rs. 27,000 the revised estimate for 1906-07, and Rs. 12,637 the actuals of 1905-06. The budget includes a provision of Rs. 36,000 for the salary, establishment and contingencies of the Political Agent, Orissa Feudatory States.

52. *Scientific and other Minor Departments.*—The estimate for 1907-08 is Rs. 10,50,000, against Rs. 9,70,000 the revised estimate for 1906-07, and Rs. 9,72,543 the actuals of 1905-06. Provision has been made in the budget for the following charges:—

	Rs.
For smoke nuisance charges	23,000
For collection of sanitary statistics	3,500
For salary of Superintendent and Assistant Superintendent, Zoological Gardens	10,000
For staff of expert borers for irrigation purposes	12,000
For a home farm	15,000
Initial cost of a new farm	75,000
Do. of a new tasar silk farm	7,000
Increased grant for Veterinary Department	12,000

53. *Superannuation.*—The charges under this head show a progressive increase year after year, owing to the increase in the claims to pension. The estimate for 1907-08 is Rs. 25,71,000, against Rs. 24,74,000 the revised estimate for 1906-07, and Rs. 23,92,560 the actuals of 1905-06. The estimate includes provision for payment of pensions of the Calcutta Police constables and the Zamindari Dâk runners which were formerly paid from the Police Superannuation Fund and the District Post Fund. These funds have now been abolished.

54. *Stationery and Printing.*—The estimate for 1907-08 is Rs. 11,66,000, against Rs. 11,31,000 the revised estimate for 1906-07, and Rs. 10,78,997 the actuals of 1905-06. The increase is chiefly in Government Presses, owing to the introduction of the piece rates allowed in the Presses of the Government of India and also owing to provision for European stores.

55. *Miscellaneous.*—The estimate for next year amounts to Rs. 3,70,000, against Rs. 3,43,000 the revised estimate for 1906-07, and Rs. 3,46,929 the actuals of 1905-06. The budget includes Rs. 10,000 on account of donations payable to officers of the Indian Educational Service for passing examinations in oriental languages, and larger provision for grants to charitable institutions.

56. *Irrigation—Major Works (Working Expenses).*—The actual expenditure during 1905-06 was Rs. 10,18,139; and Rs. 10,75,000 was passed as the budget grant for 1906-07. During the course of the year there were unusual floods

which caused great damage thus necessitating a larger grant for repairs. The revised estimate for 1906-07 has accordingly been raised to Rs. 11,60,000. The estimate for 1907-08 has been placed at Rs. 11,04,000.

57. *Irrigation—Minor Works and Navigation in charge of the Public Works Department.*—The actual expenditure during 1905-06 was Rs. 21,57,993, inclusive of Rs. 1,59,884 spent on the Magra Hât Drainage scheme. The expenditure on this scheme chargeable to the grant-in-aid of Rs. 5,00,000 from Provincial Revenues has from 1906-07 been classed as 43—Minor Works—Incorporated Local in accordance with the orders of the Government of India. The budget estimate for 1906-07 was Rs. 21,85,000, including (1) Rs. 4,50,000 for a suction dredger, (2) Rs. 1,40,000 on account of Government contribution for the Magra Hât Drainage scheme, (3) Rs. 75,000 for the Bhairab Valley Drainage scheme, and (4) Rs. 40,000 for a pumping installation in Bihar required for sugarcane irrigation. The revised estimate for 1906-07 has been passed for Rs. 20,72,000, exclusive of the revised grant for the Magra Hât Drainage scheme. It includes Rs. 20,000 for constructing sheds for the Calcutta Canal, and Rs. 12,000 for expenditure on the Tajpur drainage project in the Contai subdivision. The estimate for 1907-08 is Rs. 19,00,000, made up of Rs. 14,70,000 for normal charges, inclusive of a sum of Rs. 25,000 under Reserve to meet unforeseen demands, and of Rs. 4,30,000 for special works, viz.—(1) Rs. 27,000 for the balance of the cost of the suction dredger brought out from England (2) Rs. 3,00,000 for a canal to connect the Bhangore Canal with the Calcutta canal, and (3) Rs. 1,03,000 as a reserve for Minor Works which may be taken up during the year.

58. *Civil Works in charge of the Civil Department*—The estimate for 1907-08 is Rs. 8,00,000, and includes provision of Rs. 7,55,000 for grants to Municipalities and Excluded Local Funds which are adjusted under this head.

Timber and other produce removed from the forests by Government agency	Rs. 70,723	Rs. 1,04,000	Rs. 63,000	Rs. 81,000	Decrease in the revised is due to the substitution of the system of direct removal for departmental agency. The further decrease in the budget is for expected smaller receipts from the sale of sleepers and timber in Kurseong and Sambalpur Divisions, and in the sale of fuel in Darjeeling.
Timber and other produce removed from the forests by consumers or purchasers	8,60,419	8,56,000	9,69,000	10,63,000	Increase in the revised is due to the above cause as well as to increased sales of timber from nearly all Forest divisions, especially from the Sundarbans and Singhbhum Divisions. Budget provides for increased sales of timber in nearly all the Divisions.

Trinity Opening—Existence of reefs—Amended positions of some and non-existence of others.

No. 129 (second publication).—The British Admiralty has given Notice (No. 231 of 1907) of the existence of the undermentioned reefs, and the amended positions of and non-existence of others, in Trinity opening, as follows:—

REEFS REPORTED.

(1) A sunken coral reef, about 4 cables in extent in a northerly and southerly direction, with depths of 5 to 6 feet over it at low water, is situated about 4 miles S. 38° E. from the new position of Onyx reef, as given in paragraph 3, or in approximately lat. 16° 29′ 45″ S., long. 146° 7′ 20″ E

(2) A sunken coral reef, half a mile in extent in an easterly and westerly direction, having a depth of 2 fathoms over it at low water is situated 5$\frac{1}{10}$ miles N. 83° E. from Pixie reef, in approximately lat. 16° 32′ 50″ S., long 145°, 57′ 40″ E.

AMENDED POSITIONS.

(3) Onyx reef, which is 4 cables in extent, has a least depth of 2½ fathoms over it and is situated half a mile S. 38° E. from its position as formerly shown on the chart, or in approximately lat. 16° 26′ 20″ S., long. 146° 5′ 10″ E.

(4) The 3-fathom patch shown on the chart in lat. 16° 32′ S., long. 146° 8½′ E., is situated about half a mile to the north-eastward of this position, its centre, which is its shoalest part, being in approximately lat. 16° 31′ 45″ S., long. 146° 8′ 40″ E. This reef is three-quarters of a mile in extent in a north-north-westerly and south-south easterly direction.

(5) The two small reefs, shown on the chart at distances of 3¾ and 4¾ miles N. 30° E. respectively from Pixie reef, do not exist.

EASTERN ARCHIPELAGO—GILLOLO PASSAGE.

Ardassier island—Non-existence of—Amended positions of shoals.

No. 113 (third publication).—The British Admiralty has given notice (No 188 of 1907) of the non-existence of the undermentioned island, and that the positions of certain shoals in Gillolo passage have been amended as follows : —

1. Ardassier island. This island was reported by the ship *Ardassier* in 1808; its assigned position, however, has been passed over by the ships *City of Hankow* in 1900, and by the *Emilia* in 1901, without any indication of land being seen; it is considered therefore that it does not exist, and it has in consequence been expunged from the charts.

Approximate position, lat. 0° 42′ N., long. 128° 1¼′ E.

2. Ormsby bank is situated about five miles N. 75° E. from the position shown on the chart or in approximately lat. 0° 45′ N., long. 129° 59½′ E.

The reef reported by the *Chusan* and marked P.D. on the chart and shown at a distance of 17 miles N. 22° E. from Saiang island is situated approximately in lat. 0° 36½′ N., long. 129° 57′ E. P.D. has however been retained against this danger. In

consequence of this alteration in position, it is probable that the reef, with much less water over it, reported by the Master of the *Chusan* to exist to the northward of this (P.D.) reef, was the southern part of the Ormsby bank (*see* Eastern Archipelago, part I, 1902, page 444).

3. Hunter bank is situated about 5 miles N. 85° E. from its position as shown on the chart, or in approximately lat. 0° 20′ N., long. 129° 58½′ E.

Norfolk and Blackman bays—connected by Denison canal.

No. 115 (third publication).—The British Admiralty has given notice (No. 192 of 1907) that the Denison canal which has been opened, between Norfolk and Blackman bays, is marked as follows:—

(*a*) Two beacons, structures consisting of three piles, have been erected in its approach from Dunally bay.

(*b*) Two single-pipe beacons, with diamond-shaped topmarks, have been erected on either side of the seaward entrance in Blackman bay, the northern beacon being white, and the southern beacon black.

Two similar beacons have also been erected on either side of the entrance to the canal.

(*c*) The channels from seaward in Blackman and East bay to the entrance of the canal are marked by white single-pile beacons and buoys on the northern side, and black beacons and buoys on the southern side.

A plan of Denison canal has not yet been received, and its exact position is not known, but it is stated that vessels drawing 10 feet can use this canal. There is a bridge across it, which will be opened for the passage of vessels annually from 1st April to 30th September, between sunrise and sunset, and from 1st October to 31st March, from 6 A.M. to 6 P.M. The canal is in charge of a Superintendent, whose directions must be followed by Mariners desirous of passing through it.

PACIFIC OCEAN—The Philippine islands—Luzon, north-east coast.

Port San Vincente—Light established.

No. 116 (third publication).—The British Admiralty has given notice (No. 197 of 1907) that a *red fixed* lantern-light, elevated 12 feet above high water, and visible in clear weather from a distance of 7 miles, has been established on a concrete pillar erected in place of the beacon on the north-eastern point of the shoal extending north-eastward from San Vincente island, port San.

Approximate position, lat. 18° 31′ 10″ N., long. 122° 7′ 20″ E.

This Notice affects the following Admiralty Chart:—Port San Vincente, No. 3392: Also, List of Lights, part VI, 1907, page 127; and Eastern Archipelago, part I, 1903, page 367; Supplement, 1906, page 29; and China Sea Directory, vol. III., 1904, page 223.

AFRICA, NORTH-EAST—Gulf of Aden.

Obokh—Alteration in buoyage.

No. 117 (first publication).—The British Admiralty has given notice (No. 198 of 1907) that the following alterations have been made in the buoyage of Obokh:—

1. The light-buoy marking the eastern extremity of Laclochetorio bank has been replaced by a black buoy from which a light is occasionally exhibited.
2. A white buoy has been established off the western end of Surcou (Surcouf) bank; it has been placed on the chart at a distance of 7½ cables S. 82° E. from South island centre.

There are now no other buoys except the above in the port. The white buoy marking Pearl bank, and the black buoy a quarter of a mile to the westward of it, have therefore been expunged from the chart.

Approximate position, South island, lat. 11° 57′ N., long. 43° 17′ E.

(*Variation 5° Westerly in 1907.*)

This Notice affects the following Admiralty Charts:—Jebel Jehan to Shab Kulangarit, No. 253; plan of Obokh on chart No. 919: Also, Red Sea Pilot, 1900, page 358; and Supplement, 1904, page 11.

RESOLUTION ON THE SURVEY AND SETTLEMENT REPORTS FOR THE YEAR ENDING THE 30TH SEPTEMBER, 1906.

REVENUE DEPARTMENT—LAND REVENUE.

Calcutta, the 23rd March 1907.

RESOLUTION—No. 1699.

READ—

The Survey and Settlement Reports for the year ending the 30th September 1906 with the remarks of the Board of Revenue thereon.

The Survey and Settlement Reports for the year ending the 30th September 1906 are well within the prescribed maximum limit and have been prepared generally in accordance with the orders of Government.

2. Owing to the transfer of the eastern districts of the Province to Eastern Bengal and Assam, the present Reports deal with a reduced area, but the total outturn of work was not by any means reduced in proportion to the reduction in the size of the Province. Exclusive of the Calcutta survey and certain minor operations, the Survey and Settlement Departments dealt with work carried on in fourteen districts and in all the six Divisions of the Province. In both Departments the year's programme was all but completed, the few minor deficiencies being unavoidable. The traverse survey extended

over 5,591 square miles as against 6,326 square miles in the previous year, while the cadastral and topographical surveys covered 3,676 square miles and 1,005 square miles, respectively, as against 4,667 and 572 square miles, the corresponding figures for the previous year. Including an area of 4,210 square miles completed during the year, the total area for which a record-of-rights has now been completed under the control of the Director of Land Records is 34,704 square miles in the Province as now constituted.

3. In certain cases the work done during the year has proved more expensive than in the previous year, but the Lieutenant-Governor is satisfied that every endeavour has been made to secure economy without impairing the efficiency of the work. The cost-rates of traverse survey are noted in the margin. In the district of Bhagalpur the rate is high because the features of the country were particularly difficult, and the number of traverse stations worked out to 31 per square mile, whereas in Purnea it is moderate, regard being had to the fact that the area to which it refers was only 37 square miles, while in Monghyr it is decidedly low. As to the high cost-rate in Ranchi, the Lieutenant-Governor observes that the country traversed was broken and more hilly than in the previous year, and that the transport of the party from Singhbhum added very considerably to the expenditure incurred during the year, while in Singhbhum also the country was difficult, and the area dealt with being only 573 square miles, the working party was necessarily somewhat expensive.

District.	Per square mile.	
	1904-05.	1905-06.
	Rs.	Rs.
Bhagalpur	... 31·7	44·7
Purnea ...	... 47·8	33·8
Monghyr ...	... ...	31·9
Ranchi ...	... 29·5	37·6
Singhbhum	... ...	36·9

The cost-rate of cadastral survey and initial record-writing in the district of Bhagalpur amounted to Rs. 134·7 as against Rs. 113·9 in the previous year, but the average size of the field was one-third of that of 1904-05, and the programme of record-writing was curtailed by 162 square miles, owing to pressure of work elsewhere. The rate in Purnea, viz., Rs. 119·2 per square mile, though higher than in 1904-05 by Rs 10 on account of the smaller size of fields, is still moderate. The control of cadastral survey and record-writing in Chota Nagpur was taken over by the Settlement Department on the 15th October 1905, the cost-rate arrived at being Rs. 89·5 per square mile as against Rs. 82·1 and Rs. 93·2 in the two previous years when the Survey Department was in charge of cadastral survey and initial record-writing, the latter being supervised by members of the Settlement staff. The cost of supervision by Assistant Settlement Officers, which was not included in the cost-rates of the Survey Department, being deducted for purposes of comparison, the rate falls to Rs. 79 per square mile, and may be regarded as satisfactory.

4. The experiment of placing the Settlement staff in charge of cadastral survey and record-writing in large district operations has thus proved financially successful, and there are reasons to hope that as further experience is gained greater economy will be secured. The main object of the measure was, however, to do away with the dual control of the Survey and Settlement Departments, and although it is yet too early to come to a definite conclusion as to the results of the change in system, the Lieutenant-Governor is gratified to learn that there have been fewer complaints in regard to the conduct of Inspectors and Amins, and that the survey of a large and difficult area was brought to a conclusion punctually and successfully. The Department, as now re-organized, will have an officer of the Survey Department as professional adviser in case of technical difficulties, and a stronger staff of Assistant Settlement Officers held personally responsible for the quality and progress of the survey in their respective charges, and thus there is every reason to hope that a high standard of accuracy and efficiency will be attained.

5. With the approval of the High Court a few Munsifs are now deputed annually to settlement work in order that they may acquire a practical knowledge of the settlement procedure. The period of deputation was at first limited to six months, but has been extended to eighteen months. During the year under report six Munsifs were employed as Assistant Settlement Officers, four being posted to Bihar and two to the district of Ranchi, and the Lieutenant-Governor observes that their work has given great satisfaction.

6. The proportion of non-occupancy holdings in the district of Ranchi, as disclosed by the records attested during the years 1903-04 and 1904-05, was as high as 16 per cent. and 14·6 per cent, respectively, while during the year under report the percentage is nearly 13. The chief cause of this large number is, as the Director observes, the fact that the provision of law relating to the "settled raiyat" does not apply to Chota Nagpur. Other causes are forcible dispossession and the unsettled character of the aboriginal raiyats. There is some reason to believe that formerly zamindars did not make any distinction between the non-occupancy and occupancy raiyats, as regards fixity of tenure. There is, however, no provision in the local Act analogous to section 183 of the Bengal Tenancy Act safeguarding such customary rights. The local Civil Courts have consequently interpreted the provisions of the law, with regard to non-occupancy holdings, as if they superseded all existing customs, and abolished such rights as were not expressly mentioned in the law. The position of the non-occupancy raiyats is therefore very precarious. He is a mere tenant-at-will. He can only hope to acquire occupancy rights after 12 years' possession, and in the meantime may be ejected, at any moment, whether he pays his rent or not and however much he may have improved his holding. The Settlement Officer would extend the law of the settled raiyat to the whole of Chota Nagpur, and there would appear to be much force in his contention.

7. The settlement of fair rents on a large scale was confined, during the year, to the districts of Purnea and Bhagalpur. In the former district the enhancement is trifling, being only 1·09 per cent. This is the first district in Bihar where the Settlement Department has had to settle the rents of tenure-holders on a large scale under section 7 of the Bengal Tenancy Act. The Lieutenant-Governor is glad that the general results in their case are reported to be satisfactory, the enhancements being, as a rule, small, and the rents settled in all cases, moderate. In the district of Bhagalpur, the enhancement is large, being 16·79 per cent., but it is due to the fact that in one *patti* of the Panchgachia estate, the rents had been cut down at attestation as having been illegally enhanced, bu were subsequently raised up to the prevailing rates of rent paid in the other *pattis*. It is however reported that there was no hardship, as the rents settled had been paid for about 15 years, and there has been a large extension of cultivation.

8. The recovery of costs of the survey and record-of-rights was postponed altogether in the district of Purnea till October 1907, owing to the failure of crops due to floods, but in the districts of Bhagalpur and Ranchi practically the whole demand of the year was collected. The Lieutenant Governor agrees with the Board that the results of the collections in these two districts is creditable to the officers concerned.

9. In paragraph 9 of the Resolution on the Survey and Settlement Reports for the year ending the 30th September 1905, the Lieutenant-Governor had occasion to notice with satisfaction the extended use of settlement records in various branches of the administration. His Honour is much gratified to find that the present Report of the Director of Land Records bears testimony to the records having been still more freely referred to than in previous years. The presumption of correctness attaching to the records appears to have been generally understood by the Magistrates and the Police, and it is reported that in land disputes they were found very useful and that copies were in many cases produced by the parties of their own motion. It is reported also from the Begusarai subdivision of the Monghyr district that the number of land and rent disputes has greatly diminished in consequence of the survey and record-of-rights, and that serious riots are now rare. In this connection the Board have drawn the attention of Government to a suggestion of the Director of Land Records that the Police, who in some districts utilise the cadastral maps in preparing sketches of the scenes of crimes, might make a more extended use of them especially in criminal cases arising out of land disputes. As observed by the Board, any difficulty due to the village maps being on the scale of 16″=1 mile may be easily got over by the use of the pentagraph. A pentagraph, if there was sufficient use for it might be supplied to the District Police office, and if not, some arrangement might be made with the District Board for such enlargements as might

from time to time be required. The attention of the Inspector-General of Police will be drawn to this suggestion, and he will be asked to take such steps as may be found feasible. The Lieutenant-Governor's attention has also been directed to another suggestion that, so far as possible, the Civil Courts should be induced to quote survey numbers in all suits relating to disputes in land. His Honour will await a further report on this point from the Board of Revenue.

10. The continuous maintenance of the settlement records in Orissa has now been finally decided upon, and a scheme, framed upon the results of the experimental revision operations carried out in an area of about 46 square miles in the district of Balasore, has been approved by the Government of India. The records will, in the first instance, be brought up to date, and then a system of continuous maintenance, by means of local agency as far as possible, will be started. The revision of the records has been commenced in the district of Balasore under the immediate supervision of a civilian Settlement Officer, and the framing of a suitable Bill for the continuous maintenance has been taken in hand.

In the matter of maintenance of land records and inspection of rent-rolls in Government and Wards' estates in the Province, the Report of the Director of Land Records does not show any appreciable improvement, and the Lieutenant-Governor trusts that the Board will take steps to secure better results and a closer observance of the rules on the subject.

11. His Honour is pleased to observe that good progress has been made in the preparation of the special maps of each thana to show trijunction marks on a scale of 2"=1 mile. He notices that paragraphs 138 to 145 of the Report of the Director of Land Records bear ample testimony to a satisfactory improvement in the inspection and restoration of boundary marks, and trusts that the maps alluded to above will render the measures taken for their maintenance more effective, and will considerably cheapen future surveys.

12. Sir Andrew Fraser cannot conclude this review without expressing his appreciation of the valuable services rendered by Major Crichton and Messrs. Kerr and Lister during the year under report. He desires to take this opportunity of thanking Major Crichton, who is now taking long leave and may not return to his post, for the excellent work he has done in the Bengal Provincial Survey Department for the last sixteen years, and for the remarkable tact and courtesy he has displayed in all his relations with the Settlement Department. His Honour's thanks are also due to Messrs. Cumming, Byrne, Allanson, Murphy, Reid and Hubback and to the other officers named in the concludingn chapters of the two Reports.

13. Extracts from the two Reports are published for general information.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette*, and that a copy of it, with copies of the two Reports and the Board's note, be submitted to the Government of India.

By order of the Lieutenant-Governor of Bengal,

R. W. CARLYLE,

Chief Secy. to the Govt. of Bengal.

Extracts from the Report of the Superintendent of Provincial Surveys, on Survey operations during the year ending the 30th September 1906.

CHAPTER I.

General remarks.

3. The outturn of the year, namely, 5,591 square miles of traverse survey, 1,769 square miles of cadastral survey, 1,601 square miles of record-writing and 1,095 square miles of topographical survey is considerably less than that of last year. The full programme of the year has been worked up to in every respect, in most cases slightly exceeded, except the record-writing programme which was reduced during the field season at the request of the Settlement Officer of Bhagalpur.

Bhagalpur District.

Traverse Survey.

10. In this district only an area of 363 square miles of thana Katauria remained for traverse survey, and this has been completed during the year under report.

Cadastral Survey.

16. The areas accomplished are 1,270 square miles of cadastral survey and 1,108 square miles of record-writing. The deficit of 162 square miles of record-writing lies in one compact block in thana Katauria. The record-writing of this block was postponed to season 1906-07 at the request of the Settlement Department.

Purnea District.

Traverse Survey.

20. Except for 7 square miles of up-lands, the only portion of this district remaining for traverse was the Ganges *diara*.

21. The area of 70 square miles traversed during the season consists of 7 square miles of up-lands for cadastral survey, 30 square miles of *diara* for cadastral survey and 33 square miles of *diara* for topographical survey.

Cadastral Survey.

23. The area dealt with cadastrally during the season under report consisted of the portions of thana Kadwa and Saifganj, which had been traversed in advance during the foregoing season and the Ganges *diara* which was traversed during the same season. The total outturn was 485 square miles of cadastral survey and record-writing.

Topographical Survey.

27. During the season 23 square miles of the Ganges *diara* have been topographically surveyed on the 16-inch scale.

Monghyr District.

Traverse Survey.

31. Traverse operations were extended to South Monghyr during the year under report. The area accomplished was 1,217 square miles, exclusive of 275 square miles of hilly and jungly country, which are to be excluded from the cadastral operations, *vide* paragraph 36 of the report.

Traverse and Triangulation.

36. Within the periphery of the thanas for traverse survey during the season, lies a block of 275 square miles of absolutely hilly and jungly country containing practically no cultivation; such little as there is being of a shifting

character. This tract is unsuitable for a large scale cadastral survey, but as the District Officers complain of the insufficiency and inaccuracy of the existing one-each to the mile maps, it was decided to deal with this tract topographically on the two-inch=one mile scale.

37. During the year this tract has been triangulated and a certain amount of necessary traversing carried out, and the detail survey will be attended to next season.

District Sonthal Parganas.

Traverse Survey.

38. In order to complete the Ganges *diara* and join on to the former survey of the Damin-i-koh an area of 22 square miles was traversed of the Sonthal Parganas.

Topographical Survey.

41. The area of 22 square miles traversed during the season was also topographically surveyed on the 16-inch scale.

In addition to constant inspection in the field 37 linear miles of test survey were run.

District Ranchi.

Traverse Survey.

43. During the year an area of 873 square miles has been traversed in thanas Chainpur, Bishunpur and Ghagra.

47. As usual in this district, the demarcation was found to be absolutely wanting and the surveyors, guided to a certain extent by the list of villages supplied by the Deputy Commissioner, had to traverse village boundaries as pointed out.

District Midnapore.

Traverse Survey.

49. Parganas Nayabasan and Rohini, amounting to an area of 187 square miles, were traversed during the season.

52. The demarcation was very bad and the inhabitants obstructive. Several reports had to be made to the Collector and Settlement Officer.

District Sonthal Parganas.

Traverse Survey.

53. In 1901-02-03 the area surveyed by Mr. Craven was traversed in skeleton with a view to correcting trijunctions only. Since then, a resettlement was decided on, and consequently a traverse survey in full detail was required. The area of 797 square miles traversed during the season is comprised in nine scattered blocks and is known as Mr. Craven's first area.

District Singhbhum.

Traverse Survey.

57. During the year the traverse survey of Dalbhum was commenced, and an area of 573 square miles, being approximately half the area of the estate, has been traversed.

District Khulna.

Traverse Survey.

62. The operations in this district was confined to the Dehi Bhadra Estate, the plots of which were required during the same season for cadastral survey by the Settlement Department. The area surveyed is 106 square miles.

District 24-Parganas—Sundarbans.

Traverse Survey.

66. The survey of the southern and uncleared portions of the Sundarbans was commenced during the year under report. The area traversed was 1,050 square miles and consisted of 456 square miles, which had been marked off into 20 lots by the Settlement Officer for future colonization purposes, and 594 square miles of forests, which have been traversed in 34 blocks.

69. The whole area traversed is an intricate net-work of rivers and tidal creeks, covered with forest and dense impenetrable jungle. The zig-zag system of traversing with the subtense bar, described in paragraph 62 of last year's report, was continued, and proved very satisfactory.

71. The establishment was ordered to assemble at Canning Town on the 20th October 1905. Out of 398 *khalasis* recruited from Hazaribagh, 366 absconded in a body on the 25th October. Arrangements had then to be made for recruittng more men, and eventually sufficient men were obtained from Gonda and Arrah, and field-work was in full swing by 1st January.

72. All through the season great difficulty was experienced in inducing the menial establishment to remain. Eighty country boats were hired to accommodate the traverse and topographical surveyors and their squads, and throughout the season a steam-launch and barge were employed in taking out fresh water and supplies from Canning Town, as absolutely nothing was obtainable in the tract under survey. A Hospital Assistant with medical stores accompanied the steamer.

73. The difficulties and discomforts experienced in surveying this sort of country were noted in paragraph 63 of last year's report.

74. The health of the establishment was bad, principally cases of malarial fever and dysentery. There were eleven deaths during the season of which six were due to cholera, four to dysentery and one man was carried off by a tiger.

Topographical Survey.

75. The whole of the 1,050 square miles traversed was also topographically surveyed. The 20 lots marked off by the Settlement Officer, covering 456 square miles (of this 104 is water area), were surveyed in the scale of 4 inches to the mile, and the balance of 594 square miles on the 2-inch scale. There are 43 sheets in the former area and 17 in the latter.

76. Owing to the rapidity with which the jungle grows in these parts and the consequent danger of losing the traverse stations, it was necessary to have the topographical work in progress practically with the traverse. In many cases the detail surveyor had to survey streams and creeks on the plane-table section by means of the sight vane or make field-books by the prismatic compass and chain. In all such cases the work was carefully fitted on in office and theodolite traverses were run for the purpose.

Calcutta Suburbs Survey.

78. The field work in connection with the 8,513 acres, known as the added area of Calcutta, was completed during last season.

83. The demarcation of municipal holdings has now been practically completed, but the demarcation of revenue holdings is still far from complete.

84. The difficulties experienced in ascertaining the names of present landlords have frequently been pointed out. An attempt to utilize old maps in locating holdings has not proved successful, as the maps, prepared by a Deputy Collector of several subdivisions outside the municipality, show boundaries which do not agree at all with the boundaries as pointed out by the present holders and as mapped in the present survey. In fact, the two surveys bear no resemblance to one another in this respect.

85. In another subdivision there are maps available of no less than four surveys, including the present survey. None of these agree in the delineation of holdings. This points to the advisability of permanently marking the boundaries of holdings.

86. Out of the 393 fair maps, 253 have now been drawn in skeleton, of which 90 have been completed in boundaries and can be published as soon as

the final examination by a European officer can be undertaken. The completion of the remaining maps depends on the progress made with the settlement of disputes and attestation.

87. A start has been made in the preparation of the maps required for revenue purposes.

88. It has been proposed to bring the survey of Calcutta proper up to date and to maintain an establishment to deal with all changes as they occur, thereby ensuring correct and up-to-date maps of the whole of Calcutta. A scheme is under preparation and will be submitted as soon as possible.

Patna Division Diara Survey.

89. In paragraph 111 of last year's report, it was stated that permanent marks would be embedded at selected points in the *diara* with a view to providing stations on which a yearly revision survey by a non professional agency might be based, and the work has been undertaken during the year under report. An area of 54 square miles was selected, and in this tract 288 marks were laid down. Of these 288 marks, 99, which were actually on islands and high sand banks, consisted of heavy 10-foot scantlings with cross feet, arranged, so as to give the mark when buried about 5 feet deep, sufficient purchase to withstand considerable water pressure.

90. Very few of the old stations along the edges of the *diara* tract could be found, which proves that the existing permanently marked *diara* lines cannot be drawn closer together with safety, but the examination of the marks actually inside the *diara* tract which will be undertaken during the coming field season will show whether or not anything can be done towards providing sufficient permanent marks in the middle of the *diara*. The work of the season was mapped on one sheet on the 2-inch to the mile scale.

PART IV—REPORT ON THE BENGAL DRAWING OFFICE.

97. Mr. G. W. Archer was in charge from 1st to 15th October 1905 when Mr. L. F. Berkeley took over charge on transfer from the United Provinces, and has retained charge throughout the year.

98. It was indicated in last year's report that the rapid increase of work, especially in the reproduction of village maps section, pointed to the necessity of increasing the accommodation. Owing to this increase, during the year, a new grainer's shed has been erected, the accommodation for photo work has been doubled by building another vandyke room and ten new hand-presses, with all the necessary additional plant have been purchased. Two portable iron sheds transferred from No. 6 Party from Dacca have also been erected at a small cost to supply the accommodation for extra establishment engaged in dealing with the correction, after comparison with the settlement traces, of two vandyked copies of the map of each village in the Orissa Division.

99. The work of the office has been divided, during the year, into seven main sections:—

(*a*) General or Controlling Section.
(*b*) Standard Mapping Section, including the preparation of district maps.
(*c*) Traverse Chart Section.
(*d*) Thana and Trijunction Marks Map section.
(*e*) Reproduction of village maps section.
(*f*) Badar section.
(*g*) Record section.

Standard Mapping Section.

100. It was stated in last year's report that the districts of Darbhanga, Monghyr and Bhagalpur, north of the Ganges river, are comprised in 18 standard sheets. This needs correction, as they are comprised in 24 standard sheets of four sections each. Taking into account the rejections mentioned in paragraph 121 of last year's report, this section has dealt with 18½ of such standard sheets. Seven of these have been completed in the old style of four sections each and sent for publication during the year, and two, containing the

published portions of North Monghyr, after having the Bhagalpur district added on to them, will also shortly be sent for publication in the old style. The remainder are being completed in the new style, and comprise 19 standard sheets of two sections each. Six of these are completed, and will be sent for publication as soon as the orders for foot-notes for these sheets are received. The remaining 13 were started during the year to enable the section, not only to commence the district map of Bhagalpur as soon as possible, but also to facilitate the preparation of thana and trijunction mark maps. For a similar reason ten sheets of district Purnea have also been commenced during the year.

101. The district map of Puri, which was practically completed last year, has been completed and published during the year. The district map of Champaran, after the incorporation of Colonel Tanner's work, and completion in all other respects, has been sent for publication during the year. The district map of Darbhanga is nearing completion, and, it is hoped, will be submitted for publication by the end of October.

102. This section has also prepared during the year the Index maps of districts Dacca, 24-Parganas and Khulna, and revised the Index maps of districts Santhal Parganas and Monghyr.

103. It has also done the complete colouring, for the head-quarters office, of two copies of two standard sheets and two copies of the district maps of Puri and Cuttack, and the colouring of fiscal limits only, on 12 unpublished proofs of standard sheets and two unpublished proofs of the district maps of Puri and Champaran. In addition the final examination and correction of ten unpublished proofs of ten standard sheets and one unpublished proof of a district map have been carried out. Small corrections and additions have also been inserted on 12 published proofs of 12 standard sheets.

104. It has also prepared, out of office hours, traces for reproduction, from originals supplied by the Special Officer for revision of Boundary Commissioner's lists in Bengal, of 112 thana maps of 11 districts.

Trijunction Mark and Thana Mapping Section.

108. The section has been strengthened by the entertainment of one new draftsman and consists now of eight draftsmen.

109. During the year this section has dealt with the preparation and completion of the trijunction mark maps of 77 thanas of districts Cuttack, Puri, Balasore, Champaran, Saran, Muzaffarpur, Shahaband, Gaya and Patna, Sixty-eight of these have been reproduced and 922 copies supplied to Collectors in accordance with the number of copies required of each. Before reproduction it was found necessary to trace 62 of these, and six thanas were reproduced direct. Of the remaining trijunction mark maps of nine thanas, two have been traced for reproduction and six will be reproduced direct in October and one later. Districts Puri, Balasore, Champaran, Saran, Muzaffarpur and Shahabad are now complete in this respect.

The trijunction mark maps of three thanas of districts Bhagalpur and Monghyr have also been commenced and the trijunction mark maps of four thanas of Saraikela and Kharsawan, of district Singhbhum, prepared by the Settlement Officer are also in process of examination, correction and completion prior to reproduction.

During the year the section has also dealt with and completed fair thana maps of one thana of district, Cuttack, four thanas of district Darbhanga, which complete the district, and three thanas of district Monghyr. All of these have been reproduced and 200 copies of each supplied.

110. Good progress had been made in the tracing from standard sheets of the portions of thanas Islampur, Kishanganj, Bahadurganj and Kasba Amur which come into the Surjapur pargana of district Purnea to enable No. 4 Party to complete the thana maps of these thanas in connection with the later survey of 1904 05.

111. The office has also prepared fair thana maps of the four thanas of Saraikela and Kharsawan, district Singhbhum, and of six thanas of district Bhagalpur from originals supplied by the Settlement Officer and Director of Land Records, respectively. Those of Bhagalpur have been reproduced and 200 copies of each supplied.

Reproduction of Village Maps Section.

113. The anticipations of a very large increase of work in this section, referred to in paragraph 135 of last year's report, have been justified. During the year under report 462,961 copies of maps have been produced and despatched.

114. In addition to its ordinary work of making traces for reproduction and of direct reproduction of maps, this section has undertaken the following items of work during the current season: (*a*) The touching up of 953 sheets of district Purnea of the survey of season 1903-04, prior to reproduction. (*b*) The comparison of settlement traces of districts Champaran, Darbhanga and Muzaffarpur against original maps. After the comparison of the traces of 840 villages of districts Champaran and Darbhanga this work was put a stop to by order of the Director of Land Records, as the original maps were found to be more up to date and complete than the settlement traces, and the settlement traces were all returned. (*c*) The correction of two vandyked copies of the original maps of villages of district Balasore according to settlement traces, 6,520 vandyked copies of 2,904 villages or 3,060 settlement traces have been received during the year, out of which 3,086 copies of 1,354 villages have been corrected, examined and despatched. The remainder are in hand, and will shortly be despatched. Of a few villages the vandyked copies were received incomplete. The Collector has been addressed with regard to these. This work, which was commenced only during September, has to be continued for the whole of the Orissa Division during the next year. (*d*) The correction of old original paper traces, before reproduction, according to the revised settlement trace maps of 144 villages on 157 sheets of the Banki Government Estate, district Cuttack, which were supplied for reproduction by the Collector, but which could not be reproduced direct owing to the colours on them. These were originally traced on 211 paper traces, of which 174 have been corrected and examined and 3 retraced, 22 have been reproduced and 660 copies of them supplied to the Collector. Discrepancies have been found at the time of correction in 71 villages which have been referred to the Collector and only 13 have as yet been received back. The traces of 22 villages on 24 sheets had to be returned for rectification as on comparison with originals they were found to be out of proportion. These also have not yet been received back. As soon as all these are received the reproductions will be pushed on with. The additions and corrections made at the time of revision survey on the settlement traces are so very numerous that it is not advisable to correct the original maps according to them, instead of this a copy of the reproduction of each corrected paper trace will be filed with its original. (*e*) The production either within or out of office hours on contract, of 200 copies of each of the thana jurisdiction maps for Special officer for revision of Boundary Commissioner's lists, of 396 thanas of 30 districts, also of 1,476 copies of 105 sheets of the Calcutta Suburbs Survey.

115. With reference to the ordinary programme and work of the section the remaining four paper traces of district Saran have been vandyked and the remaining 5,010 copies despatched to Collector.

116. Of district Muzaffarpur the remaining 11 sheets have been traced on 11 paper traces, all of which have been examined. The remaining 1,232 traces have been vandyked, after receipt back recently of the badars of 853 villages and after the re-examination, which was found necessary of the traces that remained to be vandyked last year. It was found necessary also to make a cursory re-examination and correct, where necessary, the copies that were printed, but remained for despatch last year. Hence 3,976 copies have only been despatched during the season. The despatch of the remaining 27,434 is now in progress.

117. In district Champaran the remaining five sheets have been traced on five paper traces and examined. The remaining 3,319 paper traces have been vandyked and 12,910 copies despatched. In this district also it was found necessary to do the re-examination and correction, where necessary, of such paper traces that were not vandyked last year, and of the reproduced copies that were not despatched, hence the delay in despatches. However, the despatch of the remaining 39,910 copies will be made early next year. The

discrepancies found in 310 villages were sent to Settlement Officer for reconciliation, and these have all been received back.

118. In Darbhanga 2,010 sheets have been traced on 538 paper traces, making a total to date of 9,071 sheets traced on 7,371 paper traces and leaving a balance of only 21 sheets to be traced. Six thousand one hundred and fifty-five paper traces have been examined, making a total to date of 7,311 examined. Six thousand six hundred and fifty-three of these have been vandyked and printed during the year, and 37,130 copies have been despatched. Despatches are being made weekly, as the Collector has asked for them to be supplied as quickly as possible. In this district also it was found necessary to make a cursory re-examination of the paper traces prepared last year. Discrepancies found in 683 villages have been sent during the year to Settlement Officer for reconciliation and those of 397 villages have been received back reconciled.

119. North Monghyr has been started within the year. There are 3,895 sheets for tracing, out of which 3,350 have been traced on 2,960 paper traces. Two thousand seven hundred and forty-three have been examined and 2,370 vandyked. Owing to the despatches of other districts being more urgent, it has not been possible so far to despatch any of the reproductions of this district. Discrepancies found in 32 villages have so far been sent for reconciliation and 21 have been received back.

120. Of the Purnea work of 1903-04; of 2,264 sheets, 293 thick sheets have been traced on 297 paper traces all of which have been examined. One thousand nine hundred and eighty-nine paper traces and sheets have been vandyked and 223,240 copies sent to the Settlement Officer in accordance with the statements supplied by him of the number of copies of each sheet needed. Discrepancies found in 10 villages have been sent for reconciliation and three have been received back.

121. Of the work of North Bhagalpur, 1,660 sheets have so far been traced on 1,625 paper traces and 634 examined. None have been vandyked as yet. The discrepancies found in three villages have only so far been sent for reconciliation and one has been received back.

122. Of Ranchi there were 644 sheets for tracing. These have been traced on 589 paper traces and all have been examined; 578 were vandyked and 6,412 copies supplied during the year. As there were discrepancies found in 58 villages, all of which, with the exception of two, have been received back, the remaining paper traces, with the exception of these two villages, will be vandyked early in October and copies supplied. In the Sonthal Parganas there will be about 15,200 paper traces in all for reproduction; of these 4,779 have so far been received and reproduced and 92,570 copies supplied to the Settlement Officer.

123. Every endeavour is being made to finish all the tracing that remains of Bihar and its examination as soon as possible, so as to get rid of the staff of tracers and examiners and thus reduce the overcrowding in the office.

124. In connection with the Programme of Reproduction to be done for attestation purposes, 774 sheets of Purnea and 643 sheets of Midnapore of the survey of 1904-05 have been reproduced and 3,130 copies supplied. There were 943 sheets of Purnea, 2,269 of Bhagalpur and 1,880 of Ranchi of the survey of 1905-06 for reproduction altogether, all of these have been reproduced and 13,021 copies altogether supplied.

125. This section has also reproduced one copy each of 155 sheets of 78 villages for the Executive Engineer, Champaran Division (Irrigation Branch). These have been mounted on cloth according to requirements and supplied.

Extracts from the Report of the Director of Land Records on settlement operations during the year ending the 30th September 1906.

GENERAL SUMMARY AND GENERAL REMARKS.

Extent of the year's operations.

2. Survey and settlement operations were in progress during the year in 12 districts belonging to the six Divisions which were included in the Province of Bengal after its recent partition. The total area included in these operations was 23,980 square miles contained in 19,727 villages. The area cadastrally surveyed during the year was 3,646 square miles, while preliminary records were written in 3,877 square miles. Records were attested in 4,549 square miles and finally published in 4,210 square miles. The rents of 38,698 tenants were settled. The expenditure of the year amounted to Rs. 8,54,567.

Total area settled in the Province up to 30th September 1906.

3. The total area for which a record of rights has now been completed under the control of this Department (in this province as now constituted) is 34,704 square miles. Of this, 4,210 square miles were completed during the year under report. Progress during the last twenty years has averaged 1,735 square miles a year.

GENERAL SETTLEMENT MATTERS DEALT WITH DURING THE YEAR.

Revision of the Boundary Commissioner's lists of villages.

6. The work continued during the whole year and has now been completed with the exception of the printing of the village lists. As was anticipated last year, it was found possible to discontinue the employment of the Special Officer from the end of February last, and the work remaining to be done was carried on by Mr. R. N. L. Chandra, in addition to his duties as my Personal Assistant. Under the Board's orders 200 copies of each map and of each village list are being printed. The reproduction of the maps by the Vandyke process has been practically completed by the Bengal Drawing Office, but the printing of the lists is progressing slowly, and will not be completed for some months. Private presses are being utilized by the Superintendent of Government Printing, Bengal, but their outturn is very small.

The table below shows the main heads of work done, and in addition there was some revisional work. Owing to changes in the thana boundaries sanctioned by Government after completion of our work in them, the maps and lists already printed, of 9 thanas in Murshidabad, 1 in Burdwan and 2 in Jessore had to be revised, and new maps and new lists printed. The year's work required the boundaries of about 16,000 villages to be marked in the map, 1,200 omitted Revenue Survey villages to be inserted therein and 200 Revenue Survey villages not shown in the Boundary Commissioner's lists to be incorporated in the new village lists. Complete maps and lists of 8 districts, viz., Muzaffarpur, Champaran, Saran, Howrah, Hughli, Nadia, Tippera, and Noakhali were issued during the year.

* Printed thanas mujmilis have been used.
† Thana mujmilis on tracing cloth supplied by Settlement Officer, Bihar, have been used.

Thana index maps and lists of villages.

7. Up to the end of the preceding year thana index maps were prepared for the cadastrally-surveyed districts of Saran, Champaran, Muzaffarpur, Cuttack, Balasore, Puri, and five thanas in the district of Darbhanga. Similar maps were prepared during the year for the remaining thanas in the district of Darbhanga, three thanas in North Monghyr, and six thanas in North Bhagalpur. Maps of all the thanas in the districts of Saran, Champaran, and Muzaffarpur, together with jurisdiction lists of villages, have been distributed to the Heads of Departments and local officers. Thana lists of villages for all the thanas in Darbhanga have been finally printed and will shortly be distributed.

Village maps.

8. During the year the work of reproduction of village maps in Saran has been completed, and that of the maps of the districts of Muzaffarpur, Champaran and Darbhanga is nearing completion. Reproduced copies have been supplied to the District Officers. Village maps for portions of Purnea and Ranchi were also reproduced for purposes of distribution during recovery of the costs of the survey and settlement operations. In the Sonthal Parganas the reproduction of the village maps of the Damin-i-Koh has been completed, and fair progress has been made in respect of those of the zamindari estates. The village maps of Banki Government estate in the district of Cuttack are being reproduced after embodying the corrections necessitated by the Revisional Settlement proceedings.

Scale and number of copies of the trijunction mark maps.

9. In the Board's order No. 7526A., dated the 6th December 1905, it was directed that special thanawar maps on the scale of 2″=1 mile showing the trijunction marks should be prepared separate from the thana mujmili maps on the scale of 1″=1 mile prepared for general administrative purposes. It has also been decided that about 30 copies of each boundary-mark map should be reproduced at present, the exact number of copies of the maps in the case of each district being determined by reference to the local officers.

Agencies for Settlement work.

10. It is hoped that with the increase in the cadre of the Provincial and Subordinate Executive Services, it will be possible to avoid employing non-gazetted officers as Assistant Settlement Officers in future. In accordance with the recommendations

contained in a joint note submitted by the Settlement Officer, Bihar, and the Director of Land Records, it has been decided in future to limit the attestation season to five months in Bihar, by opening a larger number of camps for a shorter period. It is hoped that in this way it will always be possible to complete Section 103A. work before the rains break.

Transfer of control of cadastral survey and record-writing from Survey to Settlement Department.

12. Perhaps the most important event of the year was the transfer of the control of cadastral survey to the Settlement Department in accordance with the orders of the Government of India contained in their letter, No. 1438—98-2, dated the 22nd September 1905. The new system was applied in all settlements, except Bihar. The most important settlement affected was Ranchi, where the Settlement Department carried out the cadastral survey of an area of 1,618 square miles. The area was divided into two camps, each in charge of a Covenanted Assistant Settlement Officer, with six circles in each camp. Each circle was in charge of an Assistant Settlement Officer who was directly responsible for its working. The work was inspected by the Superintendent of Provincial Surveys, Bengal. The standard of check and accuracy reached was fully equal to that of previous years, while on account of the closer supervision and control which it was possible to exercise, a marked improvement in the conduct of the amins and inspectors was noticed, serious punishment being rarely necessary. The amins as a body appreciated the advantages of the system of direct control by Assistant Settlement Officers. An important change was effected in Ranchi in regard to the distribution of *parchas* to the landlords and tenants. Instead of the distribution being left with amins as in previous years, the Assistant Settlement Officers themselves distributed the *parchas* to the parties. Over one lakh and-a-half of *parchas* were thus distributed by the Assistant Settlement Officers in Ranchi. The system was a success there, because the raiyats, being mostly illiterate, do not require their *parchas* during khanapuri. The question of introducing it in other settlements is under consideration. The cadastral and khanapuri recess-work was also successfully carried out by the Settlement Department, and the work of all the various sections was completed in good time. Rules for the working of the Area, Drawing and Khasra Sections have been drawn up and will be available in future for other settlements. It is hoped that from October 1907 the transfer of cadastral survey to the Settlement Department will be effected in Bihar also.

Admissibility in evidence of copies of village maps reproduced by mechanical process.

13. After consultation with the Advocate-General the Board have directed, in their No. 1372A., dated the 7th March 1906, that all photo-zincographed reproductions of the village maps should be marked with the words "made and published with the authority of Government." Such reproduction will then be admissible in evidence under sections 36 and 83 of the Evidence Act.

Training of Munsifs in Survey and Settlement work.

15. During the year 6 Munsifs were deputed for a period of 6 months to settlement work, 4 being posted to Bihar and 2 to the Ranchi settlement. A full report regarding the working of the experiment was submitted to the Board with this office letter No. 112T.S., dated the 30th May 1906. As the period has been found to be insufficient to train the officers fully in all the branches of settlement work, it has now been arranged, with the concurrence of the High Court, that the period of training should be extended to 18 months. Accordingly the 6 Munsifs who have already undergone a 6 months' training have again been posted, in the present year, to the Bihar and Ranchi settlements for a further period of 12 months, and 6 new Munsifs have been deputed to the above settlements for training for a period of 18 months. So far the experiment of employing Munsifs as Assistant Settlement Officers promises to be a success.

Guide and glossary to the Survey and Settlement operations in Bihar

19. A Guide and Glossary to the Survey and Settlement operations in Bihar has been compiled and is now being printed. It gives a general and narrative account of the various stages of the Survey and Settlement operations that are now in progress in the province, and furnishes an authoritative explanation of the vernacular terms used in the records and proceedings. It is hoped that a reference to the book will prevent parties and tribunals from misinterpretating the true significance of the vernacular terms used in the record-of-rights and will give to all interested in land a fairly accurate idea of the procedure followed and of their rights and responsibilities in the various stages of the work.

Programme.

24. The programme consisted of (1) attestation of the records of 267 square miles, (2) publication in draft of those, (3) disposal of objections under section 103A., of the Tenancy Act, (4) settlement of fair rents under section 104 in an area of 404 square miles, (5) disposal of case work under section 106 in an area of 169 square miles, besides office and recess work on the records and maps. To this were added the cadastral survey and initial record-writing of the Nayabasan estate and of certain other estates aggregating an area of 193 square miles.

ANGUL ESTATE IN ANGUL.

Area—630 square miles.

Number of villages	630
Number of holdings	40,000
Number of plots	4,10,000

Programme.

40. The original programme for the year included the completion of khanapuri and attestation for the entire estate. But owing mainly to ill health among the staff during the rains, it was only possible to complete the attestation of about one-third of the area.

* * * * * * *

SAMBALPUR DISTRICT.

Area—2,986 square miles.

Number of villages	1,945

44. THE two tahsils of Sambalpur and Bargarh were transferred to Bengal from the Central Provinces during the year. The resettlement operations had been practically concluded before the district was transferred to Bengal, and the main work of the year was the "announcement" or final publication of the rents calculated on the basis of assessesment proposals which, with a few exceptions, had been sanctioned by the Central Provinces Administration. Announcement of rents was completed during the year and the only work pending was the announcement of the *takolus* or reduced revenue payable by certain zamindaris of the Sambalpur tahsil, sanction to which had not been received up to the close of the year.

PERMANENTLY SETTLED ESTATES.

PRESIDENCY DIVISION.

FATEHSINGH ESTATE IN MURSHIDABAD.

Area—80·53 square miles.

Number of villages	151
Number of tenants	46,260
Number of plots	133,141

Notifications and number of villages dealt with.

46. On the application of the Nawab Bahadur of Murshidabad four villages, believed to appertain to tauzi No. 253, were brought under survey and settlement operations by Notifications Nos. 335L.R. and 336L R., dated 17th January 1906. One of these villages was, however, subsequently found to belong jointly to estates Nos. 253 and 254. Estate No. 254 is held by Babu Debendra Narayan Roy of Jomua and his brothers, and the villages held jointly by this estate and estate No. 253, which is held entirely by the Nawab Bahadur, were brought under survey and settlement in connection with the proceedings in the latter estate. Certain lands of village Roserah, appertaining to estates Nos. 1038 and 1337, were added by Notifications Nos. 203T.—R. and 204T.—R., dated 24th April 1906, as they were intermingled with those of estates Nos. 253 and 254.

* * * * * * *

Cost.

52. The cost of the settlement has already exceeded a rupee an acre, but the difficulties are unusual, and it should be remembered that the settlement was undertaken because the proprietor, a recent purchaser, was quite unable to manage the estate. Little assistance is to be obtained from him, and the leading tenants are by no means anxious to help forward a settlement which will put an end to a state of things under which they have profited considerably.

BELDANGA ESTATE IN MURSHIDABAD.

Area—11·62 square miles.

Number of villages	1
Number of tenants	5,888
Number of plots	22,382

Short history.

53. The estate belongs to Maharaja Manindra Chandra Nandi of Kasimbazar. Difficulties between the landlord and the tenants had been of long standing in this estate. For a period of over 12 years unsuccessful endeavours were made with the assistance of three Collectors to bring about a better understanding and to effect an amicable settlement. The tenants ultimately applied for an authoritative record-of-rights. The operations were notified under section 101 (2) (*a*) of the Bengal Tenancy Act in Notification No. 4067, dated 12th November 1904. In September 1905 the supervision of the work was transferred to this Department.

* * * * * * *

Programme and work done.

56. The programme for the year was to do a plane table traverse and cadastral survey and khanapuri, to decide boundary disputes, and during the recess to extract areas and to prepare the records for attestation.

The programme was carried out practically in full, only a small amount of recess-work remaining to be completed in October. Field-mapping was done in 25 sheets with separate serial numbers in each, the arrangement of the blocks being preserved. The main difficulty encountered at the khanapuri stage was in regard to the classification of soil.

The landlord had divided the lands of the villages into 27 classes, most of which had separate sub-classes, the object being undoubtedly to enhance rents. The classification was arbitrary, artificial and unintelligible, and it was found necessary to abandon it entirely. Eventually, with the consent of all parties, a simple classification was arrived at and the work proceeded smoothly. Attestation will be carried out during the current season.

Programme.

66. THE programme for the year was (1) the disposal of the remaining case work under section 105 and section 106 of the area attested in 1903-04; (2) Recovery and case-work in the 27 villages of the Pachgachhia estate in which re-attestation was carried out last year, and in the 175 villages attested in 1904-05; (3) Attestation, draft publication and office work of the 30 villages in the North Kosi diara surveyed in the previous season and said to contain Government estates.

* * * * * *

Recovery.

69. Of the total cost of Rs. 91,926 recoverable in respect of the area dealt with, Rs. 91,420 was realized without certificates, and Rs. 389, on the issue of certificate notices. The balance, Rs. 117, is regarded as practically unrealizable, and proposals for its remission are being submitted.

Case-work.

70. In the Pachgachhia estate the result of the re-attestation done in the previous year was that the rents in one of the three *pattis* of the estate were cut down as having been illegally enhanced, and in the other two *pattis* (in which the rates were the same as in the third *patti*) the old rents were attested. The tenants of the two *pattis* in which the rents were not reduced, instituted suits under section 106 to have it declared that in these *pattis* also the rents were illegally enhanced, and that the rents legally payable were those calculated at the old rates. In the *patti* in which rents had been reduced the proprietor instituted suits under section 30, praying for enhancement on the ground that the raiyats held at rates lower than the prevailing rate of the village. The tenants did not succeed in their suits under section 106. It was proved that the enhancement had taken place previously to the passing of the Bengal Tenancy Act and was therefore not illegal, and the attested rents were declared to be the rents payable. In the suit under section 105, instituted by the proprietors in the "*kharidgi*" *patti*, the tenants also lost. The prevailing rates in each village are undoubtedly those prevailing in the two *pattis*, the rents of which have not been reduced, and as they are not inequitable and have in fact been paid by the tenants for the last fifteen years, the landlords' applications were allowed. A number of the tenants have compromised, but many are likely to appeal.

SOUTH BHAGALPUR.

Area—1,745 square miles.

Extension of operations and notifications.

72. THE survey and settlement operations which had been in progress in North Bhagalpur were extended to the southern portion of the district under the orders of the Government of India, conveyed in letter No. 1300—308-2, dated the 14th September 1904. The six thanas of

Sultanganj, Bhagalpur, Colgong, Amarpur, Katauria and Banka were accordingly notified under section 3 of the Bengal Survey Act, V (B C.) of 1875, and under section 101 (1) of the Bengal Tenancy Act, in Notification No. 2643T.—R., dated the 10th October 1904, and Notification No. 3080T.R., dated the 13th September 1905, respectivly.

Programme.

73. The programme for the year was the supervision of record-writing in the area south of the southern high bank of the Ganges, included in thanas Colgong, Bhagalpur, Sultanganj, Amarpur, Banka and about 158 miles in thana Katauria, making in all an area of 1,246 square miles containing 2,291 villages.

* * * * * * *

Work done.

75. The whole of the programme was carried out, with the exception of the portion relating to thana Katauria, consisting of 158 square miles. The cadastral survey of this portion was completed, but owing to the pressure of work elsewhere, it was found impossible to depute any officer to supervise the khanapuri, which was therefore postponed until next season. Thanas Colgong and Bhagalpur were surveyed by the cadastral camp of which Mr. N. Bedford of the Survey Department was in charge; the remaining thanas were dealt with by Mr. C. S. Kraal of that Department. In addition to thanas Colgong and Bhagalpur, Mr. Bedford was also in charge of the Purnea area The work in Bhagalpur presented no complications, and disputes were few. The total number of plots in the area of which khanapuri was completed was 880,000 and the number of khatians, 153,000. The average plot is therefore ·79 of an acre and the average holding 4·77 acres, 19,793 plots or an average of 8 per village were tested by the Settlement Department. The average size of a village, however, is exceptionally small, being only ·47 of a square mile as against ·9 of a square mile in the area surveyed in the Purnea district. As in Purnea, the khewats were prepared by the Settlement Department. The small size of the villages, coupled with the fact that a large number of resumed *jagirs*, each owned by 40 or 50 proprietors, were found in many of them, and that it was exceedingly difficult to procure the attendance of the numerous absentee small proprietors, mainly pleaders and other residents in the town of Bhagalpur, hampered the work in thanas Colgong and Bhagalpur. The difficulty was increased by the fact that the Collector had not adopted as his unit of registration the extremely small villages formed in the revenue survey, and neither those villages nor the estates lying in them were found in Register C.

Disputes (internal and boundary) were not numerous and, with the exception of disputes as to the right to the timber of trees, were easily disposed of. The difficulty in deciding the latter arose from the fact that although the right of the landlord to a share of the timber of trees standing in raiyati fields is generally claimed throughout the district, it was found that, with one or two exceptions, most of the proprietors were unable to prove that they had ever exercised their rights.

76. By the close of 1904-05 cadastral survey and record-writing had been completed for 3,220 square miles, in which area the records of 3,503 villages had been prepared for attestation, and of these the records of 1,190 villages had been attested and draft published.

* * * * * * *

78. The programme for the year consisted of the supervision of preliminary record-writing for an area of 485 square miles in thanas Saifganj and Kadwa, the attestation, draft publication, disposal of objections, office check, fair-copying and final publication for an area of 1,723 square miles, of which the preliminary record had been prepared in 1904-05 and the disposal of case-work under sections 105 and 106 for an area of 1,483 square miles, of which the preliminary record had been prepared in 1903-04.

80. Khewat writing was undertaken by the settlement staff for the first time, and the results on the whole were satisfactory though the system naturally did not work perfectly smoothly, cases of delay in starting khanapuri, owing to the incomplete state of the khewats, occuring from time to time. It is notorious, however, on the other hand, that khanapuri was frequently begun in previous years before the khewats were by any means complete.

82. In accordance with the procedure for dealing with illegally enhanced rents, which was adopted in the previous year and confirmed by order of the Board in their letter No. 3762A., dated 13th June 1905, the Attestation officers were not required, in the absence of disputes as regards the existing rents and of grounds for suspecting illegal enhancements, to make, of their own motion, detailed enquiries about the legality of the rents contained in the landlords' rent-rolls. This procedure has been found to work fairly well in practice, but for the reasons already explained, illegal enhancement of rent is not a burning question in Purnea.

Treatment of illegally enhanced rents at attestation.

* * * * * * *

85. Rent settlement work in this district is chiefly remarkable owing to the fact that this is the first time that the Bihar Settlement Department have been called upon to settle the rents of tenure-holders on a large scale under section 7 of the Bengal Tenancy Act. The general results are satisfactory; the enhancements are small as a rule, and the rents settled are in all cases moderate. Many of them were arrived at by compromise.

* * * * * * *

87. Difficulty has arisen in dealing with applications for the settlement of fair-rents under section 105 in respect of lands recorded as *de facto* held rent-free, but liable to payment of rent, as the defendant-tenants have in many cases not only set up in their defence that the lands were rent-free, but have also instituted suits in the Civil Courts for a declaration of their title to hold the land free of rent. It has been held that a decision in the course of proceedings under section 105 that land is liable to the payment of rent does not operate as *res judicata*, and does not debar the parties from subsequently raising the same question in the Civil Court. There is thus grave risk of conflicting decisions being given by the Revenue and the Civil Courts regarding the same subject. The matter has been represented to the Board and Government, and is now under consideration.

Conflict of jurisdiction between Revenue and Civil Court.

88. Arrangements were made to begin computation during recess with a view to recovery in this field season, but owing to the failure of crops due to floods, recovery operations have been postponed till October 1907 on the recommendation of the Collector and Commissioner. It is expected, however, that some large land-holders will be ready to pay up in advance in order to get their copies of the record. A cost rate of six annas per acre has been proposed.

Programme.

90. The programme for the year included the following items:—

A. *First half of Second Programme*—

(1) Disposal of remaining objections to the published record;
(2) Final check and arrangement of the records;
(3) Delivery of records to the Deputy Commissioner.

B. *Second half of that Programme.*—Disposal of objections to the published record.

C. Tracing of maps of the first and second programmes for reproduction.

* * * * * * *

Work done—second half of the programme.

94. The disposal of objections to the published record in this area formed the main part of the work done during the year. This work could not be completed owing to the fact that the objections continued to pour in up to the end of the year when the year of grace expired. The right of transfer having been recognized, a very large number of cases for the mutation of names as the result of transfers were filed. There is no doubt also that the small fee realisable for objection suits, viz., one rupee, led to the filing of a number of speculative and frivolous cases. Two hundred and eighty-six civil suits were also disposed of.

Reproduction of village maps.

96. The reproduction of the cadastral maps of the zamindari estates was ordered in Government order No. 1479, dated 15th March 1905, which dealt also with the maps of the Damin-i-koh Government Estate as already stated. Simultaneously with the submission of the proposals on the subject, instructions had been issued to attestation officers to explain to the raiyats how a copy of the map read with their copies of the khatians would show exactly what were the plots held by each tenant. Arrangements were as usual made for reproduction of the maps by the Vandyke process at the Bengal Drawing Office. As in the case of the maps of the Damin-i-koh the original sheets not having been prepared on "sensitive" paper, it was found necessary to prepare traces for the purpose locally. The work which begun in October 1905 continued throughout the rest of the year. Out of a total of 6,181 sheets comprising the areas included in Mr. McPherson's first and second programmes, traces were prepared of 4,411 sheets at a cost of Rs 4,025. The Bengal Drawing Office supplied reproduced copies of 1,719 sheets to the Settlement Officer during the year.

RANCHI DISTRICT.

Area—7,128 square miles.

Programme.

108. The programme consisted of—

(1) the cadastral survey and preliminary record-writing of 1,618 square miles;
(2) cadastral recess work of the above including finishing of the maps, extraction of areas and completion of the preliminary records in office;

(3) the attestation of 1,048 square miles and case work under section 103A;

(4) office work in connection with the records of 1,048 square miles and final publication of the records of 805 square miles;

(5) suits under section 160 of the Local Act;

(6) *Bhuinhari* identification in office of 1,618 square miles.

The whole programme was completed with the exception of the trial of suits under section 160, and *bhuinhari* identification. The number of section 160 suits filed was unexpectedly large, and no officers were available to try them. These suits are of considerable importance, as the decisions in many cases involve questions of title and are final, subject to an appeal to the Commissioner. *Bhuinhari* identification was commenced in August as soon as the first Vandyke copies of the season's maps were received and has since been completed.

Cadastral survey: field work.

110. The control of cadastral survey in Ranchi was taken over by the Settlement Officer on the 15th October 1905.

The whole area of 1,618 square miles was divided into two camps, with six circles, in each. Each camp was in charge of a Covenanted Assistant Settlement Officer. The circles were in charge of Assistant Settlement Officers, all of whom, except three, were gazetted officers.

Assistant Settlement Officers in charge of circles were assisted by a Head Inspector, and had from five to seven Inspectors under them. The Inspectors supervised the work of the *halkas* or subdivisions of the circles. Each Inspector had about ten amins under him. The Assistant Settlement Officers were made responsible for the progress and the quality of the survey in their respective areas. In addition there was one central camp in charge of the Professional Adviser to the Settlement Officer. This officer advised on matters of survey, which were freely referred whenever difficulties arose.

During the first three months Assistant Settlement Officers were engaged chiefly on the supervision of survey. Their duties were (1) to distribute the staff of amins; (2) to distribute the sheets to be surveyed; (3) to supervise the Inspectors; (4) to run at least one *partal* line in every survey sheet or to repartal an Inspector's line in every sheet; (5) to pass the maps after final *partal*; (6) to decide boundary dispute cases; (7) to distribute personally the pay and earnings of amins and Inspectors. In case a map was found to be defective after final *partal*, the map and *partal* records were sent to the Professional Advisor who had powers to pass the map, or reject it and order a second survey.

It will be noted that whenever possible the Assistant Settlement Officer was made responsible. The amin had direct access to him in all matters. The effect of the distribution of sheets by Assistant Settlement Officers to amins direct was particularly remarkable early during the field season. When the amin found that, as soon as he had finished the survey of one sheet, he obtained another immediately, he gained an incentive to work, which had hitherto been lacking whenever the Inspector was entrusted with this duty. To this fact is to be attributed largely the comparative ease with which the survey of a large and difficult area was rapidly brought to a conclusion.

Partals.

111. The survey was tested by 4,635 linear miles of *partal*, which gives an incidence of 2·8 linear miles per square mile. Of the total *partal* 255 linear miles were done by Assistant Settlement Officers.

Average outturn of amins.

112. The average daily outturn of amins was 22 acres of survey, or 40 khanapuri numbers. The daily outturn is somewhat small, though considerably better than in previous years. It is due to the fact that most of the amins were new and inexperienced.

Survey work was also retarded by the defective traversing in the jungly and difficult areas situated in Kochdega, Kurdeg, Palkot and Raidih.

Preliminary record writing

113. Disputes were fairly numerous as in previous years. They related chiefly to possession, claims to *korkar*, and rights in trees. It was noticeable particularly in thanas Gumla and Basia, that the raiyats had combined and claimed to be in possession of lands of which they had been dispossessed many years previously by force or fraud. There was in consequence considerable difficulty in arriving at correct conclusions in several cases. In the more remote parts of the area, raiyats though they put in claims, frequently admitted that they had been dispossessed for periods varying in many cases from 10 to 20 years.

Assistant Settlement Officers tested the khanapuri of 4,699 fields and Head Inspectors and Inspectors tested 86,404 fields. The total number of entries tested was 91,103, which gives an incidence of 13·6 per cent. of the total number of plots. The percentage of check was sufficient.

The arrangement, distribution and management of the staff were the same as during the cadastral survey. Several of the Assistant Settlement Officers were quite new to the work, and their inspections were not very good at the commencement of the season, but improved as the work proceeded.

Internal disputes.

114. All the 17,852 internal disputes were decided during the field season.

Boundary disputes.

115. The number of boundary disputes instituted during the year amounted to 456. They were all decided with the exception of eight, which relate to disputes between the Jashpur State and adjoining villages of Ranchi. These disputes could not be taken up, as the necessary preliminary arrangements were not concluded with the Raja of Jashpur before the end of the field season.

Many of the disputes instituted were of a frivolous nature. One or other of the parties generally admitted dispossession for considerable periods, but when it was discovered that the Settlement Courts made possession the criterion, parties changed their statements when the cases came up for confirmation or in appeal. A number of the disputes had been the subject of title suits in former years; but, in some of these cases the Civil Court decisions were not vere helpful, as the boundaries given in the plaints were generally of an undefined nature, though, no doubt, they were perfectly understood at the time by the parties. In a jungly and hilly area both parties had no difficulty in pointing out two totally different sets of boundaries which each averred to be the one described in the decree. Even after a local enquiry, it was impossible sometimes to determine conclusively which was the boundary decreed. It is to be hoped that the Courts will in future consult the cadastral maps and insist that the parties define their claims, in terms of fields, whenever land is the subject of dispute.

* * * * * * *

Attestation.

117. Five officers were employed on attestation. The programme was completed towards the end of April with the exception of one camp, in which the work went on for two months longer. In almost every village, except those held direct by the Maharaja of Chota Nagpur, the rate of *rakumats* and the amount of *begari* renderable were subjects of dispute. In many cases it was found that rents had been privately enhanced contrary to the provisions of the local Tenancy Act. As to status, the most noteworthy feature in the return is again, as in previous years, the large number of non occupancy raiyats, which amounts to almost one-fourth of the number of occupancy raiyats, and to nearly 13 per cent. of the whole number of tenants. The chief cause of this large number is, undoubtedly, the fact that the law of the "settled raiyat" does not apply to Chota Nagpur. Other causes are forcible dispossession, and the unsettled character of the aboriginal raiyats. There is some reason to believe that formerly zamindars did not make any distinction between the non-occupancy and occupancy raiyats, as regards fixity of tenure. There is, however, no provision in the local Act analogous to section 183 of the Bengal Tenancy Act, safeguarding such customary rights. The local Civil Courts have consequently interpreted the provisions of the law with regard to non-occupancy holdings, as if they superseded all existing customs, and abolished such rights as were

not expressly mentioned in the law. The position of the non-occupancy raiyats is, therefore, very precarious. He is a mere tenant-at-will. He can only hope to acquire occupancy rights after twelve years' possession, and in the meantime may be ejected, at any moment, whether he pays his rent or not and however much he may have improved his holding. The Settlement Officer would extend the law of the settled raiyat to the whole of Chota Nagpur, and there would appear to be much force in his contention.

The average rate of rent per acre prevailing in the area attested is as follows:—

	Occupancy.	Non-occupancy.
	Rs. A. P.	Rs. A. P.
Thana Karra (portion) ...	1 0 3	2 9 3
Thana Basia (do.) ...	0 12 4	1 8 6
Thana Tarpa (do.) ...	0 15 3	1 14 1
Thana Bano	0 11 1	1 3 7
Thana Kolebira	0 10 11	1 2 1

The rate of rent payable by non-occupancy raiyats is very high in Karra, and comparatively high in the other thanas.

119. Computation and recovery of costs.

Computation was completed by the end of September. The total demand amounts to Rs. 1.61,000. The full demand for the first season's area was recovered. The total costs of survey and settlement operations for the whole area surveyed, which amounts to about 3,900 square miles, have now been calculated, as well as the total demand at present recovery rates. The total expenditure works out to 6 annas per acre. It has been found however that the total costs less the contributions by Government will not be recovered at the present acreage rates which are based on classification. It will be necessary therefore either to increase the acreage rates or to ask Government to contribute a larger percentage of the cost. A separate report will be submitted on this subject.

* * * * * * *

123. Cadastral survey and khanapuri.

The cost rate for all operations, including survey, khanapuri and recess work, was Rs. 89·5 per square mile. The cost rates for the two previous years, when the work was controlled by the professional Survey Department amounted to Rs. 82 1 and Rs. 93·2, respectively. In comparing the rates it is, however, necessary to consider that the cost rates for the year under report include expenditure on supervision of khanapuri by Assistant Settlement Officers. This item was of course not included in the Survey Department rates, as the supervision was always done by the agency of the Settlement Department, and the expenditure was consequently debited to it. The cost of this supervision during the year amounted to Rs. 17,082, or Rs. 10·5 per square mile. Deducting this, the cost rate works out at Rs. 79 per square mile.

According to the orders contained in the Board's letters Nos. 7881A., dated the 22nd December 1905, and No. 4143A., dated the 15th August 1906, the cost rates of the cadastral-khanapuri operations are shown in the subjoined table:—

As the contract rates of pay for both survey and khanapuri work and the pay of both Inspectors and Head Inspectors were considerably increased during the year under report, the result is satisfactory. The comparatively low rate is due—(1) to the fact that a large compact block of 1,618 square miles was surveyed, and the charges were consequently distributed over a larger area than in previous years; and (2) to the rapid completion of the programme, and the consequent decrease in the cost of the charges under the heads of Supervision and Control.

The average size of a field was 1·5 acres. Free labour was supplied by the villagers as heretofore.

PORAHAT ESTATE IN SINGHBHUM.

Area—6269 square miles.

Number of villages 678

Reasons for the present operation and notifications

124. The survey and settlement operations in the Porahat Estate were completed in July 1903. The settlement was carried out under Act I (B.C.) of 1879, which contained no provision for the preparation of a legal record-of-rights. The Raja took strong objection to several entries in the records as prepared, and his action appeared to threaten the rights of the *pradhans* and headmen of the villages of the estate. The question of the rights of the villagers in the forests of the estate was also raised. The Commissioner of the Chota Nagpur Division accordingly recommended the preparation of a valid record of the rights of the different classes of tenants under Chapter X of the Bengal Tenancy Act which had meanwhile been extended to the district. The present operations were accordingly ordered under section 101 (1) of that Act in respect of the estate and its allied tenures of Anandpur, Kera, Bandgaon and Chainpur, and in certain villages belonging to the Chief of the Kharsawan State, in Notifications No. 3282L.R., dated the 30th November 1905, and No. 265T.—R., dated the 30th April 1906.

Number of villages 917

Programme.

128. The programme for the year consisted of the attestation and draft publication of 917 villages covering an area of 594 square miles and the disposal of objections under section 103A. It was completed by the end of the field season.

* * * * * * *

Work done.

130. Attestation presented little or no difficulty. Rent disputes were few. A small number only of the internal disputes decided at the khanapuri time was revived, and the number of new disputes was not large. Two important matters decided during attestation were the disputes relating to produce rents and to the right of the raiyats to trees in the Dugni and Bangsai *purs* and the claims of the inhabitants of the Kolhanpir of Kharsawan to be recorded as Mundari *khuntkattidars* under the terms of Act I of 1879. With the approval of the Commissioner, it was decided to record the latter as *khuntkattidars* (clearers of the soil) with special privileges as regards jungle rights. It was held that they were not Mundari *khuntkattidars* within the meaning of the Act. The Settlement Officer corrected his own maps at attestation. Special attention was given to the draft publication of the records, and the work was carefully and intelligently carried out. The check of the records was completed during recess, and copying and comparison were begun. Proposals for the settlement of fair rents were submitted and approved by the Commissioner during the year.

The two important boundary dispute cases, which were pending from the previous year and for the decision of which the Settlement Officer was appointed Special Commissioner, were decided, and the Settlement Officer's decision confirmed by Government.

MAINTENANCE OF LAND RECORDS

Experimental Revisional Settlement in Balasore.

131. For the purpose of arriving at a suitable and practical scheme for the maintenance of settlement records, an experimental revision settlement was undertaken, on the lines suggested by Mr. H. Savage, C.S.I., in respect of 122 villages situated in the Sadar thana of the district of Balasore.

The experimental operations were started in the cold weather of 1904-05 and completed in June 1906. The area taken up comprised 45·61 square miles distributed over 14 chaukidari unions.

Field work was done in the cold weather of 1904-05 by the presidents of the chaukidari unions under the supervision of a kanungo. The president of each union was furnished at first with abbreviated and subsequently with full copies of the khatians of the last settlement, together with copies of the khasra. He was required to travel map in hand, from plot to plot in each village, and to record in a rough register all changes in possession of plots and of tenancies, as well as the numbers of the plots which required remeasurement. The kanungo checked over 10 per cent. of the mutations recorded by the president, and remeasured all plots in respect of which alteration of the maps was required. During the recess the khatians of the last settlement were corrected in red ink, dispute lists written up, and the records prepared for attestation in the following cold weather. In view of the proposals for a general revision of the record-of-rights in Orissa, it was decided to confine the attestation work to an area containing 65,854 plots and 23,833 khatians. The work was carried out by Babu Hari Misra, kanungo, under the supervision of the Collector.

The number of disputes raised amounted to 3,342, including 921 rent disputes, of which 628 were decided according to the agreement of the parties.

Though it was at first intended to attest only the khatians in which alterations had occurred, it was subsequently found necessary in practice to attest all the khatians, the result being that a large number of mistakes not noticed by the presidents or the kanungo during the initial revision was detected, and all changes that had taken place since the preceding field season were brought to light.

Rents were altered on account of alterations in area, in 84 villages according to the agreement of the landlords and tenants. The result in these cases was an increase of area amounting to 5 per cent. on the average, and an increase of rent amounting to 11 per cent. This clearly indicates the necessity of giving the mutation officer power to scrutinise compromises regarding increase of rent. As these proceedings were purely experimental, they had no legal validity, but where the Attestation Officer began under my instructions to enquire into the fairness of compromises, they at once ceased to be put forward, and the existing rents were consequently retained. They will be revised where necessary in the course of the general revision operations.

As a result of these experimental proceedings, it was found that the number of plots and khatians in the villages attested had increased from 59,335 and 20,063 to 65,854 and 23,833, *i.e.*, by 11 and 19 per cent., respectively. Since the last settlement, which took place 10 years previously, no less than 40,794 plots and 15,214 khatians, or 69 and 76 per cent., respectively, had undergone some change.

Changes in 31·83 per cent. of the plots and 29·27 per cent. of the khatians were due to succession, 7·71 and 8·17 per cent., respectively, to sales, and 3·19 and 2·10 per cent., respectively, to partition. 16 per cent. of the changes were due to modifications in the maps of the last settlement. Generally speaking the work done by the presidents in preparing the record of initial mutations was good so far as it went, but sufficient allowance had not been made for the difficulty and trouble of incorporating the changes in the khatians for attestation. It has therefore been decided to have the general revision of the records

in Orissa done by a paid staff under the control of the Settlement Officer For subsequent annual maintenance, when the changes will be less numerous there is ground for hope that a local agency under capable supervision will be found sufficient. It has been arranged to train such a staff in the course of the initial revision.

A scheme for the revision of the records in Orissa preparatory to annual maintenance was submitted to the Government of India with the Bengal Government's letter No. 258T.—R., dated 28th April 1906, and was sanctioned in the Government of India's No. 1487—112-6, dated the 30th August 1906.

It is proposed to deal with the Sadar sub-division of the Balasore district during the present field season.

The results of the working of the Mutation Offices.

133. The returns of the mutation offices established at Bettia, Hajipur and Mahnar under the Land Records Maintenance Act, VII of 1895, show a slight decline in the number of mutations recorded in these offices, only 2,950 mutations having been registered as compared with 3,015 in the previous year. The amount realised in fees was Rs. 319 as against Rs. 385 in the previous year. The opinion expressed in previous years that the Act is a failure, so far as maintenance of the record is concerned, is thus again confirmed. It will no doubt be repealed when a proper system of maintenance is evolved as a result of the Orissa experiment.

Maintenance of land records and inspection of rent-rolls in Government and Wards' estates.

134. The figures given in Appendices VII to X indicate the results attained with regard to the record of mutations and inspection of rent-rolls in Government and Wards' estates for which a survey and record-of-rights have been completed. According to the standard laid down in the Board's Circular No. 11 of April 1903, the number of mutations recorded annually should not fall below 8 per cent. of the total number of tenancies in an estate. So far as Government estates are concerned, the standard was attained in four districts only. It was approached in two more, and in the remainder the number of mutations recorded was only 4 per cent., or less of the total number of tenancies. Taking the Government estates as a whole, the percentage attained is only 4·07 per cent. as compared with 4·35 per cent. in the previous year and 7·11 per cent. in 1903-04.

UTILIZATION OF LAND RECORDS.

135. The extracts from the Land Revenue Administration Reports for the year 1905-06, which have been received from the District Officers, show that in all the districts, of which the whole or considerable portions have been surveyed and settled, the records-of-rights were freely referred to in criminal and revenue work. The Subdivisional Officer of Begusarai says that the number of land and rent disputes has greatly diminished in consequence of the settlement, and that the serious riots which formerly occurred are now rare. The Deputy Commissioner of Ranchi reports that probably not a single criminal case relating to land in the Sadar and Khunti subdivisions was determined without a reference to the settlement papers. The Joint-Magistrate of Ranchi invariably, on receipt of a complaint, calls for the settlement papers, and it is said that the information obtained from them is always sufficient to show whether the case is true or groundless. The result is that practically all the persons on whom processes were issued were ultimately convicted. There were very few cases in Ranchi in which Criminal or Revenue Courts disagreed with the finding of the Settlement Department. The presumption of correctness attaching to the records appears to have been generally understood by the Magistrates and the Police. In land disputes the records were found very useful, and copies of them were often produced by the parties of their own motion. In all districts the records appear to have been utilized wherever possible in the various branches of the Collectorate work, *e.g.*, in Partition, Land Acquisition, Cess Revaluation, Land Registration, and Certificate cases and in granting loans and advances, and in

the management of Government and Wards' estates. In some districts they were found useful in commutation cases under section 40, and in granting certificates under section 84 of the Bengal Tenancy Act as well as in ascertaining chaukidari-chakran lands, and in tracing out encroachments on public and Government lands.

136. The areas shown in the records or in the statistics based on the records were utilized in estimating the normal standard areas under the various kinds of crops and in making forecasts of outturns of crops. In some districts the cadastral maps are used by the Police in preparing sketches of the scenes of crime, but there appears to be room for a more extended use of the maps in this direction, more especially in criminal cases arising out of land disputes.

137. The reports show that in respect of all settled areas the description of lands by their survey plot numbers was generally insisted upon in the registration offices. The Collector of Bhagalpur observes that it would be an improvement if rules were prescribed making it compulsory to describe lands in settled areas by their survey plot numbers in all civil suits. He mentions a case in which a Criminal Court was called upon to decide from the judgment and decree of a Civil Court delivering possession of certain land, what land was referred to. The difficulty of identifying land from the decisions of the Courts is a common experience. The suggestion that wherever possible the Courts and parties should be required to describe the lands with which they are dealing by their survey plot numbers is therefore worthy of consideration.

MAINTENANCE OF BOUNDARY MARKS.

138. Under Government order No. 518T.—R., dated the 5th May 1904, the application of the rules for the maintenance of boundary marks to districts which have been surveyed and settled, and in respect of which schemes for the maintenance of settlement records have been submitted to the Government of India, have been kept in abeyance, pending receipt of orders on those schemes. Sanction having been received to the scheme for the revision of the records in Orissa, arrangements have been made to carry out the verification of the position of the boundary marks and the compilation of the necessary registers during the revision operations.

139. Instructions for the preparation of boundary mark maps were finally approved in the Board's letter No. 731A., dated the 2nd February 1906. These maps have been supplied by the Survey Department for the areas under attestation this season, and the procedure prescribed by Part I of Appendix T of the Survey and Settlement Manual is being carried out. Similar maps have also been prepared for all the thanas in the districts of Balasore, Puri, Cuttack, Muzaffarpur, Champaran and Saran, and those for the three thanas in North Monghyr and six thanas in North Bhagalpur are under preparation in the Bengal Drawing Office. Arrangements are also being made for the preparation of maps for all the thanas in Darbhanga and for the areas in Purnea attested during 1904—1906. Trijunction-mark maps of all the thanas in the Political States of Seraikella and Kharsawan have been prepared and supplied to the Settlement Officer, and those for nine thanas in Ranchi are under preparation. A simple procedure for the verification of the trijunction cairns in Ranchi and the two States of Seraikella and Kharsawan has been sanctioned by the Board and will shortly be carried out. As regards the Damin-i-Koh estate in the Sonthal Parganas, Government has sanctioned Rs. 400 for preliminary enquiries in connection with the verification of boundary marks and the preparation of maps and registers.

140. In the Burdwan Division 324 permanent boundary marks are reported to exist in the Government estates; 29 of them are damaged. An inspection was made of 1,167 pillars in the zamindari estates surveyed in the division; 267 of them are reported to be damaged or missing and 46 have been restored. The boundary pillars in the Burdwan Raj estate in the districts of Birbhum, Midnapore and Burdwan are looked after by the officers of the Raj and are reported to be in a fair state of repair. In Midnapore the Government estates and Nayagram Wards' estate are under settlement, and arrangements for the maintenance of the boundary marks in those estates are being made.

141. In the Presidency Division there exist 2,705 permanent marks in 172 Government estates surveyed under the Survey Act, or the Bengal Tenancy Act; 2,287 of them were inspected during the year under review; 1,900 were found to be in fair order; 387 were damaged or missing and 29 were restored at a cost of Rs. 90. The number of boundary marks in the zamindari estates surveyed in this division is 93; 13 of them were found to be damaged or missing and 12 of the damaged stones were restored. In the 24-Parganas the maintenance of boundary marks in the Government estates is satisfactory. The marks, which are in the custody of the chaukidars, are regularly inspected by the Subdivisional Officers, the Sub-Deputy Collectors, the kanungos and tahsildars, and steps are taken to re-erect the marks found to be displaced or missing.

142. There are 2,548 boundary marks in 117 Government estates in the Patna Division; 1,798 of them were found in good order and 45 were damaged or missing; 12 of the damaged or missing stones were restored. In the zamindari estates 1,804 boundary marks were found to be in good order and 248 damaged or missing. In Saran the marks in 35 Government estates were inspected by the tahsildars and kanungos, and most of them were found to be in fair order. A sum of Rs. 1,005 was spent during the year for the purchase and erection of 1,261 stones for Government estates in the district of Gaya. In Patna there was one prosecution for removing one pillar. The accused was, on conviction, sentenced to 2 months' imprisonment.

143. In the Kalimpong Government estates in Darjeeling there are 100 boundary pillars in 49 estates; out of these, 20 were inspected during the year, 18 of which were found to be in fair order and 2 damaged by landslips. The damaged pillars were restored by free labour. Although there was no regular inspection in the Sonthal Parganas, the boundary marks are generally properly maintained. In Government and Court of Wards' estates the kanungos and managers look after them when on tour and the Sub-divisional Officers also inspect them. Some boundary pillars in Government estates requiring repairs were repaired during the year under report.

144. In the Orissa Division there are 2,340 boundary marks in the Angul Government estates, of which 989 were inspected during the year, 548 marks were found in fair order and 441 damaged or missing; 293 marks were restored at a cost of Rs. 500 met out of the allotment of Rs. 1,500 sanctioned by Government in letter No. 17P., dated 8th January 1906. In the Banki Government estate in Cuttack there are 1,872 boundary marks. All of them were found on inspection to be in fair order. In Sambalpur the boundary marks are in fairly good condition, except some on river banks that are liable to be washed away. They are repaired annually by the village tenants under the supervision of mukaddams under section 141 (*d*), Central Provinces Land Revenue Act.

145. There exist 21,488 boundary pillars in the Government estates of the Chota Nagpur Division; of these, 6,882 are reported to be in fair order, 6,244 in a damaged condition and 381 are missing. There is no dafadari system in Palamau. Boundary marks in the two Government estates in it are regularly inspected by the maintenance peshkars, and damaged and missing marks are restored.

General Summary.—Rain was more or less general throughout the Province. The fall was moderately heavy in Lower Bengal and in Champaran, Darjeeling, the Sonthal Parganas, Sambalpur and Cooch Behar. In parts of Lower Bengal it is reported that the rain which has fallen has been beneficial for the preparation of the land for the next season's crops; but in most of the Bihar districts the *rabi* crops, which have been or are being harvested, have suffered to some extent from this rain. In Darbhanga the number of persons on gratuitous relief is 11,277, on test-works 1,437 and on famine-relief works 15,247. Cattle-disease is reported only from seven districts. There are no complaints of insufficiency of fodder or water. The price of common rice has risen in six districts and has remained stationary in the rest of the Province. No fall in prices has been reported.

SUMMARY OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL AND IN EASTERN BENGAL AND ASSAM FOR THE MONTH OF FEBRUARY 1907.

THE meteorological history of the month is practically a history of a series of depressions or cold-weather storms that after forming usually in Persia or passing through that area disturbed the weather and caused a general excess in rainfall over the greater part of the reporting area. The first of them, which formed in the United Provinces on January 30, passed through North-East India and disappeared on the 3rd, after giving rise to precipitation over the greater part of the two Provinces. On the 1st and 2nd another depression formed in Arabia, and establishing low-pressure conditions in North-East India about the 5th gave moderate rain in Bihar, Chota Nagpur and Orissa. It disappeared on the 7th. This was followed almost immediately by another which entered North-East India about the 12th, and gave scattered rainfall during the next few days, the most important fall being 1 inch at False Point, which occurred during a thunderstorm. It disappeared in Assam on the 14th. The next depression was of a very diffused character by the time it reached North-East India, being hardly discernible as a depression. In spite of its diffused character, however, it was even more active than its predecessors, and gave fairly general rain in Chota Nagpur, South Bihar and North Bengal on the 20th.

During the remainder of the month one more depression occurred of a character similar to the first two, which gave some precipitation as soon as it reached North-East India in parts of Bengal and of Eastern Bengal and Assam. Cherapoonjee reported a fall of nearly four inches on the 27th and Narayanganj a fall of one and-a-half inches on the same date.

Summary of Temperature.—The average mean temperature of the month was below the normal mean of the month in Bihar, Orissa, Chota Nagpur and Assam, and above the normal mean in Eastern Bengal and Bengal. Excess in temperature was as usual associated with defect in rainfall. The highest temperature recorded during the month was 93·4° at Cuttack and the lowest 41·9° at Dinajpur.

The following table gives the summary of the temperature of each of the seven meteorological divisions of the Provinces of Bengal and of Eastern Bengal and Assam for the month of February 1907:—

METEOROLOGICAL DIVISION.	TEMPERATURE.

* Purulia not included.

Summary of Rainfall.—The rainfall work of the Province has been placed in the hands of the Director of Agriculture, Bengal, and the usual data regarding the actual and normal rainfall during the month are published by that officer. A short table, however, is attached to this report, giving the rainfall recorded during the month at the head-quarters of the various districts of the Province. February may be regarded as rather a wet month in the Province of Bengal, the percentage departure from normal being + 37. In Eastern Bengal and Assam it reached + 4 only.

Actual and average rainfall and departure from normal for February 1907.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

⛅, dew; o, overcast; g, dark, gloomy; t, thunder; <, lightning; K, thunderstorm; d, drizzling rain; p, passing temporary showers; ▲, hail.
